CATARRHAL DEAFNESS.

A New Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated, whereby Catarrh, Catarrhal Deafness and Hay Fever are cured in from one to three simple applications made at home. A pamphlet, explaining this new treatment, is sent free on receipt of stamp, by

BITS OF TINSEL.

MISS HASKLINS and her dearest friend have had a tiff, and the air is getting a little hurd. "No matter what you say as to my personal appearance, good judges often speak of my startling resemblance to Marie Antoinette, so there." "Yes, you do resemble her wonderfully, that is, at the somewhat late period of her—I can't say life—when she lost her head.—*Tid-Bits.*

THERE is nothing consolatory for the patient suffering from a severe cold in the head to be told that "colds attack the weakest spot." *Salem News.*

DE woman what makes a good loaf ob bread, or a puddin', am a heap better den de one who makes a tart reply.—*Texas Siftings.*

"I AM just as much opposed to tippling as anybody," said Fenderson, "but, nevertheless, liquor rightly used is a blessing to humanity. When I was ill last winter, I actually believe it saved my life." *Fogg.*—Very likely, but how does that prove it a blessing to humanity? *Indianapolis Organizer.*

"WHAT a lovely cow, Uncle James," exclaimed a Boston girl, the morning after her arrival, "and how comically she shakes her head." "Yes, but don't go near that cow," cautioned her uncle, "he's an ugly critter."
