A REMARKABLE CURE.

Lockport, Niagara Co., N.Y.

Dear Sir,—Nearly four years ago I was very sick. My disease was complicated; my liver was very much enlarged, my Kidneys in a very bad state; I had the Rheumatism in every joint in my body; Dyspepsia set in, and everything I eat distressed me so much that I had to give up eating solid food of any kind. I was very low. Physicians and friends did all they could to relive me, but all to no purpose. At last I was seized with Congestive Chills, caused by the state of my Liver, and my life was despaired of. I was reduced to a mere skeleton and death seemed staring me in the face. In this hour of despair my husband happened to pick up one of your pamphlets and brought it to me. I saw it was your INDIAN BLOOD SYRUP, and my eye caught a certificate of the cure of a case something similar to mine, but not so much complicated. He procured some of it from your Agent and commenced using it, and in a few days my Chills were lighter and my health improved. My health is good for a person of my age. I am 75. I believe that medicine was a Godsend to me. I send this certificate, hoping it may prove a blessing to the afflicted, as in my case.
