STRAWBERRY FESTIVAL.—The strawberry festival, fancy table and refreshments, held at Grand Pre Station on Thursday, 8th inst., was not so well attended by parties expected up from Halifax, but on the whole everything went on splendidly, and financially it was quite a success, upwards of $150 being realized. The ladies of the Horton Methodist church who took such an active part to make the whole affair a success, are to be congratulated in the able manner they carried out all arrangements. The proceeds go towards renovating the church internally.

I. O. G. T., R. W. LODGE OF THE WORLD.—The Annual Session of the above grand Lodge was held in the Y. M. C. A. Hall Truro, on Tuesday 22d ult., and following days. The various reports showed the order to be in a flourishing condition with a slight increase in membership.

The officers for the year are:

G. W. C. T.—R. R. Duncan, Grand Pre,
G. W. C.—Rev. J. H. Davis, Truro,
G. S. J. T.—J. Logan Barnhill, "
G. W. V. T.—Miss McLellan, Londonderry,

G. A. S.—T. G. D. Scotland, Halifax,
G. D. M.—Bently McLellan, Truro,
G. Messenger—W. H. Bowser, Halifax,

We congratulate Mr Duncan on his election to the highest office in the provincial Grand Lodge

Local and Provincial.

The farmers are all busy haying this week, the weather being very favorable. The hay so far got up is in fine condition and of an excellent quantity.

ON DIT.—That a young gentleman of the Canada Civil Service, formerly of Grand Pre, is about to take to himself a better half, one of Yarmouth's fair daughters.

Mr Thomas Foster showed us a few days ago some of the best plum grafts we ever saw. One showed 57 inches growth of wood it having grown the last week 8½ inches.

RUNAWAY.—Mr D. A. Munro's horse which was hitched in front of Bishop's paint shop on Wednesday, took fright and broke away wrecking the carriage pretty badly but fortunately doing no other damages.

Holidays in the public schools began on Monday last and are as usual welcome to the young people. The teachers in the different departments have done good work during the term, and we wish them a vacation as pleasant as it is well deserved.

Everybody should see Burpee Witter's fine stock of CLOTHS before making their purchases. 5

Rev. David W. Johnson, wife and family arrived at Grand Pre on Tuesday last. He will preach in the Methodist church, Wolfville and Grand Pre, next Sunday. Mr Johnson is not a stranger to Wolfville by any means as he was a number of years ago stationed here.

Rev. R. D. Ross and lady returned home on Saturday last and have taken up their residence in the dwelling formerly occupied by the late Rev John Chase, which has been thoroughly repaired. We wish them a very pleasant life among us. Mr Ross will probably occupy his pulpits at Wolfville and Horton on Sabbath.

Owing to the dry season the price of paints have fallen. To arrive in a few days Leads, Oils, Colors, Glass, &c. I sell good lead for $5.75. Please examine. Make up your orders for glass to keep cold winter out. I can give you fine figures. B. G. BISHOP, Wolfville.

During the week our enterprising carriage builder, Mr Chas. H. Borden, has turned out of his factory, for one of the farmers of Cornwallis, a very superior Hay Wagon, constructed of the best white ash and oak; and we venture the opinion that the party receiving it will possess one of the best, if not the very best, wagon of the kind in the county. Mr Borden's reputation as a first-class workman is well established.

An old man of demented mind named Stephen MacConnell, a native of Ireland, who has been tramping through the country, and who it will be remembered spent a few weeks in Wolfville this spring, was thrown by a company of young men into the river near Davisons Mills, Bridgewater, and drowned, on Monday last. Joseph Feener, the ringleader, has been arrested and is in jail awaiting his examination. It is to be hoped the ruffians will meet with the punishment they so justly deserve.

TAKE NOTICE.—If your razor is dull, take it to J. M. Shaw's Barber Shop, and he will put it in first-class order for the small sum of 15c. 10

SOCIABLE.—At a tea, or correctly speaking, a coffee Sociable, held at the residence of Mrs Capt. A. R. Curry, Horton Landing, on Monday evening last, a neat little sum was realized to augment the amount realized at the festival the Thursday previous. The Wolfville Quintette Club was in attendance and discoursed sweet music to the music-loving people of Lower Horton, who turned out in quite large numbers. Now, ladies of Horton, where will be the next.

Forest Fires, owing to the very dry weather, have become both numerous as well as distructive. The fire which started in the woods back of Coldbrook is still raging. A barn owned by John Harrington, near Kentville, was burned Saturday. Unless rain comes soon, a large area of wood and timber land will be destroyed by it, and probably a number of dwelling houses and out-buildings in the near vicinity. A large fire was in progress on the Western Counties railway near Weymouth on Saturday last, which has and was doing much destruction. The train had to increase speed on account of the intense heat.

Having recently imported a "Perfection Shear Sharpener." I am prepared to sharpen and put in first class order shears and scissors of every description. Perfect satisfaction guaranted. J. M. SHAW, Wolfville 35

PERSONAL.—Mr W. P. King, of Antigonish, special agent for the "Mutual Life Insurance Co," of New York, was in town this week in the interest of his company.

Mr J. B. Morgan, of the college, arrived in Wolfville on Friday last and stayed until Monday.

Messrs Frank DeWolf and H. C. Gilmore arrived from the United States on Monday and are spending a vacation in their native place.

Miss S. A. Hamilton, who has been absent in Boston for a short time, returned on Monday evening.

Mr L. W. Sleep and wife are spending a few weeks in Wolfville on a visit to S. R. Sleeps Esq.

Capt. Mortimer Gillmore, of Horton Landing, in the barque *Albuera*, arrived in Dublin last Monday from St John, N. B.

AMMONIA IN BAKING POWDERS.

Scientific American.

Among the recent discoveries in science and chemistry, none is more important than the uses to which common ammonia can be properly put as a leavening agent, and which indicate that this familiar salt it hereafter to perform an active part in the preparation of our daily food.

The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen. No residue is left from the ammonia. This gives it its superiority as a leavening powder over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter and more wholesome than that risen by any other leavening agent. Where it is acted upon by the heat of baking the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely diffused, leaving no trace or residum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

The bakers and baking powder manufacturers producing the finest goods have been quick to avail themselves of this useful discovery, and the handsomest and best bread and cake are now largely risen by the aid of amonia, combined of course with other leavening material.

Ammonia is one of the best known products of the laboratory. If, as seems to be justly claimed for it, the application its properties to the purposes of cooking results in giving us lighter and more wholesome bread, biscuit and cake, it will prove a boom to dyspeptic humanity, and will speedily force itself into general use in the new field to which science has assigned it.

G. V. Rand, Esq., our enterprising druggist, has received a large supply of the truly celebrated Dr Norton's Burdock Blood Purifier which is making such wonderful cures of Liver, Kidney, Blood and Nerve diseases all over the Province.

READ THE FOLLOWING TESTIMONIALS

Weymouth, Sept. 14, 1885.

DR NORTON: Dear Sir,—For twenty five years I have been afflicted with Salt Rheum, and last Summer my head and part of my body was one fearful sore. My husband employed at different times three doctors, which failed to do me any good. In August 1884 I commenced taking your Dr O. W. Norton's Burdock Blood Purifier, and after taking three bottles, am entirely cured, as I have not the least symptoms of it since. The Blood Purifier has also cured Capt Brooks of Dyspepsia and Liver Complaint.

Yours truly, *Mrs John Grant*

ARTHUR BLACKBURN, of Newport writes: "For five years I have been afflicted with two Erysepelas Fever Sores on my legs Have consulted all the doctors far and near. All medicine failed to do me any good until last fall I commenced to take Dr O. W. Norton's Burdock Blood Purifier. After taking seven bottles my sores are entirely healed up and I am as well as ever."

"February 9th, 1886.'

There is no medicines known to the medical fraternity that has cured so many of Liver, Kidney Blood and Nerve Diseases as the medicines that compose Norton's Burdock Blood Purifier.

Sold by most of the dealers in medicine throughout the county, ask by G. V. Rand, Druggist, Wolfville, at $1.00 per large bottle.
