The committee to whom had been referred a petition from the Magistrates of King's County, praying to be reimbursed for the expenses of the trial, &c. of the murderers of Bernard Coyle, recommended that the House make provision for the expenses incurred in the apprehension of one of the murderers who had escaped to a foreign country, and those attending the protection of the gaol.

A petition from the Rector, Church Wardens and Vestry of St. Paul's Church, Grand Manan, praying for a grant to assist them in the erection of a new church, the old one having been destroyed by an incendiary fire, was rejected.

The House on Monday went into Committee, for the consideration of the recent messages which had been transmitted by His Excellency; Mr. Taylor in the chair; when resolutions were adopted referring the subject matter of the same to a Committee, to report upon.

Mr. Partelow, chairman of the Committee of Public Accounts, yesterday presented their Report; and 250 copies were ordered to be printed.

The Petitions of sundry persons praying for lease of minerals in certain parts of the Province, was yesterday referred to the Committee appointed to take into consideration similar petitions from John Alexander and others.

Yesterday the House again went into Committee on the Statute labour Bill; and after a short debate upon the amendment introduced by Dr. Wilson, and with reference to one by the hon. member for Charlotte, Mr. Brown, who had embodied the assessment principle in a new Bill; the Committee decided in favor of that already in force There consequently will be no alteration for the next two years.—*Fredericton Sentinel.*

NOVA-SCOTIA HOUSE OF ASSEMBLY.—Notwithstanding the Resolutions which passed last week, and which as we thought, laid the first stone of the New Constitution, we almost begin to doubt whether they will be carried into full operation. The Lieutenant Governor has positively refused to accede to the wishes of the House, as will be perceived by reference to his Answer, in another part of our paper. The reply, undoubtedly was a subject of much mortification to the Assembly, as they concluded upon a very different reception. It was at first contemplated to apply to the Governor General of the Colonies, but after the feverish agitation of the moment was over, the House resolved not to adopt that course, save as a *dernier resort*. The discussion on the subject will shew, that they ascribed the whole blame to the Executive Council, and not to His Excellency. They paused before casting so serious a reflection upon the character of the "noble old soldier" previous to taking every constitutional means of obtaining their object. With this view, a fresh address has been prepared, in which the wishes and interests of the people are so clearly defined, that his Excellency must indeed be regardless of the voice of prudence, if he should neglect this last opportunity of conciliation. It is a very dangerous move to slight the friendly overtures of a party, whom nothing upon earth could have induced to make, save the certainty of their being received. Should, however, the Governor, under the spell of some fatal delusion, or hurried on by an ignis fatuis of which he is at present insensible, decline the hand of welcome that is extended to him, he may find himself in the very unpleasant position of an elderly maiden lady dealing with a Jew, who having beaten Mordecai down to the last penny, takes her departure, declaring that she does not want the article—and in five minutes is seen with humility returning to take the goods at what she had previously bid for them. We have it upon pretty good authority, that this will be the last important act which his Excellency will in all likelihood be called upon to perform in Nova Scotia, so that he will perhaps have some little regard to the name which he will leave behind him. Since our Editorial of last week the Hon. J. B. Uniacke has resigned his seat in the Executive Council.—*Halifax Recorder, Saturday last.*

The following is His Excellency's Speech in reply to the address of the House of Assembly:—

"*Mr. Speaker and Gentlemen of the House of Assembly,*—

The subject you have presented to my consideration in this Address, has in all essential respects already been brought under the notice of Her Majesty's Government, in Resolutions of the House of Assembly passed last Session.

Her Majesty's Ministers after full consideration of the subject, and personal conference with Delegates from your Body, authorized to advocate your views, have expressed in the Despatch which by Her Majesty's command I recently laid before you, the judgment to which they had come on the matter of your complaint.

Having no reason to believe that any alteration has taken place in the sentiments of Her Majesty's Government, in this respect, I do not feel myself at liberty to adopt any other course, than to refer you to the Despatch already alluded to, as containing their decision.

Justice, however, to the Executive Council, leads me to say, that I have had every reason to be satisfied with the advice and assistance which they have at all times afforded me.

It has ever been and shall continue to be my earnest desire to concur in every measure which appears to me to be conducive to the best interests of the Province."

The House went into Committee on Bills, and passed the bill as reported from Committee for commuting the Casual and Territorial Revenues, by granting Her Majesty a Civil List. This Bill fixed the salary of the present and any future Lieut. Governor, at £2,500 sterling; of the present Provincial Secretary £.880 sterling—and any future Secretary, £.500 sterling; of the present Chief Justice £.880, and any future Chief Justice, £.750 sterling; of the Puisne Judges £.560 sterling, and travelling fees £.140 each; Master of the Rolls £.560 sterling; and Miss Cox's pension £.92; the Attorney and Solicitor General, and all other officers, to be subject to the annual vote of the House.—*Halifax Times.*

QUEBEC, Dec. 7.—The speech of Sir JOHN HARVEY to the New Brunswick Legislature at the opening of the Session on the 28th instant, gives a favourable view of the state of that Colony. It proves that a Colonial Government under the Constitutions which have long prevailed in the British American provinces, may be made to work well, produce prosperity and general contentment.

It was but a few years since, that much dissention prevailed in the New Brunswick Legislature. The British Government assented to the same reforms that were offered to Upper and Lower Canada. They were refused in these Provinces, and accepted in New Brunswick. We see the happy result in the latter, and if Sir JOHN HARVEY's surmise of an amicable arrangement of the boundary question proves correct, we see nothing to interrupt the prosperity of New Brunswick for many years to come. Happen what will, New Brunswick will preserve its character as a loyal Province.

We have lately received the proceedings of the Nova Scotia deputies of the Assembly and Legislative Council to England. We are sorry to see that there still remains some difference between the Legislative Bodies in that Province. Both parties agreed in the disposition of the Home Covernment to do justice, and hope the people of Nova Scotia will not suffer themselves to be led away by personal and party disputes, and misunderstandings, so as to endanger the real happiness which they enjoy under the established Constitution.—*Gazette.*

The meeting of the Presbyterians at Montreal to further the establishment of the College at Kingston was well attended, the Hon. Peter McGill in the chair. Three resolutions approving of the design, and adopting measures for obtaining subscriptions, were passed.

The subscription list was then opened, and headed by the Chairman by a munificent donation, in money and land of £500. Several amounts of £50 and £25 followed, and the total amount put down at the meeting was £1150.—*Quebec Transcript.*

Kingston, U. C. Feb. 4.—The report was that the Legislature would be prorogued on the 3rd instant, but, from the above paragraph, and the silence of the Toronto papers of that date on the subject, it appears that the report was unfounded.

It is our painful duty to announce the death of our venerable and respected townsman, Thomas Markland, Esqr., who departed this life yesterday afternoon, at 3 o'clock, in the 85th year of his age. This gentleman was a native of the United States, and came to Kingston in 1784, and is the last of the patriotic band of U. E. Loyalists who settled here at that time.

FROM JAMAICA.—We have received advices up to Christmas. The two Houses of Parliament and the Executive continued on the best terms, and the public business of the colony was being transacted in a most friendly and satisfactory manner.—The House of Assembly had fixed the Governor's salary at 8000 pounds sterling. The Legislature was about to adjourn for the Christmas holidays, and would not meet again till March, to finish the business.—*New-York Herald.*

The Disputed Territory.—Great attempts are made to get up another excitement upon the disputed territory. We fancy there is no more ground for it than has always existed for these ten years past.—*Providence Journal.*

A correspondent who has recently travelled through the United States, says,—"I found the people of Maine very warlike, arrogant, bold and self-confident. These are characteristics of the Union generally; and I am almost afraid that nothing but blows will take the conceit out of them."—*Fredericton Sentinel.*

CANADIAN NEWS.—Col. Goldie and the Officers of the 11th Regiment, gave a splended Ball at Quebec on the 29th ult.—The House of Assembly of Upper Canada voted L.50,000 on the 21st ult. to indemnify persons for losses arising out of late invasions of the Province. The total amount of the debt of Upper Canada, in Halifax currency, is L.1,123,513 14s. 4d. A Resolution has passed the House, granting L.600 to make the salary of the Speaker equal to that of the Speaker of the Legislative Council; at present the salary of the former is only L.200, while that of the latter is L.400; and this grant of L.600 is intended to make up the difference for three years, during which time Sir Allan has been Speaker. A bill has been introduced for granting to Col. Fitzgibbon L.2500 as remuneration for his services.

The Queen's Marriage.—An idea has been started, which is quite English in its scope and design—namely, to roast an ox and give the poor widows and fatherless children of English and Irish origin, a good dinner. This plan we believe will be carried into effect, and Mr. Niblo, we understand, has kindly promised to undertake the management of the *fete*, which is to be given in his grand saloon. A meeting of gentlemen will be holden to-day to deliberate on and mature the plan, the result of which will be made known through the medium of the public papers.—*New-York Albion.*

The Commercial states that some of the Englishmen in this city have been proposing to celebrate the event by a ball; we agree with that paper that the suggestion of the British Consul is much better. It is that something should be done for the poor. Let, for instance, an ox be roasted, and twelve sheep, and as many pigs, and let a slice and a loaf, and a flagon of brown ale be dealt out to every one of her Majesty's subjects among us who is poor—and to poor families in proportion.—This course will gladden a far greater number of hearts than the other.

Happiness to the royal pair, say we, with our whole hearts. We could not wish more to our own brother and sister.—*New-York Dispatch.*

Something should be done in honor of the event by the loyal people of St. John.

A SPLENDID SUNDAY.—Sunday last was the most brilliant day we ever had on Manhattan Island. About 12 o'clock on Friday night last, it began snowing, and continued to snow without let or hindrance, up to sundown on Saturday evening It was a perfect calm, and the flakes of snow came quietly down from heaven, and took each his position on the surface of the earth, to the depth of nearly eight inches on a level. On Saturday night it cleared away, the wind blew from the west, clear and cold, and by ten o'clock, the city and island were alive with sleighs. All night the sport continued; and yesterday morning the sun rose in unclouded majesty, and disclosed one of the most brilliant scenes ever beheld in this latitude. The whole city turned out yesterday—some to Church—some to Harlem—some to Hell-gate—and some beyond, to parts unknown. The sleighing was superb. Such another day Manhattan probably never before beheld.—*New-York Herald.*

The ship *Metamora* has again sailed for Trinidad with a large number of colored emigrants for that island. The accounts received from the first detachment are very favorable, and describe the adventurers as having found good homes, plenty of employment, and liberal wages.—*N. Y. Albion.*

It is stated that in the year 1839, property was destroyed in this city to the amount of $4,029,500, of which $3,488,744 was in goods, and $540,756 in buildings. The loss during the month of January, 1840, from the same cause, is not less than $1,500,000. So we go.—*New-York Observer.*

The late Robert Lenox, of this city, has left a well invested fortune of $3,000,000. He left about $2,000,000 to his only son—the residue to his wife and seven daughters. He accumulated this large fortune himself, beginning with little or nothing.—*Ib.*

The N. Y. Commercial Advertiser states, that the proprietors of the Long Island Sound Steamers were determind to carry no more cotton for freight.

The amount of risk incurred by the Boston fire and marine insurance companies last year, was $99,675,047, and the loss sustained, $2,311,060.

A letter from Queenston, published in Mackenzie's Gazette, states that the U. S. Government is building a new Fort at Youngstown; that the British government is building a Garrison and Fortress on the site of the old French Fort, near Toronto, on the lake shore, at an expense of $120,000; and that Burlington Heights, at the head of Lake Ontario, are to be strongly fortified in the spring.
