Jelly Tins, Cake Tins, Pudding Pans and Dippers, at, each 5c

HAMMOCKS from 49c up.

Palm Leaf Fans, 3 for 5c. **WOODS' FAIR.**

MOLDERS IN CONFERENCE

Matter of Changing Ratio of Apprentices Discussed.

Coal Barons Say Strike Can Only Be Settled by Men Returning.

Toronto, July 16.—A most important conference was begun this morning between the convention of the iron molders of North America and C. H. Castle and D. McAfee of Quincy, Ill.; J. Dwyer, of Detroit; D. W. Pick, of Rochester; I. J. Hogan, of Chicago, and other representatives of the Stove Manufacturers' Association respecting the apprenticeship ratio. The relations between the manufacturers and the men have been of the most cordial nature, and for twelve years there has been no strife in any of the union shops in the United States. Molders have become very scarce under the union regulation limiting the number of apprentices to one for every eight journeymen, and the employers urged the union today to agree to the ratio of one in six. The conference is still in progress.

MANAGERS' STATEMENT.

Chicago, July 17.—The association of railway general managers, embracing every road in Chicago, have issued the following signed statement: "All of our old men, not before on hand for work, were put to work. No conference was held with any committee or otherwise since Tuesday, and no agreement was made with the union or with any committee. The men simply reported for work, and they doubtless expect, and will receive, the pay offered July 1, and which their companies have been willing all along to pay."

SOFT COAL MINERS.

Indianapolis, July 16.—The national convention of the United Mine Workers will assemble here tomorrow to discuss the advisability of calling a strike to aid the anthracite men, who have been out in the east for several weeks. The action of the convention is uncertain, although the situation tonight indicates that there will be no walk-out of the soft coal men. If President Mitchell would declare his personal preferences, it would not be difficult to foretell the outcome. At present he controls the situation absolutely and can swing the delegates either way. He will not say openly that he wishes war, and while he is willing to advise under no circumstances will he assume to dictate to the convention what to do. He said tonight, however, that the action tomorrow would result in the winning of the strike by the anthracite men in the east.

COAL BARONS' STATEMENT.

New York, July 16.—An informal conference between the presidents of the anthracite roads took place here yesterday, at which the anthracite strike was discussed. At this conference were President Baer, of the Philadelphia & Reading Railroad; President Underwood, of the Erie; President Fowler, of the New York, Ontario & Western, and President Truesdale, of the Delaware, Lackawanna & Western. It was learned that Rev. Father J. J. Curran, of Wilkesbarre, Pa., who called on President Baer at Philadelphia on Monday, was so much discouraged with the result that he will make no further attempts at settlement, and will not try to see any of the other operators. President Fowler, of the New York, Ontario & Western, said: "There will be no concessions on the part of the presidents of any kind or description. There can be no settlement except by the men returning to work. Nothing that will happen can change out attitude on these points." Similar statements were made by Messrs. Baer and Truesdale.

STRIKING MINERS BACK AT WORK.

Scranton, Pa., July 16.—It was given out officially from the Delaware, Lackawanna & Western offices today that in the company's 28 collieries, there were now at work 110 miners and laborers who went out on strike and were reinstated at their own solicitation. Superintendent C. C. Rose, of the Delaware & Hudson, said his company had fifty ex-strikers at work. The other companies reported returned strikers, but could not give figures. The miners and laborers who have companies are not employed in cutting or loading coal, but in cleaning up the mines and making repairs.

WESTERN ONTARIO.

Windsor's tax rate is 24½ mills.

The Perth Flax Company may establish an oil mill at Collingwood.

Sydney Snell, of Exeter, has bought a 200-acre farm in London Township.

Thomas McKay's house in East Zorra was struck by lightning on Monday and the roof badly damaged.

W. H. Fletcher, M.A., formerly of Stratford, has been appointed science master at Toronto Junction high school.

The Ontario Government has appointed Mr. F. H. McPherson, of Windsor, to investigate the financial affairs of the Township of Romney.

Brantford is perplexed over the purchase of a public library site. The library board ask $5,500 to purchase one site, while the city council are endeavoring to force them to accept another.

St. Thomas Times: Mrs. Mary Ann Ingram, relict of the late Thomas Ingram, died this morning at her residence, No. 138 Wellington street. Mrs. Ingram, who was in her 79th year, had been ill for about a year, her death being due to old age and general debility. She was born in Nelson, Halton County, and came to St. Thomas with her husband about twenty years ago. Mr. Ingram died in 1890. Deceased leaves one daughter, Miss Tessie, at home, and seven sons—W. H., postmaster; A. B., M.P. for East Elgin; George and Samuel, all of this city; John S., Rossland, B.C.; Thomas, Toronto, and Joseph, Montana. Mrs. Ingram was held in the highest esteem by all who knew her, and was of a noble and lovable character. She will be greatly missed by a wide circle of friends, who extend to the bereaved family their heartfelt sympathy.

BODILY WEAKNESS

A Distracting Condition That Is Permanently Cured by Ferrozone — A Pleasant Remedy in Tablet Form to Be Taken After Each Meal

All fagged out ideas come as slow as molasses in January. You think of things just a minute or so too late. Snap is gone and the buoyancy and strength that makes life a pleasure that's gone too.

The doctor would say that you are run down, and you don't eat or digest enough. Your stomach requires some aid, and probably your digestion needs a bracer. The blood should have phosphorus and iron to strengthen and purify it.

Now Ferrozone is a wonderful blood maker and nerve stimulant. It is really a food for the blood, nerves and vital energies, and will improve your run down condition in a very short time.

Ferrozone will make you strong and capable of doing a heavy day's work without fatigue. It is a marvelous remedy, and does marvelous things, as the following testimonial proves:

"After my baby was born I was left in a weak, sickly condition, totally unfit for a mother's household duties. I was excitable and nervous, and trifling things bothered me very much. I somehow would not gain strength, although I took malt extracts and tonics all the time. A lady friend recommended Ferrozone, which I used with splendid results. The first box helped quite a little and when I had taken six boxes my former health, ruddy cheeks and good spirits, were fully restored."

You can't spend 50 cents to a better advantage than on a box of Ferrozone, and the sooner you get Ferrozone, the sooner you will get well. Don't accept a substitute, but insist on your druggist supplying the genuine Ferrozone which sells for 50 cents a box, of three boxes for $1 25. By mail from N. C. Polson & Co., Kingston, Ont.

New Jersey has ranked sixth in value of manufactured products for forty years. The wage earners of the state are 12.8 per cent. of the total population, and among them are 50,000 women and 8,000 children.

Backache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, highly-colored urine, and all urinary troubles lead to Bright's disease, dropsy, diabetes, etc. Doan's Kidney Pills are a sure cure. w

A New York dealer ripens pineapples for the market by artificial process. He puts them in a room heated to 110 degrees, and ordinarily three and a half or four days are required to thoroughly ripen the fruit.

MASONIC GRAND LODGE OF CANADA

In the Province of Ontario Meets at Windsor.

ADDRESS OF THE GRAND MASTER

Review of the Year's Work and Progress of the Order—Committee Reports.

Windsor, July 16.—The 47th annual communication of the Grand Lodge of Masons of Canada in the Province of Ontario was convened in the armory building on Ouelette street this afternoon in the presence of a large and representative gathering of craftsmen. Previous to the opening of grand lodge the Windsor civic authorities, through Mayor Smyth and W. Bro. Guillot, clerk, presented an address of welcome, to which Bro. Harding, acting grand master, replied. R. W. Bro. B. Paine then, on behalf of the Windsoor brethren, also made a neat reply. After routine business the acting grand master, R. W. Bro J. E. Harding, K. C., read his address, in which feeling reference was made to the death of the late Grand Master Hungerford, Bro. Wm. McKinley, president of the United States of America, and M. W. Bro. Lieut.-Col. John Helder Isaacson, P. G. M. and grand secretary (for 30 years), Grand Lodge of Quebec.

The grand master then went on to refer to the Masonic Relief Association, and to Royal Solomon Lodge, No. 293, which had bene suspended, and recommended the recall of this lodge's warrant, "as a grave scandal upon Masonry has too long been permitted to exist by grand lodge." In the matter of complaint of the Grand Lodge of British Columbia against St. George's Lodge, No. 367, Toronto, all the charges have been dismissed. The grand master recited the circumstances attending the dedication of the new hall of Wentworth Lodge, No. 166, Stoney Creek, the new rooms in the Masonic Temple Building, London; the new rooms of Corinthian Lodge, No. 101, and Peterboro Lodge, No. 155, at Peterboro; the new rooms of Grand River Lodge, No. 151, Berlin; the new lodge room of Lorne Lodge, No. 282, Glencoe, and the laying of corner stones in Cobourg and Toronto.

LODGES OF INSTRUCTION.

The grand master referred to lodges of instruction held at Sarnia, Windsor, Brockville, Woodstock, Tilbury, Orillia, Peterboro, Huntsville and Toronto, and said:

"These lodges of instruction were attended by large numbers of the craft, and in every instance instructive and interesting sessions were held. At Sarnia we were honored by the attendance of M. W. Bro. Neil McMillan, grand master for the State of Michigan, who was cordially welcomed by the brethren, and contributed to the pleasure of the evening."

GRAND LODGE REPRESENTATIVES.

The grand master recommended the following named brethren for appointment as grand representatives near this grand lodge:

R. W. Bro. George Landerkin, P. D. D. G. M., as the representative of the Grand Lodge of Michigan in place of M. W. Bro. Hungerford, deceased.

R. W. Bro. A. Shaw, P. D. D. G. M., of Kingston, as representative of the Grand Lodge of Mississippi in place of R. W. Bro. Morson, resigned.

V. W. Bro. D. L. Carley, Windsor, as the representative of the Grand Lodge of Oklahoma.

NEW LODGES.

Dispensations for the formation of new lodges have been granted as follows:

Elma Lodge, Monkton, county Perth, in the fourth district.

Corono Lodge, Burk's Falls, Parry Sound district, in the 18th district.

Doric Lodge, Little Current, Manitoulin, in the 18th district.

COMMITTEE REPORTS.

Business of the Grand Lodge Fairly Under Way.

At the conclusion of the reading, the Grand Master was enthusiastically applauded. Some distinguished members of the craft from Michigan and Kentucky were heartily welcomed on their entrance, and invited to seats on the dais.

The reports of committees were ordered to be considered tomorrow as follows:

Printing and Supplies—R. W. Bro. J. S. Dewar, London—Recommending the payment of accounts to the amount of $2,239 14; that tenders for Grand Lodge printing be asked for, and that the grand secretary, R. W. Bros. Brodrick and Dewar award the contract.

Audit and Finance—By R. W. Bro. Geo. S. May, Ottawa—Reported that the books of grand secretary and grand treasurer had been audited and found correct. The receipts were $25,341 45; the expenditures, $20,777 12, and the receipts over expenditures $4,564 33—the largest (not the lowest) in the history of the Grand Lodge; the balance of the asylum fund has been transferred to the general fund; the sum of $20,000 debentures had been reinvested at 4 per cent.; the funds on May 31, 1902, were $102,912 94—the sum of $17,912 94 being at credit in Bank of Commerce to current account; recommended that $8,000 of the latter be invested in proper securities; report also recommended that $12,065 be set apart for benevolence, and closed with ordering payment of sundry accounts.

Benevolence—By R. W. Bro. R. L. Gunn, Hamilton—Gave the total grants made at this session, amounting to $12,065; interim grants made $280—a total of $12,345; grants made by private lodges $10,545 41, as compared with $9,437 the previous year; nine lodges had not made returns this year, and none of them will receive grants until they do so; inspectors ordered to investigate all cases before checks.

Warrants—By R. W. Bro. L. Secord, of Brantford—Recommending that six warrants be issued to lodges which have been under dispensation for over a year, and that dispensations be issued for formation of new lodges at Merlin and Wales; that the dispensations granted to Elma Lodge, Monkton, and Doric Lodge, Little Current, be continued for another year; that the following petitions for lodges be not entertained: Coronation Lodge, Markdale, and King Edward VII. Lodge, Chippewa.

The Fraternal Dead—By R. W. Bro. J. C. Morgan, Barrie—Recited in feeling language the names of brethren who had passed away during the year, making special reference to the sudden death of the late Grand Master Hungerford and the assassination of Bro. President William McKinley at Buffalo. Adopted.

Condition of Masonry—By R. W. Bro. Aubrey White, of Toronto—That out of 367 lodges on the roll, all but four had been visited by D. D. G. M.'s during the year. Of the ten not visited last year, eight had received visitations; alluded to the excellent manner in which the D. D. G. M.'s had performed their duties, and to the good results which were sure to follow; reported large increases in membership in several districts, the character of the material being all that could be desired; spoke of the desirability of continuing the lodges of instruction, and closed by expressing the opinion that "Masonry is on the whole in a satisfactory and flourishing condition throughout the jurisdiction, and that Masonry has a strong hold on the respect of the young people who are growing up to manhood."

The rank of Honorary Past Grand Mason was unanimously conferred upon the Duke of Connaught, the Grand Master of English Masons, on motion of R. W. Bro. Bennett, of Toronto, who read a brief report of his reception in London at the Duke's installation as grand master.

Three out of four of the notices of motion given by Bro. Burritt were passed without opposition, and the fifth held over for consideration tomorrow.

After some further routine business, Grand Lodge adjourned until tomorrow afternoon, when the election of officers will take place.

NOTES.

At the regular session of the board of general purposes this forenoon some important matters were dealt with, notably a lengthy report by R. W. Bro. Burritt, of Pembroke, on grievances and appeals, which will be printed in annual proceedings.

A cordial vote of thanks was tendered the Grand Lodge of Michigan for the generous hospitality extended to the board in giving them a very delightful boat excursion to the St. Clair Flats.

R. W. Bro. R. L. Gunn, of Hamilton, presented a supplementary report from the committee on benevolence, giving the amounts granted by private lodges and boards of relief, as shown in yesterday's issue.

A second report from the committee on constitution and laws was read by M. W. Bro. Walkem, of Kingston, in connection with the request of Moira Lodge, Belleville, to be permitted the use of gold jewels and gold lace on their aprons in view of the fact that this year they will celebrate the centennial of the lodge. The committee decided that Grand Lodge has not the power to grant the application.

The Acting Grand Master mentioned his intention at next meeting of Grand Lodge to bring before the brethren his scheme for helping brethren who are incapacitated through illness by means of voluntary subscription or taxing members. He asked the members to assist him by suggestions during the interim.

The board then adjourned.

The Windsor brethren entertained the delegates and ladies and friends to an excursion on the river. The attention and hospitality of the local craftsmen is all that could be desired. The city is full of Masons.

Village Work in India.

Mission literature is of rapidly increasing volume, and of great value in the increase of information it is affording of the lives of foreign peoples. From a patriotic standpoint, as well as from the Christian, it is of importance that we should learn all that is possible of the inhabitants of India. The Fleming H. Revell Company have issued lately a book by Norman Russell, a missionary who has labored for some years under the Presbyterian Church of Canada in Central India. "Village Work in India," may be divided fairly enough into two parts, one of which gives the experiences of the author in pursuing his appointed work in the villages of that strange land, and the other is a plea in favor of evangelistic work among the natives. The difficulties in the way of Christianizing the people are many, and as occasionally stated would seem insurmountable, but on the other hand, instances are given which would indicate that notwithstanding all the barriers of caste, idolatry and poverty, those to whom the Christian missionary speaks are open to the sweet influences of the story of Jesus Christ and his love for men. It is the same India with which so many of Rudyard Kipling's stories deal, but from a different standpoint, and while there is nothing of Kipling's genius flashing from these pages, yet the very simplicity of the tale has its own fascination, and the book is full of interest, especially to all who seek to keep in touch with the progress of the Christian Church in foreign lands. It is fairly well illustrated and sells at $1.

Wise Ways of Women.

No "prizes" offered with common soaps will long tempt the wise woman to use common soaps. The wise woman soon sees she has to pay dearly for "prizes" in the low quality of soap, in the damage common soaps do her clothes and her hands. The wise woman considers her health—so soon ruined if she were to continue breathing the steam of adulterated common soaps. The wise woman recognizes the difference between such soaps and Sunlight Soap—Octagon Bar. 212

TRADE RETURNS OF THE DOMINION

Fiscal Year's Figures Likely to Exceed $400,000,000.

THE INCREASE FOR 11 MONTHS

Record of the Best Year Under Conservative Regime Will Doubtless Be Surpassed.

Ottawa, July 17.—The trade returns of Canada for the fiscal year ending June 30 have not yet been compiled, but when the compilation is completed our aggregate foreign trade will probably be found to have reached $400,000,000, and perhaps an even larger amount.

For the eleven months ending May 31 our total foreign trade reached $374,870,650, or only some $12,000,000 behind the twelve months of 1901. For the month of May itself the aggregate was $35,121,375.

INTERESTING COMPARISON.

Assuming that for June the volume of imports and exports will be equally as large as in the former month, the total for the fiscal year just closed would be $409,592,025, as compared with $386,903,157 for the previous twelve months, and $247,638,620 for 1893, which latter was the best year under the Conservative regime.

The details of the past year's trade are not yet obtainable, but the statistics for the eleven months compare most favorably with the figures for the preceding year.

For example, the value of goods imported for home consumption from Great Britain during the eleven months ending May was $43,979,840, as against $42,819,995 for the whole of 1901. The value of the same imports from the British Empire was $48,100,049, or $1,447,160 more than during the whole of the preceding year.

In the case of exports the showing is even better if Canadian produce only is considered. Thus, while the exports of domestic produce to Great Britain in 1901 amounted to $92,857,525, during the eleven months of the past year they totalled $97,904,475, or a betterment of $5,046,950.

If the exports for June prove to be as large as in May this excess for the year on exports to Britain will reach $11,000,000. Up to May 31 the exports of domestic produce only to the British Empire amounted to $108,292,435, or $7,544,338 more than for the whole of and foreign produce together aggregate $114,965,305, an increase of $1,085,248 in favor of the past eleven months, compared with the previous year.

TRADE WITH BRITAIN.

Our aggregate trade with Great Britain for the eleven months, on the basis of imports for home consumption and exports, was $148,388,006, an excess of $229,000 over the previous twelve months.

Our total trade with Australia up to May 31 was $2,480,607, of which $2,344,289 were exports. For the whole of 1901 our trade with Australasia amounted to $2,737,872, of which $2,311,405 was export. In the latter period all the Australasian colonies are included.

From British Africa we in 1901 imported $90,687 worth of goods for consumption, and exported $1,086,965 worth. During the eleven months of the last fiscal year we imported $15,808 worth, all free goods, and exported produce to the value of $3,548,513.

WITH THE UNITED STATES.

From the United States during the eleven months' period our imports for consumption were $107,572,987, of which $54,041,713 were free goods. Our exports totalled $61,165,327, of which $56,953,105 was domestic produce. For the twelve months of 1901 our total imports for consumption from the United States were $107,149,325, of which a little less than one-half were free goods. Our exports to the United States during the same period totalled $70,406,841, all but two and a half millions being domestic produce.

WITH GERMANY.

From Germany our imports for consumption during the eleven months were $9,485,042, and during the previous year $7,020,100, showing an increase of $2,464,942. Our exports for the same periods were $2,400,000 and $2,141,552, or an apparent gain of $258,449 in favor of the eleven months of 1902. The increase was really in foreign produce sent from Canada, as the exports of domestic goods show a decline of $175,917.

Our imports for consumption from France reached a value of$6,048,329 during the eleven months referred to, and our exports to $1,244,699. In 1901 our imports were $5,397,793, and our exports $1,581,351.

When the French General, Bourbaki, retreated into Switzerland before the Germans in 1871 he sold 10,000 horses to the Swiss. All these horses are dead but one, owned by a butcher at Berne.

GIVES INSTANT VIGOR

Weak Men Can Have It Free By Sending Name and Address---Imparts Strength and Vigor for Life.

YOU WILL BE DELIGHTED THE FIRST DAY.

"Feels So Good to be My Old Self Again."

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicocele, etc., and enlarge small, weak organs to full size and vigor. Simply send your name and address to Dr. Knapp Medical Co., 2,063 Hull building, Detroit, Mich., and they will gladly send the free recipe, with full directions, so any man may easily cure himself at home.

If you are not troubled with sexual weakness don't write. But if you are weak, have shrunken organs or night losses, write at once, as the remedy will give instant relief. You will feel stronger and vigorous from the very start. This is certainly a most generous offer, and the following, taken from their daily mail, shows what men think of their generosity:

"Dear Sirs,—The results could not have been better. I noticed a warm feeling, as of returning life, an exquisite experience of renewed power, the first day I used your treatment, and I cannot withhold an expression of gratitude to you for having thus led me to the way of restoration, strength and vigor. Everything looks brighter; life offers more than I ever supposed it would and nothing can be of more service to a weakened man than your priceless recipe."

That the slave trade is still being carried on at Muscat was shown recently, when Portugese gunboats captured slave dhows and set free 700 slaves.

Deaf as a Door Nail.

Not an uncommon expression, but quite true of many people whose hearing can be perfectly restored by inhaling Catarrhozone. It quickly relieves and cures all kinds of catarrh, catarrhal deafness, and diseases of the respiratory organs. Don't give up hope till you have tested Catarrhozone. It has restored lost hearing to thousands, and can do the same for you. Catarrhozone is a vegetable antiseptic, pleasant and convenient to use, absolutely certain to quickly benefit and ultimately cure. Two months' treatment, $1. Small size, 25c, at druggists or by mail from N. C. Polson & Co., Kingston, Ont.

On the Pacific coast are found numerous little shells or sea snails of a species called the "olivella," because of their resemblance to olives, out of which the Indians used to cut disks that were extensively used for coins.

Many steampipe expansions are due to water hammer action. A plug of water only six inches long propelled only two feet under a pressure of 15 pounds can exert a pressure of 6,400 pounds on being suddenly stopped.

It Cures Corns Quickly.

Putnam's Corn Extractor is warranted to cure Corns without pain in a few hours. Give "Putnam's" a trial and you will be satisfied. It is sure, safe and painless.

The 10-wheel engine which was tenaciously adhered to for freight service for the last half of the nineteenth century, first made its appearance in 1846, having been brought out by Septimus Norris and John Branch.

Got Lame Back?

No need of that now. That sort of pain can be knocked out in short order, for Polson's Nerviline, which is five times stronger than any other, penetrates at once through the tissues, reaches the source of suffering, drives it out, and thus gives relief almost instantly. Not magic, but strength that gives Polson's Nerviline this power. You will think it magic, however, if you try it, pain goes so quickly. Sold by dealers everywhere, in large 25 cent bottles.

A BOY'S SUCCESS

It is chiefly a matter of education. A course in Manual Training together with Collegiate or business studies is the practical preparation for manhood given at this domestic department of McMaster University. Moral influences are of the best.
