Ten Dollars Saved.

We have thousands of customers on our lists, who are fully convinced that "Semi-ready" $15 suits cannot be duplicated under $25.

The suits themselves do the convincing.

Tweeds—Serges—Flannels. Absolutely reliable kinds that are guaranteed not to lose shape or color.

As many patterns at this one price as you would expect to see at all prices from $12 to $25 put together.

Sole London Agency, 146 Dundas St.

THE PACKING OF APPLES

A Conviction for False Representation Amended by Judge.

Fine Distinction Made in the Case of Eben James.

Toronto, July 19.—A case of the utmost interest to apple packers and dealers was decided at Osgoode Hall yesterday, when judgment was handed out by the divisional court on an application by Eben James for the quashing of a conviction for selling and having in his possession apples packed in packages having a shown surface falsely representing the contents of the package, in violation of the Fruit Marks Act of 1901.

Held that as ten of the packages were, according to admissions, in storage, and not intended for sale, and were not in fact sold, the conviction cannot be supported as to them, since in order to constitute an offense against the seventh section of the act in question there must be either a selling order in offering or exposing or having in possession for sale.

A DIFFERENCE.

The other eight packages having been exposed for sale and actually sold, an offense against the section in question was complete, though no sale or offer to sell had taken place. The having them in possession for sale being an offense against the section was immaterial, as they were not sold or purchaser was not imposed upon, because, as the fact was, the whole contents were tipped out of the packages for the purchaser's inspection, and he saw the quality of the bulk.

The conviction is to be amended so as to confine it to the eight packages, and the offense to having the package in possession for sale, and the fine reduced to $2. No costs to either party. Further legislation was suggested to cover the point.

A WONDERFUL CASE

Picked Up a Newspaper and by So Doing Saved Her Husband's Life.

Ottawa, Ont., July 14.—George H. Kent, of 309 Gilmore street, was dying with Bright's Disease.

He was in the very last stages, and the physicians had given him up.

At last one evening the physicians told his wife that he could not live until morning.

While watching at his bedside Mrs. Kent happened to pick up a paper containing an advertisement of a cure of Bright's Disease by Dodd's Kidney Pills.

A messenger woke up the nearest druggist and procured a box of Dodd's Kidney Pills, which Mr. Kent began to take at once.

He commenced to improve, and he was well and at work in two months. He has not lost a day through illness since.

That was seven years ago.

The rate of interest, which 15 years ago was 8 and 10 per cent on the best farms in the Mississippi Valley, is today as low as 3½ per cent on the banks of the Missouri.

When you feel weak, run-down, nervous, unable to work or think as you ought, take Milburn's Heart and Nerve Pills. t

CANADIAN CRACK SHOTS

Made Good Scores in Prince of Wales Competition.

England Won the Elcho Shield—Dispute and Dissatisfaction.

Bisley Camp, July 18.—With the wind very strong and shifty, the Canadian team faced the targets this morning and shot in the Prince of Wales competition. This match is always considered one of the most important at the Bisley meeting. The aggregate value of the prizes is £300. The distances are 200 and 600 yards, with ten shots at each distance. The scores of the Canadians who participated in this match are as follows:

	Yards. 200	600	Tl.
Sergt. T. G. Bayles, 10th R. G.	45	43	88
Capt. L. G. Davidson, 8th R. R.	49	38	87
Capt. W. C. King, 48th Battallon	44	38	82
Capt. T. G. Margetts, 25th Battalion	47	34	81
Capt. Mitchell, C.N.R.O.	48	35	83
Sergt. G. Mortimer, 10th R. G.	47	40	87
Color-Sergt. J. Moscrop, 6th D. C.	43	45	93
Capt. R. Rennie, 2nd Q. O. R.	45	39	84
Sergt.-Major T. Richardson, 5th	45	45	90
Sergt. E. H. Skedden, 13th	44	39	83
Major R. J. Spearing, 53rd	44	40	84

Davidson, Mitchell and Moscrop made exceptionally good scores at the first range, but Moscrop made the top aggregate score for the Canadians. The winner of the prize made a score of 95 points and Moscrop was only two behind that figure. Col.-Sergt. Moscrop's score gave him fourth place, and fourth prize, which amounts to £10. Richardson, in twelfth place, got £3; Bayles, in thirty-fifth, £2, and Mortimer, in fifty-ninth, £2.

The competition for the MacKinnon challenge cup began today. It is open to teams from England, Ireland, Scotland, Wales, Canada, Australia or any British colony. The shooting takes place at 800, 900 and 1,000 yards with ten shots at each distance. The Canadian team has been chosen as follows: Sergt. T. G. Bayles, 10th R. G.; Staff-Sergt. J. C. Carruthers, 4th Hussars; Capt. I. G. Davidson, 8th R. R.; Sergt.-Major E. MacDougall, 5th R. C. A.; Sergt. Geo. Mortimer, 10th R. G.; Col.-Sergt. J. Moscrop, 6th D. C. O. R.; Pte. T. J. Peddie, 5th R. S.; Capt. R. Rennie, 2nd Q. O. R.; Sergt.-Major T. Richardson, 5th R. C. A.; Pte. S. C. Scott, 43rd D. C. O. R.; Sergt. E. H. Skedden, 13th Batt.; Sergt. W. A. Smith, 43rd.

At the first range, 800 yards, in this competition, the standing of the teams is as follows: Canada 470, Scotland 469, Australia 468, New Zealand 462, Rhodesia 461, England 454, Natal 448, Ireland 423.

Sergt. T. G. Bayles, of the Royal Grenadiers, Toronto, made a score of 44 out of a possible 50 in the Keystone Burgundy match. The distance was 1,000 yards. Later—Bisley Camp, July 18.—Owing to Scotland having taken seventy minutes over the time allowed for shooting at the 800 range at Bisley, a dispute has arisen.

The teams, without being allowed, then finished shooting at 900 yards, but have been ordered back to 1,000 yards. Half way to the finish at the 900 yards range, Canada was leading, but Australia hurriedly finished and has the advantage. Several teams will withdraw from the competition, and great dissatisfaction exists.

ENGLAND WON ELCHO SHIELD.

The Elcho shield was won by England with a score of 1,587. Ireland was second with 1,520, and Scotland was third with 1,505.

By the accession of the new Earl of Chichester six British secular peerages are new held by clergymen. They are the Marquis of Normanby, the Earls of Chichester, Devon and Strafford, Baron Ponsonby, who is also Irish Earl of Bessborough, and Baron Scarsdale, the father of Lord Curzon, viceroy of India. Another Irish peer, Viscount Molesworth, is also a clergyman. The Eary of Devon, 91 years of age, is the second oldest peer in England.

STRUCK BY A FAST TRAIN

Alexander Roberts Instantly Killed at St. Thomas.

Two Men Killed and Three Hurt at Grade Crossing.

St. Thomas, July 18.—Alexander Roberts, while crossing the track west of the city, stepped out of the way of a train and was struck by the M. C. R. express, which was approaching from the west. It was said he was troubled with deafness. When picked up by the train crew life was extinct. He was terribly mangled.

CROSSING DISASTER.

Old Orchard, Maine, July 18.—Two men were killed and three others were seriously injured as the result of a grade crossing accident here today. The dead are: W. Mills, Boston; C. Mills, Boston. Injured: Jos. Valley, Biddeford, may die; Chas. Palmer, Boston; Chas. Sawyer, Kennebunkport. It is feared that Valley was internally injured.

VICTIMS OF SEWER GAS.

Boston, July 18.—An explosion of sewer gas, which had permeated the cellar of a house at School and Washington streets, in the Jamaica Plain district, wrecked that dwelling and the next one, and caused injury to several persons today. The one house was demolished, while the one next to it had the entire front blown out. Among the injured two were seriously hurt. They were taken to a hospital and are: Emma Morgan and Emily Houston. Both were unconscious when found.

KILED BY LIVE WIRE.

Ithaca, N. Y., July 18.—Thomas E. McMahon, 26 years old, a lineman, employed by the Ithaca Telephone Co., was killed today by contact with a live wire.

A CROOKED CLERK

Sentenced to Serve Five Years in Kingston Penitentiary.

Sault Ste. Marie, Ont., July 18.—Yesterday before Judge Johnson, Gordon C. Metcalfe, alias J. Cochrane, telegraph operator and ticket clerk, who, in December, robbed the Canadian Pacific Railway here of $243, was sentenced to five years' imprisonment in the Kingston Penitentiary. Metcalfe was extradited from Hartford, Conn., on two charges. The one upon which he has just been sentenced, and another of having stolen an express package containing $520 from the Dominion Express Company at Neepawa, Manitoba, in October, when he went by the name of F. S. Ballard.

It is probable further charges will be made against the prisoner on his release from the penitentiary.

Medals for Canadians.

Ottawa, July 19.—A member of the Canadian team at Bisley writes that all the men of the Canadian contingents are to receive a separate medal or star from the Cape Colony Government for their services there. This writer had seen the ribbon, which is orange and blue.

Sanitarium for Red Men.

Ottawa, July 19.—Dr. Bryce, secretary of the Ontario Board of Health, and Dr. Lachapelle, who holds a similar office in Quebec, have suggested to the department of Indian affairs measures to prevent the spread of lung disease among the Indians. Consumption is very common among the Indian bands, and Dr. Bryce thinks that a sanitarium should be established for their treatment, and that all suffering from the disease should be kept where they will not communicate it to the others. The subject will engage the attention of the asthorities.

As to Japanese Exclusion.

Ottawa, July 19.—The attention of the Dominion authorities has been drawn to the enforcement of the statute passed in British Columbia to keep out all Japanese who are unable to pass a prescribed educational test. A similar law was disallowed at Ottawa one year ago, and it is stated that the same fate will befall this second attempt.

The Federal Government is determined that no policy shall be pursued with regard to Japanese immigration which would offend Britain's chief ally in the Orient.

WESTERN ONTARIO.

The Woodstock Y. M. C. A. will camp at Port Burwell.

Dan Robertson, of the Perth flax works, fell downstairs and broke his arm at the shoulder.

Alex Davidson, a respected old farmer of East Oxford, fell from a load of hay and may die.

Mrs. Roy Thomas, a Brantford woman, talks of suing the town for damages because her husband was placed as a patient in the smallpox hospital, where he contracted cold that resulted in death, due, she claims, to the hospital being out of repair.

SOMETHING THAT SHOULD BE RUBBED IN.—Whenever pain is felt in the limbs or back, take Dr. Thomas' Eclectric Oil; pour a little in the hand and applying it to the surface beneath which the pain lies, rub briskly. If the first application does not afford relief, which is not usually the case, keep rubbing. The Oil will gradually penetrate to the affected part and relief will come.

The total population of the United States on June 1, 1900, as given by the final results of the twelfth census, is 84,233,069. The Chinese, British and Russian empires are the only countries which have a greater number of inhabitants. They also have greater area.

Colored Goods

I prefer PEARLINE to any other powder I have used. I do not think it will injure colored clothes, which is more than I can say for most other washing powders.

Mrs. Rev. M. E. M.

One of the Millions. 688

THIN END OF THE WEDGE

Canada's Claim for Preference—Sir Wilfrid's Visit to Paris.

London, July 19.—The Daily News says that Canada does not propose a general immunity of colonial grain from registration duty, but will use the bread tax as the thin end of the wedge to secure a preference, saying: "Canada gives you a preference of a third off everything; give us an immunity on corn and other grains."

The Earl and Countess of Minto, with their family, sail for New York today on the Lucania. They will proceed at once to Ottawa.

Sir Wilfrid Laurier, accompanied by Sir William Mulock, Messrs. Fielding and Paterson, will go to Paris after the coronation. Sir Wilfrid will visit Anjoumois, the home of his ancestors, during his stay in France, and will take a trip to Italy and call upon His Holiness the Pope. The premier and his colleagues expect to return to Canada about the middle of September.

REID ON MORGAN COMBINE

Says That the Venture Should Not Alarm Great Britain.

The Mother Country Is Assured of a Neutral Fleet.

Liverpool, July 19.—Speaking at a banquet here Thursday night, Whitelaw Reid, American commissioner to the coronation, declared his belief that the peace in South Africa would be permanent. Continuing, he said: "If you have sustained the threatened dangers of recent years you can surely face with equanimity the terrors of the Pierpont Morgan venture. I suggest that the apprehension aroused by the recent change in shipping with which his name is identified is somewhat exaggerated. Your power to secure at will for the navy as many cruisers as ever seems to be not in the least imperilled. If built in your shipyards such vessels are forbidden to pass under our flag by a law almost as old as our history and almost as hard to change as our constitution. If you accept the gloomiest view regarding the future control of the Atlantic carrying trade, it does not follow that New York would use that control to weaken the port most important to it. Liverpool. Even monopolies are not supposed to thrive by damaging their best customers. Besides, the monopoly in this case is fanciful. None has been created, I think none is desired, and I know none can long be successful."

Mr. Reid maintained that the Morgan combine obviated violent fluctuations in rates, and insured to Great Britain a great neutral fleet in which its food could be borne in spite of any possible enemy.

"I do not for a moment admit the possibility of war between out two nations," said Mr. Reid. "Nature revolts against it, and all the interests of that vast body of English-speaking peoples who in both hemispheres lead the world upward forbid it."

The speaker declared that neither Great Britain nor the United States would ever rule the world as did ancient Rome, or seek to do so, though there is no question that the English-speaking race leads the world in moral, material and intellectual progress.

Previous to the banquet, Mr. Reid visited the Liverpool Exchange, where he made a short speech expressing the sympathy Americans felt for Great Britain in the illness of King Edward.

MARVELOUS ESCAPE

M. C. R. Passenger Jumped From a Train Going 50 Miles an Hour.

St. Thomas, July 19.—A marvelous escape from instant death occurred yesterday near Windham. A passenger, Otto Rose, of Newark, N. J., walked off the platform of an M. C. R. passenger coach, when the train was running about 50 miles an hour, and is apparently not seriously injured.

This train on which the man was a passenger was No. 17, M. C. R. express, conductor Barney Paddon, which only stops at St. Thomas between Bridgeburg and Windsor. The brakeman on the train noticed the man go out of the door of the coach, which was at the rear of the train, and somehow drop beside the track. It is supposed that he was partially asleep. The train was stopped and the man picked up, brought to the city, and taken to the Amasa Wood Hospital.

Dr. W. E. Smith, the company's surgeon, had been summoned, and found the man in a semi-conscious condition, but able to converse, though he could give no account of how the thing happened. No bones were broken, and the only marks on him were a slight scalp wound and a bruise over the left eye.

It will be impossible to tell for a day or two whether he is injured internally. He is about 23 or 24 years of age.

PILES --- ITCHING, BLIND OR BLEEDING.

Symptoms: Moisture, intense itching and stinging, most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists or by mail, for 50 cents. For a free sample address Lyman Sons & Co., Montreal, wholesale agents.

It has been discovered that the corporations controlled by J. Pierpont Morgan and his associates pay in corporation taxes the entire running expenses of the State of New Jersey. The total sum is $150,738, of which the United States Steel Company contributes $54,669. The remainder is made up by seven other companies organized under the laws of New Jersey.

YILDIZ "MAGNUMS" Pure Egyptian cigarettes

10 for 25 cents, and THE BEST that can be made at any price.

MODEL SCHOOL STUDENTS

List of Those Who Passed Recent Examinations.

Miss Lizzie K. Penny Took the Honors and Won Gold Medal.

Toronto, July 18.—The following are the results of the recent examinations at the London Normal School:

Medalist—Miss Lizzie K. Penny.

Honors—L. K. Penny.

Passed—D. Augustine, J. D. Bannalyn, P. L. Bartties, E. M. Belzie, A. Bottom, L. Bradley, D. B. Braison, M. Buttoen, A. B. Campbell, J. Campbell, M. C. Campbell, M. Capling, R. Carrs, O. L. West, J. A. Young.

ROMANCE AT A PICNIC

Young Couple Steal Away Long Enough to Get Married.

Oswego, N. Y., July 19.—The culmination of a romance came to light today when the announcement was made of the marriage of Miss Frances B. Lewis and James K. Cochrane.

Among those who attended the Presbyterian Church picnic at Onondaga Lake on July 10 were Miss Lewis and Mr. Cochrane. The parents of the young lady objected to Mr. Cochrane's attentions, but, determined to marry, the couple stole away from the picnic party and were secretly wedded. The announcement of the marriage today was a complete surprise to the friends of the young couple. Mr. Cochrane is the representative of the International Correspondence School of Scranton, Pa., and the bride is prominent in society.

Horses Had Pneumonia.

Ottawa, July 19. — Col. Pinault, Deputy Minister of Militia, has a letter from Lieut.-Col. Boulanger, commanding the 4th C. M. R., in which that officer says practically all the horses on board the transport Winnifredian suffered from pneumonia on the way across. He gives great credit to Veterinary Captain Harrington, a Nova Scotian, for his work night and day in looking after the equines.

A court of inquiry fixed the responsibility for the mishap on board by which M. Grato, of Newcastle, N. B., was killed and four others injured, in a fall into the hold of the vessel. The party's name who is to blame will not, however, be published till the official report arrives.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

Ping Pong in the Jungle.

The friend of the returned traveler looked at him with a smile.

"Well," he said, "we've got one new thing at least to show you."

"And what is that?" the traveler inquired.

"It's ping pong."

The traveler's sun-baked face crinkled in a laugh.

"That reminds me of a little experience I had in Central Africa last winter," he said. "I had gone into the jungle looking for big game when I was surprised to see a white man approaching. He was equally delighted to see me. He explained that he was an English trader in ivory and was on his way back to the coast. 'By George,' he cried, 'I'm awfully glad to see you! Just hold on a minute!' And with that he hastily drove four stakes in the ground and stretched a section of an elephant hide tightly across them.

'Now,' he cried, 'we'll have a game.' I looked at him in amazement. I fancied for a moment that he had the jungle fever in his blood. 'A game of what?' I asked. He kicked a square box that was lying at his feet. 'Ping pong,' he cried.

"And did you play it?" inquired the friend.

"I should say we did!" replied the traveler. "We played it so deuced late that we had to sleep in trees that night to keep away from the jungle marauders."

Kent's county council has decided that baby carriages should carry lights at night, as the language of the statute regulating the lighting of vehicles is general enough to cover perambulators.

Leipzig University has had the good fortune, unusual for German universities, of receiving a $250,000 bequest from a private individual. It was after a complicated lawsuit with the University of Pennsylvania.

Greek architects have decided that the Erechtheum at Athens must be restored if it is to be preserved. The restoration will be limited to strengthening the building and putting in place the fragments about it.

FASHIONS IN JEWELRY

Bracelets Set With Jewels To Be Worn This Fall.

"What article of jewelry will rage next fall and winter?" repeated a fashionable Washington jeweler to a Star man this morning. "The bracelet, never entirely gone out of fashion, will once more appeal to women's fancy as hard as it will hit the purses of their husbands and sweethearts.

"The new bracelet will be jeweled, and all man and womankind may rejoice that the bangled bracelet has died a death frim which it is never to be resurrected. Bracelets set in jewels are, of course, very costly, but the real thing will be at once seized upon by the makers of what is called cheap jewelry, and after a few seasons a new form of personal adornment will catch the feminine eye, and it will pass, as have other fads in the jewelry line.

"A feature which will be found to be pleasing in the jeweled bracelet will be the many and diverse forms and settings, and the use of all the different jewels known to the jeweler's art, from the diamond to the garnet. The designers are already at work upon the new creations in order to have then on the market for the fall trade. I received a letter from our correspondent in Paris a day or so ago, in which he adverted to the novelty as turned out by the continental past masters at the trade, and American women may look forward to some beautiful and unique designs in the shops when they return from their summer outing. There are so many different colored stones, and which vary so in price, that it is possible to create designs and arrangements of colors and gems that will be irresistible to those who have the money to spend, while the cheaper but nevertheless attractive stones will answer for those who are not classed among the wealthy. If a woman has a pretty arm a jeweled bracelet sets its contours off to perfection, and if her arm be not rounded the bracelet lends an added charm.

"Necklaces set along the line of the jeweled bracelet will be a befitting accompaniment to the wrist adornment. Pearls or diamonds are the almost universal necklaces worn now, but the mixed jeweled circlet will prove an agreeable change, and the possibilities of the jeweler's art are almost without limit as to designs and settings.

"Speaking about fads for women in jewelry," continued the expert, "I am reminded how the barette, or pin, which is fastened in the back twist of the hair, has lasted. For several seasons about every woman you have met, from the rich to the poor, has worn this rather pretty hair piece, in all conceivable shapes and sizes. It has been like the Panama hat for men, and like the Panama hat, the fad will fly away some day and be forgotten.

"It is so with the thumb ring. Actresses and some fashionabe women have tried to make the thumb ring a 'go,' and this misplaced ornament has had somewhat of a vogue. The wearing of a ring upon the thumb, however, with eight fingers upon which rings may be worn more sensibly and to better advantage, has not appealed to women who are apt to apply common sense in the adornment of their persons by artificial means, while men have almost universally sneered at the fashion as being utterly inane. I have seen men smilingly draw a check for a large sum for a finger ring or a necklace, and scrowl as from an attack of indigestion when their attention has been invited by their better halves to 'a real, sweet little ring for the thumb.' Perhaps it is because women know that men inwardly ridicule the practice, where they lack the courage to openly condemn it, that accounts for the reason why the thumb ring has not become a universal fad, and let us give thanks.

"It is so with the little cane for women, of which, by the way, we sell many, but which are seldom seen upon our streets. To the mind of most men a woman carrying a cane is like the thought of a man carrying a parasol—the former is absolutely unfeminine. The excuse advanced for the fad that it gives a woman something to carry in her hand is not accepted except in contempt. Our sales prove that these canes are purchased, but the fact that they have not become popular to parade with would tend to confirm the thought that once a woman gets one at home she realizes at that home she should leave it when she goes out for her afternoon stroll."

"Oh, Woman in your hours of ease," (after using that Home Dye of highest quality, Maypole Soap,) think of the trouble you had with the old-fashioned powder dyes. A welcome to the brilliant fast colors you get so easily, safely, quickly with
