FOR SALE AND WANT ADVERTISING

TWO CENTS A WORD

READ BY 15,000 PEOPLE WEEKLY

THIS DEPARTMENT is one of the most valuable in the Paper. At a cost of only Two cents a word, you can advertise anything you wish to buy or sell, or situations wanted or vacant.

THE ADDRESS must be counted as part of the advertisement, and each initial or a number counts as one word. Abbreviations and cents each insertion. When replies are to be sent to a box at our Office, 10 cents extra is charged to pay postage on replies to be sent to advertiser. Cash must accompany each order.

COPY must be received Friday to guarantee insertion in issue of the following week.

NO BLACK-FACED TYPE or display of any kind will be allowed under this head, thus making a small advertisement as noticeable as a large one.

FOR SALE—Cheese and Butter Factory, well equipped; capacity 200,000; situated in a good dairy section. Easy terms. Apply Box 4, Canadian Dairyman and Farming World, Peterboro', Ont.

WANTED.—A cheese factory to rent in the vicinity of Kingston, Ont. Must be up-to-date and large capacity. Apply by letter, stating particulars. T. R. BLANCHARD, 65 St. Mark St., Montreal, Que.

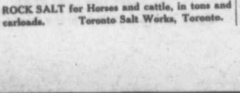
Important to Financial Officials of Cheese Factories for 1908

Forward, by mail, or otherwise, to the undersigned, your milk-sheets and cheese buyers' statements, mentioning any deductions necessary, and your accounts will need no audit. I have made cheese factory accounts a specialty for over 25 years. Charges reasonable.

PETER M. WOOD, Ivy Lea, Ont.



ROCK SALT for Horses and cattle, in tons and carloads. Toronto Salt Works, Toronto.

GOSSIP

Continued from page 20.

old. His dam, Rose DeKol Teake 6976, has a record of 50½ lbs. milk in one day and 4122 lbs. milk in 197 days, a total of 12,000. Korndyke Teake has over 20 ancestors with records of over 25 lbs. each of butter fat in 7 days. This, coupled with what is already in the herd, should make a strong combination for performance.

Among the females in the herd is a granddaughter of Boustje Q. Piebertje DeKol, the O. A. C. cow with a record of 20,752 milk in one year. There are others with records up to 62 lbs. milk a day. Intending purchasers will do well to inquire about Mr. Lemon's bulls.

CLYDESDALES FOR CANADA

This week Messrs A. & W. Montgomery, Netherhall and Banks, Kirconbright, are shipping four exceptionally well bred mares and fillies to Mr. J. D. Larkin, Niagara-on-the-Lake, Lincoln Co., Ont. The two three-year-old fillies are by the champion sire Baron's Pride (9122), and are also of the choicest breeding on the dam's. One of them is out of Mr. McDonald's noted prize mare Winsome Charteris, and therefore, own sister to Mr. Chapman's celebrated prize mare Winsome Marcotes. The other is out of the exceptionally good breeding mare Roseleaf (12567), owned by Mr. M'Kay, Bruchag. Both of these lines of mares have produced high-class stock. One of the older mares is by Macgregor, (1467), out of the dam of the Cawdor Cup Champion Cedric Princess, while the other is an exceptionally well bred animal, got by the big prize horse Knight of Cowal, (10074), out of a daughter of the Cawdor Cup champion Prince Alexander (6899). Along with these Clydesdales, which should form the nucleus of a first-class stud, Mr. Larkin gets a superior Hackney stallion of good pedigree. The Canadian trade moves.—Scottish Farmer.

Mr. A. A. Colwill, Newcastle, Ont., writes: "I recently sold to Mr. Oatis, of Chicago, 17 nice Tamworth sows, to be placed on his 2,500 acre farm, 35 miles west of that city. This is one of the best equipped farms on the American continent. There are kept on it 70 pure bred Holstein cows, valued at $17,000. The plowing is done by electric power, and one man does it all. I am told that this farm cost Mr. Oatis $150 an acre. He is spending an immense amount of money in fitting it up to suit him."

The Argentine, following the outbursts of foot and mouth disease in Great Britain has placed an embargo on stock going into that country. This will have a sinister influence on the bull trade of the old land. It was South America that kept up this trade.

Full sets of both the French and American Percheron stud books have been secured at the office of The Canadian National Live Stock records at Ottawa and the accountant in charge of this work is prepared to accept registrations for the Canadian branch stud book. The first five volumes of the American book are out of print and were obtained by secretary Stubblefield of the American Percheron Association.

At Lord Rothchild's recent sale of shire horses some high prices were paid. The average for the thirty-five sold was £264 14s ($1,333) each, a record for such a number. The stallion King Cole brought this sale at $4,500, and a three year old, Rehnce VI, brought $4,000. His Majesty the King paid $2,500 for Prince King, a yearling by Childwick Champion. The four year old stallion, King of the Roses, sold for $1,300.

The McCORMICK BINDER

THE HARVESTING MACHINE THAT IS OK ALL OVER THE WORLD

FAST WORK GOOD WORK AND NO TROUBLE

YOU, of course, want to buy a harvesting machine that will save your crop without delay and without expense for repairs. That's one reason why you should own a McCormick binder.

The McCormick is the machine that has stood the test of time. Many thousands of prosperous farmers believe there is no other binder in its class.

Its main frame and main and grain wheels are strong and substantial, thus insuring a rigid foundation to carry all the operating parts. Therefore the gears are held in proper mesh, and there is no unnecessary wear.

The platform can be easily raised or lowered to cut a high or low stubble. The reel which is easily thrown into many positions enables the operator to handle long, short and down grain without loss.

It is equipped with a practical bundle carrier, a knotter so simple it cannot get out of order—there is no failure to tie and no choking of the binder attachment by grain.

The binder balances nicely so that it relieves the horses' shoulders of all weight, and the machine is light draught.

McCormick binders are made in both right-hand and left-hand cut. A wide cut binder is built for farmers who raise grain on a large scale.

Besides grain and corn harvesting machines, the McCormick line includes binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, wagons, sleighs and manure spreaders.

Call on the local McCormick agent for information or write nearest branch house for catalog.
