General News.

—More than one hundred clergymen sailed from New York for Europe one day last week. The devil being unable to take an outing can be found doing business at the old stand.

—The recent art sales in New York demonstrated that a $500 painting owned by a prominent man will bring $10,000 at public auction, while a $10,000 picture owned by an unknown individual is frequently knocked down for $500.

—An old subscriber at Bear River, informs us that in 1886, he took thirty-nine American buckets full of maple sap, equal to ninety-seven wine gallons, from one tree. Of this quantity, eighteen buckets-fuls were taken within three days.—*Digby Courier.*

—Ayer's Sarsaparilla operates radically upon the blood, thoroughly cleansing and invigorating it. As a safe and absolute cure for the various disorders caused by constitutional taint or infection, this remedy has no equal. Take it this month.

—Prince Edward Island farmers have learned that it pays to improve their stock. We read in the Summerside *Journal* that a Mr. Steele has sold a half interest in a "Hernando" colt for $400 and that a Mr. Dockendorff sold a three year old colt of the same stock to a Cape Breton society for $500. Good horses are always in demand.

—Harry Baker, a resident of Concord, N. H., well known and very popular, died at the home of his father, on Thursday afternoon. He was married on Wednesday, at 5 o'clock in the evening, and after a visit to Plymouth on the day following complained of not feeling well, and died at the same hour that his marriage occurred on the previous day. He was 29 years of age.

HALIFAX MARKETS.—The following quotations are dated June 16th, and are furnished us by Messrs. Mumford Bros., Argyle St. Butter, choice dairy, 17 to 18; rolls in boxes,— egge per doz., 11 to 12; hams and bacon, per ℔ 3 to 10; beef, quarters, 6 to 8; hogs dressed, 6 to 7; mutton, by carcass, 7 to 9; veal, do., 4; turkeys, per lb., 17 to 18; fowls and chickens, pairs, 50; potatoes, $1.25 to $1.50; oats, bush., 43 to 44; hay, ton, $14.00 to $16.00; wool skins, 75 to $1.00; dried apples, per lb., 6.

—On Tuesday night there was a "frost, a killing frost," and many of the gardens in Windsor and vicinity suffered severely. In many parts of the county, ice was formed, and frost was so thick on fences that it could be scraped off with the hand. The leaves of trees were stiff and say late blossoms must have suffered. Early potatoes, beans and such like were nipped, but it is hoped the fruits and crops generally will not be injured. It is seldom we have so heavy frosts in June.—*Tribune.*

St. John, June 10.—On Sunday last Mrs Thibideau, of St. Leonard's station, on the New Brunswick railway, gave birth to a son. On Tuesday morning following a daughter was born and on Tuesday evening another son. This was all that had arrived up to last accounts. The children weighed respectively 7, 8¼, and 7 pounds. The mother of the children is over thirty years of age and was married twelve months ago. Both parents are pure French.

—Henry Cargill thought that a speech from him was the dagger that would assassinate the Scott Act. He went from the hamlet of Cargill, deep in the woods of East Bruce, to Ottawa. There his wrath centred on the Scott Act which he promised to kill or maim. The Scott Act is still there, and Henry will creep out from the ruins of his bill to abolish it, with a conviction that only in the activities of the hay-field can he find true scope for his statesmanly energy.—*Toronto Telegraph.*

JUBILEE JOLLITIES.—The Jubilee issue of Grip's Own Library, entitled Jubilee Jollities, has just been issued and is having a very large sale. In addition to a fine double-page cartoon, there are two full page cartoons, the words and music of a popular song by John Imrie, "Queen Victoria's Jubilee," and pictures on almost every page of the book. The price is only ten cents, and it may be had at all bookstores, or will be sent on receipt of price by the publishers. Address *Grip*, Toronto Ont.

WORTH YOUR ATTENTION.—Cut this out and mail it to Allen & Co., Augusta, Maine, who will send you free, something new, that just coins money for all workers. As wonderful as the electric light, as genuine as pure gold, it will prove of lifelong value and importance to you. Both sexes, all ages. Allen & Co. bear expenses of starting you in business. It will bring you in more cash, right away, than anything else in the world. Anyone anywhere can do the work, and live at home also. Better write at once; then, knowing all, should you conclude that you don't care to engage, why no harm is done.

A FRENCH RELICT.—Councillor W. H. Knowles, of Avondale, has shown us a curious pipe which he dug out of an old French cellar on his farm a few days ago. It is about the size and shape of the most modern make of tobacco pipes, but instead of being constructed of clay or meerschaum is neatly made of wrought iron. On the Knowles homestead, five old cellars have located, and within a mile some twenty more have been discovered from time to time. These were occupied by the Acadians previous to the great "evictions."—*Windsor Tribune.*

PETROLEUM IN BURMAH.—Immense petroleum fields have been discovered in Burmah. The work is being prosecuted with much zeal, several wells having been sunk varying from 500 feet to 1,200 feet deep, from which large quantities of oil have been obtained of a superior quality. The probability is that the manufacture of petroleum oil in Burmah will so far increase as to supply India and Eastern colonies. The oil obtained at Burmah is very thick, and if the temperature or air is below 80 degrees it becomes solid.

One noticeable thing is that the temperature of oil is considerably above that of atmosphere. This difference would seem to indicate that the oil on the average comes from a depth of 500 feet below the surface. Considering the large quantities that are found in Burmah, petroleum may very probably come into general use as fuel.

ENJOY LIFE.

What a truly beautiful world we live in? Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that *Green's August Flower*, will make them free from disease, as when born. Dyspepsia and Liver complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and distressing symptoms. Three doses of *August Flower* will prove its wonderful effect. Sample bottles, 10 cents. Try it.

A $10,000 MAIL BAG MISSING.—It is reported that a mail bag from Halifax for Charlottetown, went astray on the Intercolonial, on Thursday, somewhere between Halifax and Pictou. The bag is said to have contained, besides ordinary registered letters, several bank packages, containing, it is said, from $7,000 to $10,000. The bag should have been transferred to the Pictou mail clerk at Truro station; but he alleges that he did not receive it; and it is said that the valuable bag was subsequently found somewhere in New Brunswick—the scene of many missing mail bags containing money. It was only a few months ago that a registered bag containing $5000 was lost between Chatham and St. John. The bank interested, who came so near being victimized, will doubtless insist upon a searching investigation. The fact that the bag subsequently turned up all right is no guarantee against future mistakes or carelessness on the part of railway or post-office officials.—*Halifax Herald.*

A BUSINESS LETTER.

TILDONBURG, March 15th, 1887.

T. Milburn & Co.

Sirs,—Please ship at once three dozen B. B. Bitters. Best selling medicine in the shop. Sold seven bottles to-day. Yours truly, C. Thompson.

The above sample is but one of hundreds of similar expressions regarding the popularity of B. B. B.

Local and Other Matter.

A. V. S. F. G. A.—The Annapolis Valley Small Fruit Growers' Association contemplated, as per notice published in the several local papers, holding its semi-annual meeting at 10 a. m., on the 9th day of June, inst. But a series of refreshing showers that set in during the early hours of the morning and continued through the greater part of the forenoon, interfered with the arrangements for this third attempt at a meeting of the association within the year; however, the storm having subsided about the middle of the day and the beautiful sunshine appearing, a small gathering of the members and some visitors, also a few others who added their names to our list, were convened in Spurr's Hall, at Aylesford, at half-past two o'clock p. m., president Wm. McNeil, in the chair. After the usual opening exercises, reading minutes of the annual meeting held on the 29th day of March last, and some correspondence with P. Innes, Esq., manager of W. & A. R., by the committee appointed at the annual meeting to confer with that gentleman in reference to special arrangements for carrying and handling our fruits, etc., the meeting proceeded to business.

James McLearn, Esq., of Halifax, being present in person was interrogated by the president and others on many interesting points regarding the arrangements in the city for landing, handling, conveying to consignees, and prospects of the markets in general of our fruits, to all of which the gentleman responded in a most satisfactory and pleasing manner, and, by motion, an agreement was made with him to convey the fruits of members of the association this year from the railway depot to the consigners at the same rate as heretofore. After a vote of expression of pleasure and of thanks to Mr. McLearn for his presence and kindness in favoring us with so important information, the gentleman took his leave by express train for the city. The following resolution was then brought forward, and after some remarks by Rev. J. R. Hart and others passed unanimously, viz:—

Resolved, That the meeting, having heard the reports of the committee appointed to confer with Mr. Innes as to freight arrangements with the W. A. Railway, approve of the steps they have taken and also of their determination to follow up the matter as we do not consider such arrangements yet entirely satisfactory.

Some correspondence was received from commission merchants in Halifax, soliciting the patronage of members, and the secretary was directed to reply thereto. A bill of $1.25 having been rendered to the secretary by John Bryenton, publisher of the *Western Chronicle*, for publishing in its columns a notice of the annual meeting in March last, was laid before the meeting and after being commented upon by members and visitors was ordered to be paid. The secretary was also ordered to have blank certificates of attendance printed. The association expressed its appreciation of the past services of its secretary by a donation from the small amount of funds in hand. The following resolution was then laid before the meeting, which drew forth various remarks from members and was unanimously passed, viz:—

Resolved, That the names of members of the Association in full standing be furnished by the Secretary to Jas. McLearn & Son, and to the station agents of the W. & A. Railway, so that such members may secure the advantages of special arrangements made on behalf of the association.

The business routine being completed, the president laid before the meeting a report from Jas. McLearn & Son, showing the aggregate number of cases of small fruits handled by them in 1886 to be about 2800. He also read portions of an "editorial contribution" to a paper published by the David C. Cook Publishing Company, Chicago, and headed "Among the Bluenoses." A short extract from which may not be uninteresting to our people.

"So little interest have the people of the United States had in this country, that but few know just where it is, and their knowledge seldom exceeds a vague impression that it constitutes a part of Canada. A change, however, in the popular feeling is following the discovery that here is to be found a most delightful summer resort. While we, whose homes are farther to the south, are suffering from the burning heat, here the traveller may ride for hundreds of miles through an almost continuous strawberry bed, while, on every hand, the eye feasts on lake and mountain scenery, with here and there valleys richer than any to be found east of the great prairies of Illinois."

Following this, a discussion was freely entered into, respecting varieties, modes of culture, and general treatment of the several *genera* or classes of small fruits under cultivation, in which nearly all took part, each giving his experience or asking some question which was highly interesting and instructive. The day being thus far spent, this very interesting session was, on motion, brought to a close.

JOHN KILLAM, Secy.

BOSTON CORRESPONDENCE.

The Pacer Joe Howe.

Just a few words about the little chestnut pacer, Joe Howe. He is going stronger than ever, and the indications are that he will place his pacing record where it will not be disturbed by any provincial bred horse for some time to come. Within a few days he has won two races, each of them in three straight heats, in the 2.30 class, getting a record of 2.25 in his fastest heat. We generally suppose that after our provincial horses are brought here, they must have the benefit of Boston culture for quite a long time, before they develop much speed. Little Joe made them open their eyes, though, as soon as he came on the track, and I guess they have come to the conclusion that Hall gave him something more than the first lessons in speed. I am glad to see that this promising horse is in the hands of Jack Trout, for he is one of the most skilful trainers and smooth-handed reinsmen in New England. If I remember rightly, he is the one that took in hand, the high-spirited "Wayland" after he had been given up as too wild to train for trotting in a race. Trout soothed him and levelled his gait until he could put Wayland in a race, take the reins in one hand and send him squarely through a field of trotting horses and yelling drivers, at a gait low down in the twenties. He held Joe Howe on his feet when the second horse had his nose at Joe's throttlatch, sticking there as determined as a bulldog, but before they reached the wire, the little Flying Frenchman let out an extra link and gained half a length. Here's to his success when he enters the 2.20. MEL.

NOTICE.—Rev. J. W. Tingley, write us:—

The new Baptist meeting house at Port George, Annapolis Co., N. S., which has been in the course of construction for the last two years, is now complete and will be dedicated on the 26th inst. In this quiet little village by the sea with its bracing breeze, in a beautiful new house and with a man of such power, as a preacher, as Prof. Keiratsed, of Acadia College, to preach the dedication sermon, and with others ministers of note to participate in the services, a very enjoyable and profitable day may be anticipated by all who expect to be present. The services will be as follows: Dedication sermon at 11 a. m., preaching at 3 p. m. and at 7.30 p. m.

—J. W. Beckwith, has closed a contract with a leading Woollen Mill to supply them with a large quantity of GOOD Washed Wool, at figures that enable him to pay the HIGHEST price.

Correspondence.

We do not hold ourselves responsible for the opinions of our correspondents.

NOVA SCOTIA, June 18th, 1887.

MR. EDITOR:—

DEAR SIR,—There have been great preparations in this Dominion of ours to celebrate the Queen's Jubilee. A jubilee it should indeed be, for few nations could ever have the privileges and blessings of so good and wise a sovereign. But what do we see? Some of the subjects of this good Queen, with only as much loyalty as a child would have who stole his mother's purse, are trying to get their hands into the Queen's pocket. Now this pocket in the Dominion represents the moneys collected from the people by taxes, paid directly and indirectly, directly, from property, and indirectly, by the various custom houses, the last being contributed to by every one who is not actually a pauper.

Now this pocket or chest, should be a sacred trust to those who have the command of it. But what do we find? The chief or treasurer holding this pocket, while those who fight under his banner, which is not the "banner of equality and the rights of man," are calling for $500.00 bonus, in honor of the Queen. The chief with a smile as bland as that of an auctioneer, says, "All right boys, fix bayonets and charge" and out will tumble the $150,000 and if you know of any weak member who could be strengthened in this way, charge again and he too shall enjoy the Jubilee.

Now we, all over this Dominion, have done more than we were able in the filling this pocket, and it is not the bitter that is called sweet, to see those who have too much already, having the jubilee plunders all to themselves. If there is $150,000 to spend, beside the demand made by the uncivil, civil service, in the name of humanity, why do they not build and endow, a Dominion poor house, for methinks it will be needed ere long.

Yours truly, H.

—Middleton is to be the next to swing into line in the matter of centennials. Early next month the Trinity Church of this place will have been built one hundred years, and the ladies of the congregation intend to celebrate the event by holding a Strawberry Festival and Fancy Sale, in the beautiful grove surrounding the building. Many visiting clergymen are expected, and eloquent speeches may be looked for. Every effort will be made to make the gathering one to be remembered, and those who miss it will hardly have time to come see us the next centennial. W. R. M.

ANNAPOLIS ITEM.—Nothing of importance this week, further than that Freeman Chute, of Virginia Settlement, (the man who so ill treated and abused a steer that it died in two or three days after, a reference which appeared in this paper at the time,) was today brought before Stipendiary Leavitt, on the complaint of the Secty. of the Annapolis branch of the society for preventing cruelty to animals, and costs. The case may be taken to the supreme court.

THE C. P. R. IN MAINE.—There are now 2,600 men at work on the Canadian Pacific railroad in the vicinity of Greenville, and it is the desire of the contractors to increase this force to 3,000. They are having no trouble in hiring unskilled labor, but now need woodsmen, laborers who can wield an axe satisfactorily. These are very scarce and hard to obtain. They are paid $1.50 per day of ten hours, and are usually able to make a day and a quarter between sunrise and sunset. Eight thousand men will make quite an army in the Maine woods.—*Hx. Chronicle.*

DEATH OF AN OLD ENGINEER.—William Boyd, a well-known railway engineer, died at the "Clifton House" on Wednesday, at the age of 75 years. Billy Boyd, as he was kindly known by the boys on the line, was one of the oldest engineers in the Province. He was sent out from Scotland when railroads were first built in Nova Scotia. He brought the first train from Halifax to Windsor, with John Murray as conductor. Later on he went into the service of the W. & A. R., and also drove the first engine on the line. After that he ran Churchill's *Pinafore*, and his last job was driving the locomotive at Dimock's Plaster works, Wentworth. He was an intelligent, good-natured and industrious man, and died without an enemy in his adopted country. May he rest in peace.—*Windsor Tribune.*

Toronto, June 16.—The *Mail* this morning publishes the following special cable:—London, June 15.—Sir Francis DeWinton, reading a paper to-night on practical colonization, proposed a scheme to raise half a million pounds capital, with three percent guaranteed by the Government for four years, half the interest being borne by the Imperial Government and the other half *pro rata*, according to the number of families sent to each colony, by the Colonial Governments. It is proposed that of the first thousand families three hundred should be sent to Canada. The income would be derived from interest on capital, the balance of profits from and stores and acceptance fees. At the end of five years the scheme will be fairly established on business principles and the operations will be then continued on a scale regulated by the amount of available funds Lord Lorne approved of the scheme.

—Sir Charles Tupper has proposed the following new tariff changes:—

Brass in bars bolts and tubing is reduced to ten per cent.; dress combs, thirty per cent.; bed quilts and comforts, thirty per cent.; nail plate, of iron or steel, thirteen dollars per ton; marble, in blocks, ten per cent.; marble slabs, fifteen per cent; finished marble, twenty-five per cent.; linseed oil, raw or boiled, thirty per cent.; opium, one dollar per pound; black or blue roofing slate, eighty cents per square rod; green slate one dollar per square; other slates, one cent per square foot and twenty-five per cent.; ready-made clothing and wearing apparel of every description, ten cents per pound and twenty-five per cent.; socks and stockings, ten cents per pound and thirty per cent.; chopping axes, two dollars per and twenty per cent.; garden rakes, dozen and ten per cent.; hay knives and forks, two dollars per dozen five cents each and twenty-five per cent.; shovels and spades and blanks for same one dollar per dozen and twenty-five per cent.; iron and steel wire, fifteen gauge and coarser, twenty-five per cent.; sole leather, one-half cent per pound and fifteen per cent.; clay tobacco pipes, thirty-five per cent.; tinsmiths' tools and saddlers' hardware, 35 per cent.; harness and saddlery, thirty-five per cent.; chromos, etc., six cents per pound and twenty per cent.; tubes, not welded, fifteen per cent.; rolled nail rods, for horse shoe nails, fifteen per cent., lap welded iron tubing, twenty per cent.; composition buttons, twenty-five per cent; flasks and vials, thirty per cent.; boiler and other plate iron, thirteen dollars per ton; rolled iron or steel angles, half a cent per pound and ten per cent.; rolled iron or steel beams, girders, etc, twelve and a half per cent.; wrought iron tubes, sixtenths of a cent per pounds and thirty per cent.; of pianos, twenty-five per cent.; fire-bricks, free; spruce and elm logs annex port duty of two dollars per thousand feet, board measure; rolled rods of steel, under half an inch in diameter, books for deaf and dumb and blind institutions, and wire, of iron and steel, are placed on the free list.

Advice To Consumptives.

On the appearance of the first symptoms as generally debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough, prompt measures of relief should be taken. Consumption is scrofulous disease of the lungs; therefore use the great anti-scrofulous or blood-purifier and strength-restorer, Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections, it has no equal. Sold by druggists. For Dr. Pierce's treatise on consumption, send 10 cents in stamps. World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

A UNIQUE WORK ON CANADIAN TOPICS.—MR. ERASTUS WIMAN, president of the Canadian Club, writes to the editor of this paper as follows: It is the intention of certain members of the Canadian Club, in New York, to issue, in the form of a beautiful book, the papers which have been delivered before the Club during the past winter by prominent parties, together with those which are to be delivered during the remainder of the season.

"These papers will include a speech on "Commercial Union," by the Hon Benjamin Butterworth, member of Congress, who is said to be one of the most eloquent men of that body. A remarkable production by Prof. Goldwin Smith on "The Schism in the Anglo-Saxon Race." A paper by Dr. Grant of the Queen's University on "Canada First." One by J. W. Bengough, Editor of Toronto Grip. By Mr. Le Moine, of Quebec, on "The Heroines of New France.' By J. A. Fraser, 'An Artist's Experience in the Canadian Rockies.' By Edmund Collins, on "The Future of Canada." By Professor G. D. Roberts, of Kings College. By Geo. Stewart, jr., of Quebec. By the Rev. Dr. Eccleston, on "the Canadian North-West." By John McDougall, on "The Minerals of Canada." And by the Editor, G. M. Fairchild, jr., on "The History of the Canadian Club." The work will also include extracts from the speeches and letters of the President.

"The book is to be issued in beautiful style, at $1 per copy.

"A great many Canadians will doubtless desire to possess themselves of this rare compilation, and, by purchasing copies, indicate the interest which is manifest throughout Canada in the attempt of the Canadian Club to lay before Americans the resources, advantages, and attractions of their native country.

"Parties desirous of obtaining copies can do so by enclosing the price of the book to James Ross, Canadian Club, 12 East 29th St., New York."

SUBSIDIES FOR MARITIME RAILWAYS.—*Ottawa June 19.*—Hon. Mr. Pope will bring down the railway subsidies bill on Monday. The following are maritime province subsidies:—

Joggins, railway (per mile)	$ 400
Moncton and Buctouche railway	640
Harvey Branch railway	960
Caraquet railway	3,200
John Valley and Riviere du Loup, from village of Prince William to Woodstock	70,400
Milluline branch	17,600
Cumberland railway company	44,800
Cornwallis Valley railway	41,600
Nova Scotia Central	108,800
Tobeque Valley	89,600
Woodstock to Centreville	64,000

A LIVING MIRACLE.

"My infant daughter was taken ill with cholera infantum, the doctor said she could not live. The Reverend Wm. McWilliams would not allow her head to be lifted when he baptised her, she was so weak. Dr. Fowler's Wild Strawberry gave immediate relief. She is a living miracle, hale and hearty. Since that time (7 years) our house has never been without that remedy." * * * * From statement of George Johnston, Harwood, Ont.

Marriages.

DANIELS—MILLER.—At the residence of the bride, on the 13th inst., by the Rev. J. W. Tingley, B. A., Foster Daniels, of Port George, N. S., to Isabel Miller, of Victoria Vale, N. S.

BALSER—BROWN.—At the residence of the bride, on the 15th inst., by the Rev. J. W. Tingley B. A., J. Harry Balser, of Douglasville, N. S., to Annie M. Brown, of Havelock, N. S.

Deaths.

GOUCHER.—At Somerville, Mass., on the 9th of June, of apoplexy, Mary, fourth daughter of the late Alpheus Goucher, of Margaretville, aged 19 years.

REDGATE.—At Margaretville, on June 2nd, after a lingering illness, borne with christian patience, Elizabeth, wife of George Redgate, Esq., aged 85 years.

ROBBLEE.—At Lower Granville, on Sunday June 12th, 1887, after long continued and painful suffering, Sarah, the eldest and beloved daughter of Harris and Eunice Robblee, aged 41 years.

ELLIOTT.—Suddenly, at Port Lorne, Sabbath morning, June 19th, 1887, Mrs. Isaiah Elliott, aged 33 years.

NATURE MAKES NO MISTAKES.

Nature's own remedy for bowel complaints, cholera morbus, cholic, cramps, vomiting sea sickness, cholera infantum, diarrhoea, dysentery and, all diseases of a like nature belonging to the summer season, is Dr. Fowler's extract of Wild Strawberry, which can be obtained of all dealers in medicine.

SEAVEY'S

EAST INDIA LINIMENT is acknowledged by all who have used it to be the most wonderful Family Remedy ever discovered for the cure of Cramp in the Stomach, Diarrhoea, Cholera, Sore Throat, Diphtheria, Rheumatism, Bruises, Cuts Headache, Toothache, Chilblains, etc.

The recipe of SEAVEY'S

EAST INDIA

LINIMENT was obtained from a native of India. It excells all other Liniments and Pain Killers for the relief and cure of Internal and External Pain.

Horsemen say they prefer SEAVEY'S EAST INDIA

LINIMENT

to all other preparations for removing Lameness, Swellings, Hard Lumps, Windgalls, Strains and Bruises on horses and cattle.
