The Outlook.

New York, April 26—It seems that these are times to move cautiously as anything is liable to happen somewhere in the world any time. The London financial journals last week were convinced that peace was so imminent as to make any further doubts of no account.

But the whole concert of Europe is plunged into discord once more upon Austria-Hungary's ultimatum that the Montenegrins must be proceeded against by the powers in forty-eight hours, or she, Austria-Hungary, will herself march upon Scutari. And Russia looms up as a defender of the little new nation, the cords of the triple alliance seem to tighten and draw Italy and Germany into the cauldron of war. But patience and deliberation will prevail. Much of the war talk comes through influenced channels.

So serious a situation, however, makes for caution. Meantime, the smoke from the tariff battlefield over here is beginning to rise and opinions on the effects of the result run all the way from the highest optimism down to prediction of ruin to many industries and the battering to a standstill of the whole country's business.

Here and there a glimmer of light is discerned. The firemen's arbitration is over and satisfactory to both sides, furnishing an example for the avoidance of all strikes in the future. Some time, that will be accomplished. But the railroads look next for meeting demands from the conductors and trainmen—and an amicable outcome—but all meaning growing expenses and tight rubs for future dividends. Iron prices are declining, but steel concerns, which do not have their own furnaces, will benefit. To those which do, it will make no difference. Nevertheless, consumption of finished material has decreased somewhat and far ahead orders are falling off. Watch steel and iron for barometric business showings. Stocks are cheap, but bonds are cheaper. Stocks cannot improve healthily until Europe is settled but good bonds are a standby for investors, even in bad or equally weather. Some of them are yielding extraordinary incomes — for bonds.

Supreme court to meet today.

Attorney-General McReynolds says that government cannot open American Tobacco case.

Telegraphers talk of strike.

The action of the stock market at the close of last week was about as bad as could be. Think the absorption of stocks was rather better, good stocks and bonds look cheap. The good will stocks have gone into the discard, this helps the others. A bull leader now would have plenty of following. Stocks may be going lower, but I do not believe in selling them now. Would rather buy on further recessions.

PALMIST LEAVES NEARLY WHOLE ESTATE TO FRIEND

Estimated That John W. Fletcher, Suicide, Was Worth $35,000

Boston, April 28—The will of John W. Fletcher, a palmist, who committed suicide, at the Hotel Pelham on last Tuesday afternoon. It was made in 1908. It is estimated that the testator left about $35,000.

Cameron A. Patchin of New York, where Fletcher had an office, is the chief beneficiary, being willed all the property in Mr. Fletcher's New York suite in addition to receiving a straight bequest of $1,000 to be paid within sixty days of Mr. Fletcher's death, a bequest of $5,000 every three months for a period of three years, and the income from a trust fund established by turning all the residue of the estate after the gifts are taken out, into cash.

At the end of six years the entire fund is to go to Patchin, and in the case of his death before that time, the fund is to go to the Lowell General Hospital for free beds, in memory of the testator's mother.

The private bequests include $5,000 and a homestead at 49 Powell street, Lowell, to his aunt, Laura A. Abbott of Concord, N. H.; $1,000 each to Annie L. Coolidge of Westfield, Dr. Hansom A. Greene of Lowell, Daniel T. and Nancy Mason of Norridgewock, Me. Albert H. Hews of Reno, Nev., is bequeathed personal effects, including a ring said to have been formerly the property of the King of Bavaria.

Thos. H. Preston, colored servant in the Boston office of the palmist, is bequeathed $2,500 for "faithful service."

The residue of the estate is willed to Patchin under the terms of a trust.

Architect's Action Against Mayor

London, Ont. April 28—A. E. Nutter, former city architect, has instructed his solicitors to issue a writ against Mayor Graham, on an allegation. This action rose out of statements made at the last meeting of city council. The mayor it is said charged that the cost of the repairs to the court house and jail had been considered excessive because the original estimate of Architect Nutter had been too small. Mr. Nutter considers the statements a reflection on his professional ability.

QUEBEC PREMIER, HOME FROM ENGLAND, BRINGS GOOD REPORT

Montreal, April 28—Sir Lomer Gouin returned from Europe yesterday well satisfied with the position occupied by the Province of Quebec and the dominion at large in the financial and business communities of the old world and more especially in the capital of the British Empire. The prime minister was several weeks in London, interviewing the prime minister of England, meeting also the colonial secretary, the chancellor of the British exchequer and several other leaders of political thought in the capital of the empire. Nothing surprised the Quebec premier more than the exhaustive knowledge of the several British statesmen he met, regarding Canadian affairs, and even the resources of the several provinces.

"They know," he said, "our rivers, our lakes, and the extent of our agricultural resources as well as the productive qualities of the individual provinces. In fact, every paper in London seems to take great interest in the progress and general development of the dominion, as well as the several provinces."

TORY EDITOR ARRESTED ON CHARGE OF BIGAMY

Oshawa, April 28—W. J. Watson, police magistrate here, and lately editor of the Vindicator, A Conservative paper, was lodged in the local jail last night on a warrant charging Watson with bigamy. Civil proceedings are also being launched by D. A. J. Swanson, who is acting as private prosecutor.

Pittsburg, April 28—Final search of the Cincinnati Mine of the Pittsburg Coal Company near Finleyville, Pa., was completed this morning, and the fact established that all the dead, ninety-six, had been removed.

CHURCHILL, BEFORE COMMITTEE, RILED BY MARCONI MATTER

London, April 28—Winston Spencer Churchill appeared today before the parliamentary committee investigating the Marconi contracts. T. Powell, editor of a financial paper had stated to the committee that he had heard rumors, which he did not believe, that Mr. Churchill had had a "flutter" in Marconi shares.

"It is a most insulting charge and implies that I have been skulking in the background while my colleagues have come forward and explained their position. It is grave beyond words that a committee of my fellow members of the House of Commons should have thought it right to lend their sanction to the putting of such questions to me."

Having delivered this lecture to the committeemen Mr. Churchill proceeded: "I have had no dealings directly or indirectly nor any investment or interest of any kind in Marconi shares in any country."

"If anybody said so that person is a liar and a slanderer and if anybody repeated such a statement and stated that he believed it to be false the only difference between him and a liar is that he is a coward as well."

The members of the committee tried to mollify Mr. Churchill, but he rejected their excuses and indignantly left the room.

MONTREAL TRAIN HELD UP BY DAMAGE TO BRIDGE IN MAINE

Owing to an accident to a bridge the Atlantic express due here from Montreal at noon will be at least five hours late. The accident was due to a freight car which jumped the track on the Maine Central section near Bancroft, Me., and damaged a bridge to such an extent as to make it impassable for trains. The passengers of the Atlantic express, which followed, were able to cross the bridge on foot and a new train was made up at McAdam Junction and forwarded to the eastern end of the bridge where it took the passengers on board to complete their interrupted journey. The accident did not affect the Boston train, which arrived forty minutes late.

GOOD WORK KEEPING THE STREETS CLEAN

Comments have been made recently on the improvement shown in the cleanliness of some of the streets which have recently received permanent pavements, especially Charlotte and Dock streets. This may be partly due to the better surface, which is easier cleaned but there also appears to be some extra activity on the part of the employes of the public works department. The street cleaning apparatus has been increased this spring by the addition of a one horse sweeper and this has been found useful.

As summer approaches the suggestion is again heard that the watering carts might be given a chance to show their usefulness on Sundays as well as other days when they are needed. The many persons who are found on the streets on a fine Sunday in their best clothes seem to regard this as coming under the heading of permissible work as a work of both necesity and mercy.

In Indiantown this morning the street sweeper was put to work but no water was sprinkled before it started. The clouds of dust caused trouble and 'phone calls were made at the office of the superintendent with the result that the operations of the sweepers were stopped for a while, but the rain came and put an end to the grievance.

NEW ZEALAND AND THE NAVAL VESSELS

Montreal, April 28—Canada should take the question of imperial defence out of politics, as New Zealand had done, by putting patriotism before party, said Colonel Allan, minister of finance and defence in the New Zealand government here today.

He is returning to New Zealand after conferring with Premier Asquith and other members of the British cabinet, and as a result will have a new proposal on consolidation to submit to the premier of his country. He was not at liberty to make any statement about it.

DESTROY THE DEMAND FOR LIQUOR AND YOU STOP THE SALE

This is good reasoning and points to the only solution of the temperance question. DESTROY THE DEMAND FOR DRINK AND YOU STOP THE SALE, GOODFELLOWS. Take your pencils and figure ten men you knew ten years ago who drank. Where are they today? Figure ten men you knew ten years ago who did not drink, and note where they are today. THAT'S ALL.

There is an institute located at 46 Crown street in this city that is doing more with less fuss and noise for the cause of temperance than all these organized temperance societies combined. The name of this unique silent worker is the NEAL INSTITUTE. There men and women who have become slaves to the liquor habit are relieved of all craving, desire and appetite for liquor in THREE DAYE, no matter how much they drink or how long they have been drinking. The wonderful part of it is that the work is accomplished in THREE DAYS, and the percentage of patients who return to drink is the smallest of any institute of the kind in the world, the difference being this company's cures are successful. Those desiring to rid themselves of the curse of drink should investigate at once. THE NEAL WAY IS THE ONLY WAY. Call or write Mr. Hepburn, Manager, 46 Crown street, or 'phone Main 1685 for booklet and all information.

IN MEMORIAM

FLOYD—In loving memory of Mr. John Sumner Floyd, who departed this life April 28th, 1908.

Gone, but not forgotten.

MRS. JOHN S. FLOYD.

SIR CHARLES TUPPER CAUGHT BY MOVING PICTURES MAN

Amherst, April 28—Sir Charles Tupper spent an active day yesterday. In the morning he attended service in the First Baptist church and Sir Charles complimented Rev. P. J. Stackhouse on his sermon which he said was one of the most able he had heard. As he left the church moving pictures of Sir Charles were taken. This afternoon he will review the school children of Amherst.

In the case of Charles Watt, alleged murderer, of his sister's child, E. Lockwood, of the Cumberland Drug Store, swore that to the best of his knowledge he sold two ounces of chloroform to the accused. It was proved by Doctors that the bones found in the ash pile at the rear of Watt's house were human and similar to those of a baby about three weeks old.

THUNDER STORM CAUSES SERIOUS TROUBLE IN AMHERST

Amherst, N. S., April 28—A terrific thunder storm swept over Amherst this morning. Two houses and the transforming station of the Canada Electric Light Company, which supplies the power to the city, were damaged. Several departments of the Canadian Car Company had to stop work. The lights of the city will also be out of commission for about three days.

Two firemen and two electricians nearly lost their lives. They are William Henley, George Blanche, Will Fanning and Lauroe Miner. The entered the building and endeavored to save the two unaffected transformers, some oil exploded and the flames filled the end of the building. Three men jumped for a hatch, while Blanch escaped out of a window.

WORK BEGUN ON KANE'S CORNER EXTENSION

A start was made today on the extension of the St. John Railway Company's line to Kane's corner. A gang of men were on the job this morning and made a beginning. About forty men were employed and this number will be increased as the work progresses.

The beginning was made at Kane's corner and from there the operations will be extended towards the city, in one direction, and out the Westmorland road to the cemetery gates, in the other. The management announces their intention of rushing the work as much as possible to have the extension ready for operation at an early date.
