WEDNSDAY MORNING, MARCH 12, 1890.

Without expressing the slightest opinion as to the merits of the case against Burchell, The World does not believe his wife will ever go to trial. No wife can be held guilty of being an accessory after the fact where the principal is her husband. It is her duty to give him "aid and comfort" under all circumstances and the law takes this view. A leading English jurist has laid down the axiom that "common law is common sense" and it is common sense to uphold a wife in shielding her husband in all situations of peril. No judge will hold otherwise.

Speaking of the Haldimand election The Kingston Whig says of Dr. Montague:

The Indian was again his best friend, and the Indian by his voting power has demonstrated the wisdom of his enfranchisement as a ward of the Government. The Indian Department has "a pull upon him" which he dare not resist.

This is nonsense. The Indian as a ward of the nation is not dealt with individually but in bands. No Government would dare to mete out exceptional treatment to any individual member of a band or resident on the reservation.

There is a lively dispute going on in some of our exchanges as to which member of the House of Commons recently franked some documents. All entitled to use the initials on the franked envelopes deny having done so. Perhaps all are correct. Some members have a habit of telling sessional clerks, reporters, etc., to use their frank when they feel so inclined, and they do so to their heart's content. This may not be generally known, but it is the frozen truth.

Why should any of our contemporaries, as many of them are doing, urge the Benwell murder as a reason for discouraging young Englishmen who wish to come out here to learn farming? It is a good thing both for Canada and the young Englishmen that that class of people should come here. The murder is no more a legitimate argument against immigration under proper auspices than a bunco operation is an argument against trade in general.

The Buffalo papers are still giving it to the railroad people for refusing to allow reporters to go to the scene of the accident the other day, and the people are with the papers.—Hamilton Spectator.

We would not think much of the reporter who asked the permission of the railroad authorities or of anybody else to go where he wished. The reporter who cannot work his own salvation under such circumstances would be more at home in the unexciting pursuit of the duties of chambermaid on a canal-boat.

The audience talked out loudly,
The piano player frowned;
His music, sure, was wasted,
But he hated to be downed.
"I hope," said he, addressing
One lady in the crowd,
"My playing don't annoy you,"
Said she, "Oh no,
But don't play low,
I like to talk out loud."

Mr. Meredith's proposal for a commission to examine into drainage legislation is a step in the direction of something for urban localities. Heretofore all drainage legislation has had in view only natural water courses and falls of land. That is very well adapted to sparsely settled districts, but it does not always suit in a city where the object is not merely to carry off surface water.

Archbishop Cleary has been threatening Roman Catholics who do not support the separate schools. In New Jersey, where the same kind of work has been going on, it is proposed to introduce into the constitution an amendment providing that it shall be unlawful for any power, foreign or local, to use dictation or coercion to compel absence from the public schools.

One of the funniest things of the present session of the Dominion House is the seriousness with which a report as to a projected canal between St. Thomas and Port Stanley is received. To build this it would be necessary to elevate Lake Erie something like 150 feet, and that is somewhat of a contract in an open winter like the present.

General Booth of the Salvation Army has issued his ukase against football, and says that if any of his staff want recreation they may scrub their neighbor's house. But suppose the neighbors fired them out or soused them with a pail of water? Some people are so cranky that they might resent interference with their domestic affairs.

Why doesn't Mr. Mowat introduce a bill to compel all heretofore deputy returning officers to swear that they have never revealed how any elector voted? If they have never done so in the past, why does he assume they will do so in the future if not sworn to secrecy?

That was queer advice the English paper gave to the mother of a kleptomaniac young Englishman, to send him to a Canadian farm where there is nothing to steal. Why, we have known cases where a whole set of harness has been stolen, the thief leaving not a trace behind.

The Newcastle Chronicle draws a comparison favorable to this country between Canada and England in the matter of railway ownership. Proportionately to population, no country has made greater development than Canada.

The British, German and French war authorities each allege that they have the "very best known" species of smokeless powder. Probably all three are right. The chances are that each nation has the same kind.

Quinine is said to be so cheap in England that "it is a drug in the market." We don't just exactly remember when it was anything else.

If Mr. Charles Rykert be found guilty of all that is charged, he must at least be acquitted of any attempt at hypocrisy.

Toronto University Library Restoration.

London Academy (March 1): In Convocation at Oxford on Tuesday, March 4, a decree will be proposed granting books printed at The Clarendon Press, to the value of £500, towards restoring the valuable library of Toronto University, which was recently destroyed by fire.

A room has been fitted up in the Biological Department for the accommodation of the books received. About 1000 have been already received. The contribution of Prof. John Campbell of Montreal, over 200, was received on Monday. The latter include many valuable volumes.

The invoices have been received for the first lot from the Old Country.

One or two bottles of Northrop & Lyman's Vegetable Discovery will purify the blood, remove dyspepsia and drive away that extreme tired feeling which causes so much distress to the industrious and persons of sedentary habits. Mr. W. E. Ellis, druggist, Fenelon Falls, writes: "The Vegetable Discovery is selling well and giving good satisfaction."

A DRILL SHED HITCH.

Another Expensive Arbitration Looming Into View.

The drill shed difficulties are not ended yet. The Dominion authorities are desirous of closing up Centre-street along the line of the expropriation, but opposition is expected from the property-owners on that thoroughfare north of the site. The city offers to compensate for the closing up of the south end of Centre-street by opening up one running east to Chestnut-street and west to University-street just north of the site.

The Property Committee met yesterday to discuss the situation. Ald. Moses presided. There were present Ald. Vokes, Small, Leslie, Saunders, Ritchie, Maughan, City Surveyor Sankey, Assistant City Solicitor Caswell. The new street would be 30 feet wide and the land to make it would be taken from the drill shed site. The City Solicitor asked for permission to advertise the bylaw closing Centre-street and opening up the new one.

If Centre-street is not closed the site is almost useless for the purposes intended, and if it is closed the northern property-owners in Centre-street will demand damages. It seemed to be the sense of the committee that instead of a 30-foot a 66-foot street should be constructed in accordance with the city bylaws governing such matters. It was resolved to request the City Solicitor to prepare the necessary bylaw for a 30-foot street.

Sons of Caledonia.

At the regular monthly meeting of the Caledonian Society held last night in Association Hall, President Hugh Miller occupied the chair. The following new members were elected: Charles Munroe, William Phillips, William Robertson, Kenneth Mackay, Thomas Ferguson, William Mackie, W. H. Dixon, J. H. Mackenzie, William Lawrence and T. W. Anderson, Eglinton. The latter gentleman sent a donation of $10, for which he was elected a life member. A bust of the poet Burns was presented to the society by A. G. Allen, and several new paintings were donated by different parties. The treasurer reported that the receipts for the last month were $126. A musical program closed the proceedings.

The Professor and the Free Breakfast.

Editor World: I have ignored the many attacks made by Prof. Goldwin Smith on the free breakfast (one who has never darkened the doors to see for himself) because they only advertised our work, but when statements are made which are incorrect and damaging, such as were brought forward at the combined charities' meeting on Monday, I feel justified in asking the Christian public to bear with me while I say a few words on the subject. The attention of the meeting was drawn to the families and wives of the men who are at home starving while the men are having this breakfast. Now, sir, I question if you could find one dozen out of the 250 who have a home, and when we have found that they have we help them when I lived, clothes and coal. Have the combined charities done more? The attack on the registry office was not only spiteful but untrue. The following facts can be proved by two eye-witnesses: The gentleman who made the attack entered the office and addressed one man, who refused to go out as a "sandwich man" and for which he has been denied the use of the room, but there were several who rose to their feet ready to take the job, and more than that, one of them got it. The word of those who saw this is just as good as the one who made the statement. In eight weeks 293 got employment through this registry office, and I leave the public to judge for themselves. The same gentleman says: "One-half of those who attend the breakfast are not deserving charity," and yet he has not been present once but makes the charge at random. I think when the breakfast stops the combined charities will have to stop also, for their occupation will be gone, as they have hardly done anything else all winter but throw mud at our work.

Secretary Pell says that last Sunday the 250 men looked clean and neat; this is one of the greatest encouragements we could have, as it is the gospel of Jesus Christ that is working its way into their hearts, which always makes a man take care of his person, which was far from being the case when they first came to us.

We appeal to the Christians of Toronto to visit Richmond Hall next Sunday morning and judge for themselves whether this is the Lord's work or not, for after all it is the Christians who support it and not those who stand idly by and talk. And just so long as we have the Master's blessing just so long will this work go on.

Jesus fed the hungry before we commenced it, and we are quite willing to take Him as our example. H. C. DIXON,
Superintendent Free Breakfast.

Toronto, March 11.

The Government Should Bestir Itself.

[From The Mail of Yesterday.]

Canada is to a certain extent discredited by the circumstances surrounding the death of poor young Benwell, and everything that is in any way possible should be done by the proper authorities to stamp out any conspiracy that may be in existence, under the guise of "farm-pupil" agencies for luring young Englishmen to their destruction. A crime of that sort touches the imagination, and when the details of its horrors are read, as they will be by everybody in England, it will do much to prevent emigrants of the right sort from coming out. Not only on this account but because of the diabolical wrong that is thus perpetrated should the Government take the matter up with some vigor and promptness. The desire to fasten the blame upon somebody has led the question to be asked why the Government emigration bureau in England has not enquired into the bona fides of the farm-pupil agents, whose advertisements are to be seen in every English newspaper of any importance? Those who ask this question, however, do not make sufficient allowance for the red-tape and slowness of official routine. The only consolatory thought with reference to the death of the young Englishman in that lonely swamp is that it will more effectually close up this infamous traffic than reams of official correspondence. At the same time public sentiment demands that the Government should bestir itself.

"Ayer's Cherry Pectoral has given me great relief in bronchitis. Within a month I have sent some of this preparation to a friend suffering from bronchitis and asthma. It has done him so much good that he writes for more."—Charles F. Dumterville, Plymouth, England.

Personal Mention.

Rev. William Burgess, formerly of Toronto, is now pastor of the Canton, Illinois, Congregational Church.

The death is announced of Rev. Dr. Pickard, prominently connected with Methodism in the Maritime Provinces.

Hon. G. W. Ross, Minister of Education, was yesterday sworn in and enrolled as a solicitor before Hon. Mr. Justice Robertson in the Chancery Division.

Dr. W. A. Dixon, L.R.C.S., E.D., son of Mr. John Dixon of this city, was the only Canadian who was successful in passing the recent examinations in London, England, for the degree of L.R.C.P., London.

Rev. Dr. Potts on Saturday received a telegram announcing the death of his brother, Captain Frank Potts of Richmond, Virginia. Dr. Potts left for Richmond on Saturday noon last. He expects to return before the close of this week.

Dr. Wild is now well on his way to the Pacific coast. He will probably lecture in Cincinnati and is engaged to preach at Oakland, Cal. (where the local press have announced him as "the great Canadian Religio-Politico Thunderer!"), Vancouver and Winnipeg, in the Congregational Churches at these points.

PAVEMENTS AND STREETS.

The Board of Works Will Look Into the Needs of the Down-Town Thoroughfares—Contracts Awarded.

There was a meeting of the Board of Works yesterday. Ald. Shaw presided, there being present Ald. Lucas, Small, Hewitt, Peter Macdonald, Lennox, Carlyle (St. And.), Allen, Denison.

The first move was the passing of a resolution reducing the life of a block pavement from ten years to eight. The following from the Assessment Commissioner as to the valuations in the matter of the extension of Markham-street from Olive-street to Vermont-avenue was submitted:

Owner.	*Amount.*	*Per Foot.*
Frank Phillips	$1,980 00	$30 00
Thomas Clayton	736 00	4 00
James Murray	18 00	1 00
Archibald Cleland	20 00	1 00
Frank Ayerst	38 00	1 00
Amos E. Fisher	33 00	1 00
Thomas Johnston	18 00	1 00
Thomas R. Sands	19 00	1 00
Frank Smith	50 00	1 00
John Bailey	794 00	4 00
James W. Phillips	2,113 00	32 00
Total	$5,746 00	

The above sum is recommended to be offered the owners for the land to be expropriated by the proposed extension.

A sub-committee composed of Ald. Carlyle, George Verral, Lucas and the engineer was appointed to investigate the character of the Tecumseh-street blockpaving and report upon the charges against it.

These contracts for block-paving were awarded:

Roadway.	*Cost.*	*Contractor.*
Grace-street	$4,765	W. H. Cathro
Sorauren-ave	4,730	" "
Givens-street	6,977	" "
Frankish-ave	1,164	" "
College-street	1,049	Burns & McCormick
Dovercourt-road	1,470	A. J. Brown
Westmoreland-ave	5,890	D.L. Van Vlack
McKenzie-ave	9,750	" "
Bathurst-street	38,993	J. McBean

The Warran Scharff Company were the successful tenders for asphalting Simcoe-street, but the board refused to accept the figures before the city reported on the general qualities of this style of pavement. The City Engineer's recommendation that a trinidad asphalt pavement be laid on Ontario-street, from Carleton to Howard-street, at a cost of $28,500 was consented to. The city's share will be $7300. Acting under the advice of the City Engineer the committee resolved to ask for tenders for scoria and asphalt pavements in the same thoroughfare from King to Queen-streets. The board concurred in the proposition to asphalt Jordan-street.

Ald. Hewitt thought the time had come for some action being taken to improve the roadways in King, Queen and Yonge-streets. In this connection he claimed that hollow iron curbs could be used instead of the present stone ones. The hollow spaces could be used for electric light and telephone wires and would do away with the continual tearing up of the streets. A sub-committee will investigate the proposition.

Use the safe, pleasant and effectual worm lozenge, Mother Graves' Worm Exterminator; nothing equals it. Procure a bottle and take it home.

THEIR FUTURE HOME

Nearly Finished—A Visit to the New Upper Canada College in North Toronto.

The boys of Upper Canada College will before the ides of March next have a new and palatial home. It will far transcend in beauty and capacity their present educational quarters. It is an improvement in every respect. Its site, on the famed "Mashquotch," at the northern extremity of Avenue-road, is commanding, healthy and withal picturesque; its noble proportions command admiration even when seen from afar; the surroundings have no drawback but rather the reverse, for in full view are the pleasant residential districts of Deer Park, Mount Pleasant, Davisville and Eglinton.

The new building is on a site of 30 acres on the summit of the high land on the old Baldwin estate. Avenue-road is continued from St. Clair-avenue to Clinton-avenue at a width of 125 feet. The college faces southward on Clinton-avenue, which is 100 feet in width opposite the grounds. The building is 200 feet in front, with two capacious wings northward. The materials used are Credit Valley grey stone for the foundations and brick for the walls with terra cotta ornaments.

There is a large expanse of ground in a ring fence and here the college boys will soon repeat their victories at cricket, football and athletics.

The new college will accommodate 240 resident boys with requisite classrooms, bathrooms, gymnasiums, etc. The principal's residence, the dining-room and the kitchen are situated in the eastern wing. Ample accommodation is also provided for resident masters and servants. Nine classrooms will be fitted up to receive 40 pupils each. The plans were prepared by Mr. Durand, an architect of London, and provide for a building within the appropriation of $125,000.

That latent force of fluid, which permeates all matter, and which bears the conventional name of Electricity, is widely appreciated and recognized as a means of cure in various diseases. Its effects in the form of Dr. Thomas' Eclectric Oil are shown by the relief of pain, both neuralgic and rheumatic, as well as the throat and lungs, and in various other healing ways.

C.P.R. Colonist Excursions.

Settlers still continue to flock to Manitoba and the Northwest Territories, as was evinced by the great number that availed themselves of the extra facilities afforded by the C.P.R. for passengers to accompany their stock and effects. The third large excursion party of the season left the Union Station last night. The train was run in three sections, a colonist sleeping car being attached to each. Fully 100 passengers and 20 cars of effects were disposed of in this manner besides 118 passengers who went by the regular train. Although this number of people were in the waiting room at one time there was no confusion, everybody being quietly located in their berths and made comfortable before the train left. The party was accompanied by Mr. Muldoon for the C.P.R. and Mr. Scott for the Manitoba Government.

Out of Sorts.—Symptoms, headache, loss of appetite, furred tongue and general indisposition. These symptoms if neglected develop into acute disease. It is a trite saying that an "ounce of prevention is worth a pound of cure," and a little attention at this point may save months of sickness and large doctor's bills. For this complaint take from two to three of Parmelee's Vegetable Pills on going to bed, and one or two for three nights in succession and a cure will be effected.

A Masonic Funeral.

There was a large attendance of sorrowing friends at the funeral yesterday of Mr. Joseph Vogan, late of the Revere House. Rev. William Patterson of Cooke's Church conducted the service at the house and the Masonic ritual was read at the grave in Mount Pleasant Cemetery. There was a large attendance of city brethren and also of Harris Masonic Lodge, Orangeville. The chief mourners were Robert Vogan and William Vogan of this city and Samuel Vogan of Walkerton, brothers of the deceased; J. E. Booth, brother-in-law and partner; Samuel McBride of Bolton, John Phillips of West Toronto Junction, J. L. Dodds of Caledon, brothers-in-law.

BEREFT OF REASON.

A Toronto University Graduate Suddenly Becomes Insane.

HAMILTON, March 11.—William H. Eadie was put in the dock at the Police Court this morning charged with insanity. He immediately bowed his head in the attitude of prayer. Eadie is apparently about 22 or 23 years of age, a Toronto University graduate, first year probationer of the Methodist Church and has had charge of the church at Trafalgar, Halton County. Last Sunday evening he preached as usual to his flock and nothing wrong was observed in him. Yesterday, however, when on a visit to Rev. William Kettlewell, Oakville, he betrayed symptoms of insanity.

Eadie boarded the the midnight train for Hamilton last night and arriving here was taken in tow by a cabman, who drove him around town and finally dumped him off at some hotel. Somewhere on his travels the unfortunate young man got possession of a lot of bank blanks, and filling them for various sums, pushed the little bundle beneath the door of Freeman & Son's real estate office, 28 James-street south. The only reason that can be assigned for this is that Eadie boarded with a family named Freeman at Trafalgar. The notes are all made payable to "Rev. William H. Eadie, jr." A Molson's Bank requisition form found with the notes is filled in as follows: "In favor of Rev. W. H. Eadie, a Methodist probationer of the first year in Canada. Approved by the Pope. Exchange on P.O. Department Savings Bank at Ottawa, per Toronto." And ends with "Amen forever."

Chief McKinnon interviewed the young pastor, and obtaining his relatives' address, which is in Burford, he advised them of Eadie's condition. Eadie's father and grandfather are inmates of an insane asylum. Eadie was considered a promising young preacher.

EDMUND YATES' LETTER.

Gossip About the Queen and Prince of Wales—A Wonderful Royal Railway Car—Bungling by French Doctors.

LONDON, March 11.—The Queen looked very well at the drawing-room and was in high good humor. She sat part of the time and went away when there were only about 30 more ladies to pass. The Queen was covered with orders, and there seemed to be a little more white than usual in her funereal attire. The non-appearance of the Duchess of Fife at the drawing-room was a great disappointment, as it was understood she was to attend and be presented by the Prince of Wales. Just at the last moment it was thought advisable that she should remain at home in order to avoid all fatigue, in view of an interesting event not very distant. The Queen's servants, horses, carriages, four vans of furniture, plate and china are to be despatched Thursday to Dover from Windsor and Buckingham palaces. They will be conveyed by special steamer to Calais and go thence to Aix les Baines in a special train.

The Prince of Wales went to and returned from Scotland last week in a new saloon carriage which has been built by the Great Northern expressly for royal travelers by the east coast route, and which is a marvel of comfort and convenience. The carriage includes sitting-room, two bedrooms, smoking apartments, lavatories, kitchen, cooking apparatus and accommodation for servants, and is heated throughout by hot water and lighted by electricity. The decorations are very pretty, and the furniture is perfect. The Prince of Wales arrived with the Duke of Fife Sunday night in Portmas-square, and a large and very cosmopolitan company was invited to meet him, among others the Duke of Portland, Lord Londonderry, Lord Cadogan, Mr. Irving, Sir Henry Thompson and Beerbohm Tree.

The warmth of the Egyptian climate has already had a beneficial effect upon Lord Hartington, who is looking much better than at any time since his illness, and has been going about Cairo, riding and walking as if he had never been ill.

The melancholy death of Abraham Lincoln, son of the American minister, reflects great discredit on Parisian surgery, for it is directly due to an imprudent and premature operation, which made necessary a repetition of frequent similar operations as the only means of affording relief by freeing the heart and lungs, until the patient sank under exhaustion thereby produced.

I hear Gen. Boulanger does not intend to remain much longer exiled in Jersey, and is making arrangements to take another house in London during the season.

A Pleasing Discovery.

I suffered with neuralgia and obtained no relief until advised to try Hagyard's Yellow Oil. Since then I have found it to be an admirable remedy also for burns, sore throat and rheumatism. MRS. F. CAMPSON,
137 Richmond-street west, Toronto, Ont.

Her Majesty's Veterans.

The regular monthly meeting of the Army and Navy Veterans was held last night in Temperance Hall. President John Nunn occupied the chair. Final arrangements were made for a concert to be held in Shaftesbury Hall March 20. The following new members were elected: W. C. Pinton, late 13th Hussars; E. S. Stephens, late 17th Regiment; H. Fagin, late Royal Horse Artillery; William Mills, late 29th Regiment; William Butler, late 90th Regiment; Thomas Tinen, late Royal Marine Artillery; Thomas Davis, late Scots' Greys. A letter was read from the secretary of the war office regarding the paying of pensions. The receipts for the evening amounted to $25.

Show Cases and Store Fittings.

Merchants and others interested in above lines would consult their best interests by calling at the show case emporium of W. Millichamp, Sons & Co., the pioneer manufacturers of Canada. Estimates cheerfully furnished. Prices lower than ever. Selection of walnut, cherry and mahogany inter cases unsurpassed in America. Get catalog. 31 Adelaide east. Telephone 855. 136

A Dyer necessity—A tube of Jelly of Cucumber and Roses for chapped hands; cannot do without it. Druggists keep it. W. A. Dyer & Co., Montreal.

Clydesdale Horse Show.

Over 50 of these fine horses can be seen at the Drill Shed on Thursday. A service of plate can be seen in the window of W. J. Wanless, Yonge-street; also a magnificent clock in the store of J. E. Ellis & Co., both the second by The Live Stock and Farm Journal Company of Toronto.

Among the Fraternities.

Under the auspices of Loyal Metropolitan Lodge, 6534, I.O.O.F. M.U., a successful concert was held last night in Shaftesbury Hall for the benefit of Bro. Joseph Dean. Ex-Ald. John Baxter presided and an audience that filled the hall testified approval of the various numbers by liberal applause. The following members took part: Miss Blais, Miss Humphrey, Harry Hassard, T. Baugh, G. Hagey, Mr. Stewart, A. W. Judson, Professor Reid, Master Hamilton and others. The committee was composed of S. Edwards, G.M.; W. Mitchell, J. Crawford, W. G. Winget, D. G. Maldrum and R. Pride.

The ninth anniversary of Manchester Lodge, S.O.E., was celebrated last night at J. Ayres' hotel, corner of Parliament and Winchester-streets. It was one of the most enjoyable meetings which the Englishmen of the north eastern part of the city have had the pleasure of attending. Mr. A. O. Robinson, the president of the lodge, occupied the chair. He was ably supported by Mr. Harry Symons in the vice-chair. The room was tastefully decorated, the Union Jack playing an important part. A pleasing feature was the presentation of a gold-headed cane by Mr. James Lomas on behalf of the lodge to Bro. John Tennant for his services to the institution since its inception in 1881. Many toasts were responded to by Messrs. Cochin, Tyler, Symons, Vick, Coombes, Foy, Lomas and Dr. Allen. Songs were rendered by Messrs. Hines, Harris, Harrison, Clements, Lush, Powell and others.

From Police Blotters.

The police want owners for a red steer and a waterproof knee rug.

Samuel and Lizzie Flamberg were arrested last night by P. C. Sockett, charged with disorderly conduct. Flamberg is a peddler and lives in York-street.

John Allen, 39 Foxley-street, and Charles Bedson, 14 Humbert-street, are in the cells on a charge of stealing a quantity of candy from R. Buckholder, 160 Dundas-street.

Mary Wilson was arrested yesterday on the charge of assaulting Maud Washington. Both live at the Salvation Army Rescue Home, Wilton-avenue and Victoria-street.

A despatch was received from Eglinton yesterday from Thomas Robertson describing a lad 16 years of age named Arthur Lee, who is wanted there to answer a charge of larceny of $40. P. C. Reburn found Lee at the Union Station, where he was waiting to catch a train for Hamilton, and handed him over to the authorities.

These thefts are reported: Dr. Grafton, 253 Spadina-avenue, a whip; J. E. Willows, 995 Queen-street east, a horse blanket; W. R. Ross & Co., 872 Queen-street west, four brass taps; John Clarkson, 41 Perth-avenue, a silver watch and plated chain; W. Campbell, 7 Whiteside-place, an overcoat.

Six Years' Suffering.

I was troubled with dyspepsia for six years. Four years ago I got a bottle of B.B.B. from your agent, Mr. John Pearce of Parry Harbor, which I consider completely cured me. A return of the symptoms about five weeks ago, however, was promptly removed by using only part of another bottle, and I feel as well as ever I did in my life.
MARY E. DOWLING,
Perry Harbor, Ont.

Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescences, as many have testified who have tried it.

THE AMUSEMENT WORLD.

The Toronto Architectural Club's Opening Night—At the Theatres.

The meeting of the Toronto Architectural Club in their rooms at Queen and Victoria-streets last night was one of more than usual interest. Mr. J. H. Fawell contributed to the program a well-rendered song with guitar accompaniment and H. Simpson excited the wonder and admiration of the audience by an exhibition of ventriloquism. A lecture by Mr. J. A. Radford on "A Trip Through France and Italy" was listened to with close attention and as the speaker graphically described the beauties of the Old World he was frequently applauded. The lecture was illustrated by stereopticon views provided by Mr. E. Willoughby.

A Change of Bill at the Grand.

The McDowell Company changed the bill at the Grand Opera House last evening, presenting "Our Regiment," in which Fanny Reeves appeared, to the delight of her many admirers. She with E. A. McDowell, Florence Vincent and Fred. Hight carried off the honors of the piece, in the presentation of which a portion of the Royal Grenadier Band and some of No. 3 Company assisted.

This afternoon "Moths" will be presented and this evening the engagement closes with "The Private Secretary."

A Gala Night at Parkdale.

The tea-meeting in connection with the Parkdale Congregational Church in Weeks' Hall last night was a success in every respect. After an excellent repast a concert was given in which these performers took part: Mrs. Seymour, Miss Goodall, Mrs. Ravell and Messrs. Matthews, London and Seymour. The entertainment was given by the ladies and to their efforts was the success of the evening due. The committee consisted of Madames Torrance, Gibson, Robson, Stewart, McElroy, Donovan, Rose and Taylor.

"The Land of the Pharaohs" was the title of an admirable lecture delivered last night in Erskine Church by W. Mortimer Clark, Q.C., under the auspices of the Boys' Missionary Society. The lecture was a description of the Eastern cities, etc., and was illustrated by stereopticon views.

The Last of the Season.

The last of the winter series of Y.M.C.A. entertainments was held last night and Association Hall was crowded to the doors. Mr. T. J. Wilkie presided. The first part of the program consisted of songs from Miss Sutherland and Messrs. Hall and Wilkie, and so pleasing was the former's rendition that she was compelled to respond to a hearty encore. Dr. Thomas gave an able lecture on "The Great Metropolis of the World and Rural Districts of England." The lecture was illustrated by Mr. F. B. Whittemore's stereopticon views.

Bootles' Baby at the Grand.

At the Grand Opera House to-morrow night this highly successful English play will be presented by a company headed by Charles A. Stevenson, the Bootles of the drama. This is Mr. Stevenson's bright and particular success. The character of Helen Grace, the injured wife and mother, is assumed by Kate Claxton, who has a high reputation as a painstaking actress, and in this role she shows a quaint emotional power and makes of it a part equal to her famous Louise in "The Two Orphans."

Other Amusement Matters.

The Parkdale Band, of which Ald. Booth is president, gave an excellent concert in the Parkdale Masonic Hall last night. Those besides the band who took part in the program were Prof. J. Monk, Miss E. Hazzard, F. Abercrombie, George Smedley, Miss Alexander, J. Donovan, A. Hartmann, Charles Drabeck, G. T. Lorriman (conductor of the band) and R. Wakeling.

Professor Goldwin Smith.

[From The Journalist.]

Professor Goldwin Smith, an old and distinguished journalist, a brilliant historian an l political controversialist, a shining light intellectually in our midst, and a gentleman of vast prominence, is still with the vigor of youth pouring forth his trenchant criticisms on political, social and foreign mat
