Sires Ready For Service

No. 1—FRANCY HARTOG CHAMPION—Calved May 18, 1915, a son of Francy 3rd's Hartog, whose dam Francy 3rd, made 29.15 lbs. butter, and whose sire is Canary Mercedes Pieterije Hartog 7th, the herd sire of D. C. Flatt & Son of Hamilton, and whose dam made 34.60 lbs. butter in 7 days, and 116 lbs. in 1 day.

No. 2—HUGO HARTOG DE KOL—Calved April 17 ,1915. He has the same breeding on the sire's side as No. 1. The dam, Annie Belle De Kol is out of Mable De Kol, whose daughter, Mercedes Lady Mechthilde, was Grand Champion in dairy test of Ottawa Winter Fair, 1915, and who has a 3-yr.-old record of 362.4 lbs. milk and 22.06 lbs. butter in 7 days.

These sires are good ones and are priced right for quick sale. If you need a herd header, write us early.

MRS. HUGH ADAMS - R. R. 2 - BURFORD, Ont.

T. J. McCormick, West Flamboro, Ont.

Mention Farm and Dairy when writing.

HASTINGS CO., ONT.

TRENTON, Jan. 6.—The New Year finds the farmers busy as usual preparing for next season,—manure to draw, wood to get, grain to be cracked, feed to be prepared for spring, and a thousand and one things to be looked after. Feed is very plentiful and stock is in fine condition. Help is scarce. The weather is mild.—J. K.

DURHAM CO., ONT.

CAMPBELLCROFT, Jan. 13—The weather for the last two weeks has been most variable, which has made the condition of the roads very bad; one day bare of ice. The cattle are wintering well. The short-course of cattle, horse and seed judging held at Millbrook on the 5th, 6th and 7th, was well attended, as was also the horse show, which brought out some very fine animals. Great praise is due to our representative, Mr. Duncan, for the able manner in which the courses were carried out. The following are the recent market prices: Butter, 32c to 33c; eggs, 45c to 50c; potatoes, $1.50 a bag; chickens, 17c to 20c a lb.; live fowl, each, 60c to 70; turnips, 10c a bush.; hogs, $9 a cwt., live; beef, $13 a cwt.—J.A.S.T.

WATERLOO CO., ONT.

WATERLOO, Jan. 11.—We have already had several January thaws which almost took the sleighing away, and the roads are now very rough. The Waterloo County Board of Agriculture held its annual meeting in Berlin on December 31. Many important questions came up for discussion. A four weeks' course in agriculture will also be held in Berlin commencing Jan. 17. By all appearances there will be a good sized class of young men taking advantage of the course. At the sugar factory, the pulp silo, which is over an acre in area, has been cleaned out in the short period of fifteen days. There has been a big rush for pulp for feed, sometimes as many as 50 teams waiting their turn to load.—C. H. H.

OXFORD CO., ONT.

WOODSTOCK, Jan. 11.—Our sleighing is all gone, but there is fairly good wheeling and considerably colder than it has been for some days. We have had a fine winter so far. Sales have been going very high this winter and fall; all kinds of stock are doing well. Milk cows are doing fine; they get more attention than they did a few years ago. $1.60 a cwt. for our milk at the City Dairy, Woodstock. Fat cattle are high, 11c to 12c a pound dressed; live pork, $8.75. All kinds of feed are high, too.—A. M. McD.

NORFOLK CO., ONT.

SIMCOE, Jan. 19—Winter is quickly passing with but very little snow, and not enough hard freezing weather to injure wheat and clover. Rough feeds are still plentiful. Bran, $35; oats, 35c to 40c; middlings, $36; hay, $15. Stock and feed are selling well at auction sales. The mild weather is lengthening out the feed and stock are able to be out of doors enough to ensure health and tirift.—T.C.B.

BRUCE CO., ONT.

PAISLEY, Jan. 10.—The usual January thaw is right on time, being here on the first day. The winter up to the present has been all that could be desired; plenty of snow for good sleighing, but not enough to prevent getting around any place. Wheat is $1; barley, 45c; oats, 35c; peas, $2.50; potatoes, 75c a bus.; butter, 28c, and eggs, 30c.—R. J. N.

ALGOMA DIST., ONT.

SAULT STE. MARIE, Jan. 1.—Winter is with us. Lots of snow for sleighing, and weather is very fine. Stock has gone into winter quarters in good condition, and the farmers have lots of feed. Horses are at a standstill. Beef is in fair demand at 10c for fronts and 12c for hinds. Poultry and dairy products are high, and potatoes are $1.25 a bag.—H. K.

MARKET REVIEW AND FORECAST

TORONTO, January 17.—Even yet the trade of the New Year cannot be said to be well started. Business firms, however, express optimism as to the outlook, and predict a much greater volume of business than in the first month of 1915. When any of them, however, are asked for their opinion as to conditions immediately after the war, all express a feeling of dread. There will be a period of great business depression, they say. The chairman of the American Steel Corporation makes this prediction:

"The end of the war may be very dark and desperate. It will be thus in Europe, and we in America will feel the effects to a greater or lesser extent. The destruction of billions upon billions of property in any country must necessarily affect in some degree, all countries."

Canada is sharing fully in the war. She will also be called upon to share fully in its effects, and we should prepare for that time by conserving our resources to the uttermost.

The markets of the week have been strong with a general advance all along the line, with the possible exception of eggs, where receipts have been on the increase.

WHEAT.

Supplies of wheat have been reduced almost to a minimum in Britain, France and Italy. Argentine and Australia have large supplies available for export, but ocean room is so limited and these countries so far distant from their market, that they cannot cater immediately to the demand. The greater portion of the immediate supplies must come from America and this condition is conducive to a strong market here. No. 1 Northern is now quoted $1.21; No. 2, $1.18½; No. 3, $1.15½. Ontario wheat, too, is stronger; No. 2 winter, $1.06 to $1.09; slightly sprouted and tough, $1.05 to $1.06; sprouted or smutty and tough, 94c to $1; feed wheat, 89c to 85c.

COARSE GRAINS.

There has been a general advance all along the line. Barley, particularly, is in strong demand. Oats, C.W., No. 2, 45½c; No. 3, 43½c; No. 1 extra feed, 43½c. Ontario No. 3, 40c to 41c; commercial oats, 39c to 40c; corn, 81c; peas, $1.25 to $1.30; barley, malting, 66c to 65c; feed, 53c to 55c; rye, 85c to 90c; rejected, 75c to 85c; buckwheat, 75c to 78c. Montreal quotations follow: Oats, C. W. No. 2, 55½c; No. 3, 51½c; extra No. 1 feed, 52c; local white, 49½c to 48c; corn, 85½c to 86c; barley, malting, 67c to 68c; feed, 60c; buckwheat, 83c.

MILL FEEDS.

There is a tendency for higher levels, the demand for bran being particularly good. On this market bran is quoted $24; shorts, $25; middlings, $26; feed flour, bag, $1.85; oil cake meal, $37; gluten feed, $28. At Montreal bran is $24; shorts, $25; middlings, $28 to $30; and moullie, $31 to $35.

HAY AND STRAW.

The government is now getting all the hay it needs (in fact can get more than it needs) but prices remain firm. Dealers are making a determined effort to reduce quotations, but outside of the hay arriving at Montreal for the government, receipts are small and quotations continue steady. No. 1 hay is there quoted $20.50 to $21; No. 2, $19.50 to $20; No. 3, $18 to $18.50; rejected hay, $17 to $17.50. Wholesale quotations here are: No. 1, $17.50 to $19.50; No. 2, $15.50 to $16; baled straw, $6.50 to $7.

EGGS AND POULTRY.

A heavy export trade continues and United States supplies are being heavily drawn upon. With a view to making this trade permanent, Mr. H. S. Arkell, of the Live Stock Branch, Ottawa, has sailed for Europe to study conditions affect-

FEBRUARY 10, 1916

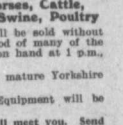
IS THE DATE OF MY

COMPLETE DISPERSION SALE

OF MY ENTIRE HERD OF

All the Farm Equipment Goes

50 Registered Holsteins and all other Farm Stock



Horses, Cattle, Swine, Poultry

At my farm, two miles from LONDON. As the farm has been leased for a number of years, every animal and all my farm machinery, will be sold without reserve. My fifty head of Holsteins are nearly all my own breeding, with the exception of a few foundation animals. They comprise the blood of many of the best sires in Ontario, and include 10 splendid mature cows. The young breeder who needs good material for his herd, should not fail to be on hand at 1 p.m., Feb. 10. Three registered Jerseys are also in the sale—two to freshen shortly.

Among the other stock are 6 young horses, a 5-yr.-old Percheron gelding, a team of 5 and 6 Clydes, and a 4-yr.-old filly. There are also a mature Yorkshire and some younger brood sows, and a large flock of Poultry.

The Farm Machinery is such as would be required on a large farm, manure spreaders, binders, mowers, waggons. Machinery and Farm Equipment will be sold at 10 a.m. The sale of Holsteins begins at 1 p.m. Write for catalogue, and note the breeding of my herd.

TERMS:—Cash or 8 months at 5 per cent. on bankable paper. To reach my farm take Dundas Street Cars to Asylum siding, where rigs will meet you. Send for catalogue.
