Trinity College, Toronto:  
I have examined the Century Cyclopedia of Names with great care, and I find it in every respect satisfactory and admirable. I have not looked for one name in vain; and the articles are concise and accurate, whilst they are sufficiently full for assisting readers and students.

**Prof. J. E. Wells, M.A.,**  
The Educational Journal:  
The Century Cyclopedia of Names is, in short, a most comprehensive mine of information on all kinds of questions. From a cursory examination, and an application of tests, we are persuaded that it is the completest work of its kind in the English language. It had not been two hours in our office before we found in it information which we had vainly been looking for in other dictionaries and encyclopedias.

**LUMSDEN & WILSON'S FOOTBALL ANNOUNCEMENT**

WE thank the many teachers and players throughout the Dominion for the liberal patronage and flattering testimonials received during the past fifteen years that we have been importing and selling the celebrated McKechnie Footballs. We can confidently claim that no other balls stand the wear and tear like this old reliable Scotch make. They do not stretch unequally and become lopsided; the sewing is the best possible. In fact, the 2nd quality of these balls is equal to some fancy finished match balls that are in this market at about the price of our best quality.

We call special attention to Football Boots. We have the best style, as used by all leading players in Great Britain, and any Canadian player who has tried them would not like to play without them again.  
We also direct notice to McKechnie's new Match Ball for 1895. It is called "The Century," made of horse hide, stretched and waterproof, filled with special heavy rubbers, either red or natural color.
