ALD. BURNS WITHDRAWS HIS MOTION

There Will Be No Standing Sub-Committee To Deal With Waterworks Questions—Other Civic Affairs.

At the meeting of the Works Committee yesterday afternoon Ald. Burns withdrew his motion for the appointment of a sub-committee to consider waterworks matters.

A letter from S. H. Janes complaining of the people standing at King-Yonge-streets was referred to the City Engineer.

Surveyor Sankey's plan of the water front was presented and approved of. There was a short discussion over the advisability of establishing the small park to be known as Harbor-square.

The Engineer's recommendation that the contract for the western jetty be taken from Mr. Grant unless he commences work at once was not adopted. The contractor was given until Monday next to get the work started.

The City Engineer's report, that there are 10 employes less in the department, did not satisfy Ald. Hewitt. Ald. Lamb thought it was a splendid showing and that the police would be glad to hear it. Ald. Hewitt said it was not the information that was asked for. The Engineer should furnish a detailed statement giving the names and salaries of each employe. A resolution was passed asking for the information.

On recommendation of the Engineer it was decided to ask the City Treasurer to provide $10,000 for the purpose of repairing roadways where the track allowances are being paved.

THEY WILL RENEW ISLAND LEASES.

Property Committee Decides That the City Has Land Enough.

The Property Committee yesterday went on a tour of inspection. They visited the waterfront, where Mr. Sankey explained his plan for the new wharves and the small park.

Some attention was paid to block C, which the Cobban Manufacturing Company is anxious to get possession of. There will be about two acres in the plot, and the committee was unanimous in its decision that the company is asking too much. The company will be given an opportunity to lease a portion of the land, but not at the figure they offer.

The Island was also visited and it did not take the committee long to decide that it would be a wise policy to renew the Island leases as they mature. The request of the Island residents for better accommodation will likely be considered by the committee at an early date.

THIS IS A HEALTHY CITY.

Satisfactory Report of Contagious Diseases From Dr. Sheard.

The Medical Health Officer has prepared a comparative statement of contagious diseases, which shows satisfactory results. The table shows the number of cases as follows:

	April.	May.	June.	July.	Aug.	Sept.
Diphtheria.						
1892	163	141	122	75	41	75
1893	56	84	57	20	30	21
Typhoid Fever.						
1892	11	25	19	25	57	88
1893	43	15	15	6	20	27
Scarlet Fever.						
1892	68	55	47	29	21	38
1893	53	77	78	56	29	20

Dr. Sheard has something to say about the city water. Since April last he has been making analyses of the water. These show a decided improvement, and in his opinion by the time the repairs are completed Toronto will have as pure water as any city on the continent. The report complains of the unsanitary condition of the Yonge and Brock-street slips.

Building Permits.

Henry Hodgson has taken out a permit for a new boat house at the foot of Brock-street to cost $7000. B. McGregor will erect some dwelling houses in Lindsay-avenue at a cost of $4800.

SUNDAY BUSSES.

Nine Busses on Three Routes Attract a Good Deal of Patronage.

[From Yesterday's Globe.]

The Sunday bus seems to be growing greatly in popular favor. Yesterday busses ran on three routes—from St. James' Cathedral to the Woodbine, along Queen west to the subway and up Yonge to North Toronto. All the routes were well patronized, but by far the most popular is the Queen west, on which the busses were crowded, in some cases being unable to carry all those who desired to travel on them. As on the two previous occasions, when the buslines were in operation, no fares were collected. Each bus carried a conductor, but his position was rather a sinecure, as he did not have to fasten his penetrating glance on passengers in order to awe them out of saying "transfer," or even to say that "them children has got to pay their fare." All he had to do was to pull the string, and the driver and the horses did the rest. The majority of those patronizing the busses appeared to be young men, but there were many ladies and older men. One old gentleman was seen to make a wild run to get on a Yonge buss in motion, apparently under the impression that the busses stopped only where the street cars do. Just as he got on the bus it stopped for him, and he looked disgusted at the waste of his agility. Everyone on the car which a Globe reporter rode on seemed to think it as much a duty to put something in the collection box for the benefit of the Sick Children's Hospital as if they were riding on a bobtail car under the piercing eye of the driver. The amounts deposited varied greatly, but the majority put in the regulation five-cent fare. In many cases larger sums were deposited, and 25-cent pieces were not at all scarce. The majority of the patrons of the innovation were most respectable-looking middle-class people, though one or two cases of rather tough-looking travelers were noticed—not, however, more than there would be among the same number of street car travelers on a week day. Not a single case of drunkenness on the busses was heard of.

There were in all nine busses running—three in Queen west, four in Yonge and two in King east. They were owned by Messrs. John Hendry and William Kelly.

The busses started running early in the day and ceased at 9.30 p.m.

A Murder Mystery Cleared Up.

[Napanee Express.]

During the past nine years many ugly rumors have been in circulation as to the whereabouts of John Towns, a resident of Richmond, who sold out his farm and was last seen at Wheeler's Hotel, having considerable money in his possession. The rumors were to the effect that he had been robbed and murdered and his body buried in some unknown spot. Some time ago a man died in Kingston and on his death-bed, it is said, he told of the supposed murder, saying that the body had been buried in Miles' woods, just east of Napanee, on the Newburg road. Two former Napaneeans, Patrick Curry and Jack Wheeler, who are now both dead, were implicated in the crime. Another was to the effect that his supposed remains were found in a swamp near Bath. We are now glad to clear these ugly rumors and to state that Mr. Towns has been heard from, he having written to his sister-in-law, Mrs. Lewis, who resides at Bath. Mr. Towns now resides in Oregon, and is in good health. It was just nine years ago last March since he was last seen in Napanee. Mrs. Towns, who supposed her husband dead, has been married again, and now resides in the Northwest.

For the thorough and speedy cure of all Blood Diseases and Eruptions of the Skin take Northrop & Lyman's Vegetable Discovery. Mrs. E. Forbes, Detroit, had a running sore on her leg for a long time; commenced using Northrop & Lyman's Vegetable Discovery, and she is now completely cured. Her husband thinks there is nothing equal to it for Ague or any low fever.

The Prohibition Convention.

Many delegates arrived yesterday to attend the prohibition convention, which opens at Temperance Hall this morning. The convention will last two days.

THE WAY OUT of woman's troubles is with Doctor Pierce's Favorite Prescription. Safely and certainly, every delicate weakness, derangement, and disease peculiar to the sex is permanently cured.

Out of all the medicines for women, the "Favorite Prescription" is the only one that's *guaranteed* to do what is claimed for it. In all "female complaints" and irregularities, periodical pains, displacements, internal inflammation or ulceration, bearing-down sensations and kindred ailments, if it ever fails to benefit or cure, you have your money back.

So certain to cure *every* case of Catarrh is Dr. Sage's Catarrh Remedy that its proprietors make you this offer: "If you can't be cured, permanently, we'll pay you $500 cash."

TIPS FROM WALL-STREET.

Monroe, Miller & Co. of New York send the following despatch over their private wire to their Toronto office, No. 30 King-street east:

NEW YORK, Oct. 2.—The stock market was somewhat irregular and feverish, with London as a seller of its specialties, and realization by the room traders. Distillers continued to be one of the strongest and most active of the trust stocks, and buying by inside interests, who it is said have it on the very best of authority that the Ways and Means Committee of the House will at some future time report a bill increasing the tax on distilled spirits. Sugar was pressed for sale to-day owing to the report that a small pool that has been manipulating the stock had marketed their holdings. The buying of this property, however, was by people who are identified with the affairs of the company, who say they have a profit of over $1,000,000 in raw sugars that are afloat. L. and N. was weak and sold off 1¾ per cent., when it was found that the stock was more plentiful in the loan crowd owing to the arrival of from five to seven thousand shares of its certificates from Europe in the steamship that arrived the latter part of last week. The South has been making heavy calls for currency to-day, and shipments have been made chiefly to Savannah and Atlanta. There have also been heavy receipts of currency from other points, which fully balance the movement to the south. During the afternoon the market was without any special feature of interest, and the closing was dull, with some pressure to sell on the part of the professional operators. Money opened: Offered 5, highest 4, lowest 2, last 3.

Gossip From Chicago.

R. Cochran received the following despatch from Kennett, Hopkins & Co.:

CHICAGO, Oct. 2.—The wheat market has been dull and steady all day, following the opening weakness. Receipts not as large as expected, with some prospect that they will fall off in consequence of the wet weather, which promises to interfere with seeding. Cables show more strength and, as other countries are exporting very moderately and our markets here had a considerable decline, it is believed that the foreign demand will improve. General apathy is in command at present, but it would seem that any change must be for the better, at least temporarily.

Corn and oats shared in the prevailing dullness, but heavy receipts have produced no weakness, so good is the consumptive demand. It is hardly probable that these receipts will keep up to present proportions for any length of time.

Provisions—There has been a small business in ribs of a local character, but otherwise nothing of consequence. The feeling is firm.

TENDERS.

DEPARTMENT OF CANALS, CANADA.

ST. LAWRENCE DISTRICT.

Cornwall, Williamsburg and Murray Canals.

Sealed Tenders, addressed to the undersigned, will be received until noon on the 14th day of October, 1893, for the supply of materials, including Timber, Lumber, Cash and Wrought Iron Hardware, Coal Oil, Coal, &c., &c., in such quantities as may be required from time to time during the fiscal year 1893-94. Each tender must be endorsed "Tender for Supplies."

Forms can be obtained at the office of the Superintending Engineer, Cornwall, and from the Canal Superintendents.

The Department does not bind itself to accept the lowest or any tender.

By order, TOM. S. RUBIDGE, Suptg. Engineer.

Canal Office, Cornwall, 25th Sept., 1893.

Department of Railways and Canals.

Lachine Canal—Notice to Contractors.

Sealed tenders addressed to the undersigned and endorsed "Tender for Drain" will be received at the office of the Superintending Engineer, Montreal, until noon on Monday, the 9th day of October next, for the construction of a Sewer Pipe Drain along the south side of the Lachine Canal above Cote St. Paul Bridge.

Plans can be seen at the Superintending Engineer's office, Montreal, on Monday, the 2nd of October next, when specifications and forms of tender can be obtained. No tender will be considered unless made strictly in accordance with the forms supplied. Each tender must be accompanied by an accepted bank cheque to the amount of $250 to the credit of the Receiver-General, which sum shall be forfeited if the party tendering declines or fails to enter into contract for the work when called upon to do so, at the rates stated in the offer submitted. This department does not bind itself to accept the lowest or any tender. By order,

ERNEST MARCEAU, Montreal, 28th Sept., 1893. Actg. Suptg. Eng.
