FIRST WHEAT CUT IN MANITOBA YESTERDAY

Winnipeg, Man., Aug. 7—The first wheat of the 1912 harvest in Manitoba was cut near Souris yesterday. It was Marquis wheat sown early and ripened far in advance of the general group of the district. Harvesting will hardly be general for several days. A cold drizzling rain prevailed all day Monday, practically from Fort William to the Rockies, but yesterday was fair and the outlook for more settled weather seems good.

"Things don't seem to work together in your series of dramatic representations."

"They didn't," admitted Mr. Storminglon Barnes. "When we played tragedy the box office receipts were a farce, and when we played farce they were a tragedy."

CADETS LEAVE FOR ALDERSHOT CAMP ON AUG. 16 BY D. A. R.

A Thousand Lads From All Parts of Provinces Will be Under Canvas — Their Daily Programme

Late orders received by the instructors of the cadet corps in this city who are to take the six days' drill at Camp Aldershot, Nova Scotia, call for their going by the D. A. R. line instead of by rail as was first intended. The lads, who will number about 100 from St. John, will leave at 12.30 on August 16 arriving at Digby at 3.30. They will have an hour in Digby, leaving there at 4.30 and arriving at Aldershot at 8.15 p. m. The boys of the Hibernian Cadets, St. Stephen's, St. Andrew's, and Rothesay, will be accompanied by Adjutant James McCarthy, Lieut. Spear, Capt. Wm. Magee, and Sergeant R. Dooe, respectively.

An interesting programme has been arranged for their week in camp and with fine weather it should prove most profitable and enjoyable. The march-in and making themselves at home will comprise the first day's programme, together with a medical inspection and an issue of camp equipment. On the second day and for each of the days following there will be physical training every morning, and according to the stages of progress in the drill of the lads, there will be squad and company drill, scouting and patrol work, batallion and engineering practice. On the fifth day there will be a sham battle and tactical manoeuvres about the field and in the afternoon a programme of athletic sports and games will be carried out, after which there will be the award of prizes for honors gained. The cadets will march out for home on the sixth day.

During their stay in camp they will be subject to discipline similar to the rules for a regular militia camp, being summoned from slumber at 5.45 a. m. by the gun at reveille, and retiring to their lines at 9.30 when "lights out" is sounded on the bugle. There will be boys present from all parts of the Maritime Provinces and the total strength of the youthful defenders is expected to be about 1,000.

FREDERICTON WINS FROM HOULTON REDS IN MORNING GAME

Fredericton, N. B., Aug. 7—Fredericton downed the Houlton Reds at Scully's Grove this morning by a score of 11 to 1. Martini essayed to pitch for Houlton and was pounded out for fifteen hits and a total of twenty bases. He also issued four passes. Willey relieved him in the last of the eighth and was hit by two of the three men who faced him.

Brown, for Fredericton, was as tight as a drum, only four hits being made off him in six innings, and as the locals had the game well in hand he was sent out to centre and Duggan came in to do the twirling. P. J. was there with the stuff, having two strike outs and allowing only one hit for the balance of the game. Nine errors on the part of the Reds also figured in the scoring. Almost every player having a slip up. Red Wildes was the star performer for the locals, having three hits in four times up and fielding seven chances without a mishap.

The batteries for Fredericton were Brown, Dugan and Fitzgerald; Houlton, Martini, Willey and Finnemore.

DARROW'S COUNSEL DID NOT SERVE HIS NIGHT IN JAIL

Los Angeles, Aug. 7—When the chief counsel of the defence in the trial of Clarence S. Darrow appeared in court today it was not after a night in the county jail, to which he had been sentenced yesterday by Judge Hutton for contempt of court. With a half hour remaining of the judicial day after the imposition of the sentence, the associates of Rogers hurriedly made out application for his release on a temporary writ of habeas corpus, which was presented before Judge Sewell of San Francisco, temporarily sitting in the court of presiding Judge Willis of the superior court. Judge Sewell granted the application, set the hearing for Monday morning and fixed Roger's bail at $200, which was furnished by Darrow. It is not likely that Rogers will ever be called upon to serve his sentence.

SEEKING SITE FOR THE STEEL INDUSTRY

Information has reached the Times that efforts are being made at East St. John to secure a site for the proposed steel works. This would seem to confirm the somewhat vague, though optimistic, announcement by W. Burton Stewart when here some days ago, and his intimation that Messrs. Drummond were interested in the Steel works proposition. It has already been pretty well known that Mr. Stewart had interested English financial interests. It was reported today in this connection that the purchase of the Davidson homestead of 110 acres yesterday was made by the Norton Griffiths Co. for an English syndicate for the site for the steel works, but rumor also connects another location with the proposition.

ANOTHER BIG DEAL IN EAST ST. JOHN ANNOUNCED TODAY

Arthur H. Likely Disposes of 100 Acres of Davidson Farm — Price Between $80,000 and $90,000 — Fortune Made in Local Real Estate

Following closely on the big transfer of 110 acres of the Davidson homestead farm at East St. John in which a large amount was involved, comes the announcement today that another deal of almost equal proportions is about closed up. This parcel is of about 100 acres and was acquired by A. H. Likely from Thomas M. Davidson from whom Mr. Likely purchased the other large tract which he sold yesterday. It is situated at what is known as the "forks," a triangular piece at the junction of the Old Loch Lomond and Black River roads. The price that is being paid for this 100 acre parcel is said to be between $80,000 and $90,000 and the purchasers are Winnipeg parties.

In all Thomas M. Davidson had 300 acres at East St. John and this was purchased from him piece by piece by A. H. Likely and his father J. A. Likely and with the disposal of this last piece the whole will have been disposed of. Some idea may be had of the way in which real estate has advanced in the East St. John region when it is stated that Mr. Davidson who but a few months ago was a comparatively poor man, is now worth about $200,000 in cash and mortgages, about half being in cash and the balances in mortgages on his own property. We hear much of this kind of thing in the west but this is something right here in this city and the truth of it can be vouched for.

FOR AFTERNOON WEAR

This new gown of white satin is very smart. The skirt is narrow and fastened down the front with white velvet buttons, enclosed in black ebony rims. The directoire tunic is slightly gathered at the belt and has wide revers and cuffs of the material trimmed with the buttons and black silk buttonholes. The front of the bodice is of Irish lace.

SUFFRAGISTS AT THE POLLS

The woman suffragists of Massachusetts made a striking demonstration on the last election day in that state. The Woman's Jornal says:—

"A special election day flyer had been printed for the express purpose of calling to the attention of the voter that men alone were by their votes choosing the government under which women, as well as men, are to live. The flyer was five by six inches in size and read as follows:

"Today the votes of men are choosing the government under which women, as well as men, are to live. The men you elect today make and enforce the laws relating to women's work, pure food, child labor, milk supply, care of the sick, moral conditions, schools, playgrounds, housing conditions, and teachers' salaries. Do not these all belong in 'woman's sphere?' Then why not give women voice in them? Women votes in Colorado, Idaho, Utah, Wyoming, Washington and California—why not in Massachusetts?"

"These little flyers were carried by the thousand to the polls by scores of women, who stood as near the polling places as the law would allow and gave one to each voter. It was a splendid day's work: The flyer was so brief that it was invariably read by the voter. In this way over 40,000 men had it brought home to them that women want the ballot and want it for the purpose of helping to choose the government under which woman, as well as men, have to live. Mothers of families, women of culture, working girls, college girls from Vassar, Bryn Mawr, Radcliffe, Boston University, the Institute of Technology and Wellesley, passing literature to voters of every age and description and nationality, made an imposing spectacle."

Jones came up to town one morning with a bruised and swollen forehead. His friend Briggs showed considerable curiosity as to the cause of the injury.

"How did it happen, old man?" he asked.

"Collided with the hat-rack last night," said Jones, shortly.

"Accidentally?" asked Briggs.

"No, Briggs," replied Jones, sweetly, "I have every reason to suspect that it attacked me purposely!"

FARM LABORERS.

All reports from the west indicate a bumper harvest, estimated at 200,000,000 bushels. The work of cutting, threshing and garnering this immense crop will give months of employment to a vast army of laborers, and it is estimated that fifty thousand helpers will be required. The farmers of the east are as much interested in this matter as are their western brethren, it is a work of national importance, and the call from the west for help must be heard and heeded in the eastern provinces, for upon the west at present depends largely the growth and development of the country. The excursions will leave the maritime provinces August 12 and 28. See advertisement.

HORRIBLE MURDER OF YOUNG WIFE

Watertown, N. Y., Aug. 7—Returning to the house after driving in the cows early this morning, Gordon Priest, a young farmer living near Evans Mills, found his wife, aged 32, dead in bed with her head split open ,and her infant child lying on her arm, playing in the pool of blood. A hatchet with which the crime had been committed, was found lying near the bed. It is supposed that robbery was the motive, a purse in which Mrs. Priest had $100 in money, having been found near the hatchet. This contained but $10 which the murderer had overlooked.

ST. JOHN FIREMEN WIN FIRST PRIZE AT FREDERICTON

Fredericton, N. B., Aug. 7—A slight shower of rain early this morning failed to dampen the great enthusiasm on every side over the success attending the Old Home celebration. The big feature to day was the parade of firemen, representing the departments of St. John, Fairville, St. Mary's, Woodstock, Halifax, Amherst, St. Stephen and Chatham. They formed up on Barracks Square at eleven o'clock and made a tour of the principal streets of the city. The route of the procession was lined with thousands of people and the fire laddies came in for much applause. Commissioner Wigmore accompanied Mayor Hooper and Ald. Crookshank in a barouche, and Governor Wood reviewed the procession from a point near the Parliament buildings.

The decorated cart of the St. John Salvage Corps made a fine appearance and was much admired. It was awarded the first prize of twenty-five dollars for the best decorated apparatus, and the second prize of fifteen went to Fredericton. The prize of twenty-five dollars for the best appearing company was won by Halifax with Moncton second. The judges were: W. B. Dickson, Capt. Papineau and Earl Lynn. The fire chiefs now visiting the city are to meet this afternoon and endeavor to re-organize the Fire Chiefs' Association.

Steamer D. J. Purdy brought two hundred excursionists here from Washademoak this morning.
