

PROSPECTUS OF THE LITTLE BESS GOLD MINING CO.

CAPITAL STOCK - - - \$2,000,000

FULLY PAID AND UNASSESSABLE SHARES OF \$1.00 EACH.

\$500,000 of this Stock is in the Treasury for Undevelopment Purposes.

The LITTLE BESS Claim is located in the southern belt of the celebrated Trail Creek gold mining district of British Columbia, being a full claim of about 52 Acres.

BOARD OF DIRECTORS

JAMES BEATY, Q.C., Toronto. T. H. GEORGE, Wine Merchant, Toronto.
J. E. ELLIS, Jeweller, Toronto. W. A. WERRETT, Barrister, Toronto.
J. H. STOTESBURY, Prop'r Belgian Mine, Leadville, Colorado. J. D. LEWIN, Mining Engineer, Toronto.

BANKERS ROBERT BEATY & CO.

DEVELOPMENT

The development work on the "Little Bess" consists of numerous open cuts and prospect holes upon both veins, exposing in almost every case as good quality of ore, and similar in every respect to that shown on the "Hill Top" and "Mayflower." The principal development work is near the centre of the claim on the south ledge, being an open cut twenty (20) feet long and nine (9) feet wide, with a shaft in this cut eleven (11) feet in depth, making a total of twenty (20) feet from the original surface. The bottom of the shaft exposes exceedingly good mineral, a sample of which assayed \$26.00 in gold and silver to the ton. The peculiar feature of the claims upon this Lake Mountain is that the grade of ore, at practically the surface, is very much higher in value than upon any part of the better-known Red Mountain in the same district. The great development work on the "Mayflower" and also upon the "Hill Top" proves that the ore rapidly increases in value with depth of development. It is only reasonable to suppose that like results will follow upon the "Little Bess" and "Essel."

FORMATION

The formation is diorite with an occasional appearance of syenite. The strike of the ledges is easterly and westerly. The "Little Bess," located as it is on the south side of the mountain, permits of its being worked to great depth by tunnels, thus doing away with the necessary cost of pumps and hoisting apparatus; the surface is covered with pine, fir and cedar, thus making the cost for timbering very slight. There is ample water for all mining purposes close at hand.

TRANSPORTATION

The Columbia and Western R. R. passes within 1,500 feet of this property, allowing the ore to be trammed immediately from the mouth of the tunnel to the cars. This one feature is of immense advantage, as it does away with the expense of building wagon roads and wagon transportation.

What with the "Mayflower" on the west slope and the "Crown Point" on the north east slope of Lake Mountain, it requires work only upon the intervening claims to give it a Red Mountain reputation.

Respectfully,

W. B. GORDON.

We are instructed to offer to the public 400,000 shares at the low price of **SIX CENTS PER SHARE, IN BLOCKS OF 250 SHARES AND UPWARDS** (\$1.00 par value), for the month of September; after that time the price will be advanced.

This is a good opportunity to invest in what promises to be a paying mine when properly developed, and the chances are that every six cents invested will yield one dollar within a year, and after that a much greater percentage.
