OOTING PBELLTON

Militiaman Shot by Companion

Private Wheeler's Weapon Caused the Sad Accident

Downpour of Rain Adds to Sufferers' Misery — Much Sickness Prevailing—Contributions Coming in More Rapidly—Hundred Thousand Dollars Needed.

Campbellton, N. B., July 31—A shade of loom was cast over the fire-stricken com- unity this afternoon when it was learn- d that Harold Wheeler, a member of the ocal militia, and one of the town's most opular young men, had been the victim f a shooting accident as a result of which e is now in a precarious condition.

The accident occurred at noon and was aused by the discharge of a bullet from is own revolver while in the hands of a riend of his named Porsier. The latter as examining the revolver, which is an utomatic one, when the discharge took lace. The bullet passed through Wheel- r's arm and entered his abdomen, render- g him unconscious. He was taken to the elief hospital where he is being attended y Drs. Pinault and Price.

This is the second serious accident to ake place here since the day of the fire. That the outside world is gradually be- g aroused to the seriousness of Campbell- n's situation was made evident by the creased number of subscriptions receiv- d here on Saturday, more than $3,000 be- g added to the relief fund. A pleasing eature in connection with it was the fact at the larger part of it came from up- er Canadian cities, which up to a few ys ago sent in little or no assistance.

Saturday's Contributions.

As the days progress the situation grows ore serious. The monotonous routine of nt life is growing on the minds of the ople, who are becoming more or less spondent. The relief committees are rking hard and zealously, but all the ments which go to make life miserable m to be conspiring against them. All y Saturday the rain fell in torrents and m every side nothing but tales of woe uld be heard. Hundreds flocked to the lief tent demanding food and mattresses, th of which are a very scarce article re at present.

A hundred and fourteen mattresses ich were received yesterday afternoon m the Alaska Feather & Down Com- ny, Montreal, fell far short of supplying e demands, there being over 100 in the nted city yet sleeping on dampened nkets and spruce boughs.

re Limit Necessary.

The town council and advisory board ld a meeting Saturday afternoon, at ich the question of having a fire limit tablished in the town was again brought to discussion. F. M. Anderson, of e Shives Lumber Company, was present d urged upon the council the necessity having such a law as this established. assured them that unless some steps this direction were taken an enormous crease in the insurance rates would fol- w. The council left the matter in the nds of a committee, who will report at next meeting.

Mayor Murray informed the council at Premier Hazen, while on his last it here, promised to supply the council, ges and lawyers of the town, as well, the provincial statutes and acts of embly.

udge McLatchy left on Saturday even- for Ottawa, where tomorrow he will pear before the dominion government in ncil and make an appeal for immediate . In the course of his appeal, Judge Latchy will take occasion to remind the minion cabinet that Campbellton previ- to the fire had been the third revenue ducing town in the province, and as a ult was worthy of assistance if only in way of an investment.

With the exception of the accident ich caused considerable stir for a time, rything passed off quietly today. Open services were held by the different otestant denominations, and mass for Roman Catholics was celebrated by her Wallace on Chapel Hill.

Notwithstanding the fact that the wea- r was very disagreeable, occasional wers falling throughout the day, a large nber of people paid a visit to the town. umbered among the sick list now is ief Magistrate Matheson, who is suffer- from nervous prostration. Magistrate theson is being cared for in his tent. new cases of measles or other contagi- diseases have been reported.

An investigation by Mr. Harquail, of building committee, shows that about poor people, out of a total population 5,000, will have to be assisted in build- shacks and supplying food for the ter. Even if only $100 were spent on h of these families from now until next ing, it would necessitate a sum of $80,- yet only $45,000 so far has been con- buted in cash.

n order to guarantee the bare necessi- of life to the population a sum of 0,000 will be needed.

FAREWELL RECEPTION AND PRESENTATION TO ST. MARTINS RECTOR

St. Martins, Aug. 1—Last Thursday evening, at the residence of Church Warden James B. Hodsmyth, the members and friends of the congregation of Holy Trinity church tendered a farewell reception to Rev. Maurice R. Pout, who is leaving the parish this week.

During the evening Mr. Pout was presented with a handsomely worked cushion by the members of the woman's auxiliary. An address, together with a handsome sum of money, was then presented to him by Mr. Hodsmyth on behalf of the parishioners.

Mr. Pout, in a few earnest words, expressed his deep gratitude for such kind and thoughtful appreciation of his work, and thanked the people for their unceasing loyalty and devotion to the work of the church. After a delightful programme of music and singing, a very dainty repast was served by the ladies of the congregation.

Mr. Pout will spend a few weeks on the St. John river before proceeding on a visit to his brother in Winnipeg.

ST. MARTINS

St. Martins, N. B., July 29—St. Martins is in hopes of having an extensive industry, in the shape of docks, for repairing vessels on a more extensive scale than heretofore carried on. Many prominent citizens are interested in the matter, so much so that they have petitioned the minister of public works with regard to it. The Telegraph correspondent has been able to secure a copy of the petition, which is about being forwarded to Mr. Pugsley. The document, which is very largely signed, is as follows:

St. Martins, N.B., July 28, 1910.

Honorable William Pugsley, K.C., D.C.L., Minister of Public Works, Ottawa, Canada:

Dear Sir,—The residents of St. Martins and vicinity realize fully the effort that Mr. James DeLong has been making to bring St. Martins to the front as a place where vessels of all kinds can be repaired.

He has been handicapped by reason of not having quite the facilities needed for the carrying out of his work, neither his dock or his wharf accommodations being ample.

If you would kindly grant him the favor of using a portion of the inside of the Eastern Breakwater—the old part—he would be able to greatly increase his business and bring it up, perhaps, to the level of a great industry.

We think this favor might be granted without at all interfering with the public interest.

Early attention to this matter will be appreciated by your petitioners.

The Baptists of West Quaco held a strawberry festival in the church there last night. The edifice was handsomely decorated for the occasion, Japanese designs being everywhere in evidence. The attendance was very large, and the various booths were well patronized. The candy depot was in charge of Miss Mary Brown; strawberries and cream were furnished by Miss Maude Mosher, and the ice cream and cake booth was in charge of Misses Carson, McLean, and Brown. The affair was a decided success, and the attendance included many from the village.

Rev. Mr. Pout, who has attended to the spiritual wants of the members of the Church of England here for the past two years, will leave next year for Winnipeg, where he will finish his Theological studies. Last night the members of the congregation assembled at J. B. Hodsmyth's residence, where the reverend gentleman was summoned, and a very pleasant social evening was enjoyed. Before the company separated, Rev. Mr. Pout was presented with a purse of gold, which had been collected by the Ladies' Auxiliary of the church. The Rev. Mr. Pout, though taken entirely by surprise and quite affected, made a very happy speech, in response to the presentation.

Mr. Pout has made many friends here among all classes and creeds, and his acts of benevolence and charity have endeared him to all.

FIGURES THAT TELL STORIES

PRINCE EDWARD ISLAND

A WRITER on the prospects of Prince Edward Island says that, if every farmer would plant five acres of apple orchard, the exodus of the younger generation would cease, the population would double within little more than a generation, and the wealth of the people would grow in much more rapid ratio. This is another way of saying that what the Island needs is more extensive cultivation of its wonderfully fruitful soil. As a matter offact,
