ST. ANDREW'S:—We are requested to announce that there will be no service in St. Andrew's church, Chatham, on next Sunday morning, but service will be held at the usual hour in the evening.

IT IS reported that Reid's mills will shortly be removed from Chatham to Dalhousie. Mr. Reid is an extensive manufacturer of doors, sashes, shingles, etc.—Moncton Times.

There are no Reid's mills in Chatham, so the Times will have to try again.

KILLED:—Mr. Frank Gilman, the well known lumberman of Bangor, who was interested in extensive lumber lands on the St. John, and was also one of the purchasers of the Swinney lands on the Tracadie, was killed on Tuesday morning of last week by falling off a C. P. R. train between Gibson and Woodstock.

S. S. MEETING:—The first quarterly meeting of the Chatham Parish Sabbath School Association will be held in St. Luke's Sabbath School on Thursday, the 11th inst., at 7 o'clock p. m. A cordial invitation is extended to pastors, superintendents, teachers and all interested in S. S. work to attend this meeting. A collection will be taken to defray expenses of Association.

AS IT SHOULD BE:—The Newcastle branch of the W. C. T. U. publish the following card in the Advocate:—

To the North'd Co. Council:—We the members of the Newcastle Branch W. C. T. U. desire to express our thanks for your kindness in inviting us to be present when our petition was presented; for the uniform courtesy with which you treated us; and for the practical unanimity with which you granted our request. V. CLARK, Cor. Sec., H. REED, Rec. Sec.

CHAS. GROGAN OF KOUCHIBOUGUAC KILLED: Mr. Joseph Grogan, of Kouchibouguac, Kent, has received a letter from Rev. E. A. Garvey of Williamsport, Penn., conveying the intelligence of the death of his brother Charles in an hospital in that city. The unfortunate young man had been struck by a log running down a mountain and was taken to the hospital, where he died a few days subsequently. Deceased was but twenty-three years of age.

FIRE AT RICHIBUCTO:—A Richibucto despatch of Monday says:—Fire was discovered about 5 o'clock this morning in the drug store. The hand engine was soon on the scene and threw a good stream of water, but the fire had made such headway that the building was totally destroyed. The proprietor, W. A. McLaren, made an assignment two months ago, and was just reopening. A part of the stock was sold at auction during Christmas week and the remainder was lost in the fire. The building was owned by W. S. Loggie of Chatham. J. D. Phinney's residence had a narrow escape.

A NEW HARDWARE FIRM, and one that should be popular on the North Shore, at all events, is that of Messrs. Kerr & Robertson, whose announcement appears in another column. Mr. Kerr is favorably known to wholesale buyers of hardware, who have visited St. John as customers of the firm of Clarke, Kerr & Thorne, of which he was, until recently a member, while Mr. J. M. Robertson, as an old resident of Chatham and, in later years, the well-known travelling salesman of the same firm, needs no recommendation to the trade. These gentlemen make a strong team and are able to offer special advantages to their patrons.

A GREAT "COD":—Somebody has started the idea that the migration of the frost fish from the salt water to fluvial portions of our rivers in the latter part of January is a "discovery," and a number of the newspapers are so treating it. They are referring to it as a "great run of tommy-cods". Well, "tommy-cod" is only a local name for the frost fish, and the movement of the species has been a "great run" for a great many years. There's nothing either new or wonderful in it. They go to the fresh water to spawn, just the same as the salmon, smelt, trout, and other migratory fishes. They are the earliest spawners of the year in our waters.

A MAMMOTH SPRUCE:—From the Upper St. John we learn that the present season has been very favorable for the lumber operators, though the snow has at no time exceeded twelve inches in depth. Hauling from the stump has ceased, and all the teams are engaged in removing yarded logs to the river landings. Mr. B. H. Dickey's active and energetic "boss," Bob Noble, is pushing things for all they are worth, aided and assisted by a number of York county boys, among whom is Robert Thornton, of this city, at present filling the position of superintendent of landings. Mr. Noble is justly proud of the mammoth spruce he placed on the bank a few days ago. Scaled by Mr. Hugh McIntyre, it proved to be 72 feet in length and 24 inches in diameter, 50 feet from the butt—contents, 1800 feet—next!—*Farmer.*

PERSONAL.—Hon. Solicitor General Pugsley was in town on Monday.

Mr. A. J. H. Stewart, of Bathurst visited Chatham on Monday.

We had a pleasant call the other day from Mr. E. K. Fisher of St John—an old friend—who represents one of the largest oil concerns in the United States, and was visiting the Miramichi in connection with that business.

Hon. Allan Ritchie was in town on Tuesday.

Mr. T. G. Loggie of the Crown Land Department, Fredericton, visited Chatham on Monday and was warmly welcomed by many old friends.

Dr. John S. Benson of Chatham has been elected a member of the Auxiliary Committee of the pan-American Medical Congress which is to meet at Washington in December next.

Miss Annie Swanson of Douglastown has recently taken charge of the school at Sinclair Hill, Alma.

A PROSPEROUS BANK:—The general statement of the Bank of Nova Scotia for the past year is just received and makes a very favorable showing. The paid-up capital is $1,500,000; and the reserve $1,000,000, an increase of $300,000 in the reserve since Dec 31, 1890, of which $107,159 is from profits, and $192,850 premium on new stock (fifty p. c.) on $385,700. The bank had on deposit at call on Dec 31, 1891, $1,443,199.96; and subject to notice, with interest, $4,281,755 68. The net profits for the year were $210,258 out of which the shareholders get two dividends, $42,405.98 paid in August last; and $38,314.50 now payable; $107,150 goes to the reserve as already stated, and $9,664 85 is carried forward. John Doull, Esq., is president; Mr. Thomas Fyshe is cashier, and Mr. F. A. Morrison is agent at Chatham and Newcastle. This bank has ten agencies in New Brunswick, two in P. E. I., thirteen in Nova Scotia and one each in Montreal, the United States and West Indies.

Choral Society.

A number of ladies and gentlemen met in the Foresters Hall on Monday evening to organize a choral society, Mr. E. Lee Street, was appointed chairman, B. Fairey Secretary. After some discussion upon the matter, it was decided to organize the Newcastle choral society, Mr. C. Sargeant was elected President, Mr. E. Lee Street, Sec'y.-Treas. Mr. Geo. Burchell, Director, Mrs. C. Sargeant, Accompanist. Committees were appointed to secure suitable music, also to make rules to govern the society. Fees for membership to be 50cts for gentlemen, 25cts for ladies. Monday nights (at 8 o'clock) was decided for the night of meeting, in the Foresters room Masonic Hall. Any one wishing to join the society can do so by coming to the meeting next Monday night All singers will be welcome.—*Advocate.*

The Firemen's Social.

BATHURST, Feb. 1st.

The firemen's social on Monday evening last was a great success. The hall was gracefully decorated and over sixty couples tripped the "light fantastic" to the inspiring strains of the good music furnished by Arch. McEachran, 1st violin, Thos. Stapledon 2nd violin, and T. M. Harrington, organist—all of Chatham. The committee deserve the praise of everybody. Their untiring efforts have achieved the success they desired. It is to be hoped that before the season is over they will give the lovers of dancing another such opportunity to enjoy themselves.

H:

Young Men's Christian Association of Chatham.

Meetings held every week in their rooms up-stairs, Barry's Building, as follows:—

Sunday morning at 10 o'clock, for Prayer and Praise.

Monday evening at 8 o'clock, for Bible Study.

Tuesday evening at 8 o'clock, for Training lass.

All young men are most cordially invited to all of these meetings.

A Vandal about.

A bottle that was filled with some liquid, supposed to be water, was thrown by an unknown person through one of the windows of the residence of Rev. Thos. Marshall, pastor of St Luke's Church, Henderson Street, Chatham, on Monday night about ten o'clock. It must have been thrown with considerable force, as it made comparatively small holes in both inside and outside windows. There was, fortunately, no person in the room at the time, which suggests the idea that the act was one of sheer destructiveness by some drunken or otherwise insane person, rather then an attempt to do personal injury to any of the inmates of the house. The leading thought in connection with such acts as this is the regret that the perpetrator is not detected, so that he might receive the full penalty which the law prescribes for such criminal offences. Our community is, happily, seldom disturbed by such wanton and cowardly interferences with the quiet of the homes of its citizens, and the outrage on that of Mr. Marshall is felt by everyone as almost a personal offence, and if the perpetrator could be found out, it is quite safe to say that he would soon be in quarters, where water would be supplied to him much more regularly than bottles.

Presbytery of Miramichi.

The Presbytery of Miramichi met in the Hall of St. Andrews Church, Chatham, on Tuesday, 19th ult Notwithstanding the storm there was a fair attendance including Rev. W. J. Fowler of Escuminac Rev. J. A. Greenlees of New Mills, Rev. T. G. Johnstone, of Blackville, and Rev. J. Rosborough, Tabusintac.

A call from the congregation of New Richmond, Bay Chaleur, to Rev. G. F. Kinnear of Buctouche, was laid before Presbytery. It was signed by 208 communicants and 121 adherents and offered a salary of $750 and a manse. The call was sustained and forwarded to the Presbytery of St. John, of which Mr. Kinnear is a member.

The Presbytery, after a lively discussion upon ministerial education decided in favor of the erection of a new chair of Greek and Hebrew Exegesis in the Presbyterian College, Halifax. This action will doubtless be carried out and the Theological College at Halifax, one of the best equipped theological schools in Canada.

Rev. Mr. Aitken asked the Presbytery to be relieved of the governorship of committee on augmentation. The Presbytery, reluctant to lose Mr. Aitken's valuable services in his present position, deferred action till next meeting.

Trial for examination for license were prescribed for Geo. Miller, who will take charge of the mission field of Metapedia in May next.

The Rev. D. M. Gordon, of St Andrew's Church, Halifax, was nominated for the moderatorship of the next grand assembly.

The mission station of Port Daniel was reunited with the congregation of New Carlisle and the Nelson Station was placed under the pastoral supervision of the Rev. W. Aitkin, Newcastle. After caring for mission stations and other routine work the Presbytery adjourned to meet at Newcastle, on Tuesday the 8th day of March, at 10 o'clock standard time.

How to Mend Lace.

The mending of lace is an art of itself, and many professional menders, who are usually French or German, earn handsome livings working at this dainty task, writes Emma M. Hooper in the February *Ladies' Home Journal.* A knowledge of lace stitchery is necessary in mending handsome lace. If an ordinary piece tears mend it with lace thread, which comes in small balls at five to ten cents, imitating the groundwork mesh to the best of your ability. Before taking a stitch baste the lace on a piece of embroidery, leather or stiff paper, otherwise it will be drawn out of shape and distorted by puckers. In pulling out the basting threads after darning a tear, be careful to clip the threads into short lengths.

The Parting of the ways.

Wilkins and Watkins were college chums and close friends. They had been hard students and had taken little out door exercise. When they shook hands and said good-bye, at the end of their college career, they were in impaired health. Both had dyspepsia, liver troubles and troublesome coughs.

Wilkins had plenty of money, and decided to travel for his health. Watkins was poor. "I must go to work for my living," said he, "but I'll try the remedy that Robinson talks so much about—Dr. Pierce's Golden Medical Discovery.

In less than two years Wilkins came home in his coffin. Watkins, now in the prime of life, is a bank president, rich and respected, and weighs 200 pounds. "The 'Golden Medical Discovery' saved my life at a critical time," he often says. "Oh, if poor Wilkins had only tried it!" For weak lungs, spitting of blood, all lingering coughs, and consumption in its early stages, it is an unequaled remedy.

County Court.

The County Court, Hon. Judge Wilkinson presiding, met at Newcastle on Tuesday of last week. The cases entered for trial were:

1, Jonathan Hodgson, Geo. Summers, E. Hodgson and Jas. Gardner vs. Alex. V. White.

2. The Massey Mfg. Co. vs. Jas. Brown.

3, L. W. Johnston vs. Jas. Oats.

4, Jas. Colthard and Chas Stewart, vs. W. S. Loggie.

No 1 resulted in a verdict for the plaintiff. It was undefended; No. 2 was withdrawn: No. 3, Verdict for the plaintiff, $106.75; No. 4, Verdict for the plaintiffs. The last case was a suit to recover the value of a scow and damages. It appeared that the scow in question was being returned to plantiffs after being used, but the party who was to have towed it to them for the defendent delivered it at the wrong place, where it lay uncared for and was damaged. The jury brought in a verdict for $20 which strictly applied would give defendant the scow and plaintiff only that sum as the price of the scow and the damages claimed. After the court had adjourned the foreman and the jurymen explained that their intention was that the scow should remain the plaintiffs property and that defendant should pay $20 as damages, and so the matter stands. Hon. L. J. Tweedie for plaintiffs, W. C. Winslow for defendant.

As a cure for cold in the head and catarrh Nasal Balm is endorsed by prominent men everywhere. D. Derbyshire, president of the Ontario Creamery Association, says:—"Nasal Balm beats the world for catarrh and cold in the head. In my own case it effected relief from the first application." Sold by dealers or sent by mail on receipt of price—50 cts. and $1 a bottle. Fulford & Co., Brockville, Ont.

Another Step Forward.

The firm of George Cassady & Co., on False Creek, sash and door manufacturers, etc., is one of the most enterprising of the various sawmill concerns in Vancouver, and at present is turning out more work than any of the other individuals or companies in its line in the city. In conversation with a representative of The World last evening, Mr. Girard, foreman of one of the departments, mentioned that his firm was just now putting in a band-saw mill, to operate on larger timber than has been customary with that class of saw in factories in British Columbia. The band-saw is now made to cut up timber six feet in diameter; but as this is considerably heavier than the material used in Messrs Cassady & Co's mill, the one being set up will saw lumber 24 inches across. As the band-saw in its operations saws about one-tenth of the wood sawn, it will readily be seen that, especially with regard to the more expensive or scarcer grades of timber, it will effect a very large saving to the company employing machinery of this nature. The firm alluded to above is the only one in the city that is running full time at present, and this speaks volumes for the business of the company. It is expected to have the band-saw mill in working condition by the end of this week.—Vancouver World

North Shore Notes.

Mr. John A. Flett, of Campbellton, merchant, has assigned to F. W. Daniel. The assets are placed at $15,670.10; liabilities are $9,698.38; apparent surplus, $5,971.72.

John Pratt, a farmer residing one mile above Campbellton, dropped dead Saturday afternoon. He was 55 years old. He was in his usual good health at dinner time.

While Mr. Boudreau, millwright in Culligan's mill at Jacquet River, was attaching the belt to the main driving wheel the other day he was caught between the belt and the wheel and only lived a few hours afterwards. Deceased was a married man and lived in Campbellton.

James John Murphy, son of Robert Murphy (farmer,) of Kouchibouguac, working at Harry Whalen's lumber camps on the head waters of the Kouchibouguacsis river, was engaged in chopping on Thursday last when his axe slipped, striking him on the heel and inflicting an ugly gash, from which the blood flowed freely. The accident occurred some three miles from the camps, and he was taken there by his fellow workmen on a horse's back, losing much blood on the way. On reaching the camp they managed to staunch the flow of blood for a time, but it commenced to bleed afresh on the following day; and, despite all efforts made to stop the flow of blood, the young man gradually grew weaker and expired at nine o'clock Friday night. Deceased was twenty years of age.—*Globe* of 28th.

Mothers!

Castoria is recommended by physician for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing sleep Castoria is the children's panacea—the mother's friend. 35 doses, 35 cents.

The Smelt Fishery.

(Portland, Me., Argus.)

The smelt business has been rather peculiar this year. The first stage, the hook and line fishing from wharves, river bank, and bridge piers, was fairly successful as to quantity and entirely so as to profits. Smelts have brought from 10 to 18 cents per pound clear to the fishermen.

Some of the local high-liners have made $3 and $4 a night for two weeks or more, while two brothers in Waldoboro who ran quite an establishment on the banks of the Medomak, pulled in $90 in less than a week Several men along the route of the steamer "Phantom" made $25 a week while the pole fishing lasted.

The proper time, according to the calander for fishing through holes in the ice has arrived, but the ice has not quiet yet materialized. When this does come, strong enough to bear the weight of a man and a house, the smelt fishers will take solid comfort and will make money besides. The houses are well known by sight to nearly everybody, being about ten feet square, and six and a half feet high, furnished with a stove pipe through the roof. These houses are placed over holes in the ice, the stove inside is started, and the fisherman has a good time.

The local markets have been plentifully supplied with unfrozen smelts brought in in small lots from the islands and shores of the bay. The large lots go to Boston and New York, being handled by commission dealers.

Curling for a Bride.

[Chicago Inter-Ocean.]

The game of curling is, without exception, one of the most exciting and interesting played. The following story is told:—

"A laird in Strathaven, who owned a quarry and was reported to be worth 'a gey twa-three bawbees besides', was playing one day, and his foreman, whose name was Lawrence, was playing with him on the same side. The laird was very anxious he should make a certain shot, and he cried out in this fashion:—

"Noo, Jock Lawrence, d'ye see whaur my broom is? Lay yer stane doon there, and as sure as death I'll gie ye my dochter Jean if ye do it.'

"Birr went the stane out o' Jock's hand and it went trifflin' along to the very spot the laird wished it. 'Capital, Jock, capital! Ye couldna ha'e dune better, and ye can get Jean the morn'if ye want her.' 'Ye maun gie me something else than Jean, laird; I ha'e got her already. Wes were married at Gretna Green six weeks since, and we ha'e been thinking of asking your blessing ever since, but something aye' cam' in the way'

The laird was dumfounded when he heard the news, but he compromised matters by saying: 'Aweel, aweel, Jock, I'll let bygauns be bygauns. A man that could lay doon a pat-lid like this is worthy o' the best and bonniest lass in Lanarkshire; kepp her and weelcome, and ye'll maybe get the matter o' sax hunner poons wi' her. Kepp her, Jock; and if ye ha'e ony laddie weans atween ye, bring them up in the fear o' the Lord and the knowledge o' curlin.'"

DIED.

At Moorfield, Lower Newcastle, on 27th January Janet Johnson, wife of James Scott, aged 48 years.

SHAKESPEARE
—WROTE—
"To-morrow, to-morrow, to-morrow,
Creeps in this petty pace from day to day."

It is natural to procrastinate. I have heard it said "Procrastination is the thief of time;" and don't you think of health too? If you take a Cough or Cold, don't neglect it, but get a 25 or 50 cent bottle of

HACKNOMORE.

It is the best Cough Cure made. Beware of imitations. Don't be deceived by a substitute. Sold everywhere.
