The Archbishop of Dublin is dead.

LONDON, June 14—The *Times* in an editorial says the United States also made concessions. It is unprecedented that such grave differences should be settled without resorting to arms. The demand for damages for injury to American commerce is arbitrable. It hopes Europe will rise to a higher conception of international fellowship.

The *Telegraph* says that Earl de Gray is created Marquis of Ripon in consequence of his distinguished services connected with the treaty.

The *Standard* says twenty-four men were executed yesterday at the Bois de Boulogne.

LONDON June 16—In the House of Commons this evening Gladstone, in reply to a question, said the Sixth Article of the Treaty of Washington prohibits the use of neutral ports for the renewal or augmentation of supplies to belligerents only when they are intended for use against other belligerents and not when exported in the ordinary way of commerce. He said such was the understanding on the part of President Grant and Schenck. It was understood, however, that on presentation of the rule for acceptance by other powers, the statement on this point should be clear. Gladstone stated that he had received the assent of the United States Government to his proposal to submit these principles of the treaty to European Powers for their acceptance. He believed the prospective advantages to England would be immense, and concluded by praising the tone of the United States throughout the negotiations.

In the House of Lords to-day Russell, in moving an address to the Crown against the ratification of the Treaty of Washington unless the arbitrators were bound only by international and British laws at the time of the American war, argued that otherwise England might apply one rule and allow America another, and the arbitrators still another. Ratifications of the treaty might be demanded to secure peace, but it was a dangerous precedent and an unwise neglect of duty by England to her American Colonies when the fishing interests were sacrificed, for the treaty was a one-sided one as regarded the fisheries.

Granville said he accepted discussion, but he did not accept Russell's motion; and explained the circumstances attending the negotiation of the treaty, and declared its terms honorable and advantageous to Canada.

Earl Derby, Earl de Gray, Lord Cairnes, the Lord Chancellor and the Duke of Argyle defended the treaty and the conduct of the negotiators.

Lord Russell withdrew his motion.

VERSAILLES, June 13—Trochu made a long speech before the Assembly in justification of his administration of affairs. He said he wrote to Napoleon in August, urging the recall of Bazaine's army to Paris. Trochu assisted at the Conference of Chislons when it was declared that he and the Government of Paris should prepare for the return of Napoleon to the capital. This was opposed by the Empress. WASHINGTON, June 12—A report was telegraphed from this city last week that notwithstanding the fact that numerous officers of the Treasury Department and others have been sent to Europe on business connected with the new loan, and great efforts have been made to sell the new bonds in Continental markets, and that not a dollar's worth of them had been sold, would naturally lead many to suppose that loan will has met with more difficulty in that direction than was anticipated, and that if the public debt is funded at all it must be done at home. The fact is some of the new bonds have been sold abroad, a few millions; but the amount is so small that no general report of it has been made. The Secretary, however, is not at all discouraged and still expects to dispose of a large portion of the loan in Europe.

NEW YORK, June 11—A Washington special says the causes which led to the estrangement between Mr Catacazy, Russian Minister, and Secretary Fish, had their origin in a letter written by the Minister to his Government touching certain diplomatic matters.

NEW YORK, June 11—A Washington special says the causes which led to the estrangement between Mr Catacazy, Russian Minister, and Secretary Fish, had their origin in a letter written by the Russian Minister to his Government touching the celebrated Perkins claim in which the Secretary of State was alluded to in the most insulting manner. This letter found its way into the State Department and into the hands of President Grant and when Catacazy's attention was called to it he pronounced it a forgery, but subsequently stated that he had written a paper similar to the one on file in the State Department, which had been abstracted from his desk and had not been forwarded by him to the Russian Government.

Secretary Seward and party arrived at Suez by the steamer from Bombay on May 9th, and proceeded on a special train to Cairo, where they became the guests of the Khedive. Mr Seward was presented to the Khedive on the day after his arrival and was received with royal honors, the Viceroy returning his visit in person. The Secretary and party were to take a three weeks' trip to ruins of the Bes and other points of interest up the Nile in a special train and a private yacht furnished by the Khedive, after which they will visit Alexandria, proceeding thence by way of Jerusalem to Constantinople. The Sultan has issued a firman to the Pachas to receive Seward as the guest of the nation.

All the necessary arrangements are made for the President's visit to the Pacific Coast. He will leave Long Branch about the middle of August, accompanied by Senator Nye, of Nevada, and ex-Senator Williams, of Oregon. He will visit Salt Lake and from there will go to Nevada and San Francisco. At the latter place he will take ship and proceed to Portland, Oregon. The trip may possibly be extended to the Sandwich Islands.

China and Japan.

SAN FRANCISCO, June 12—Arrived—Steamer China, from Japan and China with 5000 pkgs tea, 25 pkgs hemp, 1111 pkgs rice, 4521 pkgs sundries and 536 pkgs sugar for San Francisco and a considerable amount of freight for the East and Europe, also 25 white and 15 Japanese passengers for New York, overland, and 27 white and 3 Japanese for Europe. The captain of the China reports that on May 23d, at 4.25 p.m., he sighted a large Japanese junk under jury rig and not steering. He immediately bore up for her and at 5:15 p.m., lat 34° 54' W., lon. 143° 42' E., the junk was about a ship's length to the leeward. After continual blasts of the steam whistle they at last discovered people on board, and seeing the waving of hands from the cabin window a boat was immediately sent in charge of the First Officer, Mr Howard. The sea being very rough and the junk rolling heavily he could not board her but succeeded in rescuing five Japanese from the cabin window. They reported the junk from Hioga, February 15th, for Yokahama, but having experienced terrible gales were driven of the coast, dismasted, the rudder carried away and the junk driven out to sea. Eleven of the crew had died from starvation and the remainder had lived on small fish speared from the side of the junk, but for the last few days were too weak for that exertion. On May 29th one of the five died and the remaining four were brought on to this port. On May 12 the ship Otago, Capt Thoradike, left Hong Kong for San Francisco with 350 Chinese passengers. The Japan says that on June 9th at 9 a. m, in lat 37° 50' N., lon. 141° 50' W., she was boarded by the ship David Murray, 163 days out from New York for San Francisco—All well.

Private advices from China by the steamer to-day say that great uneasiness is felt at Pekin, and it was thought that there was danger of an outbreak against foreigners and that the foreign policy of the government was too strong for the Imperial authorities to suppress. It is not immediate but there is hardly a doubt of its coming ultimately.

On the 8th of May the Colorado, Mongura and Palos left Woosung for Nagaski, there to join the Benicia and Alaska, and the whole of the fleet then to sail for Corea to exact an indemnity for the murder of the crew of the wrecked ship Gen Sherman, and secure a treaty for the future protection of American seamen.

The details of the burning at sea of the Coolie ship Don Juan and the roasting of 500 Chinamen in her hold, came by this steamer. This was an American steamship sent here from the East since and sold in our harbor to the Company Martinez Del Peru and then transferred to the Peruvian flag and reclustered the Dolores Legarte, under which name she repeatedly returned to San Francisco and refitted and received supplies. Last year she lost nearly a whole cargo of Coolies by fever breaking out among them, and landed the remainder at Honolulu in almost a dying condition.

A GREAT MEDICAL DISCOVERY
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.
WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison, or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
