SPECIAL REPORT NOW IS ORDERED

McConkey's Case Will Be Looked Into by License Inspector.

MIDNIGHT ALTERED IT

New Year's Was Voting Day and Covered by Separate Act.

The fact that E. S. McConkey received the minimum fine of $40 for allowing the consumption of liquor on his restaurant premises beyond the legitimate hour of sale on New Year's Eve will be made the subject of a special investigation by the provincial license department. A report will be submitted by License Inspector Burroughs.

According to reports, the jollifications on that date extended into the early hours of the following day, and in that event the case would assume some further aspects to be considered. The judgment handed out by Magistrate Denison, according to the license regulations, was based only on the sale after 11 o'clock on the evening in question. The penalty followed a first offence, to which Mr. McConkey pleaded guilty.

Some of the other considerations which might be taken note of, if a blanket charge were disregarded, include the fact that, if liquor were consumed after midnight the enactment regarding disposal or consumption on voting day comes at once into question. The same situation would bring as a consequence a charge that the restricted hours of the second day were violated, as well as those of the first. The hour of midnight would divide the offences.

It is understood that there is some ground for holding that a licensed proprietor who sells on restricted holidays puts himself into the position of one selling without a license. The penalty provided in the act for such a violation is $500 as a maximum.

If any action develops, it will likely take the usual course, with Crown Attorney Corley taking charge of the prosecution.

RETAIL SHOE PRICES EXPECTED TO JUMP

Ten Dollars Per Pair May Soon Have to Be Paid for Foot Covers—Due to Laws.

NEW YORK, Jan. 13.—(Can. Press.)—In the opinion of speakers at the annual convention of the National Shoe Retailers' Association in session here, the retail price of shoes may soon reach $10 per pair.

"Pure shoe laws," already adopted in twenty-five states and several measures of the same nature now pending in congress were given as the chief causes for increasing the price of footwear. Both speakers and a majority of the two hundred delegates present denounced the legislation that would cause all shoes not made entirely of leather to be stamped "adulterated" or "substitute leather."

The shoe retailers were told that if all shoes were made of all leather, 2,000,000 more hides per annum would be required in this country alone, and with hides practically in control of the larger packing houses it cannot be foreseen to what heights shoe prices might soar.

UNUSUAL OPERATION TO RELIEVE PARESIS

Man's Skull Bored and Specially Prepared Serum Directly Injected Into Brain.

PHILADELPHIA, Pa., Jan. 13.—(Can. Press.)—In an effort to cure a case of paresis, serum was applied directly to a diseased brain here and surgeons declare that the operation, the first of its kind in this country, will be successful. The operation has been performed three times in France, and in two of the cases there satisfactory results have been obtained.

The operation was on a man fifty-one years old. Two small holes were bored in his skull, one on each side of the brain. A serum obtained by inoculating a rabbit with an arsenic compound was then injected.

EAT GARLIC SOUP AND LIVE TO 100

Secret of Long Life is Found by Croatian Scientist.

IT IS TSCHESCHNAKOVA

Garlic, Cold Water, Vinegar and Plenty of Hot Pepper.

BERLIN, Jan. 12.—Do you want to live a hundred years? Dr. M. Gundrum, Royal Health Commissioner of Croatia, has discovered the secret of long life. He says eat plenty of "tscheschnakova" and "tscheschnakova tscorba." The doctor the quickly explains that written in his language these articles look even worse than they smell, and that is saying a great deal, for they are "garlic" and "garlic soup."

The physician is a specialist in food values, and has made the study of foods and their effect upon long life his life's work. As a result of this study, he now announces he is convinced that garlic is the champion long-life preservative and food.

The Croatian takes direct issue with Prof. Metchnikoff that the long life of the Bulgarians, of whom more pass the century mark than any other people, is due to eating the "yoghurt" or "sour clabber milk." Metchnikoff has used this as one of his strongest supports for his contention that "yoghurt" will tend to promote health and long life as nothing else will, and has turned thousands to eating thick, sour milk.

The Croatian specialist disputes the assertion that the Bulgarians eat much "yoghurt." But they do eat garlic, and it is to this that he attributes their long life.

How to Make It.

"As a matter of fact," he says, "the population of Bulgaria eats or drinks very little 'kiselo milijeko,' as sour milk is known there. But they eat great quantities of garlic—three times daily. 'Tscheschnakova tschorba,' or garlic soup, is the favorite dish. It is prepared with grated garlic, cold water, vinegar and paprika, or pepper.

"The Bulgarians are strictly orthodox. They have many and long periods of fasting, during which products of animals may not be eaten. These fasts are rigidly kept, and during that time garlic and garlic soup is their principal dish.

"As a result of my five years' investigation in Bulgaria I have come to the firm conclusion that the remarkable health and long life of the Bulgarians are due to nothing else than to their eating of so much garlic."

The Croatian specialist attributes the beneficial results of garlic to the antiseptic effects upon the intestinal tracts and promotion of digestion.

COAL COMPANY HAD A BIG YEAR.

(Special Correspondent.)

SYDNEY, N. S., Jan. 13.—The output from the Dominion Coal Co.'s collieries in Cape Breton for 1913 amounts to 4,742,000 tons, an increase of over 200,000 tons over last year's production.

All the Cape Breton collieries have had an increased output this year and the output for 1914 is highly promising. New areas that have beeen opened up have been proved profitable, and the industrial development of the Sydneys, Glace Bay, Waterford and surrounding towns continues in a manner that is most satisfactory, not only to the people of Cape Breton, but to all Canadians.

Cape Breton is a vast island, full of great mineral wealth. The building of the Intercolonial Railway to the Sydneys some 20 years ago made possible the great industrial growth there. Will the coming year witness the extension of other branches to the north and south that will open up new areas for exploitation and development?

HOLY ROSARY, H. N. S.

Holy Rosary Holy Name Society elected the following officers for 1914: President, Joseph Daniel; vice-president, John Ennis; secretary, L. M. Bradley; treasurer, Frank Bradley; delegates to archdiocesan union, Frederick Roy, Charles Daniel.

FISHING STEAMERS LOST.

BERLIN, Jan. 13.—(Can. Press.)—Two large fishing steamers, the Lloyd and the Porelly, which left Geestemunde in the middle of December for Iceland, have not been reported since, and their owners, fearing they may have foundered or been frozen in the fjords of northern Iceland, today requested the admiralty to send a German cruiser in search of them.

Women will find more news of interest to them in The World's magazine page every morning than in any other paper.

WINNIPEG'S WATER PLAN IS OPPOSED

Kenora Asserts Drain on Lake of Woods Would Injure Municipal Plant.

WASHINGTON, Jan. 13.—(Can. Press.)—Arguments were made today before the international joint commission against granting authority to the City of Winnipeg, Canada, to obtain its water supply from the Lake of the Woods, which has a watershed of some 26,000 square miles in the United States and the Dominion.

Both the Canadian and United States Governments have assented to the Winnipeg water project, but under the treaty, the commission has the right to overrule these decisions if it finds the plan detrimental to boundary waters or to the people who live upon them.

Objection was made to Winnipeg's request today by representatives of the City of Kenora, at the mouth of the Lake of the Woods. They asserted that if Winnipeg was granted permission to tap the Lake of the Woods, their municipal plant would be injured. The Winnipeg plan would take about 100,000,000 gallons a day from the Lake of the Woods, and transport it about 90 miles to the city. Opponents of the scheme argue that the project will tap Shoal Lake, a distinct body of water from the Lake of the Woods, entirely within Canada, and therefore not subject to the authority of the commission.
