WITH THE FARMERS

The Alberta Homestead, in the issue of last week, contains the full report of the committee, which was appointed at Calgary last July, to investigate the chilled meat industry in Western Canada. The recommendations of the committee have been forwarded to Hon. Sydney Fisher, minister of agriculture at Ottawa, and a deputation will shortly leave for Ottawa to place before him a proposition for the establishment of a chilled meat plant in Alberta.

PROVINCIAL HORSE SHOW.

The Alberta Provincial Horse Show which will be held in Calgary on April 5, 6, 7, and 8, promises to be conducted on a more extensive scale than has hitherto been attempted in the province. During the morning and afternoon of the first two days the show will be held in Victoria Park and in the evening of April 6, 7 and 8 and the afternoon of April 8 in Sherman's Auditorium.

E. L. Richardson, managing director has informed the Bulletin that there are over five hundred and fifty entries for the show. This number will be more appreciated by Albertans when they remember that the Winnipeg Horse Show had only four hundred and twenty entries in 1907 and four hundred and twenty entries in 1908.

DAIRYMEN'S ASSOCIATION.

A meeting of the directors of the Dairymen's Association of Alberta was called in Red Deer on Wednesday, March 24th, for the purpose of deciding on what would be a uniform brand for butter boxes to be used only by the creameries belonging to the association. The meeting was well attended, the following being among those present: T. B. Millar, Burnt Lake, president; R. M. McCue, Bowden, 1st vice-president; A. H. Trimble, Red Deer, 2nd vice-president; H. W. Trimble, Red Deer, and Wm. H. Davies, Didsbury, directors; D. G. Campbell, Calgary, sales agent; Fred H. Hunter, Didsbury, secretary-treasurer.

Three choices of names were decided on, to be sent in to the registration office at Ottawa. The name or brand secured will be published as soon as it is registered.

The object of having a uniform brand for all the creameries belonging to the association is the same as that of having uniform boxes, uniform color, uniform quality and uniform cleanliness, these latter being gradually brought about by the service of creamery and cheese factory instruction or inspectors. This uniformity tends to improve the dairy product in general, thus demanding the highest prices, which means more money and a better inducement to further one of the great industries of our province.

The Dairymen's Association of Alberta has only been in existence about a year and a half, but in the one season's business has done more to secure higher prices for the dairy product than any other step taken in that direction in the same length of time.

The association, under the able management of its president, Mr. T. B. Millar, who has had a life-time experience in the dairy business as manufacturer-instructor both in the dairy school and on the road, and last, but not least, an extensive buyer for the Montreal market, is going to be in every respect a great benefit to the industry.

DOMINION FOREST RESERVES.

Mr. A. Knechtel, Inspector of Dominion Forest Reserves, has written an account of these reserves, which has been published as Bulletin No. 3 of the Forestry Branch of the Department of the Interior.

In regard to the purpose of the forest reserves, Mr. Knechtel writes: "The Dominion Forest Reserves are intended to preserve and produce a perpetual supply of timber for the people of the prairie, the homesteaders' needs being considered of first importance. They are not intended to furnish wood for the lumber trade. Hence the policy of the Department is favorable to small mills rather than to large ones which need large tracts of forest and manufacture lumber beyond the needs of the settlers."

Mr. Knechtel then gives in detail the area of the different reserves with the dates of their formation. The areas are summarized as follows:

Manitoba (6 reserves)	3575	sq. miles
Saskatchewan (4 reserves)	740	sq. miles
Alberta (6 reserves)	9720	sq. miles
British Columbia (10 reserves)	2295	sq. miles

Grazing will be allowed, under certain restrictions, on those portions of the reserves that are adapted for this purpose. Good grass should not be allowed to go to waste, the Inspector thinks. Besides, grazing may even be desirable on portions of the reserves, as the cattle will consume the grass and peavine, which, if dried, would be very inflammable. Besides the cattle, in going to water, make paths which, narrow as they are, serve to check any fire which may come along that way and give lines from which a back-fire may be started.

The fire problem in the West Mr. Knechtel shows to be one of special difficulty, much more so even than in the East. The number of rainy days and the amount of rainfall is shown, by tables supplied by the Weather Bureau, to be much less in Alberta, Saskatchewan and Manitoba than in Ontario. The velocity of the wind, moreover, is about twice as great in Winnipeg as in Toronto. The reserves are under constant patrol summer and winter. Only two fires of any consequence occurred in 1908. Of these one in "The Pines" reserve burned over 22 square miles but destroyed no merchantable timber; the other, in the Turtle Mountain Reserve, burned over 28 square miles, mostly covered with grass. Both fires, however, damaged large quantities of young growth. Various methods employed to prevent fire, such as the burning of fire lines and the plowing of fire guards are mentioned. Roads through the reserves and along their boundaries are also being constructed, largely with this end in view. One hundred and fifty miles of such road were made last year.

Experiments are being made with a view to reforesting areas on the reserves that have been denuded by fire; sowing is favored rather than planting.

A number of squatters were removed from the reserves during 1908, one hundred and twenty-six from the Riding Mountain Reserve and twenty-five from the Turtle Mountain Reserve.

In spite of the delicate nature of this work it has been so carried out that all those removed have made affidavit to the effect that they have been well treated and are pleased with the change.

The boundaries of the reserves are being marked and timber surveys conducted on them with the object of ascertaining the present amount of timber and the annual growth.

The species of timber growing on the reserves, with their average size and condition, are stated and an approximate estimate given of the timber on the different reserves. The estimates total as follows:

For the Manitoba reserves 602,933,000 bd. feet. of saw-timber and 6,250,000 cords of fuel wood;

For the Saskatchewan reserves, 55,000,000 bd. feet, of saw-timber and 690,000 cords of fuel wood;

For the Alberta reserves, 3,402,000,000 bd. feet, of saw-timber and 54,220,000 cords of fuel wood;

For the British Columbia reserves, 600,000,000 bd. feet of saw-timber and 6,000,000 cords of fuel wood;

The saw-timber cut from the reserves during the year ending 31st March, 1908, totalled about 45,751,325 board feet and the cordwood 105,943 cords.

The regulations for homesteader's permits for cutting on the reserves are given in full. Proposed regulations for portable mills (the only kind to be allowed on the reserves) are also given. Similar regulations have already been imposed on one mill in the Cypress Hills (Alta.) reserve this winter and have apparently been a success.

The use of the reserves as pleasure resorts is also noted.

The bulletin is illustrated with a number of good cuts. It may be obtained by addressing R. H. Campbell, Superintendent of Forestry, Ottawa, Ont.

COMMERCIAL MARKETS.

The market this week has hardly an indication of activity in any line except perhaps hay. The prices for this commodity are steady but as before stated the practise of selling hay by the ton is temporarily dispensed with. Hay is sold now by the load but the price per ton is very scrupulously adopted.

Oats have been selling during the week at 34c to 36c, but the latter was the prevailing price on Wednesday.

The live stock market presents no particular features. The Griffin packing plant is receiving the usual supply of hogs but reports some falling off in condition due to the high price of feed making it more profitable to sell the feed than convert it into pork. The matter of measles among the hogs arriving at the plant has been put in the hands of the Live Stock Commissioner who will investigate from what source it comes. Prices are unchanged from last report.

The J. Y. Griffin Co. quote prices as follows:

Choice steers, per lb	4 to 4 1-2c
Medium steers, per lb	3 1-4c
Choice heifers per lb	3 to 3 3-4
Medium heifers, per lb	3c
Choice cows, per lb	3 to 3 1-4c
Medium cows, per lb	2 3-4c
Veal calves, per lb	4 1-2 to 5c
Choice hogs, per lb	6 1-4c
Roughs and heavies, per lb	5 to 5 1-2c
Sheep, per lb	5 1-2c
Lambs, per lb	6c
P. Burns Co., quote prices as follows:	
Choice steers, per lb	4 to 4 1-2c
Cows, per lb	3 to 3 1-2c
Butcher cattle, per lb	3 to 4c
Calves, per lb	4 to 5 1-2c
Hogs, per lb	6 1-4c
Sheep	6c
Lambs	6c
Lambs, per head	3 to 5c

CHICAGO GRAIN MARKETS.

Chicago, Ill., March 30.—Profit taking by longs was the feature of the market, and this selling knocked some of the rough edges off the price. Considerable expansion was shown, and there was more wheat bought by the interior than at any time this month. Crop news from Nebraska was of an especially bullish character, and as it came from one of the best crop experts now in the winter wheat fields, the reports acted as a help to prices. Clement Curds led the selling of wheat and they were followed by McLaughlin, W. H. Lake, A. J. White, Ware-Leland and many lesser lights. Additional short lines were put out by the Armour Grain Company, Finlay, Barrel & Co., J. H. Wrenn & Co., and Logan-Bryan. The Patten house was on both sides of the house, but its brokers bought more wheat than they sold. George M. Lecount, crop expert, wires from Seward, Neb.; "Weather cool. Crops need rain badly. Plant spindly and small. Wheat here in bad condition on account of winter killing. Twenty per cent. of wheat examined is dead." The winter wheat condition is placed by Snow at 81.8 against 83.2 last December, when the crop went into winter quarters. He shows that the crop has improved during the winter in the Ohio Valley, but has depreciated very materially in Missouri and Texas and to a somewhat less extent in Kansas and Oklahoma. Full growing weather has been experienced only in the extreme southern belt. Elsewhere two weeks of warm sunshine will be needed to start growth sufficiently to admit of thorough judgment of plant condition. The plant is small, late, and east of Mississippi, the stand is thin. The winter was generally favorable and winter killing is apparently not unusually extensive. There is ample moisture for present needs everywhere, except in Texas. Average in principal states is: Ohio 72, Indiana 74, Illinois 76, Missouri 74, Kansas 81, Nebraska 85. On the Pacific coast conditions are almost perfect. The reaction and decline in wheat was looked upon by the trade as a natural one, following the advances of the past few days. The situation seems as strong as ever. Liverpool closed ½d higher for the day; Antwerp ¾d higher; Berlin ½d lower. The European visible decreased 1,728,000 bushels last week, compared with a decrease of 200,000 for the same week last year. The world's visible, as reported by Bradstreets, decreased 2,700,000 bushels, against a decrease last year of 1,000,000. Northwestern wheat receipts were 222 cars, compared with 210 cars last year. Local receipts 85 cars, with 36 cars estimated for today. Primary receipts 430,000 bushels, compared with 378,000 bushels last year. Clearances 77,000 bushels. There were declines in both corn and oats, and the trading was easy. Both markets were irregular and unsettled and were inclined to follow the price changes in wheat. Provisions were lower and packers led in the selling. The Cudahys were again throwing over long products and grain men with long lines were sellers. Local shorts were liberal buyers and there was a fair investment demand as well. Cash meat and lard were slow.

CHICAGO LIVE STOCK.

Chicago, Ill., March 30.—Stockyard trade was slow, the vim excited yesterday having been eliminated. Fresh supply of cattle was light, running mainly to butcher stuff, which sold at steady prices. Armour stayed out of the hog market, but shippers and small packers wanted stuff bad enough to pay yesterday's closing prices, or 5c lower than the opening of Monday, $7.10 being paid, with the bulk 6.80 to 7.00. In the sheep house, shorn stuff was badly neglected, marked preference being shown wool goods. Prices held about steady.

Hogs—Receipts 18,000; 5c lower. Mixed and butchers, 6.65 to 7.05; good heavy, 6.90 to 7.10; rough heavy, 6.65 to 6.85; light, 6.50 to 6.90; pigs, 5.40 to 6.35; bulk, 6.35 to 7.00.

Cattle — Receipts 3,000; steady. Beeves, 4.50 to 7.35; cows and heifers, 2.35 to 6.00; stockers and feeders, 3.50 to 5.40; Texans, 4.75 to 5.75; calves, 6.00 to 7.50.

Sheep — 12,000; market steady. Sheep, 4.50 to 6.40; lambs, 5.90 to 8.25.

WEDNESDAY'S GRAIN MARKETS.

Winnipeg, March 31.—Markets were quite strong today, but there was very little doing. Foreign markets were fir mon reports of light shipments from the Argentine and led to good export inquiries. Liverpool closed ¼d to ½d up; Chicago ⅝ to 1¼ up; Minneapolis 1 cent to 1⅜ up, and Winnipeg 1¼ to 1⅜ higher.

Winnipeg closing prices: Futures—March 1.13¾, May 1.14¾, July 1.16¼, May oats 42⅞, May flax 1.37.

Cash wheat—No 1 Northern, 1.13¾; No. 2 Northern, 1.10¾; No. 3 Northern, 1.08¾; No. 4, 1.04; No 5, 96¼; No. 6, 88¾; feed, 79; No. 1 Alberta red, 1.12¾; No. 2 Alberta red 1.10; No. 3 Alberta red, 1.07¾.

Oats—No 2 Canadian western, 41¾; No. 3 Canadian western, 40½; No. 1 feed, 40¾; No. 2 feed, 40¼.

Barley—No. 3, 54½; No. 4, 52½; rejected 47½; feed, 46½.

Flax—No. 1 Northwestern, 1.55; No 1 Manitoba, 1.33.

FAILED TO RECOVER THE STOLEN PAPERS

Employee of Detective in Frisco Graft Prosecution is Accused of Selling Important Papers to Corporation Being Prosecuted. Fails to Locate Papers.

San Francisco, Calif., March 28.—Armed with warrants policemen and detectives today made their second raid upon the offices of the United Railroads, in an unsuccessful effort to locate papers of an important character, alleged to have been stolen by entrusted employees of Detective Wm. J. Burns of the prosecution forces, and sold to emissaries of Patrick Calhoun, president of the United Railroads, and now on trial on a charge of bribery. This was the only exciting feature of the day's developments of the latest sensation in the graft investigation which resulted yesterday in the arrest of nine men on charges of grand larceny.

Patrick Calhoun arrived in town this morning from Glenn County where he had been on a hunting trip and went at once to his office, being accompanied by A. A. Moore, Stanley Moore and Wm. A. Abbott, his attorneys. Abott was arrested last night on a grand larceny charge and was released at a late hour on bail.

Shortly after they reached the office the detectives appeared but were stopped at the door while the attorneys examined their warrant and an official protest against their action was made. The nine men arrested yesterday in connection with the graft charges were J. J. Handlon, claims agent of the United Railroad, charged with larceny; Rex N. Hamlin, stenographer in the office of the district attorney and secretary to Detective Wm. J. Burns, charged with bribery; Al McKinley, confidential employee of the United Railroads, charged with bribery; Jeremiah Van Wormer, said to be an employee of Calhoun's detective bureau, under Luther Brown charged with bribary. Luther Brown, head of the United Railroads detective service; E. A. Ralitt, an attache of district attorney's office, charged with bribery, Frank J. Murphy, attorney for Abraham Ruef, charged with grand larceny.

Murphy appeared at the police headquarters this morning and gave himself into custody. He was immediately released on depositing $2,500. A restraining order issued by Judge Murasky, forbidding the futher search of the United Railroads, was served on the officers about six o'clock this evening, but they kept up their hunt for the documents, said to have been stolen, for some time afirwards.

Late in the evening Patrick Calhoun gave out a statement in which he declared that the forcible entry into his office was an infamous outrage inspired, he declared, by the prosecution with a view to prejudicing the public against him. He bitterly denounced the district attorney's office declaring that it is owned by private parties who have from the first been guilty of high handed proceedings.

A Poet is Missing.

London, March 28.—John Davidson, the poet, has been missing since Tuesday ,and his family fear he may have had a sudden heart seizure.

TRAINS MEET HEAD-ON; THREE TRAINMEN DEAD

Disastrous Collision Near Brandon—Passenger Train Took Wrong Siding—Accident Occurred on Curve—Passenger Engine Crushed by Heavier Freight Mogul—Conductor and Engineer Responsible.

Brandon, Man., Mar. 23—A disastrous head-on-collision resulting in the death of three C. P. R. employees took place yesterday at a point about a mile and a half west of here. The dead are: Engineer Hiram Hodgson, Fireman J. W. Perchley and Brakeman Thos. Leech, all of Brandon.

The Estevan local passenger train pulled out of the depot at 13.50 under charge of Conductor Machan with orders to run to Kemnay on the old south track. By some means these orders were not carried out and the train switched into the north track, just west of the depot. About a mile further on, the line curves through a cutting, and at that point the train had attained a good speed when it was met by a heavy eastbound freight. The impact was terrific, the smaller engine of the passenger train being crushed like a paper box. The two engines were firmly wedged together, the tender of the passenger locomotive and express car together with five freight that it carried the light passbring ditched and reduced to splinters. The engineer and fireman of the local were frightfully mangled.

Thrown From Engine.

Leach, who was braking on the freight, appears to have been thrown off the engine, sustaining a broken neck. The engine crew of the freight jumped just in time to avoid injury. When the trains met the brakes on the freight were hard set or it is probable that the casualties would have been more numerous as there were a large number of passengers on the Estevan train.

It cannot be ascertained if the dead engineer ever say the oncoming danger, but it is supposed that the smoke obstructed his view. The approach of the passenger train was first noticed by the conductor and the brakes were jammed down as tight as possible, but not in time to avoid the disaster. So great was the momentum of the heavy freight that it carried he light passenger train back 40 yards after the impact. Baggageman George Bird and Express Messenger Shildel, who were in the express car, had a most miraculous escape, as the car turned an almost complete somersault and was badly shattered. Their injuries amounted to severe bruises. Both are in the hospital, but are expected to be out in a few days. The whole of the dead were married men and Hodgson was about to retire from the company's service. His engine was No. 136, while that of the freight was of the mogul type, No. 2602.

Brakeman Leach met his death under rather peculiar circumstances. When the engineer called them to jump, he for some reason tried to cross to the other side of the engine, but failed before the crash came and was killed by being thrown against the tender. Hodgson leaves a wife and three young children, while Perchley and Leach were both young married men, but without families. Hodgson's remains will be shipped to Fort William.

Captain Lost From Tug.

Vancouver, B. C., March 26.—Captain Barron of the tug Mystery took sick last night as he was crossing the gulf. He left the wheel house in charge of the mate. Barron must have become faint and fell overboard, because he was not seen again. He was married only a fortnight ago.

JUDICIAL SALE OF FARM PROPERTY BY TENDER.

Pursuant to the judgment and final order for sale made in the action of the Sawyer & Massey Company, Limited, vs. Da nkcDonald, there will be sold the N.W. ¼ of Section (10), Township (55), Range (25), West of the Fourth Meridian. The farm is situated 4 miles from Morinville. There are 100 acres of good arable land; 40 acres of scrub or small brush and 15 acres of akali land. The soil is a black loom, two feet deep. There are 80 acres broken, and the place is fenced with a wire fence. There are one log house; one grainary; two stables; one house and four outbuildings, on the place.

The said farm is offered for sale by tender at an upset price of $2,000. Tenders are to be filed with the Clerk of the Supreme Court, Edmonton, enclosed in an envelope marked "Sawyer vs. McDonald" on or before the 21st day of April, 1909. Terms of payment are 10 per cent. of tender to accompany the tender and the balance within thirty days of notice of acceptance of tender without interest. In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta.

Further particulars can be had from Messrs. Short, Cross, Biggar & Cowan, No. 14 Howard St., Edmonton.

Dated at Edmonton this 31st day of March, 1909.

(Sgd). ALEX. TAYLOR,
Clerk S.C.A.

Unreserved Credit

AUCTION SALE

Farm Stock, Implements, etc

The undersigned have received instructions from Mrs. Jane Main to sell by Public Auction at her farm, the S.W. 1-4 of 21-52-24, 6 miles East of Strathcona,

TUESDAY, APRIL 6TH.

—the following—

HORSES—1 four year old mare, 1650; one ten-year-old mare, 1100.

CATTLE—11 first class milch cows, 1 yearling heifer.

PIGS—1 brood sow.

IMPLEMENTS—Heavy wagon, democrat wagon, set heavy sleighs, set light sleighs, McCormach mower, gang plow, cream separator, cutter, buggy, set light double harness, set single harness; together with forks, scythes, whiffletrees, tools, milk cans, and other articles too numerous to mention.

Terms of Sale—All sums of $20.00 and under to be cash, over that amount 7 months credit on approved joint lien notes bearing interest at 8 per cent. per annum, with 5 per cent. off for cash on credit amounts, brood sow to be sold for cash.

Sale at 12.30. Lunch at 12 o'clock.

Frank Webber, Clerk. **C. H. Webber,** Auctioneer.

NOTICE TO INTENDING SETTLERS

Applications for Homestead, Pre-emption and Purchased Homestead entry will be received on and after Saturday, April 10th, 1909, for the available lands in

Township 3, Range 9, W. 4th Meridian, and for homestead entry for the available lands in part Townships 3 and 9, Range 30, W. 4th Meridian. Part Townships 4, Range 1, W. 5th Meridian. Part Township 6, Range 2, W. 5th Meridian; Part Township 5 and 6, Range 3, W. 5th Meridian.

(1) A squtter before survey (within the pre-emption area), desiring to secure a pre-emption adjoining his homestead should notify the Dominion Land Agent for the district in writing to that effect describing the particular quarter-section desired for pre-emption. This notice should reach the Agent prior to the land becoming available for entry. The Agent will receive such quarter sections for the respective squatters for fifteen days from the date upon which such lands were available for entry according to advertisement.

(2) In case a bona-fide squatter before survey fails to notify the Agent before the date when the land becomes available for entry according to advertisement, then the Agent shall reserve one quarter-section adjoining the quarter squatted upon, and the squatter will be given fifteen days within which to make pre-emption entry for the same.

For further particulars as to the available lands apply to the Agent of Dominion Lands, Lethbridge, Alberta.

J. W. STAFFORD,
Agent of Dom. Lands.

Dated at Lethbridge, 10th March, 1909.

To the Farmers

Do you want a well on your property, If you do, I have an up-to-date well drilling outfit, that will enable me to go through quick sand or any kind of hard formation, such as sandstone, shale, slate, coal or gravel. Write or call on

R. E. PATTERSON,
225 McCauley St., Edmonton, Alta.

Sheriff's Sale

Province of Alberta
To Wit:

By virtue of a Writ of execution issued out of the Supreme Court of Alberta E. J. D. at the suit of B. F. Blackburn, plaintiff, and E. Vondette, defendent, and to me directed against the lands of E. Vondette I have seized and taken into Execution the following Lands, namely:—Lot 4 Block 22 River Lot 12 in the city of Edmonton. Said Land will be sold subject to a mortgage to Francis Merland for $700.00, which I shall expose for sale on Friday the 14th day of May at the Sheriff's Office, Edmonton at the hour of 2.30 p. m. Sheriff's Office, February 11th, 1909.

W. S. ROBERTSON, Sheriff.

FOR SALE— 160 ACRES WITH OR without implements; all fenced; good water, 35 acres under cultivation, 50 acres hay meadow. The owner would like board. P.O. Box 27, Sion, Alta.

FOR SALE — TEN REGISTERED Clydesdale stallions, age from 2 to 6 years; no old worn out plugs; all young, sound horses. This lot includes the noted show and stock horses such as Bonnie Brae (3480) sire Burn Brae (6267) (8378) dam the great show mare Forest Queen (3724), Royal Prince (5275), sire Prince of Currah (2952 (8916) dam Mable (7144) Address John Clarke, Jr., Box 127 Gleichen, Alta.

FOR SALE— FOR 30 DAYS ONLY $12.50 per acre will buy my quarter section and store at Star, good land and abundance of spring water; a little more than half its value. Reasons for sacrificing. Address E. Knowleton, Star.

FARMERS— DO YOU REALIZE THE value of a record of each crop for each year for ten years and in one book? Nothing like an account with each crop. One leak stopped may save the farm. Expenses of the household are many, you will know where you are at. Know what your stock and poultry brings every year and what it costs to keep them. Every farmer should have an Acct Book. Instead of costing you money it will save money. For further particulars write or send ($3.000) to M. E. Malchow, Alberta College, Edmonton.

DONT PHYSIC YOURSELF

It is a Tonic you want! Physicing lowers the system and makes it more susceptible to disease. The winter months have been a great strain upon your vitality and unless you put the blood in good condition all manner of evils will overtake you. PSYCHINE is the Greatest of Tonics and should be taken by every one at this season of the year. PSYCHINE assists the gastric juices and ferments in their digestion of the food, cleanses the mucous membrane of the Stomach, and has an invigorating and beneficial effect on the muscles and nerves. For Catarrh of the Stomach, Ulceration or Weak Stomach, Dyspepsia, the use of PSYCHINE is strongly advisable.

PSYCHINE acting on the Stomach restores it to a healthy condition,
