Moncton, against the bill relating to the raising of money for sewers in that town.

Mr. Covert committed a bill to establish courts for the collection of small debts and the abolition of the jurisdiction of justices in civil suits. Mr. Covert explained that the bill was to give power to commissioners to collect debts to the amount of $50. Progress was reported.

Mr. McQueen introduced a bill to incorporate the Bellevue Oil Co.

Mr. Fraser presented a bill to amend the Fredericton Boom Company Act.

Mr. Covert recommitted the small Courts' bill.

Mr. Fraser thought the bill would put too much power in the hands of one man. It would be difficult to get a competent man in every district or parish, and the system would become, he feared, an unpopular one.

Mr. McLeod favored placing the power to collect the debts contemplated in the hands of one person, but to leave the present jurisdiction of magistrates as it is.

Mr. Davidson thought the bill would result in no improvement on the present law.

Mr. Covert claimed that such Courts existed in towns and cities, and were indispensable on account of the want of a cheap and summary process.

Mr. Smith thought it would not be wise to change the present law.

Mr. Burns thought that it might be as well to extend the jurisdiction of Magistrates to $50.

Mr. Tweedie would favor a commission of two to meet in the shiretowns once every month to try suits up to $50, and he thought that would commend itself to every mercantile man.

Mr. McQueen thought cheap law was speedy justice, and that Mr. Tweedie's suggestion was a good one. He was entirely opposed to the bill, and moved that the consideration of it be postponed for three months.

Mr. Stevenson commented on Mr. Davidson's opinions, and thought if a man was competent to act as a commissioner he would require such fees as would not render justice cheaper than now.

Progress was reported, with leave to sit again.

The Provincial Secretary tabled the report and papers from the University; also, the statement of the People's Bank.

Mr. Austin introduced bills relating to permanent improvements in Portland; to amend the Portland water supply and sewerage Act; to amend the bill relating to sidewalks in Portland, to amend the Act relating to the purchase of a steam fire engine and the placing of a fire alarm telegraph in Portland, and a bill relating to streets in Portland, and other petitions in favor of the same from the Town Council of Portland.

Mr. Mackenzie committed a bill to authorize the erection of a boom across the Jacquet River, Restigouche, Mr. Keans in the chair.

Mr. Keans introduced a bill to incorporate the New Brunswick Odd Fellows' Hall Company, after which the House adjourned.

FREDERICTON, March 6.

This morning, on the third reading of the Orange bill, Messrs. King, Crawford and Rogers, who were absent on the division, had their names placed amongst the yeas.

Mr. Tweedie introduced a bill to incorporate the Renous River Boom Company; Mr. Butler, a bill to further regulate district assessment for school purposes.

Mr. McLeod and Mr. Tweedie were added to the Mining Committe.

Dr. Dow committed a bill to empower the City Council of Fredericton to issue debentures to raise money for a new City Hall and Market House,—Leighton in the chair. The mover explained that the necessity of the bill grew out of the late fire, which consumed the former hall and market. The sum to be raised is not to exceed $16,000, the rate of interest to be 6 per cent, payable semi annually. The Council may levy an assessment on the city not exceeding $2,000 a year to meet the repayment of principal and also a sufficient sum to meet the interest.

Mr. O'Leary obtained leave of absence.

Mr. Rogers recommitted the Alma Lumber Company bill, Mr. Jones in the chair. Agreed to.

LEGISLATIVE COUNCIL.

FREDERICTON, March 5.

A bill to establish an additional polling place in Weldford, Kent; bill to define the powers of Sackville Commissioners of Sewers; and a bill authorizing the Justices of Madawaska to borrow money to build a Court House and Jail, were agreed to.

Several bills were discussed in Committee of the Whole, and progress reported on them.

"THE UNIVERSAL AYER."—On my journeys over the continent—through Turkey, India, China, Japan, Peru, Chili, Paraguay, Brazil and Mexico, and the United States—in them all to some extent and in some to a great extent, I have found the UNIVERSAL AYER represented by his family medicines, which are often held in fabulous esteem. Whether they win their marvelous reputation by their cures I know not, but I know they have it to such a degree that it frequently gave me a distinguished importance to have come from the same country.—*Field's letters from abroad.*

Portland Police Court.

The candidates could not have violated the law, in Portland, by treating the independent electors, as only one arrest was made last night. James Mitchell, drunk on Sheriff st.; fined $4, was the record this morning.

A few drops of Dr. FORSTER'S IMPROVED ESAMELLINE upon a wet tooth brush forms a rich, creamy, foam in the mouth, imparting a delightful fragrance to the breath, and thoroughly cleansing the teeth from all impurities. Call at the Drug Stores and get a sample bottle free.

EVERY FAMILY should have a copy of Dr. Holland's Library of Favorite Poetry and Song. A few copies yet for sale by M. McLeod, 51 Prince Wm. Street. tf

Parrsboro Items.

Capt. D. Morrison, one of our most enterprising seamen, has persuaded the merchants and others of this village to form a joint stock company for the purpose of building during the coming summer a barque of six or seven hundred tons—shares from 1-64th upwards.

On Sunday last Dr. Clarke was thrown from his sleigh. The horse, acting under the impulse of the moment, ran off and to expedite matters endeavored to run through a gate two feet wide. Next morning the doctor was seen going towards the carriage factory with a pair of shafts and a cushion to get a sleigh fitted to them.

Messrs. Daniel & Copeland, proprietors of the Barytes Works at Five Islands and Memramcook, arrived here on Monday evening en route for Five Islands. They speak encouragingly of the Barytes Mines and intend to ship to Boston next summer from ten to fifteen thousand tons of that mineral.—*Cor. Amherst Gazette.*

A correspondent at Athol writes us that on Tuesday two Indians camping near Athol Station captured a young moose alive, near Capt. E. B. Elderkin's, Macaan. Owing to the depth of snow the animal had to succumb to the red man and be made prisoner. He was marched from the place of capture to Messrs. Elderkin & Donkin's store, a distance of five miles, and is on exhibition at a stable near that place. Mr. Eager, of Halifax, has purchased the animal.—*Gazette.*

BATH, Me., March 4.—While Mr. Alden Morse, of Phipsburg, was at work with a circular saw in his mill, this afternoon, and in the act or reaching forward to clear a slab, it flew with great force, striking him in the forehead, fracturing his skull and tearing his face in a shocking manner. It is doubtful if he recovers.

Much interest has been felt in India in the reformation which has been slowly taking place among the Syrian Christians of Malabar, sometimes called "Christians of St. Thomas." According to the *The Friend of India*, this ancient community still numbers 340,000 persons. Through the efforts of the Church Missionary Society, 24 of the Syria Churches of Travancore have abandoned many degrading practices, and a general desire for a purer worship has been excited. One of the chief obstacles to reform has been the claims of two rival Metropolitans for the control of the church; the Syrian (Jacobite) Patriarch of Antioch, upon whom the Christians of St. Thomas are nominally dependent, having appointed one Metropolitan, while the Syrian Church in Malabar has refused any longer to recognize his authority. During the past Autumn the Patriarch went to England to secure an official recognition of his jurisdiction over them, but failed.

HOUSE OF ASSEMBLY.

FREDERICTON, March 6.

Mr. Barker introduced a bill relating to stray cattle.

Mr. Keans committed a bill to provide for the establishment, maintenance and management of Reformatory and Industrial Schools, Mr. Davidson in the chair. The mover dwelt on the importance of the measure and the history of former efforts in St. John to secure the enactment or a measure of a similar kind. The present bill has had a very careful consideration by the Sessions, and provides for the setting up of Reformatories singly, or Reformateries and Industrial Schools together. Counties may erect buildings which are to be approved by the Lieut. Governor, and the institutions are to be under the control of five Directors, to be appointed by the Sessions from amongst the magistracy. The Government is to contribute, by direction of the Legislature, a part of the funds necessary for the maintenance, but the burden of the maintenance is to fall on the County. The children of drunken parents or vagrants, who are now allowed to run wild and become criminals, may be sent to these institutions, where they will be under the care of proper persons, and be visited and instructed by clergymen of the creed, as near as can be ascertained, of the several children's parents, and power is given to the trustees to apprentice such children out, under certain circumstances. He thought there was a general public appreciation of the necessity of the measure, and that its principle was unquestioned.

Mr. Burns said the bill was an important one and required most careful consideration. He was glad it provided for the religious instruction to the children, and presumed that when the discussion had been had the mover would have progress reported in order that members might read it carefully and be prepared to consider its several sections intelligently.

Mr. Fraser referred to the fact of children being sent to the penitentiary and jails from the Courts, and going thence worse than when they entered them, and felt that Mr. Keans was doing good service by introducing the measure.

Mr. Covert was glad the bill had been printed and laid on the desks of members so that it could be well understood. He thought all bills should be so submitted. Mr. Burns' suggestion, relating to reporting progress, was a good one.

Mr. Crawford commended the practice of printing bills, and thought that two Justices, instead of one as provided in the bill, should commit vagrants and juvenile offenders. The principle of the bill was a good one. The Judges had often directed the attention of grand juries to the necessity of some such provision for taking care of youthful criminals, and he intended to give the measure his support.

Mr. Tweedie referred to the importance of the question, and the difficulty of dealing with youthful offenders, who, under the operation of the present law, are made criminals, where, by means of the provisions of this bill, they might become good citizens.

Mr. Austin spoke of the benefits of the St. John Industrial School, which had been quite extensive, though restricted for want of funds. He realized the need of this bill for the proper care of the children who go to jail and penitentiary, where they are made worse instead of better, and he hoped, after proper consideration as to details, it would pass.

Mr. Smith favored the bill and would vote for it, although he did not know that his County could avail itself of it, as it was erecting a Court House, etc., which entailed considerable expense. It could avail itself, however, of a Reformatory in some other County.

Mr. Fraser said it was a question as to whether one Reformatory for the whole Province would not be better than a number of such institutions. One would certainly be more effective than several would be, on account of the centralization of support.

Mr. Keans said he did not commit the bill with a view of having it agreed to at this sitting, but that it might be discussed and all the points raised considered with a view of improving it in any way possible.

Progress was reported with leave to sit again.

Mr. Cotterell committed a bill to incorporate Moore's Mills Union Church and Cemetery.

The Reformatory bill is made the order of the day for Wednesday.

Leave of absence was granted to Mr. Flewelling, who thought it probable he would be required to attend a Special Sessions on Tuesday next, at Hampton.

Mr. Ryan presented the petition of Joseph Robinson and others in favor of the Elgin Branch Railway bill.

The House adjourned until Monday morning.

LEGISLATIVE COUNCIL.

FREDERICTON, March 6.

Progress was made in the bill relating to Stipendary Magistrates and lock-up at Madawaska.

The Moss Glenn Steam Ferry Co. Bill passed with an amendment requiring the Directors to be Stockholders. Attention was called, in the debate on it, to the fact that it only provides for $6,000 capital, and the suggestion made that a Government subsidy is expected for it.

OTTAWA, March 6.

After recess last night the debate on the Pacific Railway was continued by Dr. Tupper, who made a speech of several hours duration. The principal objection he had to the policy of the Government was the large amount of money required to be appropriated for works which he considered were not required for the Pacific Railway.

He was followed by Masson, Holton, Geoffin and others.

The item passed with the understanding, expressed by Premier, that a full discussion would be allowed upon any amendment that might be moved when the item came up for concurrence.

The revenue of the Dominion for the last month was $1,782,700, and the expenditure $1,242,304.
