MOORE'S NAIL FACTORY, which was purchased some time ago by the Intercolonial railway, is to be torn down in about ten days or so. Messrs. E. R. Moore & Co.'s men are now engaged in removing the engines and nail machinery, most of which is being taken to the firm's works at Coldbrook where it will be utilized. It has not yet been made public what will be done with the ground on which the old factory stands.

NEW CARS.—Messrs. J. Harris & Co., are building some fine passenger cars for the Intercolonial railway. They have also lately turned out a number of conductors' vans for the same road, and are now finishing 23 flat cars for the Parry Sound Colonization Railway in Ontario. IT DREW A CROWD.—A rather irreverent young painter sat perched on the top of a ladder on Jeffery's hill yesterday forenoon, when a gay and highly decorated levy of Salvation Army girls came along loaded down with War Cries. Now the man is not yet born who can discourage these enterprising venders of the Gospel, but the paint slinger thought he could when he quickly attributed by some of them would bring it up. One of them did "bring it up," but she occupied the space of half an hour in climbing the ladder, and came back with a ten cent piece, a broad grin, and the satisfaction of knowing that she had saved one soul.

ANOTHER OROMOCTO RACKER.—A few days ago a farmer hailing from the breezy district of Oromocto, came into the city with a handsome mare, which gave birth to a colt while in town. The farmer although agreeably delighted, was a man of considerable experience and resource. He therefore waited for a term of twelve hours, so the friends who witnessed the affair report, and being as aforesaid, a man of considerable tact and will power, coolly introduced the newly born colt into a sail sack, and wended his weary way homewards. According to latest advices the colt is doing well. When will the sporting public ever hear of the like again?—Fredericton Gleaner.

Welsh is about 30 years of age, five feet ten inches in height, has a dark brown mustache, weighs 180 lbs., and is tattooed in the right hand in Indian ink. White is about the same age, but shorter, with dark skin, light brown hair and mustache, large ears and nose.

A THREE YEAR OLD CHILD of George McLellan of Lynn, Cumberland, fell into the well, a few days ago in the absence from home of all the family except his mother and an infant child. The house is in the woods, a mile from any neighbor and there was no one to send for assistance. The child came down on his feet, the water being nearly to his shoulders. The mother let down the well bucket which worked with a windlass, and told the child to grasp the rope fairly and she would bring him up safely. He did so and was, brought up to the top, a distance of over fifteen feet, and so firmly were his hands clasped about the rope that Mrs. McLellan had to ungripthem.

ABOUT THE EXHIBITION.—The directors of the Exhibition Association met yesterday afternoon at the City hall. An agreement between the agricultural society and the association was read and duly signed. Communications were read from the minister of militia and Col. Blaine, granting the use of the military grounds and drill shed. The reports of the several other committees were received and adopted.

THE NEW STABLES for the corporation horses, on the corner of King and Carmarthen streets are almost completed. The building is of wood 80x25 feet, two stories high. It is built on a fine solid stone foundation, and has a hard asphalt floor. There are 12 stalls along the King street side of the building, each stall being 7 feet wide and 10 feet long. The asphalt floors of the stalls slant towards a gutter along their rear ends, and narrow hardwood boards are laid over the asphalt with small spaces between them. The stalls can be shut up with doors and over each stall door is a large window that can be swung open to give ventilation. The hay for the horses can be pushed down from above into the racks. In the west end of the building there is a large watering trough and the building has a good sewerage and water arrangement so that the horses can easily be kept clean and healthy. The upper story will contain the hay loft, a large oat and grain bin and a general work room, for the use of the men in charge of the barn and horses. The building was built by Thomas Thompson and will cost about $2,500

Frank Cook, charged with a like offence on the same vessel, was taken back to the vessel.

James McLaughlin, a Dock street, drunk, and apparently a tramp, was allowed to go on promising to leave the city.

They were having one of these confidential chats which only women can appreciate, talking about themselves and their neighbors.

OFF THE FIELD.

The Shamrocks play at Moncton this afternoon.

The Frederictons play the St. Johns here to-day.

President Keefe of the Shamrocks, is looking for new players.

The Twilights of Sussex and the Lilies of Hampton played at Hampton yesterday afternoon, the Twilights, 26, Hampton 3. Clarke of Sussex, pitched an errorless game. Vale of Hampton pitched well but received poor support from the field, the cause of their bad defeat.

The Bangor Commercial says:—The Shamrocks have written to Manager Toole that their dates are all filled up for the present and that they can not come here. Later in the season they may be smuggled across the line into Bangor.

Manager Toole has written to the St. John Athletics for dates to come to Bangor, and is in hopes that he may arrange games in this city.

THE MILE RECORD LOWERED AGAIN.

NEW YORK, July 31.—At Monmouth Park Thursday, Ravelce, the three year old bay, son of Joe Hooker and Illusion, with 107 pounds up, covered one mile in 1:39¾ without lowering the English previous record for that distance by one-quarter of a second.

Harkins' Dramatic Co.

Last night a large and enthusiastic audience witnessed the performance of "The Golden Giant" in which the principal parts were interpreted by Miss West, Mr. Melville in his splendid impersonation of "Bixby," Mr. Harkins and Mr. Bradley. The play was admirably given and the enthusiasm was manifested by bursts of well earned applause. Master Robbie Stevens, too, acted his little part well.

To night a benefit is tendered to Mr. Harkins for which "The Golden Giant" has been selected. It will be the last occasion our citizens will have to see either the play, the manager, or the company this season as this is the closing night. There seems, for some reason or other to be a sort of prejudice in this city in respect to Saturday night performances but in the metropolitan centres of the United States the Saturday night houses are not infrequently the largest and the most select. There should be a bumper house tonight as a mark of deserved respect and appreciation of Mr. Harkins. He deserves well of the citizens. He has produced novelties and has, by paying large royalties procured direct from the owners the plays which have made pronounced hits abroad, and has given the theatre loving public of St. John the chance to see them at home. His company has contained the best available talent and every member of it has honestly endeavored to do his or her best to please. Mr. Harkins has been faithful to the letter to everything he has promised and kept every pledge. A souvenir photo of the company will be distributed tonight to every lady having a reserved seat. Mr. Harkins' is the centre of the group. Give him a bumper house at parting.

Among the Shipping

Marine architects and shipbuilders are much interested in a model to be seen at the yard of McDonald & Brown, in Belfast, Me. It is the model for a large four-masted schooner that this firm is to build for Mr. G. B. Reynolds, of Newport, R I and was designed by Mr. Burgess, the famous yacht designer. It is said to be his first model for a coasting vessel. The dimensions are as follows: Keel, 183 feet; length on load line, 198; over all, 217, and 42 feet beam. The vessel will be centreboard. While the model shows good length of floor the vessel will be decidedly sharp and yachtly in appearance. She will have a raking stern post, a very sharp run and light stern. The overhang, both forward and aft, will be 34 feet, which will give some idea of the graceful turns at each end. The vessel will have good carrying capacity and must sail well. Some of the Belfast builders shake their heads when they scan the model. If the vessel is built from the design presented she will attract much attention.

British schooner Arcilia, from Boston for Yarmouth, had her sails and rigging badly damaged in a severe gale off Yarmouth last Saturday night. She arrived at Clementsport Wednesday.

Schooner Susie E. from Cow Bay for Halifax struck on Seal Ledges, off Marie Joseph, Wednesday, is full of water.

Paving the Railway Yard.

That the I. C. R. freight yard between the receiving sheds of the I. C. R. and N. B. R. is to be paved, will be good news to the large number of teamsters who deliver goods to the railway. The excavating is almost done and the laying of the blocks will probably be commenced next week. The pavement will be laid 30 feet wide beginning at the western end and running three hundred feet east, or about to the freight department offices. The blocks are to be laid on a plank flooring the same as is being done on Dock street. The railway blocks are larger than those being used in the street pavement as they measure from 4 to 12 inches in diameter and are 9 inches long, while the street blocks are only 4 to 8 inches through and 6 inches long. Mr. Alexander Magee has the contract from the railway authorities for doing the work. It is probable that the pavement will be continued before long so as to extend in front of the full length of the freight station.

Why Chinese are Healthy.

The healthfulness of Chinese cities has been ingeniously attributed by some people to the universal habit of fanning, a practice which is said to keep the air in constant circulation. How far this really affects the issue remains to be decided, but the real secret of the immunity from sickness and notably from the villainous water universally used lies in the invariable custom of boiling all water intended for drinking, a matter of fact, the Chinese never drink cold water. The national beverage is tea and this is always on tap, even in the houses of the poor. Every little hamlet, too, has a shop where hot water can be bought for a trifling sum at any hour of the day or night.
