Friday Evening, Nov. 6.

Liverpool wheat futures closed to-day ¼d higher to unchanged from yesterday, and corn futures closed ¼d lower.

At Chicago December wheat closed 1⅝c higher than yesterday. December corn closed ½c higher and December oats closed 1⅛c higher.

Winnipeg car lots of wheat to-day 521, year ago to-day 351.

Chicago car lots to-day: Wheat 20, contract 3; corn 73, contract 3; oats 89, contract 11.

Chicago special says: November wheat condition 56, a year ago 82, last July 86. Area sown this fall, compared with last year 76 per cent.; average quality of corn 83, compared with 80 in the previous month, and 73 last year.—News Bureau.

Broomhall estimates world's shipments: Wheat Monday about 4,000,000 bushels, of which Europe will take about 3,000,000. Last week 9,168,000 bushels, and a year ago 11,616,000 bushels.

Modern Miller says: Winter wheat farmers are working to seed all they can before freezing weather sets in and the area devoted to this crop has been further increased. The growth of the plant where it shows above ground is irregular and the plant varies greatly in appearance, some looking well and some poor.

Corn—The Ohio crop report was bearish, making the condition of 83 against 80 a month ago and 73 a year ago.

Market Notes.

W. G. Rook, general manager of the Horticultural Show, to be held in the farmers' market building, called at The World Office to say that the farmers would be allowed to occupy the market building on Saturday for the Thanksgiving market. To accomplish this Mr. Rook stated that the management were going to ask permission to work on Sunday so that the building will be ready for the show on Monday next, the day of opening, for which, no doubt, the farmers will be truly thankful.

E. Lunan has rented stall 76, where he has a grand display of honey of first-class quality, which he offers at wholesale or retail.

Chicago Gossip.

J. P. Bickell & Co. say at the close of the market:

Wheat—Firm cables and continuance of good cash demand in principal primary markets created firm market. Public interest still lacking. Market is acting remarkably well everything considered. There is not anything new to say about wheat. We are bulls, and recommend the purchase of Chicago May wheat on all slight declines.

Corn—Slightly easier, due to continued liquidation in the December option. May, however, held remarkably firm and large short interest is plainly visible. We feel friendly to May corn at this level and recommend its purchase, but as speculation is light accent moderate profits.

Oats—Dull, receipts lighter, but cash demand not urgent. Under 50c for May buy for turn.

J. R. Heintz & Co. wired R. B. Holden at the close:

Wheat—Market opened shade higher and held pretty well. Trade purely local, and crowd is somewhat mixed. Commission houses were sellers early. We believe the market is heavily oversold and on any recession from present prices we believe no mistake will be made in buying. There is certainly nothing in sight to force any material decline.

Corn—There has been considerable hammering to force prices lower by the local bears. While they have met with some success they have at the same time created a large short interest. Prices are now where the east will come in as buyers and we advise purchases of May on every setback.

Marshall, Spader & Co. wired J. G. Beaty, 14 West King-street, the following:

Wheat—The foreign markets have steady to ¼d higher. The continent is beginning to take notice of the Argentine damage. Most important information of the day was the Ohio State report showing a reduction in acreage of about 8 per cent. as compared with last year and condition of only 83, against 82 last year. Duluth reported 200,000 No. 1 northern sold to eastern mills and a sharp demand for export. Our market ruled strong, due to covering by shorts and some good buying by commission houses.
