

RELIGION—POLITICS AND SOCIAL LIFE.—It is the hue and cry of the Protestant world, that religion must be altogether separated from politics and the affairs and transactions of social life.

Our moral and intellectual life, depend on a great extent upon our religious training; our political and social life, is but the reflex of our moral and intellectual culture.

It is foolish to talk of the separation of religion from politics. You cannot effect the separation without combining irreligion with politics, which even our Radicals will admit is far worse.

Too BAD.—The editor of the International Journal gives a touching description of his sufferings, whilst attending the Sabbath services in the convalescent during a tour in Canada West.

The text was read, and arranged under two heads, with a great variety of subdivision. The time from 12 o'clock to 1, and from 1 till 2, was occupied with the first part of the discourse.

This should be a warning to all tourists not rashly to thrust themselves inside of a Presbyterian Church. We know by sad experience, how intolerable is the infliction on a fine summer's day.

SOLILOQUY OF A HOUSEMAID.—Oh, dear, dear! Wonder if my mistress ever thinks I am made of flesh and blood! Five times within half-an-hour I have trotted up-stairs to hand her things that were only four feet from her rocking-chair.

INTERESTING TO BARBERS.—It is said that a gentleman residing in one of the large towns of England, whose face rather exceeded the ordinary dimensions, was waited on by a barber every day for twenty-one years, without coming to a settlement.

WASHING DAY IN THE BALTIC.—Some of the officers in the Baltic have been writing home to their mammas for the means of washing and ironing their own linen, as well as for ample instructions how to "get up" a shirt.

A preacher, advertising herself as "Miss Sarah Pellet, a graduate of Oberlin," delivered a discourse in New York, on Sunday last, taking for her text the words, "Stand up, I myself also am a man."

To become Slandered.—Edit a paper, tread on the toes of scamps and rogues, and be sure always to tell the truth.—Western Tablet.

WORMS! WORMS!! WORMS!!!

A great many learned treatises have been written, explaining the origin of, and classifying the worms generated in the human system.

Such an expelling agent has at last been found. Dr. McLane's Vermifuge proves to be the much sought after specific—its efficacy being universally acknowledged by the entire medical faculty.

New York, October 15, 1852.

This is to certify that I was troubled with worms for more than a year. I was advised to use M'LANE'S CELEBRATED VERMIFUGE. I took one bottle, which brought away about fifty worms; I commenced improving at once, and am now perfectly well.

P. S. Dr. McLane's celebrated Vermifuge, also Dr. McLane's Liver Pills can now be had at all respectable Drug Stores in this city.

Purchasers will please be careful to ask for, and take none but DR. M'LANE'S VERMIFUGE AND LIVER PILLS. There are other Vermifuges and Pills now before the public, but all comparatively worthless.

WM. LYMAN & Co., St. Paul Street, Wholesale Agents for Montreal.

Carolina. Price, 2s. 6d. D. & J. SALLIER & Co., Corner of Notre Dame and St. Francis Xavier Streets. Montreal, May 4, 1854.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY,

HAS discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thimble humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing-sore mouth. One to three bottles will cure the worst kind of pimples on the face.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact.

If you have a humor it has to start. There are no ifs nor ands, hums nor has about it suiting some cases but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case.

It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, worn looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives a great relief to catarrh and dizziness.

Some who have taken it have been coxive for years, and have been regulated by it. Where the body is sound it works quite easy; but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed; they always disappear from four days to a week.

There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs.

In May 1852, when I commenced making a business of it, I sold about two bottles per day. In June 1853, I sold 4,320 bottles. In October, 1853, I sold 6,120 bottles. I hope you will call that doing well. I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy have been permanently cured.

I know one man gain 17 lbs by taking three bottles; another 11 lbs; another 10 lbs and another gain 7 lbs—the venerable Master Robinson, of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy get fat and cheerful by a few bottles. I know several cases of Dropsy, and one particularly bad.

A lady aged 79 was unable to leave her house for the last twelve years; was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns.

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last burst, making a bad wound which could not be healed; by taking three bottles and two boxes of ointment she is now quite well. Why it should make some fat and others lame I can not tell; but so it is.

I know of several cases of Kidney Complaints cured by it. If the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that was permanently cured by it.

It has lately been found to be a sure cure for the Panama fever. In one case, the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lay in bed for a number of years; she can now lay without the least inconvenience.

A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye water for weak and watering eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does; and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers who came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors where it never fails. For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters scrofulous swelling on the neck and under the ears. Price 50 cents per box. DIRECTIONS FOR USE.—Adults, one table spoonful per day; children for eight years, desert spoonful; from five to eight, tea spoonful. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury, (Mass.)

AGENTS: Montreal—Alfred Savage & Co., 91 Notre Dame Street; W. Lyman & Co., St. Paul Street; John Birks & Co., Medical Hall. Quebec—John Musson, Joseph Bowles, G. G. Arduin, O. Giroux. Toronto—Lyman & Brothers; Francis Richardson.

The whole Machinery is entirely new, and most complete; sufficient Looms to Manufacture 200 yards of Cloth per day.

Terms easy. Apply to E. & C. TETU, Quebec. 15th March, 1854.

PROSPECTUS OF ST. JOHN'S COLLEGE, FORDHAM, WESTCHESTER COUNTY, NEW YORK.

THIS INSTITUTION, incorporated with the privilege of a University by an act of the Legislature, is situated near the village of Fordham, in a most picturesque and healthy part of the county of Westchester, at a distance of about eleven miles from the city of New York, and three from Harlem.

It is of easy access at any season of the year, by private conveyances or by the railroad, which passes immediately along the borders of the beautiful lawn in front of the College.

The buildings are large, elegant and commodious; the grounds extensive, and tastefully laid out.

As to the domestic comfort of the pupils, every thing which parental attention can desire, will be found in the skillful management of persons formed by education and experience for this important and highly responsible department; and with reference to a special case, no apprehension need be entertained as regards the peculiar care required by the younger students.

The system of government is mild and paternal, yet firm in enforcing the observance of established discipline. No student is allowed to go beyond the College precincts, unless accompanied by one of the Professors or Tutors. Those who have parents residing in the city, will, if such be the parent's wish, be allowed to visit them once in three months, but no oftener, except for special reasons, as it is in every respect desirable that such visits should, during the college term, be as rare as possible.

The regular course of instruction embraces the Hebrew, Greek, Latin, English and French Languages; Poetry, Rhetoric, History, Mythology, Geography; Book-keeping, Arithmetic, Mathematics, Moral and Natural Philosophy.

When it is the wish of parents or guardians that their sons or wards should be fitted for commercial pursuits, care is taken to direct and adapt their studies accordingly.

The German and Spanish languages are taught, if required; but together with Music, Drawing, and other similar accomplishments, form extra charges.

The Collegiate year commences on the first Monday of September, and ends about the 15th of July, with a public exhibition and distribution of premiums.

TERMS: Board and Tuition, and use of bedding per annum, payable half-yearly in advance, \$200

Washing and Mending of Linen, 15 Physician's Fees, 3 Medicines are charged at Apothecary's prices.

N. B.—There is an additional charge of \$15 for students remaining during the Summer vacations.

Books, stationery, &c., are also furnished by the College at current prices, or may be procured by the parents or guardians residing in the city. No books are allowed circulation among the students, which have not been previously submitted to the supervision, and received the approval of either the President of the College or the Prefect of Studies.

Each student, on entering, must be provided with three suits for summer, and three for winter; with at least six shirts, six pairs of stockings, six pocket handkerchiefs, six towels, three pairs of shoes or boots, a cloak or overcoat, a silver spoon and silver drinking cup, marked with his name.

No advances are made by the institution for articles of clothing, or for any similar expenses, unless an equivalent sum be deposited in the hands of the Treasurer of the College.

With regard to pocket money, it is desirable that parents should allow their children no more than a moderate sum, and that this be left with the Treasurer, to be given as prudence may suggest, or occasion require.

Students coming from any foreign country, or from a distance exceeding 500 miles, should have guardians appointed in or near the city, who will be responsible for the regular payment of bills as they become due, and be willing to receive the student in case of dismissal.

Semi-annual reports or bulletins will be sent to parents or guardians, informing them of the progress, application, health, &c., of their children, or wards. R. J. TELLIER, S. J. St. John's College, Fordham, N. Y., August 15, 1854.

INFORMATION IS WANTED.

OF MICHAEL PADDEN, who left Ireland in 1852, and who, up to July, 1853, worked on the Bytown and Prescott Railroad; then left with the intention of going to the State of Pennsylvania. Any tidings of him will be thankfully received by his wife, Bridget, who has arrived from Ireland; directed to the care of Mr. MICHAEL HEARTY, Kemptville, C.W. [The Boston Pilot would confer a favor by copying.]
