CONVICT ATTEMPTED TO TAKE HIS OWN LIFE

MONCTON, April 16—A convict in the maritime penitentiary at Dorchester, made a desperate attempt to take his own life a short time ago. Only the arrival of an officer on the scene as the convict was breathing his last, prevented a tragedy. The prisoner had been confined in the dungeon for misconduct, and it was while incarcerated there, that he attempted to hang himself with his suspenders. Guard Willard Lawrence, in making his round in the evening, discovered the prisoner and when the young man was cut down, life was thought to be extinct. After working with him for some time life returned. The prisoner belongs to P. E. Island.

The annual at home of the Brotherhood of Locomotive Firemen, in Castle hall this evening, was a great success. In the vicinity of nine hundred invitations were sent out, and the attendance was large. The chaperons of the affair were Mrs F. Gibson, Mrs. R. E. Linden and Mrs. F. T. Corey. The committee having charge of arrangements was composed of F. T. Corey, R. L. Linden, P. Carlisle, W. S. Carson, W. G. Atkinson, secretary.

Miss Blanche O'Brien, one of Moncton's most talented young lady singers, intends leaving the latter part of April for Boston to study vocal culture under some of Boston's best teachers. Miss O'Brien is the leading contralto singer of Moncton, and has taken part in many vocal entertainments. She is a member of St. John's church choir. A bright future is predicted for her as a contralto singer.

The Christian Brotherhood, organized a few months ago in the First Baptist church by Rev. Geo. E. Whitehouse, has proved such a great success that it is now being seriously considered to build a hall for the purposes of the organization. Should the project be undertaken, it is proposed to erect the building at the rear of the Baptist church. The membership of the Brotherhood is in the vicinity of 300.

Roydon Estey, who is with the C. P. R. this year, on the engineering staff, is spending Easter in Moncton. He returns to McGill in August to continue his studies in engineering.

WILL FINISH IN FEW DAYS

Messrs Mooney Progressing Well With Work at Lake Latimer.

Messrs. Mooney expect to finish the work of laying the water pipe into Lake Latimer in a few days. This will nearly complete their section of the work, as there only remains some little work on the Robertson lake dam, and seeding to be done. In order to complete this it will be necessary, however, to wait until the snow and ice shall have disappeared.

McArthur and McVay have quite a large crew of men at work on their section, and are rushing matters as fast as possible.

The work of laying the three inch main from the one mile house into Marsh bridge, will be resumed as soon as the ice and snow is melted, and the frost is out of the ground.

MAD HORSES RAN AMUCK

Dominion Express Co. Team Causes Sensation on Prince William Street ---- C. H. Ferguson Slightly Hurt.

What might have been a serious runaway took place this morning about ten o'clock. A team of horses in a big double express wagon, owned by the Dominion Express Company, while standing in the company's yard, off Church street, took fright and ran away. They came out of the yard on to Church street at a terrific pace and continued until they reached Prince William street, striking against the Horn Building, where they smashed a cellar window, and breaking the whiffle tree of the big wagon. Both of the horses fell and one of them was considerably scratched about the legs. Clarence H. Ferguson, Clarence DeForest and another man were standing near the Horn building at the time, and did not see the runaway horses until they were nearly on top of them. Mr. Ferguson was knocked down and had a narrow escape from being killed. He was considerably shaken up. He was taken into a store near by and soon recovered, but his escape was miraculous. The men who were with Mr. Ferguson just escaped in time. Mr. Ferguson a short time after the accident was able to walk as far as his office in the Barnhill building, Princess street.

WAITING FOR THE REACH TO BREAK

Stmr. Elaine May Get as far as Gagetown This Afternoon

Steamer Elaine left this afternoon on her first regular trip of the season; and, from present reports it is expected that she will be able to make her way through the ice in the reach and proceed as far as Gagetown, without much difficulty.

The weather during the past few days has been so mild as to weaken the reach ice to a very considerable extent. There was ice running at Indiantown this morning, and many expect that the reach will break up at almost any moment, and thus leave the river clear for a considerable distance.

A local lumberman told the Times today that he expected the reach would run out this afternoon. When asked as to the lumber situation, he said that there was no change at present that he knew, and that no lumber would come down river until the ice gave way at Fredericton, there being no loose lumber below that point.

Tugboat men are anxiously watching the river, and are ready at almost a moment's notice, to make the dash up stream.

WILL IMPROVE MEMORIAL PARK

Douglas Avenue Memorial Park, which is becoming more popular every year, will undergo several changes and considerable improvement during the approaching summer. The park committee have secured a grant of $500 from the city council, which will go some distance in carrying to completion the plans now in the possession of G. Gray Murdoch.

A good deal of filling in was done last season, and this year it is the intention to open a new roadway on that side of the park nearest Main street, the work of filling in and grading will be continued and a portion of the park will be terraced.

The new roadway will extend from the first entrance in a winding course to the cove on the lower side.

J. D. Buckley, of Rogerville, is in the city.
