THE PROVINCIAL EXHIBITION.

We had time last Wednesday only to refer very briefly to the opening of the Provincial Exhibition, which took place that day, and to give our readers the Address which was presented to the Lieutenant Governor by the Commissioners, together with His Honor's Reply.

On the whole the Exhibition was excellent, though possibly in some classes there was not such a representation as might be desired. Inside the building, what first attracted our notice was the handsome display of cloths from the Woolen Factories at Tryon and Charlottetown, each establishment shewing over one hundred different patterns, all of them manufactured from our Island wool. We were especially proud of this exhibit, for it was so placed as to arrest the eye of the passer-by, and not only strangers, but many of our own people, were unaware that such beautiful cloth could be made on the Island. Our people should patronize their home industries to a very much greater extent than they do at present. The roots and vegetables were very fine—the mammoth squash, grown by Mr. Burke, of Southport, tipping the beam at 180 lbs. We never saw, at any previous show, a better display of fruit, and we do not understand why its culture is so much neglected by our people. The consumption of apples on the Island is very large, and yearly increasing, and it would pay to plant orchards. The butter and cheese were a great improvement on previous exhibitions, and it is satisfactory to note the fact that the entries in this class were more numerous than ever before; the quality also appeared excellent. A very creditable exhibition of galvanized iron fastenings, etc., was made by Messrs. Foster, and we hope that home manufacture may in future be patronized for this article. Beer & Son's exhibit of soaps deserves more than a passing notice. Not only do they make a good article, but they shew to what excellence our Island manufactures can attain.

But the chief attraction to visitors was the horses and cattle, and the display of these animals was very fine. "Barrister" was on hand, with a numerous progeny. There is no doubt he is a splendid animal. This has been fully demonstrated by the number of prizes he has won, but he is closely followed by "Oak's Heart," who has not yet had time to make his mark. The Percheron stallion owned by Alexander Smith & Son took third prize. The show of carriage horses was much admired, especially the parade of "Royal Harry" and his colts, which took ten out of twelve prizes competed for; in the two classes of fillies they took first, second and third in both. Such a record for one horse is extraordinary. "Hernando" and his colts also excited admiration. The show of cattle and sheep was an improvement on previous years—all our noted stock-raisers were represented. The display of carriages was really beautiful, although few in number, and many were the exclamations of surprise which we heard that such fine work could be done on the Island. We have not space for a detailed description of the several fine animals exhibited; suffice it to say that they must have been good to justify the remarks of many persons from the mainland, who declared it to be the best they had ever visited in the Maritime Provinces. We are indebted to A. McNeill, Esq., the efficient Secretary, for the following corrected Prize List:—

The Election To-Morrow.

Upon to morrow's election depends the fate of the Scott Act in Charlottetown for the next three years. When we opened our campaign against the Act, we did so with a full sense of the responsibility we were assuming. We knew that we were taking the unpopular side, and that our motives would be misconstrued; but our opposition was conscientious, and our fight an honest one *in the cause of Temperance*. We believe in Temperance—we believe in total abstinence (and that is more than many of the Scott Act advocates can or will say),—but we have our own opinions as to the best means of dealing with the vice of intemperance. Our remarks, during the last few weeks, have pretty well exhausted what we had to say upon the subject. We stood alone among the press, but that did not prevent us fearlessly giving our convictions as to the merits of the Scott Act. The issue now rests with the people—between them and their consciences. Whatever may be the result, we trust that it will conduce, in a greater degree, to the promotion of Temperance, and to the sustaining of law and order in Charlottetown, than has the operations of that measure which our duty, as a journalist, has required us to condemn.

Dairymen's Association.

According to previous notice, a meeting of the Dairymen's Association was held on Wednesday evening last, and was attended by a number of prominent agriculturists and others interested. Hon. T. H. Haviland presided, and papers were read by Hon. D. Ferguson, Messrs. C. C. Gardiner and G. F. Owen. To-day we publish Mr. Ferguson's paper, and trust next week to lay before our readers those of the other two gentlemen
