COBALT---Mining Stocks Firm With Advances in Specialties---COBALT

MORE IMPROVEMENT MADE IN THE COBALT SECURITIES

Larger Public Buying and a Scarcity of Stocks Cause Advances in Several Stocks.

World Office,
Monday Evening, March 15.

The betterment in the mining market which was apparent at the close of last week, came into greater demonstration to-day. There were evidently more public buying orders than for a long time and this together with a scarcity of stock in the street easily forced advances in several of the issues which were enquired after.

The most active stocks were Cobalt Lake and Nova Scotia, both of which advanced considerably above last week's prices.

The move in Cobalt Lake was due more than anything else to active manipulation, and to support the advance in the price of the shares a report was circulated that a big find had been struck on the property. There was no confirmation of this, however, and until there is direct proof of this rumor both traders and investors here will be suspicious of to-day's movement.

The impression which has gone abroad that Nova Scotia will declare a dividend sometime in the near future accounted for much of to-day's buying. This stock has declined almost without a rally from 80 cents, and to-day's rise of two or three points is only a natural recovery under new buying power.

The more standard issues were generally firmer. Nipissing and LaRose, despite the weakness of the big New York exchange, held almost the entire advance made last week and offerings were absorbed with very little influence on the prices.

Chambers-Ferland was well bought, and the price was only affected by profit-taking from traders who picked up the shares last week below 80 cents. Temiskaming was not as active as recently, but the price held firm on the recovery from last week's dip.

On the whole the market was firm. The shipments from Cobalt for the week were highly favorable to the market, ten properties composing the output, which totaled over 527 tons. A scarcity of many stocks is the only noteworthy feature to outsiders just now, and this might easily conduce to further advances.

WATERWAYS TREATY AT LAST

Nothing New is Disclosed by Copy Shown to Parliament.

OTTAWA, March 15.—(Special.)—At last the parliament of Canada has been permitted to scrutinize the waterways treaty.

In the absence of Sir Wilfrid Laurier to-day, Mr. Fielding laid on the table of the house a copy of the treaty with the rider added to pacify the United States Senator William Allen Smith of Michigan. Word for word it agrees with the copy as has already been published, with the addition of the following rider:

"That the United States approves this treaty with the understanding that nothing in this treaty shall be construed as affecting or changing any existing territorial or riparian rights in the water, or rights of owners of land under water, on either side of the international boundary at the rapids of St. Mary's River at Sault Ste. Marie, in the use of waters flowing over such lands, subject to the requirements of navigation in boundary waters and of navigation of canals, and without prejudice to the existing rights of United States and Canada, each to use the waters of St. Mary's River within its own territory; and, further, that nothing in this treaty shall be construed to interfere with the drainage of wet and overflowed lands into streams flowing into boundary waters, and that this interpretation will be mentioned in the ratification of this treaty as conveying the true meaning of the treaty, and will in effect form part of the treaty."

TO GET SUNDAY CARS

Southwestern Traction Company Will Ask for Federal Charter.

OTTAWA, March 15.—The promoters of the Southwestern Traction Company, which runs between Port Stanley, St. Thomas and London, and who have been trying to get a bill thru the Ontario Legislature to legalize Sunday cars, will, it is announced, apply to the federal parliament for a charter on the ground that they are going to put on a steamer service between Port Stanley and Cleveland, Ohio.

Such a charter would transform the enterprise into an international one, and the hope is that under such a guise the right to run cars on Sunday would be conceded by parliament.

VISITOR BREAKS LEG

Slip on Piece of Ice Has Painful Results.

After having been in Toronto only a few hours, James McDowell of 130 Broadway-avenue, Buffalo, slipped on a patch of ice in front of the King Edward Hotel at 4 o'clock yesterday afternoon and broke his left leg near the ankle. He left two friends on the opposite side of the road and started to cross the road to the hotel in order to speak to another friend.

The leg was fractured so severely that the foot at the ankle, was bent at right angles to the leg.

He was removed to St. Michael's Hospital in the police ambulance. Mr. McDowell is an officer in the Independent Order of Foresters, and had come to Toronto in order to accept a position with the Toronto office.

Get Closer.

An order has been issued to the conductors of the Toronto Street Railway asking them to make passengers sit more closely together in the cars. An effort will be made to prevent people from sitting sideways and occupying several seats.

Gets Judgment.

Judge Morgan has given judgment in the county court to William M. Gray for $110 and costs against the Standard Mutual Fire Insurance Company. Gray was appointed manager of the company at $150 a month, but was asked to resign, which he did. He claimed $141, and interest due to him for salary and expenses.

Opening of Navigation.

Navigation will probably open on Saturday, March 27, when the Lakeside will attempt to open connections between Toronto and Port Dalhousie.

The Hamilton Steamboat Company will endeavor to send the Macassa from Hamilton to Toronto on Monday, March 29.

STRIKERS MUST PAY

Master Plumbers of Manitoba Score Decided Victory.

WINNIPEG, March 15.—(Special.)—The court of appeal this morning handed down decision in the famous case of the Master Plumbers v. Journeymen, sustaining the decision of the lower court, which assessed damages against men individually who went out on strike, and granting a perpetual injunction against the union.

FALL COSTS HIM HIS ARM.

ST. CATHARINES, March 15.—William Patterson, a Grand Trunk brakeman, suffered the loss of his right arm at the General and Marine Hospital this morning as a result of an accident at Merritton Station.

While the engine was shunting a number of cars Patterson was running alongside of a section of the train, when he tripped over the "frog" at the switch, and, falling to the ground, his arm became tangled in the moving car.

Province Wins Test Case.

EDMONTON, March 15.—Edmonton won its appeal against a York proprietor of Alberta and Windsor. York sued for the recovery of an $800 license fee paid to the city, on the ground that the hotels were already assessed on floor space. Judge Stuart, Calgary, gave judgment for York, but the full court reversed the judgment, holding that the extra tax of $400 on each hotel was provided for by law, and was not in the nature of a license. This was a test case by the hotelmen of the city.

In compliance with "Sec. 99," Ontario Companies Act, we give the following information: A director, to qualify, must hold one or more shares. Under agreement, dated 14th of January, 1909, which may be inspected at Head Office of the Company, the entire capital stock of the Company has been allotted to J. T. Thompson as fully paid and non-assessable for the Companies' properties, 40 acres each, from which assays of 671, 884 and 867 oz. of silver to the ton have been taken. Mr. Thompson has transferred 100,000 shares to a trustee to be sold at 25 cents per share. Out of the sale of this stock are to be paid $10,000 to J. T. Thompson, Toronto, the balance, $15,000, to be used for development.

The Directors received no consideration in either stock or money for their services. Usual Broker's commission of 5 cents per share to be paid on sale of stock. No payment to promoters other than as above set out.

Estimated preliminary expenses not to exceed $800. Prospectus dated and filed with the Provincial Secretary the second day of February, 1909.

---COBALT---

The rally in the market has been too fast in some issues. Sell **Cobalt Lake** on any further advance. **Peterson Lake** is a good speculative buy on reactions, and there are others which we will name to clients. A genuine improvement in the good mining shares will shortly occur; but don't buy on rallies.
