MAYORALTY QUARTET AGAIN.

The Situation Appears Like Last Year's—E. A. Macdonald for Ward 6, and Others in January.

Already small upheavals of dust betoken the approach of the coming January municipal battle. The Mayoralty situation is about as it was this time last year. Mayor Shaw is in the field against all comers, and so far the only other certainty seems to be E. A. Macdonald. Mr. Macdonald will use the vacancy in Ward 6 as a stepping-stone. He says he will try to represent the Ward for the balance of the year if "Jim" Gowanlock doesn't run. Ald. McMurrich is a probability and ex-Ald. Preston is a possibility, but those who know believe it is remote. So it is last year's anticipated quartet over again.

For alderman, ex-Ald. Russell and Allen are said to be out once more in No. 1 Ward, while Stephen W. Burns will leave the arena of school and take a try at civic politics in Ward 4.

Mr. Fleming's Latest Bargain.

Assessment Commissioner Fleming has effected an agreement whereby the Toronto Carpet Company is to be retained in Toronto. The negotiations almost concluded have led to an engagement by the Company to put up a new $40,000 factory at the corner of King-street and Fraser-avenue. They are to have a fixed assesment for the next ten years of $10,000 on the land and $35,000 upon the machinery for school tax purposes. They are to employ 150 hands continuously and have applied to the Engineer for a 300 foot water main on Fraser-avenue for fire-protection purposes. The property has a frontage on King-street of 158 feet and on Fraser-avenue of 325 feet.

What Means This?

An agent of the Walter L. Main circus has written requesting the city to carry out an alleged agreement between himself on the one part and the Mayor and one alderman on the other, whereby the Company was to get a rebate of 50 per cent of the $500 license fee charged for showing here. The money has not been refunded and the agent claims his salary is being withheld by the management until it is.

At Last.

The City Engineer's Department has at last issued the order for the paving of the King-street track allowance between Simcoe-street and Spadina-avenue.

At the New City Hall.

City Engineer Rust has commenced work on the circular roadway in front of the new City Hall. The architect will invite tenders for the granolithic sidewalks, and as soon as they are laid Park Commissioner Chambers will grade and sod the grounds.

Loopline to Relieve Congestion.

Manager Keating, in explaining the necessity for a new curve at the north-east corner of Queen and Yonge-streets, makes public a scheme contemplated by the Street Railway Company to relieve congestion at King and Yonge-streets. The purpose is to have Yonge-street cars run up Church to Queen, thence back to Yonge and up Yonge, forming a loop.

CATTO'S PRETTY STORE.

What The World Saw on a Casual Visit to This Premier Store.

"If every store window on King-street was as artistically decorated as these," remarked a leading business man, pointing to the exquisite display in the fine windows of John Catto & Son, "King-street would be as attractive as any in Paris." It was no fountain with swimming gold fish or a churn at play, but the harmonious and original arrangement of mantles, silks and dress goods that caught the eye and then drew one irresistibly within.

Imported Goods.

The beautiful goods which this famous house is noted for buying up in the markets of England, France, Germany and New York lay all around one. There were delicate silks of every shade and color, dress and kid goods, household napery, cretons and flannels that would rivet a woman's attention for a month, but there were three other floors above, each brimful of pretty things and crowded with visitors.

A Magnificent Display.

Women with the oft repeated exclamation of, "How lovely!" hung round the magnificent display of mantles and opera wraps, beautifully braided and trimmed with a rich fur, particularly becoming to the white shoulders of Canadian women. The handsome stock of jackets in navy blue, fawn and black were exceedingly admired, but the centre of attraction on this floor was the dainty and rich assortment of hats and bonnets. One had to shout to be heard here.

Stylish Hats and Trimmings.

Stylish women, attended by their maids, breathlessly picked up some dreamlike creation of a velvet hat, with ox-blood trimmings or some dainty little toque in dull green, and placing it upon her head with the same glee that Queen Wilhelmina of Holland donned her crown received the hommage of delighted friends.

Wings and feathers will be worn this year more than ever and, judging from the assortment at Catto's, no two women in Toronto need be feathered alike. The upper storeys are given up to dress fittings. It wasn't necessary to go up there. Its results are seen in the street costumes, which have helped to make Toronto women the admiration of the world.

A SLICK THIEF.

Got Away With Sparklers to the Value of $11,000.

Buffalo, Sept. 13.—Over $11,000 worth of jewelry, mostly in diamonds, was stolen from T. & E. Dickinson's store, on Main-street, yesterday afternoon by a professional thief.

A well-dressed young man entered the store and sat down beside the showcase containing the diamonds, pulled out a newspaper and coolly began to read, remarking to the clerk in charge that he expected his sister to meet him at the store for the purpose of making some purchases. While the attention of the clerk was drawn in another direction for a minute, the thief secured the diamonds and quickly disappeared, leaving not the slightest clue behind.

Entirely Without Foundation.

Amsterdam, Sept. 13.—It was semi-officially announced to-day that the report of the attempted assassination of Queen Wilhelmina and the shooting of Countess Limburg-Stirum was entirely without foundation.

FIVE HUNDRED KILLED AT CANDIA.

That is the Latest Report — Two Thousand British Troops Are There—Bashi Bazouks Must Go.

Candia, Crete, Sept. 13.—Reinforcements continue to arrive and there are now 2000 British troops here, besides the international squadron of ten warships. The Mussulmans were in such terror when the salutes were fired in honor of the British admiral upon his arrival that they rushed frantically into the streets utering cries of despair, thinking the town was again being bombarded. The town has been quiet for several days. The victims of the recent massacre are found to number 500.

The correspondent telegraphs it has been definitely decided by the Government to insist upon the immediate recall of the Bashi-Bazouks from Crete, even if England has to act independently. The consent of the Sultan will be asked as a matter of form, but the Bashi-Bazouks will be expelled by force, if necessary.

This Man Says 600.

London, Sept. 13.—The correspondent of The Times at Candia, Island of Crete, who has just landed after five days in the roadstead, says: "About 600 men, women and children were either burned alive or massacred in the outbreak last week. The Turkish troops are now patrolling and blocking up the streets. The Mussulmans are ransacking the ruins of the burned quarter of the town, where the devastation is complete. Blood is visible everywhere. Such bodies of the slain as were not burned were removed yesterday in carts and buried outside the town limits."

NATURE IN NICARAGUA.

An Interesting Talk With Barrister Waldron, Toronto, Lately Returned From Central America.

Mr. Gordon Waldron of the legal firm of Waldron & Hodges, barristers, Bank of Quebec Building, returned yesterday morning from Bluefields, Nicaragua, where he has been observing the planting of a rubber plantation for a Toronto company.

Mr. Waldron was seen yesterday afternoon by The World, and gave an interesting account of his stay in a tropical clime.

"Were you successful in starting a plantation?"

"I planted about two hundred acres, and when I left the plants were all well started."

"Can you give one an idea of the country?"

"Well, around Bluefields the soil is a sandless, reddish clay, very porous, and capable of drinking in the tremendous rain fall of 25 feet a year. With any other soil, the country would be an immense swamp. The soil is very productive. The temperature varies from 70 degrees, and the country has a beautiful natural drainage. On the whole it is as healthful as—well, Toronto.

Minerals Abundant.

"It abounds in minerals. I have a specimen of quartz in my pocket which assays $150,000 a ton. This is not a fairy tale. A French engineer has lately discovered that the streets of Bluefields are paved with gold, while the Spanish residents were much excited a short time ago by the discovery of gold quartz within a few feet of the surface of their public park.

"The principal industries are rubber planting, trading and mining, but it would be folly to attempt any of these, especially mining, without capital. The great drawback to mining is the expense, as it costs as much to transport the necessary machinery from the coast as the machines are worth.

English the Market Tongue.

"In Bluefields there are only about five hundred English-speaking people. The commercial tongue is English, while the official is Spanish, a heavy fine being imposed for the writing of any legal document in any other language.

"The minimum price of land there is $1.20 a manzana, which is equal to an acre and three-quarters. There is little or nothing of the country occupied, and it is yet in the same primitive state as when discovered by Columbus. Even within a few miles of Bluefields, which has a population of 3000 and is the largest city along the coast, is a forest which is impregnable. It is a great country and has marvelous resources, but without capital a person would never succeed."

There is But One God.

"How about religion, morals and education?"

"The white population worship Jesus Christ, at least that is the only deity I ever heard them swear by. The religion of the State is Roman Catholic, while the Caribs and Indians have for the last fifty years been under the care of Moravian missionaries, and have adopted the Moravian doctrine, although they still retain many of their heathen superstitions. The education of the natives is left entirely to the Moravian missionaries, who have excellent schools, which are even as good as those of Toronto. English is the language of the schools and will soon be the universal tongue. In regard to morals, I don't want to say much, but I will say that marriage is almost entirely ignored.

Unity Contemplated.

"The Government at present is endeavoring to effect an affiliation of all the tribes, making Spanish the national language and Romanism the one religion, but this can never be effected."

Mr. Waldron is a brilliant conversationalist, and possesses such a store of interesting information that one scarcely knows when to cease asking questions about the land and people with whom he is so conversant.

Mr. Waldron states that about 200 rubber plants can be put out to an acre, and these, in five years, should be worth $10 apiece. So it is easy to see how an immense fortune could be amassed in a few years with hard labor and small capital in that land of sun and rain.

$5000 for Slander.

Suit was entered yesterday by William C. Bullock for $5000 damages against H. C. Hamilton of the St. Lawrence Foundry Company, for alleged slander. Bullock was formerly in the employ of the firm.

Cook's Cotton Root Compound
Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.
Sold in Toronto by all wholesale and retail druggists.

THE MISSING TRUNK FOUND

Last Portion of Dismembered Body Found Monday Discovered.

Dr. Holmes of New York Identifies the Head as That of Rachael Warner, a Professional Nurse — No Clue to the Perpetrators — Victim a Pretty Woman.

Bridgeport, Conn., Sept. 13.—The trunk, the missing portion of the dismembered body of the supposed murdered woman found on the mud flats here last night, was found this morning at the same place the other parts of the body were discovered. When all the portions of the body had been placed together they were found to fit perfectly and form the body of one who had evidently been an extremely pretty woman, probably about 25 years old, of slight but symmetrical build, with light brown hair, blue eyes, prominent lower jaw and regular teeth, some of which had been filled with gold. Thousands of residents of the city have already viewed the body, but as yet there is absolutely no reliable clue to the identity of the murdered woman.

There is every reason to believe that the trunk was placed in the water some time between 12 o'clock and 4 this morning. In the opinion of doctors, the dismemberment of the body is considered to be the work of an expert. It is also thought from the superficial expression which has been made on the subject that it is a case of malpractice which resulted fatally and which led the operator to endeavor to get rid of the body without the aid of an undertaker.

Used a Sharp Knife.

All the cuts are clean and free from rough marks, showing that a very sharp knife was used. The bones were also cut with a very sharp saw. There is no bungling of any kind about the job, it is done thoroughly and it is without a doubt the work of one having a complete knowledge of surgery. One part of the trunk was wrapped up in a rubber cloth, and in addition it was enclosed in a piece of a carriage cover. The other part of the trunk was wrapped up in cotton cloth and around that more of the rubber cloth. String and cord were used to tie up the bundles and attach the stones.

Perhaps the most suspicious circumstances connected with the case is the fact that a piece of cotton cloth was found stuffed in the mouth. In connection with the finding of the parts of the trunk, it is to be noted that a team was heard to drive furiously on the bridge about half past 1 this morning and to return a few moments later driving just as fast.

The Victim Identified.

New York, Sept. 13.—A special despatch from Bridgeport to The Evening World says: Dr. Holmes of this city to-day identified the head as that of Rachael Warner, a professional nurse. He says he has treated her frequently and that she often told him that her husband treated her cruelly. Dr. Holmes has gone to Boston, but left his address with the detectives.

SUN LIFE LOST NOTHING.

So Declares Mr. T. B. MacAulay, the Secretary.

The following correction explains itself:

Montreal, Sept. 13.

W. T. McIntyre, Sun Life Assurance Company of Canada:

Please correct any misstatements in press. Company loses absolutely nothing by New Westminster fire. Buildings worth about $150,000, mortgaged to us, destroyed, but our interest is fully protected by policies in London Assurance. Loss falls on fire company, not on us.

T. B. MacAulay, Secretary.

Ontario Ladies' College.

The Ontario Ladies' College at Whitby has just opened with its usual large attendance of resident students. The beautiful grounds, dotted here and there with tennis courts, croquet sets, swings and hammocks, present a scene of the liveliest interest and animation.

On Saturday evening last Rev. F. McAmmond, M.A., of Ottawa gave an able and eloquent lecture to the students upon the wonderful sights and attractions of London, Eng. During the evening several musical selections were given by an Edison phonograph. Their Excellencies the Governor-General and Countess of Aberdeen have fixed upon Oct. 19 as the date upon which they will visit the college.

Not as Advertised.

Editor World: The management of the Toronto Opera House, in their advertisements of this week, announce "positively no increase in prices," but as a matter of fact they demand increased prices. In proof of this statement, the writer cites his own experience of Tuesday night, when, after proffering 35 cents for a downstairs seat, he was blandly told that no such priced seats were being sold, except for upstairs. There is no excuse for this imposition on the public of which the Toronto management is guilty. If they mean otherwise than what their advertisements indicate, let their statements be more explicit and straight. G. J. B.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with Rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed

Robbed While Drunk.

Martha Young was arraigned in the Police Court yesterday for robbing Mary Fiddy while she was drunk. Mary was arrested and then complained of her loss to the police. She will come up again on Friday.

Spain Adopts the Protocol.

Madrid, Sept. 13.—The Senate, at to-day's session, definitively adopted the Hispano-American protocol.

Asthma Cure v. Asthma Relief.

It is a recognized fact among those suffering from Asthma that the longer they use the temporary relief Asthma remedies which require to be burned, the worse they become, until it loses its effect entirely. Clarke's Kola Compound is not among this class, but will permanently cure the worst case of asthma in from 60 to 90 days. Mr. F. J. Painton, proprietor of Painton's Music Store, Vancouver, B.C., writes: "I have been a great sufferer from asthma in its worst form for over 15 years, and had consulted many physicians both in England and Canada, but obtained no relief. A friend of mine who had been cured by the Kola Compound advised me to try it, and three bottles have entirely cured me; it is now over two years since my recovery and asthma has not troubled me since; and previous to taking Clarke's Kola Compound I have many nights had to sit up nearly all night. It is truly a wonderful remedy, and it affords me much pleasure in attesting my appreciation of anything so worthy." Clarke's Kola Compound is sold by all druggists. Free sample bottle sent to any person. Mention this Paper. Address The Griffiths & Macpherson Co., 121 Church-street, Toronto, or Vancouver, B. C., sole Canadian agents.

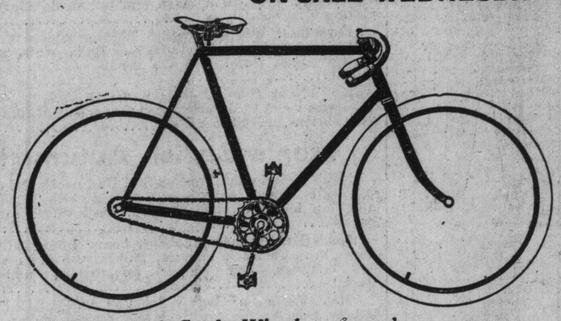
Buffalo's Biggest Store!
Biggest store between New York and Chicago and best in every way.
The W. Hengerer Co.
Buffalo's Great Department House.
Buffalo's Busiest Store!
Sells everything that sells well together, with every facility for quick service.

Buffalo, Tuesday, Sept. 13.

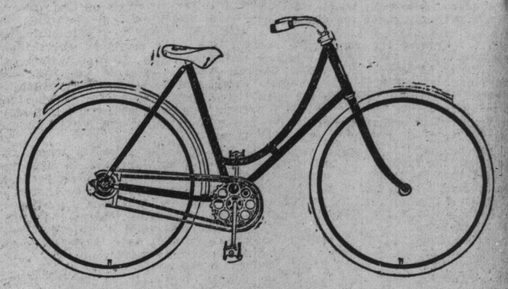
A Sensation in Wheels!

We have just purchased from the Assignee of the Buffalo Wheel Co. 500 Men's and Women's High-grade Bicycles—stock on hand at the time of their recent assignment. The wheels were made to sell at $100, but the advanced season, coupled with the general glut in the bicycle market, brought us this lot at a ridiculously low figure for cash. Instead of figuring on a profit we've planned to get the biggest kind of an advertisement out of the sale, and Canadians are as welcome to the saving as anyone. It is distinctly understood that these machines are standard make and entirely different from the cheap and dangerous wheels now on the market.

ON SALE WEDNESDAY MORNING—NOT BEFORE.



—300 Men's High-Grade Wheels, 22 and 24 inch frames, choice of gears, Hollenbeck saddles, Clipper corrugated single tube tires, well-made in every respect, on sale Wednesday morning at..... $15.00



—200 Ladies' High-Grade Wheels, choice of gears, Hunt hygienic saddles, Clipper corrugated single tube tires, well-made in every respect, on sale Wednesday morning at..... $16.00

Every wheel new and only just received from the factory. Canadians can easily afford to buy these wheels, duty added, and save big money over anything advertised in Toronto this year.

MAIL ORDERS FILLED PROMPTLY. CHECK MUST ACCOMPANY ORDER.

THE WM. HENGERER CO.,
BUFFALO'S GREAT DEPARTMENT HOUSE.

A Painter's "Nooning"
Having used Boeckh's Patent Bridled Brush all the morning, a painter rests' easier and has more time for his noon hour, because his work is absolutely satisfactory. If the painter who reads this will just ask to see the brush at his dealers' HE'LL understand why this is so.

Home Comforts
make up a long list, but a good, cozy fire comes first. It takes coal to make it, and better coal than ours was never mined or burned. No advantage in prices this month.

When you ask
for Adams' Tutti Frutti Gum see that you get it. Some dealers palm off imitations to obtain an exorbitant profit. Adams'
TUTTI FRUTTI
is made from pure Chicle Gum, and there is no other chewing gum "just as good" or half so good.
ALL OTHERS ARE IMITATIONS.
FREE. A variety of very handsome souvenirs and prizes are sent free for the return of sets of coupons from the 5c. packages of Adams Tutti Frutti Gum. Sold by druggists, confectioners and grocers, or send 5c. for sample package and list of prizes to Adams & Sons Co., 11 & 13 Jarvis Street, Toronto, Ont.

AUCTION SALE of Valuable Summer Hotel Property, beautifully situated, with large frontage on Kempenfeldt Bay and on Lake Simcoe.
Under and by virtue of the power of sale, contained in a certain indenture of mortgage, which will be produced at the time of sale, there will be offered for sale by public auction, at the Auction Rooms of The William Dickson Company, 72 Victoria-street, Toronto, on Wednesday, 21st September, 1898, at 12 o'clock noon, the following valuable property:
All that certain parcel or tract of land and premises, situate in the Township of Innisfil, in the County of Simcoe, containing forty acres, more or less, and composed of firstly, broken lot number thirty-two, in the fourteenth concession of said township, containing twenty-five acres three roods and sixteen perches, more or less, and, secondly, the easterly fourteen acres and twenty-four perches of broken lot thirty-one, in the said fourteenth concession, excepting, however, that portion of said lands conveyed to one S. J. Sanford, and containing half an acre, more or less.
On the said property is erected a large three-storey frame Summer Hotel, with commodious verandahs, etc., known as the Peninsular Park Hotel. There is a power house, ice house, wharf, boat house, bathing house, billiard house, dancing platform, tennis lawn, etc., etc.
The property may be reached by boat service or by carriage. The hotel and grounds have been lit with electric light, produced on the premises.
TERMS: Ten per cent. is to be paid at the time of sale, and the balance on easy terms, which will be announced at the time of sale.
Further particulars can be had on application to F. J. Dunbar, Barrister, 9 Toronto-street; J. L. Scarth, 9 Toronto-street, or to McMurrich, Coatsworth, Hodgins & Co., 5 Melinda-street, Toronto, Vendor's Solicitors. 3613

Dominion Line of Steamers.
It is probable that the Dominion Line steamships, which for twelve winters have been running between Portland, Me., and Liverpool, will this winter ply between St. John, N. B., and Liverpool, thus giving Canada the benefit of the best steamers in the Canadian service in the all-Canadian route both summer and winter. This will be of importance to our importers, who will be able to use the Canadian route the year round, with the full assurance that their goods will be handled promptly, and will receive as good despatch as by any other route.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. Those persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellog's Dysentery Cordial, a medicine that will give immediate relief and is a sure cure for the worst cases. ed

Gone Back With an Officer.
Over a year ago the home of Edward Rondon, Smith's Falls, was burglarized, and $30 worth of silverware stolen. The local police received information that the man wanted was Charles Cooper, a private at Stanley Barracks, so Detective McGrath took him into custody. An officer arrived from Smith's Falls yesterday and took him back to stand his trial.
