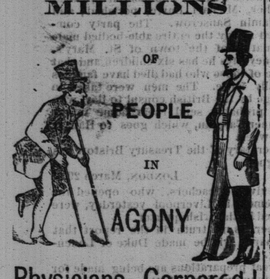
MILLIONS



OF PEOPLE IN AGONY

Physicians Cornered!

I SUPPOSE there is not in the whole of a physician's experience, anything in human suffering which calls forth his sympathy, and pity, to such an extent, as to witness the excruciating pains of a poor mortal, suffering from that fearful disease.

RHEUMATISM!

Heretofore there has been a considerable diversity of opinion among medical men, as to the true character of this disease. Some locating it in the fibrous or muscular tissues of the system, and others viewing it as an acute nervous disease: but it is now generally admitted to be a disease arising from a poison circulating in the blood, and further it is admitted that Rheumatism can never be thoroughly cured without exterminating such poisonous matters from the blood, by a constitutional internal remedy. We feel confident that none will feel better satisfied and rejoice more, than the conscientious physician, who has found out that a cure for this stubborn disease has been discovered. The following testimony from a gentleman of standing, and high respectability, and well known to the Canadian public, cannot fail to satisfy all that the

DIAMOND RHEUMATIC CURE!

is a wonderful medical discovery.

MR. ISAACSON'S ENDORSATION.

MONTREAL, 21st March, 1874.

Messrs. DEVINS & BOLTON,

Dear Sirs,—I, with pleasure, concede to the agent's wish that I give my endorsation to the immediate relief I experienced from a few doses of the Diamond Rheumatic Cure, having been a sufferer from the effects of Rheumatism, but now, after taking two bottles of this medicine, entirely free from pain. You are at liberty to use this letter, if you deem it advisable to do so.

am, sirs, yours respectfully,

JOHN HELDER ISAACSON, N. P.

FURTHER PROOF.

I AM ANOTHER MAN!

ST. JOHN, N. B., Sept. 29, 1874

A. CHIPMAN SMITH,

Dear Sir,—I have suffered for fifteen months with Chronic Rheumatism, and could not find any relief, after trying every medicine that I saw advertised to cure it, until I was told about the Diamond Rheumatic Cure. I have used three bottles of this valuable remedy, and now can say that I am another man to what I was. I would advise anybody suffering with this terrible disease to try it, and see if it does not do the same for them that it did for me.

Yours. JAMES L. ROGERS, Indiantown.

BARNES' HOTEL,

ST. JOHN, N. B., Sept. 29, 1875.

A. CHIPMAN SMITH,

Dear Sir,—I have great pleasure in stating that I put every confidence in your Diamond Rheumatic Cure. I have suffered for the last two years with Rheumatic Pains, during which time I have had the advice of some of the most prominent medical men in the Province, and experienced no relief, until I tried the Diamond Rheumatic Cure. I have now taken three bottles, and I feel greatly improved, and now am confident of a permanent cure.

Yours truly, JAMES O'BRIEN.

There is no medicine which so promptly relieves the depressed vital action, restores the general and local circulation, allays the pain, dissipates the congestion, prevents inflammation, and restores the healthy action as the

DIAMOND RHEUMATIC CURE!!

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock ask him to send for it to

Canadian Knights.

To the Editor of the Tribune.

When such paragraphs appear in the papers as, 'Mr. So So, is about starting for England to be knighted'—and no remarks made about the affair, it seems to me the people are not alive to the flunkeyism displayed by persons who would be rulers. What do we want with knights in this country—are we living in the feudal and semi barbarous times when knights (admitting they were more enlightened than their retainers) were useful? Will knighthood help the state of the country? Will titles of nobility raise the standard of honor? Will they purify our corrupt leaders? In the pursuit of them will more virtue and less vice be encouraged, or contrary-wise? Does this country need a titled nobility? Do our farmers, merchants, manufacturers, sailors, desire an artificial and visible nobility to be worn outside of the skin? Why should we encourage a state of things in this new, that is not generally liked in the old country, and exists more through sufferance and a conservative spirit than necessity?

These questions I cannot but believe have been thought of by the people; why more has not been said seems unaccountable. This country is essentially democratic; every man makes his own future, and those who have won titles as a general thing have not ennobled the title, and if we are not wrongly informed the titles have done very little toward ennobling them; and take this question of manufactured nobility, 'tis merely a colonial excrescence of European snobbery—an imitation of Cockney flunkeyism, a desire not so particularly to be, but to appear bigger and better than their neighbors, whether the higher and truly noble qualities are possessed or not. In our young and thriving country, where work is honorable and labor not disgraceful, this attempt to introduce the silk stocking and sworded gentry ought to be opposed by every native and foreign born citizen. For in this our Canada we need no titles, no emblems of foreign gentility; a man's own acts alone stamp his degree of native nobility! If I am alone in this spacious and northern portion of this northern continent, my voice will still count one against our nickie aristocracy; should I be one of the great majority which opposes with ridicule the affected pretensions of (I think I am safe in saying) a very small number of toad eaters, I shall be proud that I have as an atom of such a mass recorded my voice against this institution which can be of no real benefit, and were it beneficial can not be generally enjoyed. It is likely there are thousands of persons equally as good, as learned, as patriotic, can not in the nature of things be rewarded by the sovereign with patents of nobility; and that small number so favored, are they, have they been, or will they be, more patriotic citizens, better subjects, more honorable men, worthier public servants, or in any manner more desirable residents than those lacking the parchment respectability? are the queries of a YEOMAN.

NOTES AND NEWS.

NOVA SCOTIA.

The last old inhabitant who died in Halifax was a woman who had seen 106 years.

Charles Augustus Lincoln, who recently passed through St. John on his walk from Louisiana, has reached Halifax.

In August, 1873, a quantity of smuggled jewelry, consisting of watches, brooches, rings, etc., were seized by the Customs' authorities in Halifax. A few weeks since, in the Supreme Court, these goods were confiscated, and ordered to be sold at auction. The sale came off Saturday, when $1091.20 was realized for the lot.

GENERAL.

A "ring" is announced in connection with Boston's new Post Office.

Bath, Me., has a new city marshal; and cider is the strongest the thirsty one can find.

The Houlton Trotting Parks is for sale, and they talk of turning it into a potato field.

The Bangor churches were profusely decorated with flowers on Easter Sunday, with a happy effect.

Unhappy Charlottetown! They have commenced to discuss whether Shakespeare wrote the plays or not.

Mr. Torrens is getting eastward again with his concerts. Two will be given in Bangor about the middle of April.

The Ottawa *Citizen* denies that Mr. Poirier, Postmaster at the House of Commons, has been dismissed for using insulting language to Sir John A. Macdonald.

The Odd Fellows of Charlottetown celebrated the anniversary of the Order on the 26th, by a procession to church in the morning, and a musical and literary entertainment in the evening.

In the seduction case of Ferguson vs Slater, recently tried at Barrie, Ont., the girl was only 14 years of age and was seduced by her grandfather, a man of 78. There was a great deal of hard swearing in the case. A verdict of $600, for plaintiff, was given.

A short time ago a resident of Lot 16, P. E. I., went home intoxicated, and undertook to water his horse. While in the act of dipping a bucket of water out of a spring, it is supposed his foot slipped, and he fell in head first. He was drowned in about four feet of water.

Littell's Living Age, bearing date March 27th, completes volume 124 of this eclectic weekly. The contents of this and the preceding weekly number are Sir Philip Sidney; Early Kings of Norway; The English Bar and the Inns of Court; Religious Revivals in Medieval Italy; Old Letters; National "Stoutness;" Vagabonds in Winter Time: The Tyranny of Mothers; Egotism; The "Story of Valentine and his Brother;" "Three Feathers;" "Fated to be Free," and "Alice Lorraine." The usual choice poetry and miscellany complete the numbers. The next number, the first in April, begins a new volume, a good time for beginning a subscription.
