TO SUBSCRIBERS.

We feel called upon again to state that the rule must be adhered to, of accompanying orders of discontinuance with the full amount due to the time the paper is desired to be discontinued; and therefore it must not be thought merely sufficient to return a paper to the office and expect that it will be stopped. It is a general rule, and well understood, and parties will be held responsible for the subscription up to the time of settling all dues. We may add, that in many instances papers have been returned to this office without any wrapper, or without the original wrapper; in both which cases it is impossible for us to know by whom they are returned, and consequently whose paper to stop.

The Rev. J. Gunne requests that all letters and papers will be addressed to him, "Zone Mills, County of Kent." The Toronto Weekly Patriot and Montreal Herald will please observe this.

DIOCESE OF TORONTO. ETOBICOKE.

The Annual Meeting of the St. George's Parochial Branch of the Church Society, was held in St. George's Church, on the evening of Monday, 28th ult. Notwithstanding the unfavourable state of the weather the attendance was so numerous as to warrant the hope that the bringing them to account. nembers of this congregation are becoming sensible of the importance of sustaining this eminently useful religi ous Society. After evening prayers read by the Rev. R. J. Macgeorge, in the course of which two appropriate

Missionary hymns were sung by the members of the choir, the Rev. H. C. Cooper, read a brief report of the establishment and progress of the association.

Resolutions were moved and seconded by the following gentlemen, viz:—The Rev. R. J. Macgeorge, and the Rev. H. B. Osler, by Messrs. T. Champion, Thomas Fisher: E. C. Scarlett, F. Whitney, and A. Ward. Fisher; E. C. Scarlett; F. Whitney; and A. Ward.

The several speakers were listened to with much attention, and the meeting separated strengthened, without doubt, in the conviction of the Church Society being well adapted to give permanence to the sacred institutions of the Church, and to promote thereby the best interests of Dubic Works, in the place and stead of the Honourable Malcolm Cameron, resigned.

EBENEZER ELLIOT, THE CORN-LAW RHYMER .- This remarkable man, just deceased, was born on the 17th of March, 1781, being one of eight chidren. His father was a clerk in the iron-works at Masboro,' near Rotherham, with a salary of £70 a year. The few particulars which are known of his early youth present him to us as noted for good nature, sensibility and extreme dullness. It was for this last quality that Ebenezer was sent into the foundry while his backs. while his brother Giles was promoted to the counting-house stool; for on leaving school the father was amazed to find the young poet deficient in the merest rudiments of arithmetic. In time he became a great reader. History and political economy were his favourite subjects; but he delighted in the classic poets of Greece and Rome, although he could only enjoy their beauties through translations. Homer and Æschylus were his great favourites and in his counting-house might be seen, twenty years afterwards, the figures of Achilles and Ajax, Elliot has often been incorrectly instanced as a poet of the working classes but the figures of Achilles and Ajax, Elliot has often been incorrectly instanced as a poet of the working classes, but. Only a small part of his life was spent in manual labour. He came to Sheffield a young man, some hundred and fifty pounds worse than nothing, where, after many failures and much endurance, fortune at length visited him. He began the business of a bar-iron merchant, at a house in Burgess-street, which is now shewn to the traveller as one of the "sights" of Sheffield.—This place becoming too small for him, he removed his warehouse to Gibraltar-street, Shalesmoor, and built at Upper Thorpe a handsome villa for his private residence. At this time, such was the prosperity of the town of Sheffield, that he used, as he was wont to relate, to sit in his chair and make his twenty pounds a day without even seed. perity of the town of Sheffield, that he used, as he was wont to relate, to sit in his chair and make his twenty pounds a day without even seeing the goods he sold. The Corn laws, he says, altered all this, and made him glad to get out of business with part of his gains. As it was, the great panic of 1837 swept away some £4,000 of his property. Among the massive bars which enclosed him even in his counting-house, Elliot made poems, and under the shadow of Shakeneare and Ralaigh in the same place, achieved a of Shakspeare and Raleigh in the surns of manufactorium. Despatches from the Secretary of State for the Colonies to the Governor General.

(Copy.) -No. 442. Downing Street, 1st Jan. 1850.

My Lord—I have had the honour to receive your lordship's Despatch and its enclosure No. 113; of 18th Nowember, reporting that you had resolved on the advice of Your Council and after full and anxious deliberation, to act on the recommendation of the House of Assembly on the subject of the place at which the future Sessions of the Provincial Parliament should be held, and summon the next Parliament to meet at Toronto.

prove successful, and my approbation of your Lordship's determination to act upon the opinion expressed to you by the Representatives of the people of Canada.

I am, My Lord,

Your most obedient Servant, (Signed.) Right Honourable the Earl of Elgin.

Downing Street, 9th Jan., 1850. My Lord, -I have to acknowledge your Despatches of Mr. Speaker, and Gentlemen of the House of Assembly :

3rd Dec., 1849.-131; 14th Dec. 1849.] 2. I have laid these Despatches before Her Majesty, and also the Address of the Warden and Councillors, of the Municipal Council of the District of Gore: of the Lt. Colonel and Officers of Militia of the 1st and of the 8th Battalions of the Regiment of Dorchester: of the Officers of the 4th Battalion of the Begiment of Kamouraska, and the inhabitants of the Parish of Ste. Anne de la Pocatiere: and of the Officers of Militia and Lieut. Colonel Comand of the Officers of Militia and Lieut. Colonel Commanding Battalions of the Regiment of Quebec, enclosed in the two first of these Despatches, which Her Majesty has been pleased to receive very graciously. It has afforded Her Majesty great satisfaction to receive these expressions of that loyalty and attachment to the British Crown which she trusts is generally felt by Her Canadian

minions for the purpose of annexing it to the United States, which forms the subject of the 3rd of these De-spatches, I have to inform you that Her Majesty approves of your having dismissed from Her Service those who have signed a document which is scarcely short of treasonable in its character. Her Majesty confidently relies on the loyalty of the great majority of Her Canadian Sub-jects, and she is therefore determined to exert all the authority which belongs to Her for the purpose of maintaining the connection of Canada with this country, being persuaded that the permanence of that connection is

ions, and to mark in the strongest manner Her Majesty's displeasure with all those who may directly or indirectly

encourage such a design. 5. And if any attempt of this kind should take such a form that those who are guilty of it may, according to such advice as you may receive from your Law Advisers, be made responsible for their conduct in a Court of Justice, you will not fail to take the necessary measures for being in them.

I am, My Lord, Your most obedient Servant, (Signed,) GREY.

LOTTERIES AND PIETY .- At the late meeting in Toronto, to assist the Lottery Railroad, the following occurred:—"Amidst loud cries of 'question,' E. F Whittemore, Esq., said he had received a letter from a gentleman of known piety—one who was advertised to preside at a missionary meeting next week—he meant the hon. Malcolm Cameron. (The letter stated the full concurrence of Mr. Cameron in the objects and principle of the resolution.) He (Mr. W.) fully concurred in its sentiments; he had at first objected to the tirage, but he had changed his mind; he did not at all believe that the morals of the country would be affected by this operation." We quite agree with Mr. Whittemore, in his opinion of the "known piety" of the celebrated coon treer. His piety is as well known as was that of the Pharisee, who published it in the synagogue. Every sect and denomination which possesses political influence, have in their possession indubitable evidences of the piety of their benefactor. One day furnishing stoves for Roman Catholic Churches, and the next subscribing to assist the Congregationalists in erecting a building: now lecturing on teetotalism, and anon obtaining possession of a raft, by treating the occupants to whiskey, galore: in the same breath, supporting a Lottery scheme, and accepting an invitation to preside over a Missionary Meeting—Mr. Cameron's "known piety" is manifested in many remarkable ways The Missionary exercises, and the Lottery speculation. being among the latest instances; are well deserving the pencil of our friend Punch.—Hamilton Spectator.

So great was the force of the explosion that fragments of the buildings were scattered in every direction. The windows in the neighbourhood were broken, and a large portion of force into the houses opposite.

The building was valued at \$15,000, six stories high, and owned by Messrs. Harper & Brothers, Publishers. The machinery was valuable, and all destroyed. The hatters had not come to work, except two and they escaped. Altogether 40 bodies have been taken from the ruins, either dead or wounded. Some horribly mutilated. The number remaining in the ruins not known-supposed to be about 60. - Abridged from the Colonist.

the Shin, Glands, and Muscles, Cuts,

Stings, Bruises, Sprains, &c.

Endorsed by the first professional talent in the United States; it's efficacy attested by thousands of well-known citizens; sold at a price which places it within the reach of every family; recommended by journals of the highest standing in the country; equally applicable to two specific and widely different purposes and everywhere in demand, BARRY'S TRICOPHEROUS may be fearlessly pronounced, on the most incontestible evidence, the Best, the Cheapest, the most Popular preparation for restoring and beautifying the Hair, Eradicating Scurf and Dandruff, and curing all Diseases of the Skin, the Muscles and Glands, which has ever been offered to the Public, either in the Old World or New. It stands alone—"It has no brother, and is like no brother." A volume of anthentic testimony and analytical proof of its value accompanies every bottle. To gainsay the record is impossible for every purchaser adds one more to the legion of witnesses arrayed in its behalf.

The philosophy of its operation is simple. Its first action is upon the Skin. It gently stimulates every torpid vessel, and enables Nature, by a vigorous, healthful effort, to throw off any inflammation, eruption, or exfoliation of the external membranes. If the inflammation be caused by a crit, sprain, or bruise, the effect is the same. The absorbents are invigorated, the extravasated blood is soon taken up, and all painful discobration is refroved. In Rheumatism, Swellings of the Glands, and all affections of the integuments, it acts specifically through the pores and the absorbents upon the seat of the disease.

Its wonderful effects in renewing, clossing, beautifying and cleansing the hair, are all produced through its primary influence upon the skin of the head. The invigorating fluid enables the scalp to perform its functions properly. The scurf and dandruff which a singish circulation had allowed to accumilate are thrown off—the vegetative principles fluids is way to the vesicles in which

of not more than sixteen years of age, to be Educated with his own sons.

In order to render his system of Education as complete and perfect as possible, he will devote his time solely to the Care and Instruction of his Pupils.

A prominent feature in his plans is, that those placed under his row, be not allowed, even during the hours of relaxation, to be without proper surveillance, thus preventing those fatal practices which but too often have their origin when boys ought to be engaged in such healthy recreations as will refit them for study; and thus, too, untiting, what indeed can never be separated without inflicting inductable injury on youth—moral and untellectual training.

The advantages offered at Picton, beautifully situated as it is ardid the picturesque scenery of the Bay of Quinte, easy of access both by Land and Water, and remote from the frequent exclument of more populous Towns, appear, in every respect favourable to this design.

Begides half-yearly public examinations, there will be weekly recitations, and frequent lectures on scientific subjects, illustrated by diagrains and suitable apparatus.

The comfort and health of Boarders will receive from MRS. PHILLIPPS peculiar and unremitted maternal care.

For Board and Tuition, in all the ordinary branches of a sound English Education, with the Greek and Latin Languages, and the Marhematical sciences—250 per annum, payable quarterly in advance. The terms for Day Scholars may be known by personal application. Picton, October 16th, 1849.

CONSUMPTION. This terrible disease is commonly attributed to our climate. But if the climate were to blame, the disease would have teen inflicted on that, and not upon the people. We think the fault is in the people and that if they people would keep the skins of themselves and their children properly washed, and abstain from glutiony, poison, and idleness for a generation or two, CONSUMPTION would be no seen known. idleness for a generation or the more known.

However, Consumption prevails as matters are, and picks off the best and prettiest of us, if our prime. In this state of things we must do the best we can piece and patch out the web of life, with journeys, voyages, and medicines.
