and labour is perfectly lost in attempting to subdue it.

Already half of the City is Inundated.—The inhabitants were flying from their homes, and business matters are being wound up.

St. Louis, May 28.—The burnt district is being rapidly cleared and preparations are making for the rebuilding of stores and houses. The western waters being in good navigable order, boats are arriving and produce pouring in, and the levee is assuming its wonted life and activity.

Letters intended for Canada and the British provinces must be prepaid when they are deposited in the post office, or they will not go forward by mail, but remain in the office until the U. S. postage is paid.—*Boston Post.*

Some 200,000 German immigrants, mostly men of means, more or less compromised in the revolutions, are expected to reach America during the summer—probably adding some millions to the funds in the country. The investments for German account in our national and state funds are said to be very large.—*Boston Transcript.*

NEW YORK, Sunday.—Ship Princeton, from Liverpool, lost steward and 19 passengers by cholera—had 400 passengers on board.

The board of health reports 25 new cases and 11 deaths from cholera since yesterday.

Steamer Niagra arrived here about 7 o'clock this evening.

FROM THE PLAINS.—We find the following in the St. Louis Union of last Thursday:

Yesterday we had the pleasure of a short conversation with Major Amour. He followed an expedition across on the Plains for a distance of 70 miles. He says that water and grass are abundant on the Plains.

The cholera was sweeping the emigrants off in great numbers, and had made its appearance in the regiment of Mounted Riflemen, which, when the Major passed it, had been encamped for two days, 40 miles beyond St Joseph. Out of one company of New York emigrants, consisting of 13 members, 12 had died of cholera; and 12 of another company from the same State had shared a like fate. Many misfortunes had attended the emigrants on their journey, owing to their inexperience and the indifferent materials and construction of their waggons.

Between St. Joseph and the "Station" 30 miles distant, a place at which there is an Indian agency, a store, and a blacksmith's shop, the Major saw 15 broken down waggons.

There was a delegation of four chiefs from the Sioux and Fox at the Station, with an explanatory letter from the agent, asking a small remuneration from the emigrants for the wood they would use while passing through their country, and expressing some fears of difficulty in the case the demand was not complied with, as wood is comparatively scarce, and the quantity used by the emigrants will be great.

Washington despatches state that the Secretary of the Navy declines publishing the despatches, just brought from California.

It is said that they refer principally to private matters connected with the Pacific squadron, and that they contain nothing in relation to the organization of a government for California.

THE INDIAN DISTURBANCES ON THE RIO GRANDE.—It is stated in a despatch from Washington, that it has been determined to detail, forthwith, a force of dragoons for the Rio Grande, to put down the Indians who are committing such depredations there. The dragoons are to have instructions to pursue the Indians till they are captured or annihilated; and the people of Texas, it is said, are to be effectually protected against further invasions of the Camanches.

THE STATE OF EUROPE AND NORTH AMERICA.

Events of more than ordinary character are now of daily occurrence on the Continent of Europe. The French have invaded Italy, and marched upon Rome, but have been repulsed with considerable loss, and it is more than probable the result of the steps that have been taken will be a general war. The French, with professions of Liberty, Equality, and Fraternity on their lips, have shown how hollow their professions are, and this country will lean on a reed ready to break with the slightest pressure if it places any dependence on the friendship of that fickle nation. The Queen of England must now depend on the chivalry of her own children, and those of her dependencies, and calculate on her own resources if she wishes to retain that superiority which she has hitherto sustained in the scale of nations, as, ere long, this country will have to stand single handed against numerous other powers who have long envied her supremacy. It is, therefore, with deep regret we have to occupy so much of our space to-day with the disastrous intelligence from Canada. In no part of Her Majesty's colonial possessions are there, proportionately, so many loyal subjects, or more devoted adherents to the mother country, as in Canada; but this day's news brings awful intelligence from that quarter of the world.—*Woolwich Gazette.*

GREENOCK, May 11.—The amount of emigration from the Clyde is going on to a great extent, and seems likely to exceed even that of last year, which was considered unprecedented. Those who sail from this port are chiefly bound for the United States in the first place, nearly all the vessels having been put on the berth to New York. The ship Tadmor left our quay to-day for New York, with a full complement of passengers—about 240—besides cargo.—*Glasgow Mail.*

☞ CANADIAN AFFAIRS.—The British Whig Ministry affect to treat rather lightly the recent demonstration in Canada, and the radical press, with the London Times at their head, abuse Sir Allan McNab and the British party after the most virulent fashion. These men must be either grossly ignorant of the true state of feeling in Canada; or else they are guilty of misleading the British public in that respect. In either case they will ultimately find that it is not a mob of tower orders they have to deal with, but the most influential and respectable portion of Canada, seeking the justice that is rightly their due.

The intelligence of this probable disregard of the Ministry had reached Canada, and a telegraphic despatch received here this morning states that an immense excitement was created thereby among the populace. Lord Elgin remained at his country residence, and fears were entertained for his life, if he should attempt to come into Montreal.

The Cholera is still on the increase in N. York; 60 cases being reported in 24 hours, of Wednesday, and 10 deaths.

The Europa arrived at Boston yesterday morning.

Married.

On the 4th inst., by the Rev. R. Irvine, Mr. James Simpson, to Miss Ann Cuthbert, both of the parish of Harvey, County of Albert.

On the 5th inst., by the same, Mr. Hugh Hughston, to Miss Elizabeth Cain, both of this City.

On the 20th ult., at Christ Church, Fredericton, by the Venerable Archdeacon Coster, Henry Draper Neville, Captain Royal Regiment, to Eliza Jane Peters, eldest daughter of Captain Hayne, Commissioner of the New Brunswick Land Company, and Colonial Aide de Camp to His Excellency Sir Edmund Head, Baronet.

At Greenbank, on the 30th ult., by the Rev. John M. Brooke, of St. Paul's Church, Fredericton, Captain Webster, of the Royal Regiment, only son of the late Dr. Webster, of Montrose, Scotland, to Agnes, eldest daughter of James Rankin, Esq., of Greenbank, in the County of Carleton, and niece of the Honourable Alexander Rankin, of Miramichi.

Died.

Yesterday morning, Caroline Maria, wife of Mr. John G. Tobin, and eldest daughter of Mr. Jacob Noyes, aged 26 years.—Funeral will take place at 4 o'clock, to-morrow afternoon, (Saturday,) from her late residence in Portland, when friends and acquaintances are requested to attend.

On the 29th ult., Joshua, infant son of Mr. Joshua Mercer, aged sixteen months.

At Hampton, on the 13th ult., Mrs. Mehitable Rulofson, relict of the late Rulof Rulofson, Esq., aged 85 years, leaving behind her six daughters, a large number of grand children, great-grandchildren, and numerous friends to mourn their loss. Mrs. R. was among the early settlers of this country, and died in sure and certain hope of a blissful immortality.

At Hampton, on the 23d ult., Mrs. Anna DeForest widow of the late Mr. Nathan DeForest, in the 82d year of her age.—Mrs. D. came to this Province with the Loyalists of 1783, and has left a large circle of relatives and friends to lament their loss.

At Springfield, K. C., on the 28th ult., after a lingering illness of ten months, Leah, wife of Mr. James Nowlan, and eldest daughter of Mr. Jesse Gillies, in the 26th year of her age; her end was peace.

At White's Point, Grand Lake, on Thursday last, Mrs. Deborah White in the 96th year of her age, leaving 11 children, 92 grand children, and 154 great-grand children. She was born on the 7th May, 1754, in Monmouth County State of New York.

At Marble Island, (West Isles,) on the 25th ult., Elizabeth, widow of the late Capt. John Ferris, aged 79 years. Mrs. F. came to this Province with the Loyalists in 1783, and for a number of years was a consistent member of the Baptist Church in this City.

At Wilmot, N. S. on the 28th May, of Consumption, Mr. Ambrose Margeson, in the 26th year of his age, leaving a wife and one child to lament their loss. He was a member of the Baptist Church for upwards of ten years, and died in sure and certain hope of a glorious immortality beyond the grave.

Horse and Cattle Medicines.

Don't permit your Horses or cattle to die, when the means of cure are within the reach of all!

The undersigned has spent several years in the study of Veterinary practice in "London and Edinboro'," he has also availed himself of the researches of Leibig, and other celebrated men, who have contributed so much towards a judicious treatment of animals; the principles of our practice consists in the rejection of general bleeding and the total rejection of all medicines that experience has shown to be of a dangerous tendancy. These remedies act in harmony with the vital principle, and when given according to the directions which accompany each article they are capable of exciting and increasing the natural functions, without diminishing or destroying their power, hence are safe in the hands of every one.

The principles on which this Company is founded were adopted after mature consideration; and to the Assured it offers the combined advantages of the most successful establishments of its kind that have been formed of late years—moderate rates of premium and a large proportion of profits. The soundness of its principles, and the extensive influence exercised by the Directors have placed the Company on a sure basis; and the accumulations have been so considerable as materially to benefit the Policy holders.

Tables are prepared, enabling persons to Insure, either participating in profits, or at the least possible cost. By the former method they realise all the objects of Life Assurance, and benefit by their own longevity, without the speculative risk of Mutual Assurance Societies.

Four-fifths of the profits given every *five* years to the Assured by the participation scale.

AT the FIRST division of Profits for the five years ending 31st December, 1841, the Reversionary Bonus averaged 31 PER CENT. *on the Premium paid during the preceding five years.* The equivalent reduction of Premium averaged nearly 17 PER CENT. *on the Annual Premiums payable during the succeeding Five Years.*

The SECOND division of Profits, was made on 23d June, 1847, for the five years ending 31st December, 1846. The clear divisible surplus was then £30 269 7s 9d, four-fifths of which, have been distributed according to the provisions of the Deed of settlement, among the Policy holders an average REDUCTION on the PREMIUMS PAYABLE until the next division in 1852, of 31½ per cent.; or gave an equivalent REVERSIONARY BONUS, averaging £8 13s. 5d. per cent. on the sums assurred, on 53¼ per cent. on the *Premiums received thereon, during the last five years.*

The THIRD Division of Profits will take place in June 1852 and all Policies effected by the Participation scale during 1849 will Receive TWO YEAR'S BONUS at such Division if then in force.

Persons assured with this Company are allowed to reside in the colonies of *British North America, New South Wales,* and *Cape of Good Hope,* WITHOUT extra charge upon payment of sea risk only for the two latter.

No appearance before the Court of Directors required.

Loans are granted on deposit of Policies for five years standing, to the extent of their value.

In addition to the utmost liberality exercised by the Directors in the settlement of claims, the Company will be liable, should a person assured die within one month after a renewable Premium becomes due, provided the Premium be paid within the stipulated period.

No entrance money or fees of any kind are exacted, nor any charge made for Policies beyond the cost of the stamps.

Premiums may be paid, either by even annual or half yearly payments, by a single payment, by payments for a limited number of years, and also by an ascending scale.

Tables and every information can be obtained by application to the Office of
