EPWORTH LEAGUE CONVENTION.

Latest News of the Expected Inrush of Preachers and Young People Next Week.

Mr. E. D. Steger of Bonham, Texas, called at E. L. headquarters yesterday and stated that about 300 would come from that state. He is well pleased with Toronto, in spite of arriving on a hot day, and is enthusiastic in prospect of the great gathering.

About 200 will come from the Pitsburg Conference.

Rev. James Thomas of Little Rock, Ark., pastor of one of the largest Methodist Churches there, writes that there will probably be 150 in his party.

A meeting of the Ushers Committee for the coming Epworth League Convention was held last evening in the Metropolitan Church, Rev. A. C. Crews in the chair. Mr. W. T. R. Preston acted as secretary. Arrangements were completed for providing the different meeting places with ushers. Massey Hall will be in general charge of Mr. H. G. Cook at the evening meetings, and Mr. W. T. R. Preston in the afternoon. The Pavilion will be provided with ushers by the league of Sherbourne-street and Carlton-street Churches, under the guidance of Mr. Joseph Kent. The League of the Metropolitan Church will undertake to look after the ushering at that building, and the Christian Endeavor Society of Cooke's Church have kindly consented to provide young men to act as ushers for the meetings in that church. On Saturday afternoon, at the patriotic demonstration at the Exhibition grounds, the full force of ushers will be on hand. This will be the one occasion during the Convention when all the delegates will meet together in one great audience.

THE IMPERIAL GAS ENGINE.

Electricity makes good power. The Imperial Gas Engine makes better! WHY? Because you know there is absolutely no danger, and no attention is needed after starting till you want to stop. Expense is regulated by the power used—electricity costs from 5 cents per h.p. per hour up—the Imperial costs 2 cents. Expense stops as soon as power is stopped. You can save cost of your engine in two years.

McIntyre & Wardwell received the following despatch from New York to-day:

While narrow and professional, this afternoon's market has shown an undertone of strength, though at any improvement in prices stocks appeared to be for sale. The scarcity of offerings was the feature rather than the appearance of any buying power. Advices from Washington indicate that the disputed portions of the Tariff Bill will probably be the object of compromises in the Conference Committee, and it is said any arrangement regarding the sugar schedule will be satisfactory to the trust. A syndicate headed by Kuhn, Loeb & Co. has been formed to take $25,000,000 of the new Northwest bond issue. Chicago Gas was somewhat heavy. Gov. Flower denies that he or his party have sold out. Anthracite coal is quiet, and it is said the recent circular prices are not well observed in making sales. It is said St. Paul earnings are increasing at the rate of 20 per cent. per day. Western country merchants are reported to be stocking up in expectation of good business.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch today from Chicago:

The opening was about the same as last night's closing prices, but rather inactive. Later the market firmed and had a slight advance on good buying by local speculators and some large foreign orders. At the top prices, the local talent became sellers and supplying the demand liberally, which caused an immediate slight reactionary decline. The country is on both sides of the market. There has been good buying of futures for sections where the crop looked rather poor and selling from others where its appearance was favorable. Offerings of cash lots to arrive have also increased, about 400,000 bushels being bought by shippers to-day. There have been heavy coverings of shorts by Patten and large purchases by Baldwin, Guerney, Bartlett, Frazier and Carrington-Hannah. The most noticeable selling was by Barrett, Brosseau and receivers. The weather was hot and clear in the west and southwest. There was, however, less sensational news and the bullish edge was taken off the market. Cooler weather and showers are predicted for the west. There were reports of damage to the crop in Central Russia by rain and reports of damage in Argentine by locusts, also of too many showers in the Northwest. The outside trade is enlarging.

Corn—So recently the leader, started at even pace, but soon evidenced weakness and lagged badly. The trade was local and without snap. Crop news was two-sided. Hot, clear weather in the corn belt presumably just what is wanted to average up the abundant moisture hitherto and the fortnight lateness of growth.

McIntyre & Wardwell received the following despatch from Chicago to-day:

Provisions—Opened strong on 5000 hogs less than expected and higher prices for same. Later the market ruled weak and lower on free selling of Sept. ribs by packers. New York sold Sept. lard. John Cudahy's brokers sold also. Market closes steady. Estimated receipts of hogs to-morrow 14,000.

Wheat—Weaker cables and some foreign selling started the market on a down grade this morning and it ruled steadily weak all day and closed about ⅞c lower than last night. The news was unimportant and trading rather light, owing to the hot weather. Notwithstanding the weakness of foreign markets, the seaboard reported good export, about 30 loads being worked. It looks as though the market would decline somewhat further, but the sentiment has grown decidedly bearish and a quick reaction is probable at any time.

Corn and Oats—There was some general interest in corn pit to-day, owing to extreme heat, but there was good trade, however. Local bear traders sold heavily and pressed the market on every opportunity, resulting in a decline of ⅝c for the day. There were large buying orders at every 1-16c decline held by commission houses. Reports predicted rain in corn belt to-night; caused selling.
