whole lives; hence their frequent political as well as fashionable changes, and hence also their constant proneness to be discontented with "things as they are." These striking characteristics are evidently inherited to the full by their Canadian descendants; whom neither the blessings of a far more liberal and indulgent government than they could ever have enjoyed under Gallic dominion, nor the possession of a country replete with every capability for producing the enjoyments and riches of mortal life, can render contented and happy, or preserve in peace and order. And what do they contemplate as the result of their seditious turbulence? Our contemporary of the "*Acadian Recorder*," arguing from the unquestionable fact, that a change of rulers could produce no political benefit to these revolutionary demagogues, contends that therefore they do not aim at it, that they do not desire to overturn the existing institutions of their country, to embroil themselves and their fellow colonists in a contest with their truly paternal government, or to excite anarchy and confusion in their already disturbed and distracted province. But we differ from him "*toto cœlo*" on this point. Do traitors and rebels always propose to themselves simply their country's good when they recklessly embark in violence and sedition; or have they not, rather, more frequently a selfish eye to their own private advantage or aggrandizement by means of the general disturbance and despoliation? The ambitious desire of popular distinction, the proud craving after power and influence, the insatiable thirst for personal gain are too often the secret but sole and powerful incentives in the breasts of factious demagogues and discontented knaves; and who shall decide how much some or all of these ruling passions are or are not the stimulants to all the Canadian disturbances?—One fact at least is self-evident, and it is confessed by the loyal and moderate among themselves; that coercive measures are absolutely necessary for the suppression of these lawless agitators. Unfortunately, the population of original British descent is by far too small in proportion in the Canadas, to effect the return of order and security by force of public opinion or party energy; and it is therefore absolutely necessary, as it is now high time, for the British government to interpose the full power of her authority, for the security of her peaceable and the punishment and suppression of her disaffected population in Lower Canada. Nothing but a prompt lesson of judgment and severity will teach those furious demagogues to curb the licence of their lawless tongues and hands; and it is become almost indispensable, for the preservation of her own self-respect and authority, that the parent government should arouse to the exertion of those irresistible powers which have slept till their puny contemners had almost fancied them for ever annihilated. We are thoroughly convinced that the loyal and peaceable in all the transatlantic territories of the British crown would rejoice to see the insolent and the rebellious among them effectually silenced.

The results of our domestic Elections, so far as known, will be found in another place. Our time and space prevent any comment upon them at present; our attention having been especially demanded by the important matters already adverted to. In three weeks from this day our Legislators will be called upon to commence the exercise of their individual and collective wisdom. We shall watch them narrowly; and while we shall from time to time review their proceedings "*sans peur*," we hope we shall also always be found to do so "*sans reproche*."

☞ The Freemen of the City will bear in mind that *this* is the week for entering their names to secure a draft in the Fishery.

CHRISTMAS CHARITIES.—The following amounts were collected on Christmas Day for the benefit of the Poor:—

THE ELECTIONS.

KING'S COUNTY.—The Poll closed at Kingston on Tuesday afternoon. Mr. M'Leod had 783 votes—Mr. Freeze 596—Mr. Earle 579—Mr. Vail 545.—The two former Gentlemen were declared to be duly elected. Mr. Earle, however, demanded a scrutiny of the votes given to Mr. Freeze.

CHARLOTTE.—The Poll closed at Saint Andrews on Monday the 22d instant.—Mr. Wyer, 1280; Clinch, 972; Brown, 971; Hill, 857; Ralt, 636.—Thomas Wyer, Patrick Clinch, James Brown, jun. and George S. Hill, Esquires, were declared to be duly elected.—It is stated that the votes polled for Mr. Wyer, exceed by nearly 400, those given to any candidate at any previous election *in the Province*.

YORK.—The Poll closed at Fredericton on Wednesday last, by the return of L. A. Wilmot, John Allen, James Taylor, jun. and Jedediah Slason, Esquires. The votes were as follow:—Wilmot, 1015; Allen, 984; Taylor, 865; Slason, 840; Pickard, 349; Fisher, 221; Hartt, 197; Smith, 107.

CARLETON.—State of the Poll on Saturday evening, 20th instant:—Connel, 375; Morehouse, 185; English, 189; Raymond, 101; Demill, 71; Beardsley, 17.

MIRAMICHI, Dec. 23.—*Northumberland Election.*—We had scarcely despatched our paper last week, when we obtained intelligence that Mr Horan, after obtaining 8 votes, had ceased to be a *Candidate for Legislative honors*, and that our former members—Messrs. Rankin and Street,—were declared by the Sheriff, duly elected.—*Gleaner.*

The returns are now complete from all the Counties except Westmorland and Carleton.

MIRAMICHI SCHOOL.—The English and African Schools in this City, passed a highly satisfactory examination on Tuesday morning, before His Honor the Chief Justice and other Members of the Corporation of "The Governor and Trustees of the Madras School in New-Brunswick." We only regretted to find so few ladies and gentlemen present on this most interesting occasion. There are usually between four and five hundred children in attendance at these Schools, and most of them are educated without expense to their relatives: the plan of instruction is admirable. We should be glad to hear of a Legislative grant of a thousand a year for the encouragement of these and similar schools which have been established by the Governor and Trustees in various parts of the Province.—A number of Medals and other premiums were awarded, at the close of the examination, to the most meritorious.—*City Gazette.*

FLOUR INSPECTORS.—Messrs. Charles Davies, John Berryman, William Rockwood, and Edward Lake, have been appointed by the Common Council, Inspectors of Wheat and Rye Flour, Indian and Buckwheat Meal in this City, under a Law passed by the Corporation on the 28th ult. and which goes into operation on the 1st January—(Thursday next.)—*Courier.*

FIRE.—Two dwelling houses in Mill-street, facing the Mill Pond, and a workship in the rear of one of them, occupied by a Mr. O'Brien, wheelwright, were destroyed by fire at an early hour on Thursday morning last. It is said to have originated from the carelessness of a man, who, on going to bed, placed his clothes near a stove in which he had kindled a fire. The clothes becoming ignited communicated to the floor, and the house was soon in flames: his wife providentially awoke in time to give the alarm, and save the lives of the inmates.—One of the houses, which was owned by his Honor the Chief Justice, was insured for £130, Stg.—the other was owned by a Mr. Roberts, and was not insured. They were occupied by several poor families, whose misfortune, at this inclement season of the year, deserves commiseration. Mr. O'Brien, we understand, is a loser to a considerable amount.—*Ib.*

Weather.—On Wednesday evening last, for the space of about two hours, the thermometer remained stationary at 26 degrees below zero.—*Miramichi Gleaner, Dec. 23.*

Fire at Calais, Maine.—The office of the St. Croix Courier was destroyed by Fire on the afternoon of the 19th instant. Loss estimated at fifteen hundred dollars.—No insurance.—*Eastport Democrat.*

Temperance Delegation to Great Britain.—At a meeting of the Executive Committee of the American Temperance Society, holden in Boston, December 8th, 1834, it was

Voted, That the Rev. John Codman, D. D., of Dorchester, Massachusetts, and the Rev. Heman Humphrey, D. D., President of Amherst College, Amherst, Massachusetts, be, and they hereby are, appointed delegates to represent the American Temperance Society at the annual meeting of the British and Foreign Temperance Society, to be holden in London in May, 1835, and at all other meetings of Temperance Societies and Friends of Temperance which they may be permitted to attend, during their absence from the United States.

The Bahamas.—By the schr. Anna, Russell, at this port on Saturday from Nassau, the editors of the American have received files of the Bahama Argus to the 3d inst. The House of Assembly met on the 27th ult. The "apprentice" system appears to work better in this than in any of the British West India Islands. The Governor in his address to the Assembly, says:—

"The accounts which I continue to receive from the out Islands, are not unsatisfactory, and I have a daily increasing confidence that with the blessing of Divine Providence, the abolition of Slavery will be attended with the highest colonial prosperity."

Gov. Balfour was about to retire from office, and would be succeeded by Lieut. Col. Colbroke.—*Baltimore American.*

The venerable Society for Promoting Christian Knowledge, at a late monthly meeting, voted £1000 towards supplying the negro population in the West India Islands with copies of the Liturgy of the Church of England.

We believe, says the London Record, it is not generally known that every new Speaker of the House of Commons, on his accession to office, is presented with a magnificent Bible, which has generally been considered in the family of each Speaker as a sacred relic. This is one of the circumstances that reminds us of the piety of our ancestors.

It is not generally known that the inscription of *initials* on the *covers of Newspapers*, as well as any mark or cross intended to convey any information whatever, subjects them to a postage, per weight, fifteen times the amount of a letter.

THE COLONIAL OFFICE.—A Montreal Paper says:—It appears that the Colonial Office system of patronage is continued with little alteration under Mr. Rice. To us change of Colonial Minister brings no good; Liberal or Tory, as far as these Provinces are concerned, it is all the same. The Colonies are to continue places of refuge for the hangers-on at home: poor aristocrats, their younger sons, or their dependents and dependents' children."

Yankee Notions.—The Brig Apthorp, which cleared yesterday morning for Calenitta, has an assorted cargo, consisting of ice, apples, cranberries, butter, cheese, sweetmeats, walnuts, &c.—*Boston Transcript.*

☞ WARRANTS up to No. 141—*(New Series)* are in course of payment at the Province Treasurer's Office.

MARRIED.

On the 13th instant, by the Rev. Dr. Gray, Mr. Samuel Wigmore, to Ellen, relict of the late Richard Smith, Esquire, of Bocteuche.

On the 16th instant, by the same, Mr. Bernard Pickance, of Manchester, England, to Miss Sarah Delow, of French Village.

At Miramichi, on the fifth inst. by the Rev. R. Bacon, Rector of St Paul's, Charles Augustus Harding, Esq., Barrister at Law, to Margaret, eldest daughter of Theophilus Desbrisay, Esq., late Naval Officer of that Port.

DIED,

On Friday morning last, Mr. Matthew Partelow, aged 87 years, one of the earliest settlers of this city.

At Carleton, on Monday evening 22d instant, after a short but severe illness, which she bore with exemplary fortitude, Miss Ann M'Dougall, in the 20th year of her age, eldest daughter of Mr. William M'Dougall, formerly of Nova-Scotia.

On Thursday the 11th instant, Catherine Leonard, infant daughter of John Dow, Esquire, of Maugerville. There is something in the manner of this child's death very distressing. On the preceding Saturday, she and her little sister, after playfully washing their faces in the snow, ran into the house to warm themselves. Their mother was in the room adjoining them—their father at the outer door. Almost instantly the clothes of the deceased caught fire. Her sister, in her endeavours to put them out, caught fire also; but ran screaming to her mother, who promptly saved her. But before the mother could reach little Catherine and extinguish the flames which she did at the risk of her own life, the poor little sufferer was so seriously injured, that, though medical assistance was speedily obtained, no hopes of her surviving could be given.

Commercial Bank of New-Brunswick,

23d DECEMBER, 1834.

PUBLIC NOTICE

IS hereby given, that an Instalment of Forty-Five per cent. is required of the Stockholders, to be paid in on or before the 15th day of April next. It being the intention of the Directors, owing to the very heavy pressure in the Money Market, to commence Discounting as soon as the above Instalment is paid in, it is requested that the Stockholders will not be later than the time specified, as they must be aware that the business of the Bank cannot commence until the above Instalment is paid in. Should any of the Stockholders be disposed to pay a further Sum on account of their Stock, they will be allowed Interest for the same at Six Per Cent. per annum, for a period not exceeding a year, or until there is another Instalment called for,—provided that the whole amount that may be offered does not exceed £25,000. Should the applications exceed that Sum, the *first* will have a preference. The Interest to commence on the first day of March next.
