GLANWORTH RESIDENTS PROTEST AT SPEEDING

Will Bring Matter Before Officials of London Motor Club.

Two residents of Glanworth, who operate small business places in that village, complained today of speeders who go through the village at 30 miles and 35 miles an hour. They say that an average of 100 motorists an hour pass through, but that the great majority of them are careful, and do not exceed the limit. The particular point at which they say the violations of the act occur is where the two roads meet in the heart of the village. These men claim that the view is obstructed from the south, west and east.

At this point, they say, there is a pile of gravel, and some motorists go over it so fast that they are bounced from their seats, and that often their heads strike the top of the car.

Twenty Children.

As there are about 20 children in the village who are under eight years of age, and as their parents do not wish to confine them in the backyards, these two villagers think that all motorists ought to drive through the village in a careful manner.

Both complainants stated that they were going to see the secretary of the London Motor Club and have him erect signs at the intersection. If the speeding does not stop they will call in a county constable, they threaten.

In their opinion the constables in the county are working to protect the public, and not to get the money out of the motorists. These Glanworth men say they are sorry to see that certain officials are taking the side of the motorists and "rapping" the constables.

EXPLOSION OF OIL STOVE STARTS FIRE THAT DESTROYS HOME

Residence of Dougald Ferguson, Near Harrietsville, Totally Destroyed.

[Special To The Advertiser.]

Harrietsville, Aug. 9.—The residence of Dougald Ferguson, a half mile east of here, was totally destroyed by fire at 10 o'clock this morning. The members of the household were working in the fields when the fire occurred. It is believed to have been caused by the explosion of a coal oil stove. Neighbors, attracted by the flames, came to the assistance of Mr. Ferguson and assisted him in saving part of the household effects. The loss is partly covered by insurance.

Continued From Page One

INVESTIGATION

would you have completed those houses by now?" he was asked.

"Well, I hope so," commented Inspector Piper. "However, everything is being fixed up O. K. now."

"If you had not been assigned to the job as special inspector for the commission, would everything have been fixed up O. K., as you say the contractors are doing now?"

"I don't suppose that it would, but it is Commissioner Tallant who is responsible for things being fixed up according to specifications."

City Briefs

CASE IS ENLARGED.—The case of Otto Ward, who was charged by his wife, Vera Ward, with violating the wives' maintenance act, appeared in police court this morning and had his case enlarged two weeks.

CHANGED HEADQUARTERS.—Provincial Officer Arthur H. Palmer, who is acting for the provincial police department in this district, has changed his headquarters in this city. His new telephone number is 2965W.

STOLEN FROM G. T. R. STATION.—Hugh Bosthwick, 251 Queen's avenue, has reported to the police that his bicycle, which is enamelled red, and has No. 103480, was stolen from the rear of the Grand Trunk Railway station on Saturday night.

WRIT ISSUED.—The Russell-Murray Cocoa Mills, Limited, through their solicitors, Gibbons, Harper & Braden, have issued a writ in the county court against Bert T. Way & Co., of this city, for $33.85, the amount of goods alleged to have been supplied by the plaintiffs to the defendants.

A. O. F. PICNIC.—Local members of the Ancient Order of Foresters will hold their annual picnic at Springbank Park on Saturday, when a large program of sports will be run off. Although a few of the members sat down to supper at the park last Saturday, the rain prevented the entire picnic program from being carried out.

A. O. F. LADIES TO CONVENE.—The Ladies' High Circle of Companions of the Forest, A. O. F., will convene in the east end hall of the order on August 16 and August 17, when the election of officers for the high court will take place. Delegates from all parts of Ontario will be present. The men will hold their convention in Hamilton on August 23.

CHARGE DISMISSED.—Because there was contradiction on the part of police witnesses, Charles S. McGuire was dismissed by Magistrate A. H. M. Graydon in police court this morning after a charge of driving while intoxicated, which had been laid against him, was tried. McGuire figured in an accident on Waterloo street, near Dundas street, on July 27. His auto struck an oil wagon, knocking the driver, Leonard Kerrigan, from the seat of the wagon.

SOMETHING FOR NOTHING.—"Bill" Casson of the Soldiers' Aid Commission, who had his wheel stolen from in front of the local Y. M. C. A. on Saturday night of July 30, stated to The Advertiser on Monday that if the party who "borrowed" it would call at his residence, 842 Queen's avenue, there is a sundry assortment of bicycle repairs, tubs, a tool kit, wire basket for the front, a carrier for the rear, a first-class pump and several other articles that are of no earthly use to him now, that he would be glad to give away and, if it were found inconvenient to call for these articles, the present holder might leave his address and the articles would be sent to him as soon as possible. In case there are several possessors of ill-gotten wheels in the city Mr. Casson stated that his was a Massey Silver Ribbon with serial number 40413.

Obituary

DEATH OF ELLIOTT LAIDLAW.

Elliott Laidlaw, aged 82 years, one of the oldest and most highly esteemed citizens of Westminster Township, died at his late residence on the eighth concession yesterday afternoon.

Besides his wife, he is survived by three sons, George at home, Dr. John Laidlaw of Bluffton, Ind., and James of Spooner, Wis.

The funeral arrangements have not yet been made.

BRITAIN TO PROTEST SEIZURE OF SCHOONER HENRY L. MARSHALL

Action Will Be Taken To Guard Against Establishment of Precedent.

London, Aug. 9. — Great Britain, it is understood, intends to protest to the United States, if it is decided that the United States violated international law in seizing the liquor laden schooner Henry L. Marshall outside the three-mile limit off Atlantic City last week. Such a protest, it is said, would be merely a formality, as Great Britain is not interested in the case except as it might establish a precedent for such seizures.

Should no protest be made, it is pointed out, it would place Great Britain in the position of sanctioning such action, which might give rise to difficulties should a British ship be seized by some other country in international waters.

LEROND TO EXPLAIN EVENTS LEADING UP TO KORFANTY REVOLT

Paris, Aug. 9.—Gen. Lerond, head of the inter-allied commission for Upper Silesia, appeared before the supreme allied council here today to explain events leading up to the Korfanty insurrection there last spring. He has been bitterly attacked by Germany for his alleged failure to foresee the attempt by the Poles to take over a large part of the Upper Silesian plebiscite area, and there were hints that he did not take proper measures to meet the situation when it developed.

Discussion of the Upper Silesian problem was to follow Gen. Lerond's statement. At yesterday's session of the council the reports of experts had to be translated into English or French or Italian. This delayed the progress of the council's work to a considerable extent.

Brig.-Gen. H. T. Allen, commander-in-chief of the United States army of occupation, was called before the supreme council immediately after it opened this morning's session.

MANY HURT DURING FIGHT IN A CABARET

New York, Aug. 9.—An altercation over a couvert charge of $1.50 on a Tenderloin cabaret resulted in a free-for-all fight early today, in which two men were wounded by bullets and more than a score suffered bruises and cuts. According to the management the trouble was started by a police detective who entered the place with three friends.

CONDITION VARIES.

Lindsay, Aug. 9.—Inquiries concerning the condition of Sir Sam Hughes are numerous these days. They have been days of great anxiety. Sunday he took a turn for the worse, following nourishment. Monday, however, he rallied considerably and was quite cheerful. During last night his condition became critical, and it was thought he would not live through the night, but again he rallied, and this morning he was bright and cheery, greeting his family physician and members of the family as usual.

Lady Hughes and two daughters, also Miss Burke and Miss Sykes of Bowmanville; Dr. McAlpine; Sir Sam's brother-in-law, Major Byron Green, of Chatham, and Col. John Hughes of Bowmanville, are at the bedside.

POLICE SALVAGE AUTO PARTS IN RIVER THAMES

Dumped in Stream by Men On Saturday for Unknown Reason.

Hundreds of dollars worth of auto parts were recovered from the bottom of the river at the foot of Egerton street to-day by members of the police and detective departments. Small boys notified them to-day that on Saturday men were seen dumping these parts into the water. There is a deep hole here and it was with some difficulty that the officers were able to carry out the salvage work.

One piece alone, which was brought to police headquarters is worth $40. The police are unable to understand the object of the men in dumping the machinery into the river.

LOCAL P. O. STAFF CANNOT UNDERSTAND DEPARTMENT ACTION

Advertisement for Vacancy at Windsor Arouses Much Interest.

"Ways that are wonderful," characterizes the caution opinion of a number of the postal employees, discussing informally the last official notice from Ottawa that now lends tone to the other circulars and impressive appearing announcements that adorn the walls of the local office.

It appears that the position of postmaster in the Windsor office is still vacant, but the civil service commission, or perhaps Griffenhagens have been working over-time again, announce to all and sundry throughout the various offices that applications for this particular vacancy will be henseforth received up to and including "such and such" a date. The race is seemingly declared open to all outsiders, with certain restrictions, of course.

The civil servants are not a little puzzled to understand fully what line of reasoning the commission at Ottawa or their economical advisers, Griffenhagen and Associates, are endeavoring to follow. There is little display of consistency, they contend. One job is quickly filled without further ado, while another is thrown open for contestants from up country and down country. They point out that the vacancy in the London office was smartly filled with the position of deputy left open, while Windsor, for example, is advertised as available for all, under the pretense perhaps, they suggest, that the commission wants to show a certain fairness. It develops that a certain stipulation exists, however.

In company with their colleagues in other offices, the London men are free to take the Windsor job, providing they have had at some time at least one hundred men under them. The point is that any district men, of whom it is said there are but one or two, or possibly three eligible, would be following poor judgment to take advantage of the Windsor position when they stand a better chance for advancement if they remain here. They wonder, naturally if this is not a move to diplomatically eliminate them from any local contest.

Not long since the authorities at Ottawa reinstated by wire two of the local staff who were retired August 1. The customary written instructions that follow advising the length of their reinstatement has not as yet been forthcoming.

WITNESSES FAIL TO APPEAR AND LIQUOR CHARGES ADJOURNED

Five Citizens Alleged To Have Unlawfully Disposed of Whiskey.

Five citizens, charged with "bootlegging" were summoned to police court this morning but because the two Government liquor "spotters" who were to give evidence against them failed to appear, the cases had to be adjourned. Tuesday was decided as the day on which the trials should commence. Mrs. P. Freeman, Charles Hamilton, Powell Jenkins, Frank Walezak and I. Mathews were the five defendants summonsed to appear to-day.

Crown Attorney J. B. McKillop, K.C., wanted to have the cases adjourned until tomorrow, but R. G. Fisher, who was acting for Mathews, said that his client had secured three witnesses from St. Thomas and that they could not be present Wednesday. Mr. Fisher wanted to proceed today, but the court sanctioned the week's adjournment. A. H. M. Murphy, who is acting for Jenkins, said that his client's correct name was Paul Jacobs, and said that he could not proceed this week as he had not had an opvortunity of interviewing his client.

Two more citizens will appear tomorrow morning to answer to the same charge as the other five, namely, violating section 40 of the Ontario temperance act, which forbids the illegal sale of liquor. Other cases will follow later, it is expected.

QUEBEC PROVINCIAL GOVERNMENT OFFERS TO "CLEAN UP" HULL

Premier Taschereau's Proposition Meets With Approval of City Councillors.

Ottawa, Aug. 9.—The cleaning up of the disorderly district of Hull will be undertaken by the Provincial Government. An offer to that effect was received by Hull city council last night from Premier Taschereau and met with the unanimous approval of the councillors.

This followed the decision that the financial condition of the city would not permit of such a cleanup by a civic morality squad before January next.

NIGHT SCHOOL IS TO BE INAUGURATED AT WESTERN UNIVERSITY

New Scheme To Accommodate Extra-Mural Students —Regular Classes Start October 4.

In order to accommodate extra-mural students who have only two weeks' vacation, and therefore cannot attend the regular summer school in order to secure residence credits, a night school will be inaugurated by the Western University.

At the present time, the extra-mural courses of the Western University are chiefly taken by teachers, because they are the only class of workers enjoying a long enough vacation to take the regular summer school course for residence credits required.

Many office workers and others residing in the city, but employed during the day, are ambitious to take university courses, but a certain number of lecture attendances are required from correspondence or extra-mural students. A night summer school or a three months' course of evening lectures will be established shortly.

The attendance at this year's summer school, which closes on Saturday, is very largely increased over any previous year.

The regular classes and courses at the Western University will reopen on October 4. Inquiries from prospective students indicate a phenomenal increase in the attendance, and additional classroom accommodation are being secured.

LABOR ENGAGED IN A DEFENSIVE FIGHT, DECLARES GOMPERS

Head of American Federation of Labor Addresses I. T. U. Convention at Quebec.

Quebec, Aug. 9.—Labor had halted the shock troops of its enemies, Samuel Gompers, president of the American Federation of Labor, announced at this morning's session of the International Typographical Union annual convention.

Mr. Gompers said that all over the world just before or soon after the armistice, capitalism made up its mind that is must secure the master hand over the working people of the world. In the United States there had been a premeditated decision to crush the spirit of the working class.

Sacrifices of Labor.

Mr. Gompers referred to the sacrifices of labor during the war for the conquering of imperialism and autocracy. It was now proposed to establish an industrial autocracy in the United States and Canada. The labor movement was a protest against autocracy, whether it were political or industrial.

Mr. Gompers said never in history had the slave owners' put up much of a fight to liberate their slaves. It was therefore strange that employers to-day were spending millions to protect the liberties and rights of their non-union employes, he said.

Defensive Fight.

The employers in their platform of principles, argued that non-union labor had to be protected from the unions. He reminded the delegates that when non-union men were locked out they always appealed to the Federation of Labor for help—assistance which had never been refused when the cause was just.

Labor was engaged in a defensive fight. It was standing surer than ever to take advantage of improved conditions when the industrial pendulum swings back.

Discussing the strikes now going on in some cities over the 44-hour week, the proposition of the Typographical Union, Mr. Gompers said this matter had been agreed to and he should have expected the publishers to be "good sports" and stand by their bond. They have not, however, he declared.

AUSTRALIA'S NEWEST PROPOSED LOAN IS BECOMING POPULAR

Meetings in Advance Indicate That Subscriptions Will Be Taken Up Rapidly.

London, Aug. 9.—Canadian Press.—A Reuter's cable from Melbourne states that the launching of the appeal for the new federal loan, to be used for soldiers' settlement purposes, has been most successful in all the states of the Australian Commonwealth. Enthusiastic meetings, auguring well for the subscription of the loan in full, have been held in all centers.

The proposed loan is for ten million pounds sterling at 6 per cent. The price of the bonds is 96. They are redeemable in 1930.

LIEUTENANT-GOVERNOR PASSES RESTLESS NIGHT

Toronto, Aug. 9.—Hon. Lionel Clark, lieutenant-governor of Ontario, who has been ill for some time, passed a restless night, according to a bulletin issued from Government House this morning. While his condition showed improvement during the day, he is not yet past the danger point.

IRON AND STEEL PRODUCTION IN CANADA INCREASES

Ottawa, Aug. 9.—The production of iron and steel in Canada has shown a continued increase for the month of June, according to the monthly report published by the Dominion Bureau of Statistics.

Six blast furnaces were operated during the month of June, an increase of one over May. The output of iron for the first six months of 1921 was 309,206 tons, as compared with 449,810 tons for the same period of 1920, a decrease of about 69 per cent.

The total amount of steel made in the first six months of 1921 was 295,140 tons, as against 547,000 tons made in the same period of 1920.

STEAMER SAN JOSE NOT IN DANGER, IS WORD FROM VESSEL

Several Vessels On Way to Render Assistance to Vessel Stuck On Reef.

San Francisco, Cal., Aug. 9.—Wireless messages early today from the steamer San Jose, which struck on San Pablo Reef, about 1,500 miles south of San Diego, last night, indicated the ship was resting easily. There were 33 passengers and 66 members of the crew on board. Other vessels are on the way to the assistance of the San Jose.

LATE MARKETS

NEW YORK STOCKS

New York, Aug. 9—Wall Street, 10:30 a.m.—Prices started off today with a continuation of yesterday's late upward tendency. Gains, however, were slight in most instances, and business small, traders holding off for further developments in general conditions before taking a definite stand in the market. American Car gained 1¼. Famous Players and Kelly-Springfield 1, and Northern Pacific, Canadian Pacific and People's Gas 1½ points. Mexican Petroleum was heavy, losing ¾, while Colorado and Southern and Westinghouse Electric sagged ½. Completion of yesterday's urgent covering in demand sterling, and a more liberal supply of commercial bills, carried it down to $3 66, compared with $3 72½, yesterday's highest. Transcontinental rates were also shaded.

1:30 p.m.—Speculation languished and prices ruled below the morning levels. The affairs of particular corporations had a restrictive effect on buying of the specialties. Pressed Steel Car, Wells-Fargo Express, American Woolen, Woolworth and Western Union declined 1 to 1½ points.

HYLAN BEFORE COMMITTEE.

New York, Aug. 9.—The committee appointed by the last legislature, headed by Senator Schuyler M. Meyer, to investigate the city administration, to-day began its public hearings and summoned Mayor F. Hylan as the first witness.

SPEEDING PLANE RAINS BULLETS ON LAUNCH PARTY

Providence, R. I., Aug. 9.—Sweeping down Narragansett Bay, with its machine gun wide open, and spraying the water with a rain of bullets, an unidentified aeroplane, yesterday riddled and nearly sank a launch containing five people, severely wounding a girl passenger and slightly injuring a man. Failing to observe frantic signals from the boat, the plane sped on its way. With the boat sinking, and the girl in danger from loss of blood, the launch party traveled eight miles to shore to reach medical assistance.

MEXICAN GENERAL IS ASSASSINATED

Five Armed Men Attack Official While Riding in His Automobile.

Mexico City, Aug. 9.—Gen. Alesio Robles, brother of the Mexican minister to Spain, was shot and killed last evening as he drove in his automobile through one of the main streets in the residence section of this city. Five armed men took part in the attack.

Following the tragedy, Gen. Jacinto Trevino placed himself at the disposal of the police, and is said to have been held upon his own recognizance.

COMMONS OPPOSING MOVE TO ESTABLISH AN ECONOMIC BODY

Committee To Be Composed of Businessmen Is Proposed by British Government.

London, Aug. 9.—By Canadian Press.—The British House of Commons is showing undisguised uneasiness, even hostility, to the proposals of the coalition government to establish an "economic committee" to be presided over by Sir Eric Geddes, and to be composed of various businessmen.

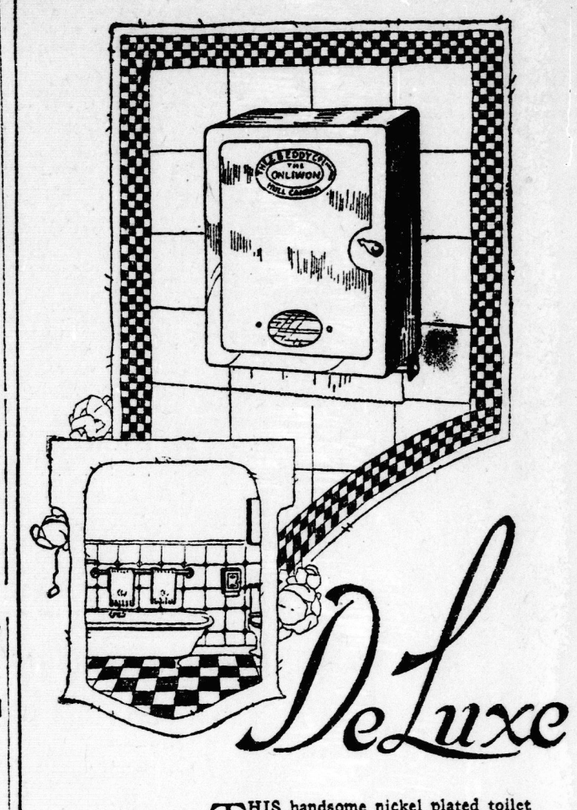
In doggedly parrying a fusillade of questions in the House concerning the proposed committee, Austen Chamberlain, the government leader, expressed his inability to indicate either the terms of reference of questions and problems to the committee, or to indicate the probable composition of the body. He explained this lack of information by the fact that Premier Lloyd George and other ministers were away from London.

Members of the House appeared to be anxious to know whether members of the government—the chancellor of the exchequer (Austen Chamberlain), for example—would be included on the committee, and whether the committee would usurp the normal functions of the treasury in watching departmental expenditure.

COALITION IS EMBARRASSED.

London, Aug. 9.—By the Canadian Press.—The anti-Government economy campaign, which has achieved such surprising success in recent by-elections, is apparently proving an embarrassment to the coalition in finding a suitable condition in the important metropolitan constituency of Westminster Abbey, rendered vacant by the death of W. L. Burdett-Coutts, who was returned unopposed at the last general election in the coalition-Unionist interest. A favored nominee has refused to stand, and other likely candidates are holding back, doubtless remembering the reverse the Government recently sustained in the by-election for the neighboring division of St. George's, Westminster.

The anti-waste press continues to fulminate against departmental extravagance, alleging that the 1,100 officials of the now extinct ministry of food have sought cover—and emolument—in the board of trade, while the ministry of labor in its three years of existence has acquired a staff of 3,100 officials, whose combined salaries reach an annual total of £5,000,000, and the total cost of the department is £20,000,000 a year.



THIS handsome nickel plated toilet paper fixture will lend a tone of distinction to your bathroom. It is neat and orderly and keeps the paper free from dust. Besides the advantages of beauty and sanitation, it is economical, serving two sheets at a time, thus preventing wastage.

You will find the ONLIWON in the best hotels and institutions, and it is rapidly growing in favor for private homes.

The ONLIWON is moderately priced —Ask your dealer to show you one.
