SHORTER HOURS, MORE PAY.

Hamilton Committee Men Take Pity on Civic Employes—Police Matters and General News.

Hamilton, May 23.—(Special.)—At the meeting of the Sewers Committee this evening it was decided to recommend that the salaries of assistant engineers at the Sewage Disposal Works be increased from $500 to $550. Chief Engineer Leckie's application for an increase was refused. It was decided also to adopt the nine-hour a day rule at the Ferguson-avenue disposal works, and the City Engineer was empowered to employ one more man. He said, however, that two men were required.

What's in a Name?

A letter was read at the meeting of the Markets, Jail and Police Committee this evening from Clark, Campbell & Co., Toronto, who protested against agents of Ford & Co., picture enlargers, being termed peddlers or hawkers, and they threaten to bring suit against Inspector Brick, who has threatened to summon them as transient traders. The committee backed up the inspector.

The tender of Morris Turnbull, painter, for decorating the interior of the City Hall, was accepted. It was a little less than $200.

A. W. Peene, architect, was instructed to prepare plans for new public weigh scales at the corner of Cannon-street and Ferguson-avenue.

Police Points.

George Goodale, Arque-street, was arraigned this morning at the Police Court on a charge of manslaughter, he being accused of causing the death of William Hempstock of Buffalo last week. He elected to be tried by the Police Magistrate, and took the Crown Attorney by surprise. He said he was not prepared to go on with the case, and he protested against His Worship hearing more than a preliminary examination. The magistrate, however, said he would be governed by the law, and the prisoner's election and the trial was fixed for Thursday. If the case was tried in the higher court the Crown Attorney would make $25 or $35 more.

James O'Toole, an inmate of the House of Refuge, struck another inmate, John Walsh, this morning with a piece of crockery and nearly killed him. Now O'Toole is in jail charged with insanity, and Walsh is in the General Hospital.

Edwin Malcolmson, known as "Reddy, the Sport," was arrested this afternoon on a charge of vagrancy. He was ordered out of the city a few weeks ago. The detectives say they will "vag" every pickpocket and known thief who comes into the city to-morrow for the big military demonstration. Detective Reid, the pickpocket specialist, expects to be very busy from now till after the race meet.

Wholesale Dog Poisoning.

For the past week or two dog-poisoners have been at work in various parts of the city, and owners of valuable canines are mourning their sudden taking-off. Among the recent sufferers are Mr. J. M. Young, corner of Robinson and Park-streets, who has lost two valuable dogs; Mr. W. A. Murray, corner of Main and Hess-streets, a valuable collie, and Miss Lizzie Dunlop, Catharine-street north, her favorite Scotch terrier, Rattler. Other good dogs on Catharine-street north have gone the way of dog-flesh, and during the last two weeks no less than five costly canines have been poisoned in the east end. By some providential dispensation, curs and useless dogs are left very much alive—only the valuable animals have been killed.

Minor Matters.

All arrangements have been made for the military demonstration to-morrow on the Jockey Club grounds. The sham fight begins at 11 o'clock. In the event of rain the evening band concert will be held in the Armouries.

The ex-members of the Select Knights, order, now defunct, have decided to fight the claims for arrears made against them.

Dr. Balfe has been appointed coroner for the city.

Mrs. Joseph Atkinson, 86 years old, who resided at 89 Wilson-street, is dead.

The Royal Canadian Dragoons, Toronto, arrived here on the C.P.R. early this evening.

GRAND TRUNK EXTENSION.

Indications That the Big Corporation Will Build to the "Soo."

Saulte Ste. Marie, May 23.—Mr. Arthur White, general freight agent, and Superintendent Tiffin of the Grand Trunk Railway, were in this town last week on business, so it is reported, connected with the extension of the Grand Trunk to Sault Ste. Marie. The officials looked over the right of way that the Grand Trunk has through the town and the adjoining district. The object of the visit was to see that none of the company's rights are being infringed upon. The Sault Ste. Marie Express thinks that the Grand Trunk intends extending its system to the Sault.

The Express says: "There is good ground for believing—although we have no authentic information on this point—that the Board of Directors of the Grand Trunk have for some time past favored the scheme of extending its system to Sault Ste. Marie and on to the west, and that Superintendent Tiffin and General Freight Agent White, while here, will gather important information bearing upon the practicability of the project and make a report on the subject to General Manager Hays upon their return. The wonderful growth of Algoma during the past few years and the great possibilities of the district, should be an incentive to the Grand Trunk, and we would not be surprised in the near future to learn that the company had begun a construction of a line from Burk's Falls northwestward. The country north of Sault Ste. Marie must be opened up, and we believe that within the next decade railway connection between our peerless lake port and the waters of James Bay must be made. The Grand Trunk with its lines extending direct from Toronto to Sault Ste. Marie, and a road running north from here through the great mineral and timber belt and on to the magnificent fisheries of Hudson and James Bays, would give that company the key to the situation and command of the invaluable traffic of this north country."

Companies Incorporated.

Letters patent have been issued incorporating the following companies:

The Pure Gold Manufacturing Company, Limited, capital $175,000, in $100 shares.

The Advocate Printing Company of Algoma, Limited, capital $3000, in $10 shares.

The Orangeville Athletic Company, Limited, capital $1000, in $2 shares.

The Fraser Hat, Cap and Fur Manufacturing Company of London, Limited, capital $20,000, in $100 shares.

Stables Burned at Glencoe.

Glencoe, Ont., May 23.—Albout 3 o'clock today fire broke out in a stable at the rear of A. McKellar's grocery store, and in a very short time spread to the adjoining buildings until the stables belonging to the McKellar House together with those of J. M. Tait and A. Mitchell were totally destroyed. The horses and rigs were all saved. Insurance not known.

NEW DEAD-LETTER OFFICE.

Improvement to be Made in Toronto's Postal Service.

Important Amendment to the Post-office Bill—New Idea in Handling Short-Paid Letters — Mr. Davin Says Assinobia Was Traduced—Progress With the Estimates — Proceedings in the House.

Ottawa, May 23.—(Special).—Mr. Mulock to-day made two amendments to the Post-office bill. If the Postmaster-General is given a little encouragement he will get rid of the red tape which has too long encumbered the workings of his department. The suggestion that a postmaster, when the sender of a short paid letter is known, shall communicate with such sender and permit him to affix the necessary stamps is a good one; while the proposal to establish a branch dead-letter office in Toronto, which will benefit the whole of Western Ontario, should receive hearty endorsation. The House did a good day's work and made splendid progress with the estimates to-night.

Sir J. D. Edgar and Sir John Bourinot were warmly congratulated by members to-day. The attendance in the House, however, was only slim, many members having gone home over the Queen's Birthday.

The Day's Business.

Ottawa, May 23.—Preliminary to the regular business in the House of Commons to-day there was an important discussion on Mr. Sifton's new handbook which has been widely circulated in Great Britain and on the Continent of Europe.

Mr. Fisher introduced his bill to authorize a scheme of cold storage on steamships.

Assiniboia Traduced.

Mr. Davin entered his protest against the misrepresentation of Western Assiniboia in the official handbook, which described the country generally as unsuited for agriculture, except by irrigation, and in Moosejaw and Regina districts incapable of irrigation. Mr. Davin showed that the trouble in the past had been that the farmers did not understand the country. Now, however, since summer fallowing had been practiced, the crops had been steadily large. In one of these very districts one family last year banked $10,000; while from Balgonie, Moosejaw, Regina and Qu'Appelle 644,383 bushels of wheat and 413 tons of other produce were exported. Mr. Davin protested against that district being thus traduced.

Mr. Sifton disclaimed any intention to decry the country. But it was difficult, he said, to tell the truth about the whole country and not give cause for offence to the people of certain localities. However, he was glad to have Mr. Davin's testimony, and would take care that any misrepresentations would be corrected in future editions of the handbook.

Sir Wilfrid Laurier announced that he would not make the motion for morning sittings, after Wednesday, of which Sir Richard Cartwright had given notice. He would do so on Wednesday, however, when also he would make a declaration as to the business which the Government intended to put through this session.

Toronto to Get a New Office.

The House again went into committee on the Postoffice Bill, and made two important amendments. One is to authorize the Postmaster-General to make regulations providing that in cases of letters bearing the name and address of the sender on the envelope, and which may have been mailed without postage, or short of postage, or with a deficient address, the postmaster may notify the sender and accept from him the postage stamps, or allow him to amend the address.

The other change adds Toronto and Montreal to the list of dead-letter offices. Mr. Mulock said he had been advised to add Toronto and Montreal to the list of dead-letter offices as they were important mail points, especially Toronto, which was a great railway centre where large quantities of mail matter were handled. The addition of these two places to the list would not necessarily involve any new appointments. It might be necessary to transfer some of the staff at Ottawa to these outside points, and, under any circumstances, the clerks at these branch dead-letter offices would be under the direct control of the Department.

Sir C. H. Tupper said the understanding last week was that only three cities were to be constituted branch dead-letter offices.

Mr. Mulock said that he did not desire to break any agreement arrived at last week, but he was induced to suggest the addition of Toronto and Montreal on the recommendation of the chief of the branch, Major Walsh. He would not press for the third reading of the bill to-day. The amendments were adopted and the bill reported.

Whiskey in the Yukon.

In committee on the Northwest Territories bill Sir C. H. Tupper and Mr. Davin criticized the Minister of the Interior for initiating the practice of advising the Lieutenant-Governor of the Territories to issue permits for the importation of whiskey into the Yukon.

Mr. Sifton acknowledged the impeachment, and said he had adopted the practice understanding it was the custom of the department. When he discovered his error he had only advised the issue of whiskey permits under very exceptional circumstances.

The Government bills to amend the Land Titles Act, respecting grants of land to the militia in active service in the Northwest and to amend the Indian Act were advanced a stage.

The bill to amend the Militia Act by granting the G. O. Commanding $2,000 as an allowance was advanced a stage.

Inspection Act Amended.

In committee on the bill to mend the Inspection Act, Sir Henri Joly consented to the elimination of hides and potash from compulsory inspection with the understanding that such a clause should be inserted next session.

The penalty for placing upon goods imitations of inspection marks was reduced from $1,000 to $40.

Another amendment proposed by the Minister was to strike out the words "with fraudulent intention" from the clauses providing penalties for the obliteration of inspection marks or the use of old packages with such marks for packing other goods or products.

Sir Charles Hibbert Tupper, Mr. Borden, Mr. Davin and other lawyers on the Opposition side protested so strongly against the proposed amendment that the Minister withdrew it, and the bill went through Committee and passed. The House then went into Committee of Supplies.

Experimental Farms.

On the item of $75,000 for experimental farms, Mr. Fisher explained that he was running the experimental farms as his predecessors were managing them. The only change of policy he had inaugurated was in regard to the Nappan Farm, in Nova Scotia, where he had decided to give more attention to dairying.

The only two incidents worth mentioning in connection with the central experimental farm were, he said, the outbreak of tuberculosis, necessitating the slaughter of 23 out of 55 head of cattle, and the resignation of Prof. Craig, resulting in the promotion of Mr. MacCoun. It was the intention, later, to appoint an agriculturist to take charge of the farming and treatment of the land, and thus relieve Dr. Saunders of much of that duty, and that with Dr. Saunders' approval.

Dr. Montague congratulated the Minister of Agriculture upon the fact that he had not found time to meddle with the work of his predecessors. He urged that greater attention be given to agriculture by the appointment of an expert. He promised his support to the scheme of demonstration stations.

Mr. Clancy disfavored the demonstration station theory. He thought the money would be better spent in distributing seed and requiring returns from the farmers using it. For the rest, he thought there was not enough money spent on the Central Experimental Farm. The swine department required to be extended and the farm buildings to be enlarged. He hoped that next year the Minister would ask as much more money as this year.

The item passed, and good progress was thereafter made with the estimates.

The House adjourned at 11.15 o'clock until Wednesday afternoon.

AMONG THE SOCIETIES.

The Queen's Birthday was ushered in this morning in true loyal fashion by the members of Kent Lodge, S.O.E. In Shaftesbury Hall last evening a large gathering congregated, and the first part of the evening was taken up in the installation of the newly-appointed officers, as follows: Noble president, James Leach; vice-president, J. H. Dale; chaplain, H. C. Morrison; inside guard, William Kemp. The ceremony was performed by Bro. Aldrich, D.D., and J. Webster. Following this, the lodge romo was thrown open to all their friends, and a program of songs and stories was given by Bros. Sullin, H. Cousins, Russell, McClure brothers and the gramophone, directed by Mr. Sullin. Bro. Aldrich, district deputy, was in the chair, and the long reign of Queen Victoria was celebrated till early morning.

The International Brotherhood of Bookbinders, No. 28, met in St. John's Hall last evening, with President Wigglesworth in the chair. The report prepared by the delegation that attended the convention of Bookbinders in this city was received and adopted. At the last meeting of the union Mr. Carroll, representing the International Typographical Union in Buffalo, was present, and laid the particulars of The Buffalo Express strike before the board, and last evening a strong resolution endorsing the action of the employes was unanimously passed, and all assistance possible will be rendered them.

After the business of Court Hope, A.O.F., was concluded last evening at Shaftesbury Hall, a short time was spent in playing euchre.

At the meeting of Laurel Lodge, 110, I.O.O.F., held last night in the Oddfellows' Hall, it was decided to fix the date of the annual excursion for July 1, to Barrie and Orillia. All arrangements were completed and a good program has been prepared. Noble Grand H. Stevenson presided.

The committee of the Musical Improvement Club met last evening in Oddfellows' Hall, with Miss Morton presiding. It was decided to hold the closing concert in St. George's Hall June 6. There is a movement on foot to organize a rowing club for the summer months.

Last evening Mrs. Ross of the Ewart Training Home addressed a large number at the Y.W.C. Guild.

A large attendance was present at the meeting of William Johnstone, 127, L.O.L., last night, in the Orange Temple Hall, Worshipful Master Andrew Mathews presided.

At the S.O.E. parade on Sunday the new bugle band made its first appearance, and Mayor Shaw was so delighted by the impression made that he subscribed $15 to buy three more bugles. The band was organized three months ago, and the honor of bringing together a number of men and turning them into musicians goes to Major Frank Evans, bugle-master, and Harry Evans, drum-major.

THINK DEWEY IS AFRAID.

Bishops at Manila Tell How Spain is Going to Whip the Americans.

London, May 23.—A despatch to The Daily Mail from Hong Kong says:

"Spaniards in Hong Kong and at Manila openly boast that a fleet of warships is on the way out to the Philippines, and the bishops have issued pastorals to the effect that Spain and God are preparing to cut out these social exeresences from America. The pastorals urge the people to give to quarter, and they ascribe Admiral Dewey's humanity in refusing to bombard Manila as due to fear. At the same time money is being spent in bribing the inferior leaders among the insurgents.

"There is great anxiety here because of the non-arrival of American troops and the American Consulate is crowded with volunteers. United States Consul Wildman is on duty night and day. An American miner from Manila, named Decur, has arrived here. For several years he managed a coal mine near Cebu, and the Spanish authorities, fearing he would supply the American fleet, expelled him. He reports that food is scarce in Cebu. Flour is very high, and potatoes cannot be bought. The Spaniards are themselves directly responsible for the revolt of the Cebuans, as the latter gave them help during insurrection, and were in return promised regular pay and that their families in their absence should be cared for. They were also to be exempted from tribute. After seven months' absence, during which they received no pay, they returned home to find their families starving and to be called upon for tribute. They have risen against Spain."

For a cool drink take Mt. Clemens Sprudel and Rhine Wine.

G.T.R. Southern Div. Time Table.

The Grand Trunk System leads the procession in these days of active competition amongst the trunk lines of the continent. The new main service which went into effect on the 15th inst., is to be still further improved by some slight changes which will go into effect on Sunday, May 29, being necessary on account of the removal of the Wabash trains, which have been running over the line between Windsor and Niagara Falls via London and Hamilton. On and after May 29, the Wabash train will run between Windsor and Niagara Falls via Glencoe and St. Thomas. The time table showing the service on that portion of the line will be issued in a few days. The management of the Grand Trunk Railway system will replace the Wabash service on the Middle Division between Windsor and Niagara Falls with fast express trains which will give every facility to the traveling public. The new fast express No. 1 that leaves Montreal at 9.00 a.m. and arrives in Toronto at 5.40 p.m. daily making close connection here for Hamilton, Niagara Falls, Buffalo and New York is right up to the times, and travelers say that the train in question is a "Black Diamond" and "Empire State" express combined.

No Gripe

When you take Hood's Pills. The big, old-fashioned, sugar-coated pills, which tear you all to pieces, are not in it with Hood's. Easy to take and easy to operate, is true of Hood's Pills, which are up to date in every respect. Safe, certain and sure. All druggists. 25c. C. I. Hood & Co., Lowell, Mass. Hood's Pills

THEIR HAND DISCLOSED.

Grand Trunk Management Propose Introducing the Rules and Regulations of American Railroads.

When the new management of the Grand Trunk took possession of the offices at Montreal it was suspected that their first move would be to abolish the old rules and regulations established under the old regime for the operation of the road and introduce those which had been adopted by the American lines. The tact of the new officials, however, dissipated this idea from the public mind, and it was thought that, aside from a few minor changes, which had been gradually effected, the management had decided that the rules in force were best adapted to the requirements of the country, and had set themselves to learn Canadian railroad procedure instead of compelling some 30,000 employes to begin again at the alphabet of railroading for the convenience of a few officials. The employes of the running department of the Grand Trunk were, of course, most desirous of having those rules retained which were peculiar to Canadian railroads and prevented the importation of alien hands to weaken the trainmen's organizations, and as soon as the new management took command the matter of new rules and regulations was brought into discussion by the labor organizations and well ventilated through the columns of the press. The agitation was, at length, silenced by the suavity of the new officials, but is again revived, since it is evident the officials at Montreal have been quietly working and have at length attained their ambition.

The following circular, already in print, but not yet distributed, heralds this unpopular innovation. It accompanies the new book of instructions for Grand Trunk employes, which is ready and complete for circulation:

"The following rules and regulations for the government of the transportation department of the Grand Trunk Railway System, having been adopted by the directors of the railway company and approved by the Governor-in-Council of the Dominion of Canada, will take effect at 12 o'clock noon, on Friday, July 1, 1898.

"The attention of the employes is directed to the extracts from the Railway Act of Canada, on pages 117 and 118 of this book."

F. H. McGuigan, general superintendent.

Approved, Chas. M. Hays, general manager.

The employes of the road who have seen the new book of instructions state that the changes are most radical, that the operation of the new rules will be far-reaching in effect and do not conduce to the safety of the traveling public. They affirm that the old rules applicable for the running department of the road were established and thoroughly understood by the employes, and that a change and departure from these rules cannot be smoothly effected. When questioned as to the object of the innovation they say it is a blow aimed at Canadian trainmen's organizations.

CARTER'S LITTLE LIVER PILLS

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Toronto, May 16, 1898.

NOTICE THE "Cutting"

When you see a diamond ring that came from "RYRIE BROS." just examine critically the shape and cutting of the diamonds.

You will not find them "lopsided" and irregular; their many "facets" are cut uniformly and on mathematical lines.

You will notice also that the COLOUR of the stones is all that could be desired.

Diamonds — especially GOOD diamonds—are our "forte," and buying from the cutters enables us to sell them just as close as you will often pay for inferior stones.

Ryrie Bros.
Diamond Merchants,
Corner Yonge and Adelaide Sts., Toronto.
