MONTREAL—THE HARBOR

MONTREAL enjoys the distinction of being a great ocean port nearly a thousand miles inland. Although 250 miles above salt water, it is 315 miles nearer to Liverpool than New York. The broad St. Lawrence forms a highway upon which ocean-going steamers can safely ascend to Montreal. Montreal has seven miles of fine wharves of masonry, vast warehouses, and four huge grain elevators, with a total capacity of 10,250,000 bushels.
