MOFFAT'S
Life Pills and Phœnix Bitters.
These Medicines have now been before the public for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.
IN MANY THOUSANDS
of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have proved that uniform enjoyment of health life itself is but a partial blessing, indeed, has their efficacy invariably proved, that it has appeared ridiculous to those who were ignorant of the scientifically philosophical principles on which they are compounded, and even absolutely not. It was to their action in purifying the springs of life and enabling them with renewed vigour, that they were indebted for
least of vegetable ingredients, the PURGATIVE PILLS of pernicious quackeries which CINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.
The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, the fruitful source of evils, or sudden Diarrhœa, with all its dangers. This fact is well known to medical practitioners who examine the grounds of death; and hence the prejudice entertained men against the quack medicines. The second effect of the LIFE MEDICINES is to strengthen and invigorate the bladder; and, by the action of the lungs, the healthful action of the skin upon the regularity of the flow of the blood, which takes its red colour from the liver and lungs, before it can, being thus purified by them, receive nourishment by food coming from a clean stomach, sources freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.
The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be invaluable:
DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.
Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence, that purges leave the bowels coarse

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.
Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.
Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.
Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of TWENTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

£100 REWARD.
WHEREAS some malicious person or persons have circulated a REPORT that SEVERAL HUNDRED CHESTS OF DAMAGED TEAS, had in their possession, and (from the effects of salt water) poisonous or their nature, lately sold in this City, were purchased by me, I hereby offer a REWARD of £100 to any person who will bring to conviction the author or authors of such a slander, as such report is false, malicious, unfoundedness, and intended to injure my reputation.
It is well known that I and I alone have been the regenerator of the Tea and Coffee Trade in Canada, that mine (the Carlton House) is the only establishment for the exclusive sale of Tea and Coffee in either the Upper or Lower Province, and that my unlimited experience has been placed in the proud position which it now holds, notwithstanding the immense amount of malicious opposition I had to encounter. It is also well known that I have never interfered with trade, and that I have never exposed, nor known fact of the inexpressibility of keeping Teas in a proper condition where turpentine, codfish, oil, soap, molasses, candles, snuff, tobacco, &c., &c., are kept; but when any good source and unstudied opportunity, offers, as in this case, I cannot overlook it, and have only to say that about this calumnious slander be persisted in, the Public may have a list of the names of the purchasers of the Damaged Teas, above referred to, which I have in my possession.
I have been for years, and am now, in the enjoyment of my unsullied reputation with impunity.

lately discovered by Mr. McCombie, of New York, and of which he is the sole Proprietor and Patentee.
The immense demand for the inestimable composition throughout the United States, has made it difficult for the Proprietor to keep up the supply; and the Agent feels confident that a few trials of it in this quarter of the Continent will afford such satisfactory results that the Sale will be proportionably large.
It is sold in Bottles, with directions for use, price 3s 9d for each Bottle, at Wm. McMaster's Cabinet Warehouse, No. 136, Notre Dame Street.

The Electric Telegraph from London to Liverpool, dated Saturday morning, November 23, 1850—11, A. M., gives the following from the London Times:—

PRUSSIA.—Opening of the Berlin Parliament.—The Parliament was opened by the King on the 21st November. The Royal speech is to the following effect:—

"My intention to create a constitution which shall answer the wants of the German nation, has hitherto failed."

"In my hopes of the future, I have clung to the idea which pervades my endeavors, but I cannot resume its realization on a new foundation, until after the decision respecting the new formation of the German Confederation.

"I hope that the negotiations on this subject will soon come to a prosperous end. I hope that our armaments will suffice to protect our rights.

"If this point be gained, that armament has no danger for the tranquillity of Europe. For my people are not only strong, but considerate. We seek not war. We seek not to infringe on the rights of any body, but our endeavor tend to effect an arrangement of the common fatherland which shall be suitable to the continent of Prussia."

Paris, P. M.—The Royal Speech has caused the greatest excitement. It is thought to be favorable to the war party. Prussia has promised to support the Brunswick protest against the passage of the federal troops. The Ministerial journal appeals to the Parliament, entreating them not to pre-judge the policy of the Cabinet; nevertheless, the overthrow of the Manteuffel Cabinet is considered as certain.

Hanover has declared the mobilization of its federal contingent. The Hanoverian Cabinet has declared its assent to the passage of a federal army through Hanover to Holstein.

At Vienna, November 17, the state of affairs was unchanged. The greatest secrecy was observed respecting the final intentions of the Austrian Cabinet. The movement of troops continues.

Another corps of Prussian reserves was announced at Cassel, on the 19th. The corps of General Grooven had received reinforcements. It had advanced to Burgham, on the Fulda road. The federal army, of 23,000 men, is still in and around Fulda. Having consumed the substance of the districts they occupy, hunger will soon compel them either to advance or retreat.

A letter from St. Petersburg states that Lieutenant-General Schwarz, Commander of the Military District of Djaro Belokany, and of the frontier Cordon of Lenghi, had been cashiered for exceeding his powers, and acting with cruelty to his soldiers. The Emperor had confirmed the sentence. Two majors and an auditor had been sentenced on the same charges, to be dismissed from the service, with loss of the rank of nobility, and one year's imprisonment in a fortress.

From Turkey there is intelligence that the whole country of Bosnia and Erzgovinia is in arms. The civil war there reigns with all its horrible consequences. The city of Sarajevo, with its 60,000 inhabitants, and its innumerable riches, is besieged by the insurgents, at the head of whom are the two sons of the Vizier, Ali Bashaw, and the Bashaw of Tula. The Kraina is also revolted.

At Aleppo, a terrible riot had taken place on the 17th of October last. The Turks of Rab-el-Niram and the Bedouins Arabs attacked the city, and committed the most shameful and bloody outrages; burning and plundering the houses, setting fire to the churches, committing outrages upon the women, and killing many of the inhabitants. The Christians, who were at first taken by surprise, at length rallied, and succeeded in repelling the assailants, but not before they had suffered from the barbarous acts to which these barbarians had first given their consent without murmuring, but they were excited by a gang of robbers, and abandoned themselves to their natural desire of plundering.

The Hungarian refugees, who are still in Turkey, will soon be set free, and probably will leave that country, where they are too near the grasp of Austria and Russia. Count Batthany and Mr. Perczel will come to Paris, and Kossuth will go to London. In Austria, on the 9th instant, the Emperor had granted a full pardon to all the Hungarian officers who would rejoin their corps before the end of March, 1851.

Great Meeting at Liverpool.

On Wednesday a great Meeting took place at the Liverpool Amphitheatre, which was crowded by an enthusiastic assemblage, many of whom were Roman Catholics. Several Priests of that persuasion appeared, and took their seats upon the platform.

The Mayor, upon entering the Amphitheatre, was greeted with loud cheers.

The Requisition having been read, the Mayor expressed his hope that the Meeting would be conducted in an orderly and temperate spirit.

Mr. T. B. Horsfall moved the first Resolution.

[illegible] guage of the Bishop of Durham, echoed by the Prime Minister, and by the people of England, an insolent and insidious aggression.—(loud cheers, cries of "No!" and confusion.)—an aggression which must and would be resisted by the people of England.—(Tremendous cheering, and partial hooting.)—He knew there were among the Roman Catholics of this country some of the most loyal men in the Kingdom.—(Cheers.)—The Resolution he had to move was as follows:—

"That it is the opinion of this Meeting that the recent aggression on the part of the Pope in appointing a Romish Hierarchy over this Protestant country, is an invasion of the prerogative of the Crown, and an encroachment on the civil and religious liberties of the people."

He had in his hand the Law Times, in which this question was argued at great length in a purely legal point of view. The writers in that paper said, upon the illegality of this question, that it appeared to them that the Statute of the 1st Elizabeth, chap. 1,—(groans and cheering.)—was still in force; that the words were amply sufficient to meet the present case;—(great confusion, and three cheers for the Queen)—and that, although the particular penalties mentioned in the Statute were repealed, yet it appeared that the maintenance of the authority and jurisdiction of the Pope in this country was still illegal and still punishable by law.—(Cheers.)—Mr. Horsfall then read the Bull of Excommunication issued by the Pope against Queen Elizabeth
