AN ADVANCE IN WHEAT.

A VERY FIRM FEELING IN LIVERPOOL AND CHICAGO.

Small Decrease in the Visible Supply—Toronto Stocks in Store—Barley Dull in Oswego—Foreign Exchange—English Farmers' Deliveries This Week.

MONDAY EVENING, April 16.

There was a great strengthening in wheat today. Cable news from Liverpool stated that the market there was firm, and in Chicago prices advanced and closed strong at 8½c, the highest for May wheat for several months. Stocks in New York were steady; in Montreal fairly active and steady; and in Toronto dull with higher prices.

THE FRUIT MARKET.

Views of Different Parties—Why Should Toronto Spend $20,000?

There is a good deal of discussion among fruit growers and dealers, doing business in Toronto, about the establishment of a fruit market. The World talked to a good many of the fruit dealers yesterday, and found some favorable to the scheme and some opposed to it.

The way the commission men do business now is an unhandy way. The fruit is brought to the Union Station, and what comes by express is unloaded as soon as the trains arrive. The retail dealers and others have got into the habit of going to the station to buy. They see what comes by express, but the freight lots are taken to the commission houses and therefore lose in value on account of not being placed on exhibition where purchasers congregate. Besides this fruit is landed at the Yonge-street wharf, and the commission men are kept running from one place to the other all day. It would save time to have the fruit landed all at one place.

This is what the fruit growers' and commission men propose. The City Council and the Grand Trunk Railway Company have come to an agreement to have the old Northern & Northwestern Station moved out to the street, the city giving the street in lieu of the benefit the Grand Trunk confers by stopping their regular trains and starting their suburban trains there. While moving the station out the Grand Trunk offers to build a platform 40 feet wide by 140 feet long on which to deposit the fruit coming in by both freight and express. The moving out of the station necessitates the opening of a street between the station and the armory and unless more property is used for street purposes than that immediately in the rear of the station the turns may be too sudden to accommodate heavy traffic. The fruit men want the city authorities to cut the street at the west entrance through the city property. If the city does this they will have room for their express wagons and carts on the open space between the Esplanade and the curve of the street, but unless such provision is made the market would be useless, as there would be no room for the expressmen. It is on the understanding that the city will give this ground that the Grand Trunk has promised to build the market. The value of the property is placed at $20,000, but that price is thought a fancy figure.

On the other hand some commission people ask why the city should spend money to accommodate the farmers of Lincoln or Welland. If the market were built these fruit growers would ship by freight instead of by express. A good many of these farmers are grangers. They want to do away with middle men, and if the middle men are to be sacrificed they think at least the grangers should pay the piper for the accommodation they are to get. They say that a good many of the grangers would come down in the morning, bring their dinner, sell their fruit and go back before tea. They do not see that the city should spend $20,000 for these people's benefit.

The whole matter will be fully discussed and brought before the City Council. Plans and estimates are being prepared for submission. Ald. Johnston, Ald. Frankland, Ald. Verral and Ald. McDonald represent the Markets and Health Committee; Mr. Wenger represents the Grand Trunk, and Mr. G. McWilliams of McWilliams & Everest, Mr. Davis of Rice & Davis and Mr. J. Jackson & Son represent the fruit men.

GRATEFUL—COMFORTING

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

Made simply with boiling water or milk. Sold only in packets, by grocers, labelled thus:
