THE PROVINCIAL EXHIBITION.

The Provincial Exhibition, which closed on Friday last, was successful beyond the most sanguine expectations of its promoters. It was successful in the extent, variety and magnificence of the exhibits, in the very large number of visitors, and in being favored with most charming weather. It is estimated that about twenty thousand persons visited the exhibition during the four days of its continuance. About six thousand entered on Wednesday, but Thursday saw the largest number, when about nine thousand persons were present during the afternoon.

To refer, even in a few words, to all the exhibits would be utterly impossible within our space, notwithstanding that we devote this issue almost exclusively to the exhibition. We shall, therefore, be obliged to content ourselves with a general reference to the exhibits, on the whole, as they presented themselves to us.

Entering by the main western door of the exhibition building, the first thing to attract the visitor's attention was the magnificent fruit display. Here were every variety of apples, plums, damsons, etc., all affording indisputable proof of Prince Edward Island's capabilities as a fruit giving Province. Following the corridor round the building, either to the right or left, one was brought face to face with the products of the farm, garden, and manufactories of the Province, and the exhibits of our merchants abundantly, carefully, and tastefully displayed. In the centre of the building there was a fine show of carriges and agricultural implements, and a very interesting exhibit of pottery from the works, near Charlottetown.

Along the gallery which runs all round the building were displayed musical instruments from different establishments, exhibits of painting and drawing, fancy work, exhibits of gas fitting apparatus, etc. ect. On Wednesday evening a concert was given in the building by the Philharmonic Society, and on Thursday evening a promenade concert by the citizen's band.

If everything within the building was excellent in quality and arrangement, the outside show was equally worthy of praise. The exhibit of horses particularly, was such as would do credit to any exhibition in North America, and may well be regarded as a source of the highest pride to our Island home. Mr. John Richards, of Bideford exhibited no less than seven fine specimens of horseflesh. Among them were a Shetland mare and her colt. The mare is thirty-seven inches high and the colt twenty-four inches high. It is needless to say that these attracted much attention. It is pleasing to notice that the prizes for horses have not been confined to any particular section of the Province, but have been distributed through the different counties. As will be seen by the prize list Messrs. Clow & Poole carried off prizes for their fine animals. These horses are a credit to King's County, and the gentlemen whose enterprise has placed them at the disposal of the people of the county are deserving of every encouragement.

Among the carriage horses, whose names may not appear in the prize list, but which attracted much attention, may be mentioned Royal Frenchman, Parnell and Captain Jeff. The judging of the horses was by points, and was done by Dr. Grenside, of Guelph, Ont.

The cattle and other classes of live stock were equally creditable. The cattle were judged by Professor Shaw, of the Guelph, Ont., agricultural college.

THE RACES.

The races on Wednesday attracted over five thousand persons. The track was in very good condition. The officials were: E. H. Grealy Ellsworth, Me., starter; W. O. Jewett, St. John, and J. J. Davies, Charlottetown, C H Dingwell, Ch'town, timer; and John T. Mellin, of Kensington, distance judge. The first race called was the three minute class, in which the starters were Golden, owned by A. N. Large, and driven by Winan; Boodler, owned and driven by J. P. Delahunt, of Moncton; Harry C., owned by Harry O. Connolly, and driven by J. Dolron; and Neptune Lee, owned by D. H. Martin, and driven by P. Carroll, of Pictou. The first, second and third heats were won by Golden, Boodler and Harry C. respectively. Harry C. pushed Boodler pretty close in the heats but failed to pass him. Neptune Lee was drawn in the third heat. Best time 2.41½.

The 2.37 class had but three starters: Blackbird, owned by R. Cameron, driven by R. Steele; Whistler, owned by Geo. Emery, driven by Winan; and Peabody, owned and driven by P. Carrol, Pictou. Five heats were trotted in the first Blackbird came under the wire first, with Whistler two lengths behind, and Peabody a close third. Blackbird, however, was relegated to third place for making five breaks Whistler and Peabody advancing to first and second place respectfully. The second was a repetition of the first, but Blackbird by having made seven breaks was given 3rd place, Whistler 1st, and Peabody 3rd. The remaining three heats were won by Blackbird with Whistler a close second in each, and Peabody third. At the close of the 6th heat there was great excitement, it having been trotted in 2.32¼, which entitles Blackbird to registration.

Seven horses started in the three year old class. Dimb, owned by A C Hall, New Glasgow, N S, driven by Atherton; Belle Ely, entered and driven by H. Lee; Hermina, entered and driven by J. T. Winan; Millionaire, owned by Jas. Ryan, driven by Coughlan; Plush, owned by Bobbie Rice, driven by F. S. Brown; Masonic Pride, owned and driven by H. Hogan; and Starlight, owned by S A. Hooper, driven by J. Henderson. But three came into the contest. Dimb won first place in straight heats, Belle Ely 2nd, and the others in the above named order. Best time 2.41.

SECOND DAY.

Thursday was an ideal day for racing. The sun shone brightly all the afternoon, and at times reminded one of August sunshine. Long before the appointed hour the grand stand was crowded, and three times as many people lined the fence around the track. The course was somewhat better than on the previous day, but in the opinion of some drivers a trifle slow.

The first race was the 2.45 class, the starters being Whistler, again driven by Winan; Boodler, driven by Delahunt; and Honest John, owned by G. M. Hibbett, driven by R. Steele. Whistler won in three straight heats, Boodler 2nd, Honest John 3d. Best time 2.38¼.

The event of the meeting and the contest about which the most intense interest was manifested was the stallion race. But four of the nine stallions entered started, viz: Israel, owned by A. C. Bell, New Glasgow, N. S., and driven ay Atherton; Golden, again driven by Winan; Black Pilot, owned by Geo. A Dockendorff, driven by N. Lee; and Confidence jr., owned by W. K. Mackay, driven by P. S Brown. Four heats were trotted. Golden won the first by a length, Pilot 2nd, Israel 3rd, about three lengths behind Pilot, and Confidence jr., fourth. In the second heat Pilot led throughout, and came under the wire first, with Israel half a length behind second, Golden third and Confidence fourth. Pilot was, however, set back to fourth place for making five breaks. They started in the third heat with Pilot two lengths in the rear. Israel led throughout with Golden second, Pilot third and Confidence fourth. The fourth heat was won by Israel, with Golden second, Pilot third and Confidence fourth. This was a very close heat between Israel and Golden, the horses never being more than a length apart. On the home stretch Golden tried to capture his speedy opponent, but Israel proved too much and won by a few feet. Best time 2.32¼, made by Golden in first heat.

The running race brought out three starters, Golden Maxim, owned by Le Roy Willis, St. John; Ida Grey, owned by W. McMonagle, Sussex, N B; Lightfoot, owned by H. Hooper, Milton. Golden Maxim won in two straights with Ida Grey second and Lightfoot third. Best time 1.50.

NOTES.

John McLeod & Co. made a creditable exhibit of custom made suits, ulsterings, cloths and furs.

Those from abroad, who visited the exhibition, were delighted beyond measure with all they saw.

Mark Wright & Co. showed several of their threshers, one of which, with fanners attached was in operation.

Dodd & Rogers exhibit of hardware, mantles, grates, chandelier lamps, etc. formed a valuable addition to the show.

Norton & Fennell's display of saws, fine-edge tools and belting was artistically arranged, and received its full share of attention from the deft-fingered knights of the square and compass.

It is computed that nearly 10,000 persons were present at the races on Thursday. All available space on the grand stand was taken up long before 2 o'clock, and the sale of tickets had to be discontinued.

Dr. Findley's exhibit in the dental line was favorably commented on for its neatness of workmanship. Some of the molars must surely have graced the orifice of no mean specimen of humanity.

The magnificent display of gold and silverware by Messrs. G. H. & E. W. Taylor attracted great attention, especially some of the handsome parlor clocks one of which was a perfect model of a fire engine at work.

At night the building and grounds were lighted by electricity, both the arc and incandescent lights being used in the building. The incandescent light was driven by an engine on the grounds.

The rules and regulations of the association, without which chaos would predominate, were adhered to with the closest precision. The directors and all connected with the show are to be congratulated for having given us the grandest exhibition P. E. Island has ever witnessed.

Perhaps for uniqueness of design and beauty of arrangement, the exhibit of Jas Paton & Co. was the best. The miniature room, decked with its window-hangings, pictures, cilicths and carpets, not forgetting the tireless sweeper to keep the latter clean, presented a cosy picture, and received well merited praise.

The fine arts department, though not as good as we have seen at former exhibitions, contained some very good pictures, which indicated a decided aptitude on the part of the tyros. The collection was enhanced by six large engravings by Dore, loaned by A. Lord, Esq., which alone would please the eye of the most fastidious dilettante.

Beer Bros. display of furs, the costliest exhibit in the building, and one of the neatest in design, came in for quite a share of attention from the visitors, especially members of the fair sex, who though they do not intend purchasing, wish to inform their partner what particular style of cape, sack or hat would best suit their taste.

Many persons were heard to remark that certain qualities of the apples shown were equally as good as the imported ones It cannot be denied that if our fruit growers were to give this branch of agriculture the care it must necessary receive, our Island home would not only supply local consumption but build up foreign markets.

The immense advantages of the industrial building over the drill shed were plainly visible in ever department, but perhaps no more so, as in the agricultural implements and wagon departments. Formerly all such material was exhibited on the grounds, much to the detriment of the articles; while now without the loss disadvantage to the exhibitor space may be obtained.

The handsome cup donated by J. J. Davies, Esq., to the winner in the stallion race, was presented to A. C. Bell, Esq., in the directors' room at the Exhibition Building on Thursday evening. Mr. Bell made an appropriate reply, and R. R. Fitzgerald, Esq., thanked Messrs. Bass, Grealy, Dr. Grenside and Mr. Starr, for their assistance at the Exhibition. These gentlemen all replied, thanking the association for the courtesies received, and eulogized the arrangement of the exhibits and track.

The horse parade, on Friday morning, on the race track, was a grand sight. The procession extended all round the half-mile track, headed by the standard-bred trotting horses; next came the carriage horses, followed by the draught horses. Then came the horses in carriages, headed by Mr. McKie's beautiful pair, which took first prize at St. John and Charlottetown. The rear was brought up by Mr. Richards' Shetland mare and foal, with young Master Richards' mounted on the mare's back. They were greeted with applause.
