HOLSTEINS

HOLSTEINS

If you are wanting HOLSTEINS, any age, either sex, write:

GORDON H. MANHARD, Manhard, Ont.

EVERGREEN FARM HOLSTEIN HERD

Has at its head Velstra Triumph (imp.) 3771, whose dam gave in 1 day 101¼ lbs. milk, and his sire's dam gave 104 lbs. in 1 day.

His progeny all show his wonderful prepotency. We can supply you with what you want of either sex. All stock guaranteed as represented.

GEO. W. ANDERSON, ROSSMORE, ONT. Belleville District.

Lyndale Holsteins

We are now offering two young bulls fit for service, one from a 30 lb. Junior 2 year old and sired by a son of a 28.27 lb. cow. Both bulls are good individuals light in color.

BROWN BROS., - - - LYN, ONT.

LAKEVIEW HOLSTEINS

Young bull born June 12th, 1910, offered. He is sired by Count Hengerveld Fayne De Kol, whose sire Pietertje Hengerveld Count De Kol, has 95 A.R.O. daughters and whose dam is dam of Grace Fayne 2nd's Homestead, 35.50 lbs. butter in 7 days. This young bull is half black and an extra good individual; his own dam is nouning about the 13,000 lb. mark in milk this period of lactation.

E. F. OSLER, BRONTE

Telephone.

FAIRVIEW FARMS HERD

—HAS FOR SALE—

Sons of Pontiac Korndyke, sire of the (world's record) cow Pontiac Clothilde De Kol 2nd, 37.20 lbs. butter in 7 days. He is the sire of seven daughters whose 7 day records average 31.13 lbs. each, unequalled by the daughters of any other sire of the breed, living or dead. He is the sire of the youngest bull of the breed to sire a 30 lb. daughter.

We also offer sons of Rag Apple Korndyke, whose dam Pontiac Rag Apple, is a full sister to Pontiac Clothilde De Kol 2nd, 37.20 (world's record) giving this young sire's dam and her full sister 7 day records that average for the two 34.41 lbs. each.

We have in service, and can offer you sons of Sir Johanna Colantha Gladi, a son of the highest producing daughter of Hengerveld De Kol, 114 A.R.O. daughters, four over 30 lbs. each. This young sire is a son of Colantha Johanna Lad, whose dam Colantha 4th's Johanna has a 7 day record of 35.22 lbs., making his dam and sire's dam average 33.61 lbs. each, which is higher than that of any other sire of the breed. Let me send you breeding and quote price on anything you want in first-class Holsteins; young sires our Specialty.

E. B. MALLORY, FRANKFORD, ONT.

HOLSTEINS FOR SALE

On the Maple Stock Farm we are offering a number of young cows in the advanced register making good records for heifers. Also a few young bulls ready for service. They are all of a superior type with good backing. We invite inspection of our herd. Trains met at Waterford when advised. Purchaser can have his choice of the herd. WM. SLAGHT, BEALTON, ONT.

OUR FARMERS' CLUB

Correspondence Invited

PRINCE EDWARD ISLAND

QUEENS CO., P.E.I.

BAYSIDE, Apr. 5.—The peculiarity of the winter has been that there was very little snow, but enough severe frost up to the middle of March. Our winter steamers have had heavy ice to contend with in crossing to the mainland, and have not been able keep up a regular daily service during February and the first half of March. Our mails have been coming over by the mail propelled ice boats that only between Cape Tormentine in New Brunswick and Cape Traverse on the Island, a distance of nine miles. So Farm and Dairy Ontario readers can imagine how we are isolated here during the winter and what a handicap we suffer by not being able at all times to reach markets on the mainland. We still want the "Tunnel" to link us to Canada by bonds of steel and give us farmers an even chance with other Canadians to reach the great consuming centres at all times of the year with our produce.—W.S.

NOVA SCOTIA

COLCHESTER CO., N.S.

TRURO, Apr. 3.—The indications are bright for a good year in farming, mining and industrial life. Sidney capitalists are always alive to their interests and have bonded a large area of land with the intention of trying to get a shipbuilding plant started in that vicinity. With the C.P.R. already here the Canadian Northern knocking at our doors, and the Grand Trunk Pacific building this way as fast as men and money will bring them, it is time Halifax was awakening from its long Rip Van Winkle sleep.—A.H.C.

QUEBEC

STANSTEAD CO., QUE.

HATLEY, March 29th.—This is one of the best sections in Canada for maple syrup. The local demand is small and the bulk is shipped. We all hope for reciprocity. The average price of maple sugar in the United States is 10 cents while here it is six cents. At this date it is still too cold to tap and snow is about four feet deep in the woods. We shall tap and gather the first run at least on snowshoes, something I have not been obliged to do for years.—H.H.B.

ONTARIO

LEEDS CO., ONT.

FRANKVILLE, Apr. 1.—Winter seems to be still with us and it is seldom that, at this date, we have as good sleighing as at present. It has been a long, cold winter and the people would gladly welcome the coming of spring weather. Very little maple syrup has been made yet. Most of the farm stock has come through the winter well. Lots of feed and comfortable stables account for the good condition of the stock. Auction sales have been numerous. All kinds of live stock sold well. Good grade milch cows brought from $60.00 to $90.00 at one sale. The price of milk cows is really more than the present prices of dairy products would warrant. As for horses their prices do not know what to ask for them. They are afraid to put a price on their horses lest it be less than the would-be buyer would be willing and ready to give. Most of the cheese factories have opened up. Pork is $6.75 a cwt. Beef is scarce. Hay is $9 to $10.00; oats, 40c; potatoes, 60c.—W.H.M.

HASTINGS CO., ONT.

SIDNEY CROSSING, April 3.—Considerable maple syrup was offered on Saturday's market at 35 cents a qt. or $1.25 a gal. Apples are very scarce and sell at 35c to 40c a pk., while good Spys bring 50c. Mixed hay sells for $8.50 to $11; oats, 40c to 42c; barley, 55c to 60c; peas, 65c to 70c; fresh eggs, 15c to 18c; butter, 22c to 24c; potatoes 95c to $1 a bag; chickens $1.80 a pair; dressed hogs $9 to $9.25.—J.K.

HALIBURTON CO., ONT.

KINMOUNT, APRIL 3.—The farmers in this section of the province would cast a solid vote against reciprocity. Times never were better so all are satisfied. The weather has been too cold for making maple syrup. The wind was in the north west when the sun crossed the line and has been mostly from that point since. Cattle have wintered well. Feed is plentiful. All kinds of stock bring high prices at auction sales. The failure of the Farmer's Bank and the Creamery has involved a good many. Hay is $8 to $10; oats, 40c to 42c; wheat, 90c; peas, 60c.—J.A.S.

DURHAM CO., ONT.

ORONO, April 3.—The weather is very backward and we are now looking for a rather late spring. Drawing out manure and top dressing is in order. Many of our farmers have spreaders which are a great labor saver and do the work much better than can be done by hand. Stimulated by the splendid articles in Farm and Dairy our farmers will sow some alfalfa. We believe the soil in Durham Co., is admirably adapted for its growth. A political anti-reciprocity meeting was held in the Town Hall, Orono, a few days ago when the astonishing statement was made that the Dominion imports more apples than it exports and other equally absurd statements. The yeomanry cannot be fooled as in days of yore and pretty generally support the agreement regardless of party affiliation. A good deal of discussion is going on regarding the organization of a grange, many favoring the idea. A few lucky ones who have a maple bush have tapped and are being rewarded by a fair run of sap. Hogs are still declining slightly in price which is quite remarkable at this time of the year.—L.M.

MIDDLESEX CO., ONT.

TEMPO, Apr. 1.—The weather keeps cold and snowy, no growth as yet. More attention is being given to the poultry industry. Mr. Burrows, a neighbor, has built an up-to-date poultry house, and is aiming to keep over 100 hens. White Rocks and White Wyandottes are the kind he is arranging to keep.

He is going to raise brollers, and thinks these are the best for that purpose. He is trying to hatch and rear 300 this year. Some of the farmers this winter have been getting record quantities of eggs, this no doubt requires first-class attention, but when prices are soaring high it pays well. There has been a great demand for nursery stock this season and many fruit trees will be placed in the ground when the weather becomes suitable. Horses are selling high this spring; many are going to the West. There does not appear to be as many farmers as usual going to the West.—J.E.O.

BRUCE CO., ONT.

HEPWORTH, Apr. 5.—The ground is still frozen. There has been no spring work done. As soon as the weather gets warm farmers can start right to work as the ground is quite dry. There has not been as many cattle fed this winter as usual owing to the high price of stockers last fall. There are a good many hogs shipped. They sold for $6.25 to-day. Hay is $10; potatoes 60c; eggs, 15c; and butter, 22c. Milch cows are scarce and sell from $40 to $55. Nearly every person that has a few maple trees is making syrup this year. Stock has come through the winter looking well as every person has had lots of feed.—J. K. L.

BRITISH COLUMBIA

SIMILKAMEEN DISTRICT, B.C.

ALLEN GROVE, Apr. 3.—The snow has all gone and the roads are practically dry. Have had fine weather since March 7th. Robins were first seen here on the 18th. Ploughing is general on the low lands. Grass is up and stock are getting more or less picking. Horses are very scarce and in demand at good figures. Fruit trees appear to have come through the winter without injury. A number of cows have freshened already, but look very thin. A fine rain fell in this district on March 22.—R.L.A.

GOSSIP

PRODUCING AYRSHIRES

My Ayrshires have come through the winter in fine condition and the cows are doing big work at the pail. I still have eight or 10 very fine young cows and heifers coming two years old, for sale. The heifers are due to freshen early and early summer. They are of large size, good teats and are bred from heavy milking dams and breeding for milk production as well as show animals. I have a young cow that has milked 1371 lbs. a month this winter, and two year old heifers that have milked 42 pounds a day, testing nearly five per cent. butter fat. This is a sample of the quality of the two year olds I am offering for sale. I still have more on hand than I wish to summer, therefore I am offering some great bargains for quick sale.

I am offering a bull calf nine months old. He is a son of Ayrshire Beauty, a two year old that has given me over 7,000 lbs. of milk in nine months and still has three months to run.—Wm. Thorn, Lynedoch, Ont.

WOODCREST HOLSTEINS

A few choice Bull Calves for sale; six to ten months old. Sons of Homestead Girl De Kol Sarcastic Lad, and grandsons of Pietje 22nd Recently tuberculin tested by a U. S. Inspector. Write for pedigrees and prices.
