TRACTION ISSUES GAIN STRENGTH

Pierce-Arrow Jumps Six Points in Heavy Wall Street Trading.

Associated Press Despatch.

New York, June 17.—New stocks were brought forward constantly to keep the main movement upward and afforded at the same time a screen for selling others. Havana Electric Railway, General Railway Signal, Montana Power, Crucible Steel, Texas Company, American Ice, Central Leather preferred, Houston Oil, American Hide & Leather preferred and Jordan Motors were heavy, the last mentioned falling to 39½, a new low figure for the year.

Unusual activity developed in tobacco, United Cigar Store rising 5 points.

Associated Press Despatch.

New York, June 17.—The advance gathered momentum throughout the forenoon expansion of trading. Buying of a diversified list of stocks was inspired by the belief that underlying business conditions were more favorable, and that a continuance of easy money rates was steadily reducing the flowing supply of desirable investment shares.

Local traction issues continued to swing upwards in response to Wall street's favorable interpretation of the political outlook in its bearing on the transit situation. Reports of special distributions merger proposals and higher earnings laid the basis of the rise in several industrials. Skelly Oil was strong on rumors that control was being sought by one of the larger petroleum companies, and Dupont reached a new top price on the belief that an increase on capitalization will be followed by a stock dividend.

Pierce-Arrow prior preferred jumped six points, and gains of three to four points were registered by American and foreign power issues, Colorado Fuel and Famous Players. Call money renewed at 3¾ per cent.
