News Summary.

DOMINION.

— The Nova Scotia sugar refinery has declared a half-yearly dividend of 7½ per cent.

— Two hundred horses and seven hundred men are at work at present on the Chignecto Ship Railway.

— Seventy-five acres of cucumbers, the *New Star* says, will be planted in Gaspereau Valley, N. S., this year.

— Ontario white-fish and trout are now on sale at St. John owing to the quick transport by the Short Line.

— The Annapolis and Digby cherry crop will not turn out as well as expected, owing to the ravages of caterpillars.

— Among recent mineral discoveries in Digby is a rich deposit of plumbago at Spreight Cove and one of red paint at Gilbert's Cove.

— At an enthusiastic meeting held in Truro, on the 21st, it was resolved to vote a bonus of $30,000 to any company which will construct the Hants Central Railway.

— In the supreme court at Digby, last week, Graham, found guilty of placing obstructions across the railway, was sentenced to 12 years in the penitentiary at Dorchester.

— Messrs J. & C. Ayer & Co., of Lowell, Mass., have entered a claim for $125,000 damages against the Dominion government for loss sustained through the illegal seizure of their preparations.

— The Nova Scotia Telephone company made a net profit of over $21,000 on the past year, of which $12,000 was paid in dividends, and the balance expended in extending lines and improving plant.

— The exports for May show an increase of $680,000 over May of last year, while the imports are $1,250,000 in excess of those for same month of 1888. The customs duty collected showed $110,000 increase.

— In the case of the C. P. R. company against the Western Union company the appeal of the Pacific company was allowed with costs. The suit was for the right to erect telegraph lines along the New Brunswick railway.

— From reports received from a large number of towns in Essex and surrounding counties in Ontario, it is thought that the corn crop is almost ruined by the recent rains, and all the farmers will be compelled to plant it over again.

— Laborers while working at the widening of St. John street, Quebec, found a lot of copper coins bearing the date 1600 and the likeness of Henry IV. king of France. A cannon ball and an old style bayonet also were found.

— There are 15 immense iron pipes on cars at the Amherst station, which have arrived from England for use at the docks. They are 3½ feet in diameter, 13 feet long, and four inches thick. They are for the hydraulic rams at the ship railway.

— There has been a considerable falling off in the Dominion Savings Banks deposits for the month of April. The returns as published in the *Canada Gazette*, show, that the withdrawals for that period exceeded the deposits by $127,530.

— A valuable discovery of anthracite coal has been made at Cheticamp, Cape Breton, and on trial is said to have proved of excellent quality. One hundred barrels has been sent to England for analysis, and if it turns out as expected, the mine will be at once developed to its fullest extent.

— The total value of the shipments of produce from the port of Summerside this season to date is $155,581, of which only $52,586, or about one-third, went to the United States. Of the balances $80,700 came to the other provinces of the Dominion and $22,295 went to the West Indies.

— The production of finished Bessemer steel other than rails in Great Britain during the half year ending June 30, 1888, was as follows: Plates, fish plates and angles, 32,609 tons; bars, tees and forgings, 104,759 tons; blooms and billets, 170,711 tons; sleepers, 40,961 tons; castings, 2,234 tons.

— Three hundred and fifty ounces of gold valued at nearly $7000 is the latest return from the Northrup mine in Rawdon. Return, for May so far, says the *Critic*, Sherbrooke, 200 tons 29 ozs.; Moose River, 444 tons 83 ozs.; Montague (Kase mill) 86½ tons 156 ozs.; Montague (Annand mill) 70 tons 168½ ozs.

— Owing to very severe storms for the past few weeks, the lobster fishermen of Sherbrooke, N. S., have made very small catches, some of them losing nearly all their gear. Some factories on the coast are talking of closing up. It is also reported that several fines have been levied for taking lobsters under size.

— Ship-building in Hants Co. is looking up. At Windsor a big four-masted schooner is in frame. Avondale, a large vessel, probably 1,500 tons, is under way, and a barquentine is ready for launching. At Hantsport the frame for a large vessel of about 1,700 tons is up, and at Maitland a 600 ton barquentine is in progress of construction.

— Owing to a report that leprosy existed in some remote part of Cape Breton, Dr. Smith, of the Tracadie lazaretto, was recently ordered by the minister of agriculture to investigate the matter. His report, which has just been received, states that he has discovered three cases of leprosy, one having reached a most revolting stage.

— The C. P. railway will build a roundhouse at McAdam Junction in the rear of the N. B. R. shops. This roundhouse will be capable of accommodating six locomotives. All the sidings on the N. B. railway are being lengthened some 300 or 400 feet, and each when completed will be about 1,100 feet, thus permitting the longest train to be side-tracked.

—The average daily output of Joggins mines, Nova Scotia, during the first five months of 1889 was 180 tons. The mine has a present capacity output of 400 tons per day. The estimated quantity of coal still unwrought is 2,500,000 tons—sufficient, with an annual output of 80,000 tons, to last 32 years; with an annual output of 100,000 tons, to last 25 years, and this exclusive of 500,000 tons for pillars.

$100.00 reward offered by W. McKelvie of New Glasgow, to a Boston doctor, to cure him of Dyspepsia. The doctor failed to cure. Four boxes *King's Dyspepsia Cure* restored the man to perfect health. Ask your druggist for it.

— Mr. Moses Steeves, of Steeves Settlement, about 80 years of age, walked from Elgin to Petitcodiac, a distance of 13 miles, before breakfast, the 25th of May. He then walked home, about 9 miles further, and did not seem much fatigued either.

— Rev. C. H. Spurgeon is a decidedly practical preacher. He caught the true spirit of his text, "Take no thought for the morrow, &c.," and gave it practical illustration when he declared: "I insured my life last week, and have thus been able to obey the injunction of the text; for much undue care and anxiety that I had is now laid aside, secure in the knowledge that my forethought has provided for my loved ones." If you too wish to obey the injunction, The Dominion Safety Fund Life Association, St. John, N. B., will take care of your loved ones.

BRITISH AND FOREIGN.

—The SS. Parthia made a trip from Yokohama in 12 days 19 hours, the best time ever made in Pacific steamship travel. The cargo is chiefly tea and silk. There were 40 cabin passengers, 7 Japanese and 120 Chinese.

—A piece of coal weighing five and a half tons has been cut at Abercara colliery, Cornwall, England, to be sent to the Paris exhibition. The block measures 7 feet 6 inches long, 5 feet 6 inches wide and three feet 9 inches deep.

—News from Brazil says that small-pox and yellow fever are raging in virulent form through all the country within 200 miles of Rio Janeiro. The death rate for three days was at Santos 70 per cent. The people are leaving in droves.

—At Bermuda while the crop of onions, the staple of the country, has been very large the price has been ruinously low. Onions have been run down to 1s. 6d. per box, though they cannot be profitably raised at less than 3s. 6d. to 4s. The consequence is wide spread suffering, shared in by all classes of society.

— The English railways are using the electric light on the trains. The Midland have the dynamo in the rear guard's van. The light was found to be quite steady and strong. During the stoppages the lights were kept steady by the accumulators.

UNITED STATES.

— At a concert in Calais last week, $500 was raised for the Johnston sufferers.

— A castor oil trust is now in process of formation at St. Louis, with a proposed capital stock of $250,000 to $500,000. It is stated the trust will be very profitable.

— A leading Augusta lumberman says that 20,000,000 feet of logs of the Kennebec drive are hung up on Moose and Dead rivers and the streams, and will not come down this year.

—The people of Friar's point, Miss., are all engaged in digging up the shore of the river in a mad search for hidden treasures. One fisherman got $650 in gold coins, a lady $500, and several other smaller amounts. The money was buried there by wealthy planters at the breaking out of the war.

— Few persons have any idea of the magnitude of the investments of English and Scotch capitalists in the United States. They hold railway bonds to the extent of £150,000,000, yielding at the average rates of 4½ per cent. an annual income of £6,750,000. Ordinary railway shares are held to the amount of about £100,000,000.

Can Rheumatism be cured? An old lady says, "I spent nearly 15 years of great suffering from Rheumatism; I took one bottle of *Potter's Liniment*, inwardly, and am now cured." Sold by all dealers.

CHRISTIE–BELYEA.—At the residence of the bride's father, McDonald's Point, June 19, by the Rev. C. B. Lewis, (brother-in-law of the bride) William Christie, of St. John, N. B., to Rhea D., second daughter of George R. Belyea.

MAXWELL–HICKS.—At the residence of Deacon Howard Hicks, Salisbury, Westmorland Co., June 18, by the Rev. B. N. Hughes, Frederick J. Maxwell, of Rockport, to Etta M. Hicks, of Salisbury, all of Westmorland Co.

Deaths.

COLDWELL.—At New Germany, N. S., May 20. Lena Coldwell, aged 18 years.

KEITH.—At Petitcodiac, June 4th, Lizzie J., beloved wife of C. H. Keith, and daughter of Alfred Humphreys, Esq., in the 34th year of her age. Our sister was a member of the Baptist church at Petitcodiac, and will be much missed in the circle in which she moved. She leaves two children, one two weeks old, to mourn her death. Her remains were brought to Havelock and interred in the old cemetery. Funeral services were conducted by Rev. B. N. Hughes.

MCDONALD.—At N. E. Margaree, on the 17th April, Murdock McDonald, aged 69 years, being the oldest male member up to his death in the Baptist church of Margaree. He was always active and useful in all things that had a tendency to build up the interest of religion in the place. He was for two years in decline. On the date above mentioned he was seized with a most severe pain in his breast, with continued for 27 hours without a moment's relaxation until he breathed his last.

LAYTON.—At Parrsboro, N. S., June 16, Joseph M. Layton, aged 68 years. Bro. Layton resided formerly in Great Village, and was the son of the late Frank Layton of that place. He has a number of brothers living, all well advanced in years. He had been in failing health for some time, but his final sickness was short and severe. In his conscious hours he expressed a willingness to depart and be with Christ. He passed away peacefully, leaving a widow, two sons and a large circle of relatives and friends to mourn their loss. His remains were laid at rest in Great Village.

MANN.—At Milltown, N. B., June 7, Eliza J., wife of Thomas Mann, of Baillie, N. B., entered into rest, leaving eight children and an aged husband to mourn their loss. Our sister was born near Truro, 1821, and removed to DeWolfe Corner, N. B., 1826. Shortly after her conversion, 1836, she united with the Baptist church of Baillie. Becoming thus early in life one of Christ's, for long years she bore a rich fruitage of love, living Christ before her family and the world. She was a wife and a mother. To know her was to praise God. Her last illness was long and painful. God's ways are not as our ways, but surely "He giveth His beloved sleep."

TUPPER.—At Charlston, Queens Co., May 4th, Bartlett F. Tupper, aged eighty years. He was baptized at Port Moultown in the year '37, by Mr. Ashley, subsequently having removed to Port Medway. He joined the Baptist church here on November 14th, 1858. The general testimony is that he was a good man. He loved to meet with Christian people and converse on Bible truths, in which he was well posted. He was at home in religious meetings, and always attended them when it was in his power. On the morning of his death, he had walked over a half-mile to his daughter's, intending to assist her husband in planting potatoes that day. In a few moments after arriving at the house, while talking with the family, without any struggle he suddenly expired. A widow, son and daughter and some grand children are left to feel the importance of being also ready. A loud call is thus given to us all. May God sanctify the bereavement to all who mourn for him.

MCKINNON.—At Murray Harbor Road, P. E. I., on the 20th April, Mrs. Donald McKinnon, aged 91 years. The deceased was born in the Isle of Skye, Scotland, April 20th, 1798, and came to the Island in 1829. First settled at Point Prim, and remained there until 1848, when she removed to Murray Harbor Road, where she lived with her son, James McLean, until the time of her death. She was converted in Scotland under the ministry of the Rev. James Campbell, who baptized her, and since she came to the Island has been an esteemed member of the Belfast church. The last thirty years of her life was clouded by a total blindness; but her spiritual sight never grew dim. In her earlier years, by the study of God's Word and the practice of a Christian life, she had laid in store treasures that could never be taken from her, and gained a firm grasp upon those promises which are "as an anchor of the soul, both sure and steadfast," and to the end they were her theme and glory.

REED.—At Hopewell Cape, Albert Co., New Brunswick, June 16, of cerebro-spinal meningitis, after a few days of severe suffering, Kate Reed. The deceased was a young person of good character, had not been in this country long, and expected to return, in the coming autumn, to her native home in Scotland. But God had otherwise designed, and she appeared to acquiesce without murmuring or fear. All was done for her that could be done. Three physicians held consultation over her case; but the disease baffled all their skill. Mr. and Mrs. Benj. Bray, at whose house she lived and died, did all they could have done to make her comfortable and save her life had she been their own daughter. Appropriate funeral services were performed by Revds. Messrs. Kempton and Allison, in the presence of many friends. The Lord prepare the hearts of the sorrowing parents and family, in the far off home, for the heavy tidings.

DIRECTIONS for GRITZ.

PORRIDGE.

TO one quart of boiling water add one and a half cup of Gritz Meal, add salt, stir, and boil for 15 or 20 minutes.

GRITZ MUFFINS OR GEMS.

DISSOLVE 1 Cake Yeast in cup of warm milk, add teaspoonful salt, one quart lukewarm milk, 1 cup sugar, 1 tablespoonful butter, 2 eggs, half Golden Eagle Flour half Macdonell's Gritz to make batter stiff enough to drop. Mix at night. Bake in Muffin rings. Makes three dozen.

GRITZ JELLY.

BOIL Macdonell's Gritz as directed for porridge, whilst Gritz are boiling dissolve a tablespoonful of gelatine flavoring same to taste, vanilla or lemon, pour flavored gelatine into the boiled Gritz, pour the whole into a shape allowing the same to cool. Dish with Fruit or Milk and Sugar.

ANTI-DYSPEPTIC BREAD.

1 CAKE of Yeast thoroughly dissolved in 1 pint of lukewarm milk or water, stir in with the hand wheat flour to make a stiff sponge, let stand until sponge is ready and begins to fall, add half pint lukewarm water or milk, salt to taste, 2 tablespoonfuls of brown sugar or molasses, 1 cup of Gritz to every one and one half cups of Golden Eagle Flour, until dough is proper consistency, cover well, let stand in warm place until light, then mould into pans, greasing top of dough, cover and let stand again until light for the oven. Make small loaves. Bake in a slow oven.

GRITZ PANCAKES.

MIX one cupful of Golden Eagle Flour, two cupfuls of Gritz Meal, and three cupfuls sour milk or buttermilk, and a small teaspoonful of baking soda.
