MRF. R. FLANNAGAN DIED AT BOSTON

Had Gone There for Operation and Died Saturday Evening.

FORMERLY LIVED HERE.

CHATHAM, Sept. 13—News was received here last night of the death of Mrs. Roger Flanagan in Boston on Saturday. Mrs. Flanagan had been in poor health for months, and left here some weeks ago to receive treatment. Her death is a great shock to her family and a large circle of acquaintances. Deceased is survived by her husband, Roger Flanagan, proprietor of the Bow ser House, one of the most widely known hostelries of the North Shore, and five children. The latter are Vincent and Charlie, Marguerite, a nurse in Albany, N. Y. hospital, and Alice and Josephine at home. Four sisters also survive: Mrs. Annie Connors, Chatham; Mrs. Walter Drew, Sherbrooke; Mrs. Gauthier, Quebec and Mrs. E. A. Reilly, Moncton. Mrs. Flanagan's maiden name was Miss Mary Henry, daughter of John Henry, Chatham, who served in the famous Nile expedition in Egypt. The remains will arrive here this afternoon on the Ocean Limited.

Mrs. Flanagan lived here for some time, while Mr. Flanagan was proprietor of the Waverley, and is well known here.

Minard's Liniment Cures Dandruff.

IF THE LAND IS THERE CANADA OWNS IT

So the Cabinet Has Intimated to Britain with Regard to Arctic Discovery

OTTAWA, Sept. 12—As a result of the discovery of the North Pole and the planting of the American flag there the question has been raised in the British House of Commons by Sir Gilbert Parker as to the ownership of all the lands intervening between the Pole and the territory now marked as Canada on the map. An answer will be given to the question in the British House tomorrow. It is understood that the matter was under disucussion at the last meeting of the cabinet council here and that a statement has been sent to the Colonial office intimating that Canada claims all the land intervening between the American border and the North Pole. So far as is known, all the islands in the Arctic Ocean west of Greenland have already been formally claimed by Canada, one of the objects of Captain Bernier's expedition in the Arctic two years ago being to formally take possession of and place the British flag on all islands to the north. Commander Peary in his report of his trip to the Pole does not tell of finding any land north of Grant Land which is recognized as Canadian territory. From there to the Pole is evidently an ice covered ocean. Consequently although Canada claims all land as far north as the Pole, as being Canadian Hinterland, there is not likely to be any basis for the United States claim to ownership. The Pole itself being two miles above water, belongs to all nations.

Minard's Liniment Relieves Neuralagia

LARGE INCREASE IN FARM LIFE

One Hundred Million Dollars is the Estimate in Excess of Last Year.

WEALTH FOR FARMERS.

OTTAWA, Sept. 12—The farmers of Canada will this year have about $100,000,000 worth of cereals more than last year, according to official government estimates. The estimated yield of wheat compiled from the report of reliable correspondents is one hundred and sixty eight million bushels or fifty million bushels more than last year. There is an increase of eighty five million bushels in the oat yield, and seven million five hundred bushels increase in the barley crop.

Hon. Rodolphe Lemieux postmaster-general will leave Canada on the 20th inst. for Switzerland to attend the international postal convention at Berne. While in Europe Hon. Mr. Lemieux will confer with the British authorities on the question of cheapening cable rates.

In view of the American discoveries a question being asked in the British House of Commons as to the ownership of the North Pole has been referred to Canada for an answer. The Canadian government is understood to take the position that all the territory between the American boundary and the pole belongs to Canada, the Arctic Islands being Canada's Hinterland, having been formally taken possession of, on behalf of the dominion by Captain Bernier. As there are two miles depth of ocean at the pole, it s the high sea and belongs to all nations.

POLLI HELD FOR ORR'S MURDER

Italian Sent up for Trial at Victoria Circuit Court on September 28

ANDOVER, Sept. 12—Dr. Coffin was the only witness called Saturday in the preliminary examination of the Italian Polli, held for shooting James Orr at McDonald's camp. He swore that he was called to McDonald's camp to attend a man who was shot. He testified as to the nature of the wound, and as to what he did in the operation. Dr. Puddington and he operated and Dr. Taylor administered the anaesthetic. The wounded man had the best of care. The bullet being in his body would not cause death, but it was the three perforations of the small bowel that caused it.

After the doctor was through with his evidence, an opportunity was given the defence to produce witnesses. An Italian, a nephew of the prisoner, stood up and offered to give evidence, but was informed by Magistrate McQuarrie that under the circumstances he would have to wait for the trial.

The prisoner was then sent up for trial and will appear at the next sitting of the Circuit Court, which meets on Sept. 28.

FATHER OF HON. MR. TURGEON DEAD

QUEBEC, Sept. 13—Damas E. Turgeon, father of Hon. Adelard Turgeon, speaker of the legislative council, died yesterday at his home in Beaumont, County of Bellechasse. He had reached the venerable age of eighty years and six months.

MILITARY DRILL BEGUN TODAY

FREDERICTON, Sept. 13—Military drill at the provincial normal school was inaugurated this morning when the male students were exercised by Sergt. Major Duncan, of the Royal Regiment. Tomorrow morning the girl students will practise physical drill.

W. H. Beckwith of Florida, passed through the city Saturday enroute to Miramichi to hunt big game.

OVERCOATS!

We have just opened up our

Fall and Winter Overcoats

Never in the history of Campbellton has there been such a range of overcoats shown in our store. You cannot afford not looking them over, they speak for themselves.

Bruce,

THE CLOTHIER.

CHINESE ARMY FAST IMPROVING

Development of Celestial Kingdom's New Military Under European Experts, is Marvelous

PARIS, Sept. 11—The fighting forces of China have been developed in an astounding way during the ten years that they have been drilled and trained by European instructors. La France Militaire points out that at this moment China has at its disposal 216 battalions of infantry, 45 squadrons of cavalry, 136 batteries of field and mountain guns, 16 battalions of machine guns, 15 battalions of sappers and miners and 15 train battalions. These forces consist of 5,400 officers and 168,000 non-commissioned officers and men.

In China's military academies there are now 700 students, while 2,500 men are being trained in the schools for non-commissioned officers. So well have the Chinese learned the lessons taught by their western army instructors that now only eight German and sixteen Japanese military instructors are at work, and all the other army instructors are Chinese. It is to be observed that at last the leading families of China are urging their sons to follow the long despised profession of arms, and every officer is now accorded the rank and privilege enjoyed by the mandarins.

The development of China's army might introduce an almost unlooked for element into the political outlook in the far east, and there are more unlikely things than a Russo-Chinese alliance in the face of Japanese aggression with regard to the mainland of Asia, for it is in the vital interests of both empires that Japan shall not be allowed to get a footing on the mainland.

WATER VAPORS ON MARS SHOWS POSSIBLE LIFE

Astronomers Take Pictures of Conditions Favoring Sentient Beings

SAN FRANCISCO, Sept. 11—According to a statement by Prof. W. W. Campbell, director of Lick Observatory the recent astronomical expedition which has just returned from Mount Whitney brought back proof that water vapor exists on Mars.

The scientists have in their possession as the result of the pictures which they took from the summit of the mountains, definite proof that the planet Mars is capable of supporting sentient beings. Prof. Campbell made the following statement:

'We are now in a position to issue the strongest statement that has ever been given out as to the existence of water vapor on Mars. If it is found that the water vapor is sufficient to be detected under the most favorable condition, it will be evidence along the line of establishing that the conditions on Mars are favorable to life. It will not be proof, however, that life exists on Mars.'

The negatives made by the astronomers will be developed at once.

CHATHAM STRIKE LEADERS' PAY MAY BE HELD BACK

Some of the Miramichi Pulp Employees Paid—Distress May Follow Delay in Payment

CHATHAM, Sept. 13—A considerable number of employees of the Miramichi Pulp Mill were paid their wages on Saturday but it is said that the management will not pay the strike leaders or those who have taken legal action to recover their wages until the expiration of the ninety days' time allowed by law. Already many families are on the verge of want and unless these men get other employment their distress will be acute.

Don't waste your money buying plasters when you get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all druggists.

INTERPROVINCIAL BRIDGE CONTRACT

Contract for Ayproaches to Matapedia Bridge Now Set.

READY NEXT YEAR.

An order in Council has been passed awarding the contract for the approaches to the Restigouche Interprovincial Bridge at Matapedia to Mr. D. V. Reid, of Halifax, N. S. the lowest of the five tenderers, who tendered for the work. It is understood that the work will be commenced at once and pushed through to completion. The iron structural work is proceeding satisfactorily. The bridge should be opened to traffic next year.

ENAMEL WARE MAKERS COMBINE

Big Merger Arranged by Mr. W. M. Aitken.—Amherst Concern in It

TORONTO, Sept. 13—Important Toronto interests are concerned in the merger of the cast iron, porcelain and enamel manufacturers of Canada, which was accomplished in Montreal on Saturday. The consolidation involves all the factories making porcelain baths, sinks and other goods of a similar character in this country, the two dominant institutions being the Standard Ideal Company of Amherst, N. S. The Port Hope plant employs some six hundred men and about two hundred and fifty mechanics are engaged at the works in Amherst. The merger was effected through the Royal Securities Company of Montreal. Mr. W. M. Aitken, who has been a prominent figure in a number of large consolidations recently, conducting the negotiations. The capital involved is two million dollars. It is said the consolidation of the Canadian manufacturers has been hastened by the threats of more formidable invasion of the Canadian markets than has been hitherto attempted by the big plants on the other side of the line.

NARROW ESCAPE OF GUESTS FROM HOTEL FIRE

EDGEMERE, L. I. Sept. 13—In a fire which destroyed the Holmescurst Inn here before daylight today, seventy-five guests and twenty employes had narrow escapes. The fire, which the proprietor said was undoubtedly from incendiary origin, started in the basement and worked up through the frame structure so rapidly that the entire first floor was ablaze before the guests were given the alarm. While most of the guests were able to leave by the stairways, a half dozen, among them two women, leaped from a second storey balcony, but were not seriously hurt.

The guests lost practically all of their jewellry and clothing. They were cared for in neighboring cottages. The hotel building was valued at $75,000.

HOPETOWN

Miss Miriam Thompson, who has been ill for some time, is now improving very rapidly.

Mrs. Thos. Carter and daughter, Ethel, left last Monday on the S. S. Canada enroute to their home in Guelph, Ont. after a month's vacation among friends along the way. While here they were the guests of Mrs. J. D. Ross, sr. Mrs. Carter, who was formerly Miss Annabella McRae, left here with her parents thirty six years ago to make her home in Ontario.

Messrs. Christopher and Robert McRae left home on Monday, bound for the North West, to join their brother Farquhar who has been there for some time.

Some farmers have begun to harvest their ripe oats, which is above the average in many places. The recent heavy rains have retarded the ripening but favorable weather is hoped for. Potatoes and roots promise a fair crop here.

Codfishing is slack at this point and at Nouvelle, the place adjoining here, owing it is said, for lack of bait. A few people who were hungering for the finny food procured a few clams and caught some.

Our school is in session again with thirty five pupils attending daily.

Misses Sarah and Maggie McRae, accompanied by Miss Anna McRae, went to Campbellton last Monday.

It's a pity when sick ones drug the stomach or stimulate the Heart and Kidneys. That is all wrong. A weak Stomach means weak Stomach nerves always. And this is also true of the Heart and Kidneys. The weak nerves are instead crying out for help. This explains why Dr. Shoop's Restorative is promptly helping Stomach, Heart and Kidney ailments. The Restorative reaches out for the actual cause of these ailments—the failing 'inside nerves.' Anyway test the Restorative 48 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by all dealers.

I'll bet that fellow is a poet, remarked the chap who reads the patent medicine alamanac jokes.

You lose, repoined the wise guy. He is the 'after using' part of a hair tonic advertisement.

INCREASED DUES FROM LUMBER

Sir Lomer Gouin Makrs Important Announcement at St. John's P. Q., Friday.

COMMENCE NEXT YEAR

ST. JOHNS, Que. Sept. 10—A demonstration in honor of Sir Lomer Gouin was given here, and was attended by a large number of the supporters of the government.

Sir, Lomer Gouin's important announcement was that increased charges would be made for timber cutting licenses, commencing on Sept. 1, next year. This proposal for the increase of provincial revenue will date, according to the Premier's plans, from the time of the expiration of present contracts between the government and the lumber merchants. The Premier announced that these increased charges for timber cutting licenses it was hoped to increase the revenue from two hundred thousand to three hundred thousand dollars. He also said he believed it was time for the proprietors of mines in this province to contribute their share to the revenue of the province. In this connection he made special reference to asb stos mine owners.

Regarding an appeal from the local representatives for the building of a new bridge at St. Johns and the removal of tolls, Sir Lomer Gouin made a definite pronouncement in favor of free bridges and free roads for free citizens.

He spoke of what is being done in the matter of education. 'Our adversaries,' he remarked, have argued that we would chase the clergy from our schools, that we would take down the crucifix, and that we would introduce the secular element into our colleges. I ask you to visit the schools in the province and you will see that they are the best that we have ever had in Quebec.

In the matter of colonization, the government had been accused of retrogressive action, but he asked why should they give free lands to settlers? People might think it was enough 'Free game for free hunters; free mines for free miners; free water for water power exploiters, as Free land for free settlers.'

Then Sir Lomer announced the proposed increase for wood cutting licenses. 'With the increased revenue from this source, added to the contributed from mine owners, the government would be able to do more for true colonization, agriculture and especially for education in the province. It would then be in a position to locate elementary schools everywhere, build additional technical and commercial academies, and at last to create a forestry school for the province. Then the government would also be able to give free roads and free bridges to free citizens of St. Johns and elsewhere.

Senator Dandurand, the Hon. Jules Allard, the Hon. C. R. Devlin, the Hon. Jeremie Decarie, Senator Cloran and Mr. Levesque, M. P. P. also spoke. In the evening a banquet was tendered to the Premier and Cabinet ministers.

SAVAGE REVENGE OF MOROCCO'S SULTAN

Has Prepared Nail Studded Hut for Prisoner

Having gained the whip hand of the rebel, Mulai Hafid, Sultan of Morocco, is taking a savage revenge. Not content with torturing men by having their hands and feet cut off, (the bleeding stumps then being plunged into boiling pitch) he ministered to his lust for blood by ordering the teeth of all the captured women to be drawn.

But he is reserving his most ingenious tortures for Bu Hamara or El Roghi, the Pretender. Bu Hamara is confined in a cage which is placed inside the tent he used while wandering about the country, and public exhibition is made of the prisoner daily.

The Sultan thinks Bu Hamara has large sums of money deposited in foreign banks and considers the cash would be much better in his own coffers. So His Majesty's servants have severely questioned the prisoner, but the latter declines to do business with anybody but the Sultan, to whom he is willing to hand over any treasure he may possess if his personal safety is guaranteed by the foreign representatives.

Mulai Mafid refuses to look at the matter in that light. He has got Bu Hamara and does not intend to let him go. But he wants the money, and thinks he may prevail upon his prisoner to give it up. To that end he is having a devilish contrivance made. It takes the rough form of a shirt, but is made of wood, and is studded inside with sharp pointed nails, so that no matter how slight a movement Bu Hamara may make some points will be perpetually sticking in him, while lying down will be impossible.

A GOOD PLAY AT THE OPERA HOUSE

The Volunteer Organist Delights a Large Audience With a Fine Performance

A Halifax paepr says:—Academy of Music patrons were given a rare treat last night when 'The Volunteer Organist' was presented to them. The audience was large and showed its appreciation by the warmest kind of applause. The singing of Master Willie Golden and Irving Gluck, the boy soprano, was one of the features of a very fine performance. The delightful pastoral drama, dealing as it does with affairs of the church, village life—with the matters that affect the life of the common people and which interest everybody—was a treat indeed. Its tone is good and it pleases. The stage settings and the whole work of the company were artistic and praiseworthy.

'The Volunteer Organist' will be seen at the Campbellton Opera House, Friday night, Sept. 24th, for one night only.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all druggists.

ANOTHER COMPANY SELLS PROPERTY

Adams, Burns & Co. of Bathurst, Sells Mill and Limits.

PRICE SAID TO BE $250,000

BATHURST, Sept. 9—The rumor has been in circulation for some time that the lumber concern of Adams, Burns Co. had sold out its large interests in this county to an American concern. The rumor has become a fact. This week the sale was completed. The Nepisiguit Lumber Co. the right of the Shaw Shingle Mills, over a year ago, is the successor of the Adams, Burns Co's interests.

From what your correspondent can learn, it is the intention of this company to make extensive improvements to their newly acquired property so as to double the present output.

It is said the price paid is in the vicinity of $250,000. The timber limits comprise over 400 square miles situated on the following rivers: Bass, Nepisiguit, Middle, Little Nepisiguit, Millstream, Nigadoo and Elm Tree.

O. Turgeon, M. P. left yesterday for Ottawa on matters connected with works for this county.

CARD OF THANKS

To the Ratepayers of the Parish of Colborne.

Gentlemen—

I thank you for the splendid vote you gave me in the council election on the 7th instant. The great vote you gave me exceeded my expectations, as I did not expect such a large majority, and I express my heart felt thanks for your generous support. And now that I am elected I shall endeavor to discharge the duties of the office in such a way as to retain your confidence, knowing thanks to you present an intelligent body of electors like the people of our Parish, is an honor which which I prize more than I am would like to express.

I did everything during the contest in the most friendly way and gave perfect fairness to the other candidates. Although I had no one on the ticket with me yet I did not try to keep a vote from either of the other candidates. Our election was a fair one, conducted without the use of liquor or any undue influence. And in such a fair contest I would not complain of the result, nor say an unkind word to anyone opposed to me had I been defeated, and I would cordially shake hands with the successful candidates and congratulate them on their election as the choice of the people, which would be my doing to them what I would wish that they would do to me under similar circumstances.

I am faithfully yours,

W. G. MAWHINNEY,
Upper Charlo.

September 1909.

TOWN OF CAMPBELLTON, N.B. 1889

Under 51 Vic., C. 81, Sec. 76.

Notice is hereby given that the Assessment List of the Town of Campbellton remains in my hands as Collector and Receiver of Taxes and that all persons who have not paid their taxes within the twenty days appointed by the notice duly published in the said town of Campbellton the 8th day of August 1909, are defaulters and that unless payment be made by them respectively within 10 days from the date of this demand, payment will be enforced without delay.

S. H. LINGLEY,

D. GOLDENBERG & CO.

ASK FOR Labatt's (LONDON) Porter

Undoubtedly the best brewed on the continent. Proved to be so by analysis of four chemists, and by awards of the world's great Exhibitions, especially Chicago, 1893, where it received ninety-six points out of a possible hundred, much higher than any other Porter in the United States or Canada.
