PLUMMER HAS GONE.

Now let the cranks rage, and the people imagine vain things. Plummer has gone—gone back to classic Boston, whence he came, with all the freshness of the morning glory. Dear old boy! No more his noble form shall grace the green! No more his sturdy legs shall waddle to the pitcher's box! No more shall the grand stand bask in the sunlight of his countenance! No more shall his silvery voice be heard from the coachers' lines, yelling "Slide, yer duffer, slide!" Yes, Plummer has gone, and the gloom which defeat has spread over the fans will be deepened by the absence of that bright spirit. He didn't prove to be much of a ball player, Plummer didn't; but everybody liked him, and everybody will regret that he is no more. He was such a good-natured old boy. Come defeat or come victory, the smiles never ceased to wreathe that cheery face from ear to ear. He was a thing of beauty, but alas! not a joy forever. Unexcelled though he was for decorative purposes, Manager Sippi couldn't afford this costly ornament, and with many heart-pangs he was forced to say farewell. In the classic shades of Boston may Plummer grow in loveliness and grace. The best wishes of the London cranks go with him.

THE WHEEL

METEORS AT SPRINGBANK.

The excursion of the Meteor Bicycle Club to Springbank last night was largely patronized, and much interest was taken in the road races to Byron. The band concert made the affair more enjoyable. Tom Nixon gave an exhibition of fancy riding, and was applauded by the many spectators. The races resulted as follows:

Road race to Byron and return—A. H. Wilson (winner of R. Q. S. road race, Toronto, 1895), 1; Fred Barnes, 2; G. Morgan, 3.

Slow race—W. Goodwin.

Hurdle race—Arch. McCallum, 1; Fred Barnes, 2.

The judge was Al. Goodwin; starter, J. Pendergast; referee, G. Watson.

CIRCUIT RACES, WINDSOR.

Windsor, Ont., July 18.—Good weather, a fast track and large fields contributed to making the first day of the National Circuit bicycle races, transferred from Detroit to this city, a success. Bald, Zeigler, Johnson and other American cracks were present, in addition to Loughead, McLeod, McIntosh and Harley Davidson, the speedy Canadians. Some gilt-edge racing was seen. In the professional mile handicap, Zeigler, from the scratch, covered the distance in 2:06, but as he did not finish first, his time was not officially taken, and will not count as a record. RECORDS SMASHED.

Jacksonville, Fla., July 18.—At Panama Park track yesterday afternoon, George N. Adams, paced by a tandem, established some amateur flying start records against time. The records follow: Three miles, 6:30 4-5; four miles, 8:43 1-2; five miles, 10:55 1-2; six miles, 13:14 1-2; seven miles, 15:25 1-2; eight miles, 17:42; nine miles, 19-53; ten miles, 2:31 2-5. These beat the old standing start records from six miles up. Nearly half a minute was lost on the last mile by a fall.

SPOKES.

It is said that Sarnia and Brantford will make bids for this year's Dunlop road race.

Arrangements have been completed by which a bicycle track from Galt to Preston and around by Blair back to Galt will be built almost at once. This will make a six to seven mile run. It is said that Berlin and Waterloo bicyclists will also build one from Berlin to Preston.

THE TURF.

RACING AT NEW YORK.

Aqueduct Race Track, New York, July 18.—The principal event on the card here yesterday was the handicap for 3-year-olds and upwards at six furlongs, and it was captured by Premier, a 2 to 1 shot. Willie Simms had a narrow escape from death in the second race. He was riding Marshall, and shortly after the start had been made the horse fell. Simms was thrown violently to the ground and was unconscious for twenty minutes. A medical examination, however, revealed the fact that his injuries were not dangerous. Summaries:

First race, 5 furlongs—Margaret Roth, 5 to 1, 1; Contractor, 5 to 2, 2; Braw Lad, 10 to 1, 3. Time, 1:02 1-4.

GUELPH TROTTING MEN ORGANIZING.

The Guelph Trotting Association is the title of a joint stock company being formed here for the purpose of conducting trotting and running races. The trustees are C. Kloepfer, M.P., and Wm. Bell, president of the Traders' Bank. The management committee have arranged for a five years' lease of the old race-course track, and are now having it fitted up for a first-class meeting on Aug. 27 and 28, when large purses will be hung up. In future it is intended to hold annual spring and fall meetings. The races will be run strictly in accordance with the rules and regulations of the National Trotting Association.

NOTED SIRE DEAD.

A telegram received from Lexington, Ky., announces the death of August Belmont's stallion imp. Rayon d'Or, at the Nursery stud near that city. He was the sire of many famous race horses, among them being Maurice, Pat Oakley, Restraint, Rubicon, Souffle, Tenny, Banquet and others. Last year his produce won over $25,000. Rayon d'Or was bred in France in 1876, and was by Flageolet, dam Araucaria. Among his many victories were the Great Challenge stakes, Champion stakes and Doncaster St. Leger, in 1879. He was imported in 1882 by the late Wm. L. Scott, of Erie, Pa., at a cost of $33,000, and at the sale of that gentleman's stud in October, 1892, was sold to Mr. August Belmont for $32,000.

TIPS.

Willie Martin sold Strathol at St. Louis for $2,000 after getting three races out of him. This is the horse that belonged to the murdered Joe Martin, and was disposed of for $900 at the executors' sale.

In the second inning Repton scored 131 runs with all out. Haverford won the inning by 27 runs.

SCULLING IN ENGLAND.

London, July 18.—The Hon. Rupert Guinness won in the race for the Wingfield sculls yesterday, defeating Vivian Nickalls. This is the second successive victory in the contest for this trophy won by Guinness. Last year he defeated Guy Nickalls.

THE TRIGGER

HOW THE CANADIANS WON.

London, July 18.—There were four teams in the contest for the Kolapore cup, one from the mother country, two from the Channel Islands, and one from Canada. The following are the scores of the different teams:

	200 yds.	500 yds.	600 yds.	T'l.
Canada	226	228	202	656
Mother Country	232	219	193	644
Guernsey	225	226	167	618
Jersey	199	212	178	589

The Canadian men's victory is generally popular, and the team was greeted with ringing cheers on its return to camp.

In the competition for the London and Southwestern Railway Company's prizes, open to all Martini-Henry tyros, seven shots each at 200 and 500 yards, Lieut. Munro, Forty-fourth Battalion, did some excellent scoring, as did Capt. Spearing in the Flood-Page competition, open to all, seven shots at 200 yards.

In the Pixley competition, open to all comers, seven shots at 600 yards, Pte. Armstrong, Tenth Battalion, made five bulls, an inner and an outer.

It is not expected that the team will win many prizes in the competitions closing today.

Col. Starke has received congratulatory cablegrams from the Earl of Aberdeen, Hon. J. M. Gibson and many others.

Lieut.-Col. Cotton, Lieut.-Col. Gordon and Major Roy, Canadian officers, were examined today at Aldershot by a military board as to their tactical fitness for command.

CANADIANS SURPRISED THEM.

London, July 18.—The correspondent of the Times at Bisley says that nobody expected the Canadians to win the match for the Kolapore cup. The morning papers very generally offer congratulations to the Canadian marksmen.

In the shooting at Bisley today for the Prince of Wales trophy, the members of the Canadian rifle team made the following scores at the 200 yards range: Mitchell 44, King 35, Levers 43, Macdonald 44, Ross 42, Hayhurst 48, Bruce 40, and Crowe, 41.

CHECKERS.

THE CHAMPION OF THE WORLD.

Richard Jordan, who has become the champion of the world by defeating Ferrie in the recent match at Glasgow, is only in the 24th year of his age, having been born in Edinburgh in November, 1872. He first came into notice four years ago by defeating the "Herd Laddie" in a subscription match, the score being Jordan 2, Wyllie 1, drawn 17. In the same year he defeated the Dundee champion, R. Fraser, by 6 games to 2, with 9 draws. At the Scottish tournament in 1893 he defeated McKelvie in the first round, but succumbed after a hard struggle to Robert Stewart in the second. Afterwards, however, defeated Stewart in a set match by 4 games to 0. Later on he defeated the Border champion, J. C. Brown, by 7 games to 2; and in the international match with England in 1894 he met Beattie, Grainger and Gardner, and made an even score. At the last tournament in Glasgow to decide the championship of Scotland he defeated Ferrie, the final score being, Jordan 2, Ferrie 1, drawn 3. Ferrie was born in Greenock in 1857, and is thus in his 39th year. He has been playing draughts since he was 18, and a number of years ago he played against the American expert, J. P. Reed, beating him by 4 games to 1. In 1891 he defeated Brydon for the championship of Scotland, but in the tournaments of 1893 and 1894 he succumbed of R. Stewart, of Blair Adam. In the latter year he won the championship of the world by defeating the "Herd Laddie," the score being 13 to 6, with 69 draws.

A movement has been started in Glasgow to raise a fund for the purpose of having a subscription or testimonial match between those two grand old ex-champions, the "Herd Laddie" and Mr. Martins.

It is understood that Reed and Jordan are to play for the championship of the world next month.

Maud's Garden Party a Marvel of Brilliancy.

American Oarsmen Having a Glorious Time in Old England

Club Life in the Capital Affected by the Licensing Laws.

(Special to the "Advertiser.")

London, July 18.—Not for a long time has London known a week so full of events of marked social importance as the one which closes today. To begin with, there was on Monday the garden party at Buckingham Palace, given by the Prince and Princess of Wales, in honor of their daughter, Princess Maud, who will, on Wednesday next, become the bride of Prince Charles of Denmark. According to authorities in such matters this party was the most brilliant social function that has taken place in the United Kingdom since the year. The Lord Chamberlain, Lathom, received 10,000 applications for tickets to the garden party, and the United States ambassador, Mr. Thos. F. Bayard, was similarly besieged by those of his fellow countrymen and women who, being at the time in England, craved an opportunity to mingle with royalty and other titled folk. To say there were many, especially among the ladies, who were bitterly disappointed is to state the fact but feebly. The regular courts were reinforced for this occasion by foreign princes, envoys and field marshals, high officers of the army and navy, and other notabilities; and those leavened a rare lot of commoner folk, such as Tim Healey, the noted Irish member of Parliament; Mr. W. E. H. Lecky, the historian; Ellen Terry and Sir Henry Irving. Mrs. Keley, the monogenarian actress, was also there, having been especially invited by the Queen, and held quite

A LEVEE ON THE LAWN.

Such numbers of brilliant toilets have seldom been seen, and the marquees were gorgeously colored, to which an endless display of flowers and plants added. The royal servants were busy about the grounds in equal profusion. The bright uniforms of the Coldstream Guards Band made a series of living pictures that it would be hard to equal. Particularly picturesque were the Queen's watermen, wearing scarlet hoods, doublets and hose, the letters "V. R." formed of the shamrock, rose and thistle, in gilt, on their breasts. These acted as ferrymen, carrying in their ferries many idling guests upon the lake. The Prince of Wales, contrary to the attempted dictation of fashion, wore a white "stovepipe" hat with a black band, and two of his suite had their heads similarly attired. The last guest having taken his departure from the palace grounds, the police, with a staff of beaters, went over every inch of the ground, and gathered up a harvest of trinkets, sticks, handkerchiefs, etc., including one fat packet of love-letters.

The garden party officially began the programme of the wedding fetes which have continued throughout the week. Members of the aristocracy who have been abroad are returning for the royal wedding. The freedom of the city has been bestowed on Prince Charles. The prince was entertained on Thursday by the drapers' company.

PRINCESS MAUD'S WEDDING.

As far as the Queen is concerned, the approaching nuptials will be as private as possible. Her Majesty is expected to arrive in the city Monday evening On Tuesday, she will, in private, invest the Crown Prince Frederick of Denmark with the order of the Garter and with the first-class decoration of the Victoria and Albert Cross. Upon both of his sons, Prince Christian and Prince Charles, the Grand Cross of the Bath will be conferred at the same time. The Queen will not attend the wedding breakfast. On Thursday, the day after the wedding, her Majesty will return to Windsor, whence she intends to go soon to the Isle of Wight. It has been semi-officially announced that the royal family would not be displeased if people should decorate their houses in honor of the wedding, and doubtless a great many will gracefully take the hint. Among the presents which have been received by Princess Maud is a magnificent solitaire diamond from William Waldorf Astor.

In view of the approaching wedding a curious phase of British philantrophy has developed in the Chronicle, which newspaper recently urged Princess Maud not to give her sanction to cruelty by wearing osprey plumes on her hat. In response, the Chronicle received an intimation from the princess to the effect that she would not wear osprey plumes, and upon this the Chronicle published an article in praise of her Royal Highness and commending her for her kindness of heart. However, it was observed that at the royal garden party at Buckingham Palace on Monday most of the feminine members of the royal family were decorated with osprey plumes. In sore amazement the Chronicle noted the fact, and appealed to the Queen to forbid the use of osprey plumes by members of the royal family.

AMERICANS HONORED.

The Ancient and Honorable Artillery Company, of Boston, did not escape the attraction of the curators of public morals while they were in London. A publisher here presented Col. Walker with 100 copies of Cromwell's Soldier's Bible, which, he said, would make the recipients bullet-proof.

The American line steamer New York, which sails from Southampton today, takes as passengers Mr. Robt. J. Cook, the famous Yale coach, and Messrs. Simpson, Longford and Longacre, of the Yale Henley crew. The Yale men have been having a glorious time in England. They were feted on all sides, and had invitations to many select entertainments. All the prominent theaters sent them boxes. Mr. Cook especially received marked attention from those standing high in the ranks of English sportsmen, and has been entertained at exclusive clubs, etc. On Tuesday the Nickalls brothers had the whole party at their country place, Red Hill. On Wednesday the members of the crew and Messrs. Thorne, Pardee and Cheney went to Cambridge on the invitation of Mr. Fitzherbert, the athlete, and were there entertained at a dinner at which all the prominent officials of the university were present. The latter tried to induce Treadway to take a course at Cambridge and row in the Cambridge University crew. This is a striking incident of the way the university encourages athletes. Messrs. Treadway, Armstrong, Desibour and Thorne started from Oxford last Saturday, rowing down the Thames by easy stages and taking most of the week for the trip. These gentlemen and Mr. Wheelwright, another of the Yale crew, sailed for home on board the American line steamer Paris.

GENERAL GOSSIP.

Curious sidelights are being thrown upon the licensing laws by the testimony before the Royal Commission, Hon. Algernon Bourke, manager of White's Club, Willis rooms, stated that if the closing hours designated in the laws should be enforced, club life would be destroyed and members be obliged to do as men of similar means do in the United States—that is, live in hotels. He said that there has been a great decrease in drinking at the west end clubs in the last twenty years.

Sir Donald Smith, K.C.M.G., has, during the week, been interesting himself with a large number of scientists in promoting a project to prepare a complete catalogue of scientific literature. In this interest there have been two meetings and a dinner, at which there were present several foreign envoys, Sir John Gorst, M.P., Lord Kelvin, Lord Rayleigh, a number of foreign professors and others.

The Only Safe Infant Diet for the Hot Weather Is Lactated Food.

Days of sweltering heat often make life a burden for a large proportion of our adult population. How about the infants who are weak, sickly, cross and irritable? They will certainly die off in thousands unless they are rescued and saved by Lactated Food, the only summer diet suitable for weak digestive organs and delicate stomachs. This life-saving food is relished by young babies when milk and other dangerous foods cannot be tolerated. In ninety-nine cases out of every hundred, Lactated Food saves babies' lives.

THE IRISH RACE CONVENTION.

Ottawa, Ont., July 18.—At a representative gathering of Irishmen for the purpose of naming delegates from this city to attend the great Irish race convention, which opens in Dublin, Ireland, on Sept. 1 next, the following names were agreed upon: Rev. M. J. Whalen, Dalton McCarthy, Hon. John Costigan, P. A. Eagleson, Wm. Cowan, F. Barry Hayes, Patrick Baskerville, George O'Keefe, M.P.P, Charles Murphy, F. R. Latchford, Dr. Freeland, John Heney, John Lyons and M. Staars.

JEALOUSY AND VITRIOL.

Butte, Mont., July 18.—Mrs. Rose Heimback, wife of Ed. Heimback, of Meaderville, became jealous of the attentions her husband paid Mrs. Thos. Snelling. In company with her sister, Mrs. Haskins, she went to the Snelling home, and, calling Mrs. Snelling into the parlor, Mrs. Heimback threw a pint of sulphuric acid on her. Mrs. Snelling is terribly burned from head to foot, and will die. Mrs. Heimback and her sister are under arrest. The latter is a raving maniac in the county jail, and is expected to die also.

It's the Little Things That Count.

The true philosophy of happiness is to be well fed and warmly clad, and not to realize that there is anything else to desire. We may, indeed, have dined well and be warmly dressed, without being contented, but we certainly can't be contented while we are hungry and cold. Life is a monotonous grind at best, and we can only equip ourselves as comfortably as possible for the inevitable work, taking pleasure out of any idea which aids us in outwitting Dame Nature's frosty embraces. The interlining of winter clothing with Fibre Chamois is a new and splendid idea for providing a completely wind and rain proof warmth at a very slight expense.
