

NOT IN CANADA ONLY

But also in all parts of England, the States and many other Countries

OXFORD RADIATORS

For Hot Water or Steam Heating

Are used and recognized as the standards of mechanical and artistic excellence.

We make a vast number of shapes and sizes, to suit all architectural variations—offering supreme satisfaction for any public or private building.

Their iron to iron joints—positively unbreakable—give unique superiority.

Fulllest information in our Catalogue—a practically instructive and very readable booklet on heating propositions.
