LOCAL MARKET.

London, Wednesday, May 6.

There was very little farm produce offered on the market here this forenoon.

Twelve loads of hay were on the stand and sales were brisk for the choice loads at $9 per ton; the inferior loads were a slow sale at $7 50 to $8 per ton.

Six loads of oats went at 88c to 90c per cental.

WEEKLY REVIEW.

The markets held here during the past six days have been on a par so far as attendance and supplies are concerned, with the markets of the previous week. With the exception of a couple of lines the prices have remained unchanged. Sales were on the whole brisker than the preceding week.

Grain—The principal supply in this line was oats, for which prices ranged from 88c to 91c per 100 pounds. Quite a few loads of wheat have been offered at $1 20 per cental.

Hay and Straw—There were not near so many loads of hay offered this week; about 105 loads were on sale, at $8 to $9 per ton; the demand is only fair at the figures mentioned. Straw is a very dull sale at $2 50 to $3 by the load, or $5 per ton; baled straw is being delivered here at $5 25 per ton.

Butter and Eggs—The supply of butter has been large; prices have declined from 2c to 3c per pound from those quoted the previous week, and now range at 16c to 17c for pound rolls and about 16c for butter in crocks; creamery butter is offered at 19c to 20c. The demand for eggs continues to be good and prices are a shade firmer, at 11½c to 12c per dozen wholesale.

Potatoes are coming in more plentifully at $1 to $1 20 per bag; several of the local dealers have placed a large quantity in cold storage and they are of the opinion that prices will be higher than those at present quoted before the new crop is on the market.

Apples are in a little better demand at present; still, when rhubarb and other substitutes become cheaper there will be a falling off in the demand; prices rule at $1 to $1 25 per barrel, or 30c to 50c per bag.

Poultry—With the exception of Saturday, the supply on the other market days of the week is small; prices rule at 14c to 16c per pound for dressed turkeys and 80c to $1 10 per pair for chickens; live chickens sell mostly at 75c per pair.

Dressed Hogs—There is a good demand at present, and prices are steady at $8 60 to $8 75 per 100 pounds.

Live Hogs—The price paid here on Monday last was $6 10 per 100 pounds for selects; about the same figure will be paid for next Monday's shipment; small pigs sell at $5 to $8 per pair; heavy sows at 4¼c to 4½c, weight.

AMERICAN MARKETS.

CHICAGO.

Chicago, May 5.—Wheat—Market opened easier on lower cables and fine weather. Good buying soon developed on the strength in the St. Louis market and damage reports. Claims of deterioration were quite general from the districts which experienced heavy frost last week, particularly Southwestern Missouri. California is complaining of too dry weather, although it is not too late yet for rain to be of benefit. The market was firm and recovered about ½c of yesterday's loss. The bull interest chartered vessel room to Buffalo for about half a million bushels of wheat. A Washington wire says that the Government report will not be issued until May 11. Estimated receipts tomorrow, 45 cars.

Corn—Local operators went short at the opening. When they tried to cover they found very little corn for sale, and the market advanced easily. The sample market was firm, but the demand for shipment was poor. The eastern stocks are very small and we anticipate a good demand as soon as buyers are assured that the corn will arrive in good condition. The better grading of local receipts will tend to inspire confidence, and we recommend purchases on the weak days. The Liverpool market was easier. Estimated receipts tomorrow, 240 cars.

Oats—The weather bureau's weekly bulletin gave a bullish aspect to the situation in Illinois and Iowa, and local shorts were good buyers. The cash situation was favorable to the longs. The shipping demand was much improved, and the sample market was firm at about ¼c advance. Estimated receipts tomorrow, 75 cars.

Provisions—Market opened firm on hogs, and for a time ruled firm, but there was selling by brokers of ribs, and liquidation set in and we had a very weak market, with an important break, closing at the lowest of the day. Lard has been for days the weak article, and the break today brought out stop-loss orders, and the May led the decline. We have believed for some time that lard was held only by outsiders, and it acted today as if this were true. Ribs were weak and without support from the leaders, and longs were selling. Estimated hogs tomorrow, 25,000.

Butchers' Meats—Wholesale butchers report that cattle suitable for the trade is scarce at present; the supply on the market the past couple of weeks has been light; the folowing prices prevail: Beef, $5 50 to $7, by the carcase; veal, $5 to $7 per 100 pounds; spring lambs sell at $4 25 to $5 each.

LAMBETH MAN CAUGHT IN SHAFT AND BADLY INJURED

Mr. Henry Hamlyn, Miller, Had Terrible Experience—Hurled Round and Round.

While working at his saw and grist mill at Lambeth yesterday afternoon, Mr. Henry Hamlyn was caught in the shafting which operates the mill machinery and hurled round and round, sustaining very serious injuries to the back, besides, many painful bruises to all parts of his body.

Mr. Hamlyn was working on the ceiling of the ground floor, close to where the belt shafting runs. In some way his arm, or the sleeve of his coat, caught on the shafting, and in an instant he was thrown violently around. The space between the ceiling and the shafting was just enough to allow a man's body to pass between, and each time he was hurled around he was badly bruised. His cry of alarm brought several of the mill hands to his help. The machinery was stopped and he was extricated from his position. He was unconscious, and his clothing was torn almost to shreds. Besides the bruises which he had sustained, it was found that his back was injured badly. Dr. Routledge, jun., was called, and Mr. Hamlyn was removed to his home. Just how serious his injuries are is not yet known. At a late hour last evening he was still unconscious. Mr. Hamlyn is well known in London.

BAD END TO HORSE DEAL

George Hughes Is Charged With Stealing C. Brooks' Outfit.

Howells Having Left the City the Sentence Was Suspended.

George Hughes, a junk dealer, will be tried on a serious charge at tomorrow's police court. Charles Brooks, another dealer, says that Hughes stole his wagon, horse, scales and harness. Hughes was in court this morning, but as Brooks did not bring his witnesses the case was adjourned until tomorrow.

The story goes that the two had a business deal, in which Brooks secured a horse and wagon from Hughes for another wagon, $4 cash and a week's work. He was to pay more as he went along. Brooks alleges that on Friday last Hughes, on seeing his (Brooks') brother on the street with the wagon, forcibly ejected him therefrom and took his former horse, another wagon, a set of scales and a set of harness. Since then none of these had been returned, and besides, Brooks was out the $4 and compensation for his week's work. Hughes was accordingly summonsed.

Sentence was suspended on the elder Howells, who, it is thought, have left the city, but the charge of pointing a revolver preferred against the woman was left so that it could be acted upon if the authorities wished.

Two first-appearance drunks were discharged and George May, a vagrant, was sent to jail for a month.

VISIT HIS LORDSHIP

Dignitaries of Roman Catholic Church the Guests of Bishop McEvay.

Three dignitaries of the Roman Catholic Church in Ontario were in the city today, the guests of the head of the London Diocese, Bishop McEvay. The object of their coming was simply to show their interest in the latter, who has been ill for some time, and they congratulated his lordship on his restoration to health. The day was quietly and pleasantly spent. The visiting clergy were Archbishop Gauthier, of Kingston; Bishop O'Connor, of Peterboro, and Bishop Dowling, of Hamilton. Archbishop O'Connor, of Toronto, who preceded Bishop McEvay as the head of the church here, was also expected to be present, but he was prevented from coming by illness. The party leave for their homes tonight.

WORK ON WALKS BEGUN

Court House Square to Be Graced With New Paths Next Week.

A Mystery Connected With the Jail Solved by Constable McLeod.

Unless the workmen who started to tear up the old walks at the courthouse get on an "extra hump" the inspiration always obtained from a sight of that historic pile will be lacking when Lord and Lady Minto are driven down that way next Tuesday. The old tar walks were torn up this morning, and the grounds present a dilapidated appearance.

Engineer Talbot said that it would be almost impossible to get things in shape by Tuesday, and that the end of next week would probably see new white walks contrasting with the green lawns at the courthouse.

Anyone who has lived here for five years remembers the tunnel which ran from the bank along the north side of the courthouse into the building. Small boys looked fearfully at it, and many a queer tale was told in connection with its iron bars, heavy wooden doors and other mysterious features. "That was where the prisoners went in," was the small boy's opinion of it. He also thought that the majority never came out.

"It's right that many people who went under that portal never came out of it," said High Constable McLeod. "But the reason was that they usually took in enough wood with them to fill up the opening after them. No, that tunnel has no connection with the jail proper. It leads to the furnace room. I confess that it looks the part of the secret passage through which a man might go to his doom."

CHANGES IN THE SEVENTH

New Appointments to Position of Lieutenant.

Present Arrangement of Officers Ratified at Headquarters.

A number of changes have taken place recently in the staff of the Seventh Regiment.

Lieut. John S. Brown and Second Lieut. F. H. Screaton have resigned their commissions, both of which are accepted. The resignations bear date of March 30 last.

The promotion of Lieut. Becher brought the promotion of Second Lieut. G. A. Bentley to the rank of lieutenant, while Second Lieut. W. Gregory is made a lieutenant in place of Lieut. Brown, resigned.

F. A. Andrews is made a second lieutenant, vice Second Lieut. Screaton, resigned, and W. S. Westland is made a second lieutenant, vice Second Lieut. Gregory, promoted.

All of the changes have been ratified by the Minister of Militia and appear in the latest issue of the Militia Gazette.

THE BIG DOCK STRIKE.

Situation Remains Unchanged at Montreal—Regulars at the Scene.

Montreal, May 6. — The strike situation here last night, with the events of the day, may be summarized as follows: The regular soldiers are stationed on the wharves. The number of striking teamsters has increased to a thousand. The militia on duty has been reduced to about four hundred men. The G. T. R. refuses all freight for delivery here or for export via this port. The Government has offered to bear the cost of maintaining the regulars here, the city to pay for transportation. The city has not accepted.

The Third Company, C. R. C., from St. Johns, 60 men, arrived here yesterday, and relieved the Victoria Rifles. Their presence apparently has not in the least weakened the attitude of the longshoremen, who still hold out for recognition.
