During the year ending with September last, the proprietor of the LADIES' JOURNAL has given a very large and valuable lot of rewards to has a very large and valuable lot of rewards to his subscribers, aggregating an immense amount of money. We are sure that the Pianos, Organs, Gold and Silver Watches, Silver Ton Sets, Books, etc., etc., have given great satisfaction. A good deal of excitement has been caused by the advent of some of these costly prizes into the towns and villages of Canada and the United States. They have been sent to all parts almost of the two countries, quite a num-ber even going to England and other distant places. Full lists of the winners are always pub-lished in the LADIES' JOURNAL immediately at the close of each competition, names are given the close of each competition, names are given in full, together with the street and number, where possible, so inquiry can readily be made by those who are doubtful. What is the use of abusing a poor fellow-creature so afflicted? Goldwin Smith is not a bad fellow on most questions, but when you speak of Ireland or Catholicity, you irritate the cerebral soft spot, and he gets excited. The fact that we had a full moon recently might have led you to expect a violent ebullition of poor Smith's Hiberno-phobia, and cherry, per M, \$60 to \$80; butternut, \$25 to ought to have excused the poor man's rabid utterances.

What harm would it do the Irish cause if this educated English "omedhaun" published a hundred volumes in the propagation of his insane idea that Ireland and the Irish are the "alpha" and the "omega" of incarnate de-riltry? Who, outside of a lunatic asylum or the editorial chair of the Montreal religious "Daily," could read such insane rant without pity for the poor, daft author ?

Let us be charitable. Who knows how soon a disordered liver may not develop a bee in one's bonnet, like that now buzzing in the skull of poor Goldwin Smith ? Yours truly,

JOHN P. SUTTON

HIDES AND SKINS.--- A good many dryhides are arriving from the Northwest territory ranches, a fact which is of considerable importance, as it promises to develop into quite fine grade of sole leather. As they are branded, however, it will detract somewhat from their value. Prices are quoted at 14 to 17c as to quality, a car load being offered at 16c. This altogether forms one of the most attractive and reasonable plans we have ever seen. The aim of the proprietor of the Ladies' Journal The aim of the proprietor of the Ladics' Journal is of course to increase his circulation. In fact, he says so, but adds that he also hopes to en-courage the study of the Bible, but frankly states that this part of the plan is not his sole aim, and goes on to explain that he has lost so much money by dishonest agents, and has spent so much in valuable premiums to encourage them to send large lists, that hereafter he has decided to give all these things direct to subscribers, for answering these Bible questions. Aside from the rewards effered you are sure to be pleased with your affered you are sure to be pleased with your half dollar investment, as the Ladics' Journal effered you are sure to be pleased with your half dollar investment, as the Ladics' Journal eonsists of twenty pages of the choicest reading market firm at 7g to 5%. Merchants have cut down imports without stint, the value for October being more than \$600,000 less than during the summer, months last year, Concerning the winter trade there are many apprehensions as the number in 300 520 business in cities, towns and large villages is excessive, and the farming community have not shown much readiness in selling produce 240and placing themselves in a position to liqui-date their debts, because of the prevailing 300 low prices of farm stuff. There will be a good deal of grain wintered, and sold in the spring, 500 and the early spring trade ought to be the largest in volume we have seen for some years. The record of failures has kept light, and no houses of any consequence have succumbed

up to date. In the States the election excitement has been dying out, and more attention was paid to business matters at the opening of the week. In the afternoon of Monday a spurt in grain and provisions re-lieved the monotony of the Chicago markets. Corn was run up 5 cents on November and wheat advanced a half cent; pork and lard also went up, but reaction subsequently set in all round. The New York stock market was fitful and excited, prices going up only to come down again as promptly. The decrease in railway earnings for October, as compared with October is requested.

The Hudson's Bay company have obtained the supplemental charter for which they applied in July last. The meeting for the elec-tion of directors will be held in December instead of November as previously, and it is expected that a return of £1 per share of the capital will then be made to the proprietors. The people of this country have spoken. They declare by their patronage of Dr. Thomas' Eclectric Oil, that they believe it to be an article of genuine merit, and adapted to 1,4\$0 the cure of rheumatism, as well as relieves the pains of fractures and dislocations, exter-496 ternal injuries, corns, bunions, piles and 1,994 other maladies. The German emperor will deliver an ad-2.353 dress of welcome on the assembly of the Con-1.446

go conference. Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites-Is especially valuable for Children. Dr. J. R. FRAYSEE, Memphis, Tenn., says: "I regard

Scott's Emulsion as a valuable medicine for the diseases of adults, for infants teething and sickly children."

The Argentine government has suspended the bishop of Salta for issning a curiously worded pastoral.

-----No lady of refinement likes to resort to superficial devices to supply a becoming sem-blance of her former beauty. It is health beef, making the total shipments to date alone that lights the countenance and brings back fresh tints to the taded cheek. If anything on earth will do this, it is Mrs. Lydia E. Pinkham's Vegetable Compound which has already brought health to multitudes with whom all other means had failed.

An injunction has been granted restraining Miss Devey from publishing the late Lord Lytton's letters to his wife.

D. Sullivan, Malcolm, Ont., writes : "I havo been selling Dr. Thomas' Eclectric Oil for some years, and have no hesitation in saying that it has given better satisfaction than any other medicine I have over sold. I consider it the only patent medicine that cures more than it is recommended to cure." Unprincipled persons are selling imitations of Dr. Thomas' Eclectric Oil. Do not be deceived.
