McIntyre & Wardwell send the following despatch to their branch office in Toronto: The adoption of a sound money plank by the St. Louis convention is the all-important event of the day. It has undoubtedly induced considerable outside buying, causing the advance in the stock market to-day. This demand, we think, will continue and prevent any material reaction, probably advancing prices still further. As indicative of the general trend of affairs and the effect on Europe, London bought in our market yesterday over $2,000,000 of Government bonds, virtually cleaning the market of them. The price of new 4's advanced to-day to 118¼ on very small transactions. Foreign houses were also buyers of the market this afternoon right up to the close, particularly of Atchison securities. Houses which sold Louisville and Nashville and St. Paul this morning later on bought back several times as much as they sold. St. Paul to-day touched the highest prices since 1893. About the only unfavorable speculative circumstance is that the short element seems to have been elliminated, and, judging from the loan crowd, where stocks were offered above the money rate, a considerable amount of the floating supply has got into weak hands. Exchange is weak at 4.88¼ to 4.88½. Rumors from St. Louis indicate that Governor Morton will accept the second place on the ticket. Platt and Lodge confirm the news that Hanna has agreed to a gold declaration. The feeling in favor of gold seems to be growing at the convention.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat opened firm this morning. Cables are higher. Barrett, Cudahy, Parker and Lamson were heavy buyers in the early part of the session. There is not much encouragement to the speculative situation. The professionals have had a checkered experience. The efforts at leadership have not been very successful, and the attempt to follow leaders rather than routine news has been disastrous to many. Those who have been hurt are slow in starting in again. Good weather and absence of outside business leaves the situation and trade anything but enthusiastic. Samples of wheat from Kansas and Indian Territory show it to be in splendid condition and of fine quality. While we don't look for any big advance in the next few days, we believe the price will not go much lower. Northwestern receipts 644 cars to-day. Corn ruled strong all day. Most of the buying was by shorts who are reducing their lines. Receipts 524 cars; estimated for to-morrow 350.

Oats dull and featureless, prices keeping within a very narrow range. Receipts were 343 cars.

Provisions—Market barely firm, with very little trading.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their branch office in Chicago:

Local professional talent has been arrayed on the bull side nearly all day, and although they sold part of their early purchases they replaced them later, and this buying was the principal cause or the strength during the last hour. There was heavy selling by a leading commission house of September wheat, which was the individual feature of that side of the market. The news was generally favorable to the longs, with the exception of the continued heavy movement in the Northwest, where the receipts were 644 cars. Early cables reported steady markets and closing at ¼d to ½d advance at Liverpool. There were some private crop reports from Ohio of an unfavorable character and statements made by a crop expert, who returned to-day from a trip through the Southwest, indicate that harvest yields will be very disappointing. Indications pointing to the adoption of a gold standard platform by the St. Louis Convention, causing a better stock market, also helped the bull feeling. The cash demand here continues very light. New York reported 15 loads for export, mostly spring wheat. Outside trade was general small to-day, but this had no influence against the local bull muscle.

Provisions opened a shade higher on 5000 hogs less than expected, but quickly sold off on free offerings by packers. Swift & Co. sold September ribs; Anglo sold September lard. Later, when wheat advanced, the Anglo-American Packing Co. became a good buyer of September ribs at $3.95 to $3.97. Commission houses paid 4 cents. New York sold September lard freely at $4.30. Market closed steady.

COTTON MARKETS.
