CANADIAN AFFAIRS.

Last week we called the attention of our subscribers and the public at large to the expediency of calling a public meeting of our citizens, for the purpose of expressing the opinion of this community on the atrocious conduct of the Canadian Legislature and Governor General, in passing an act for compensating the losses of *Traitors and Rebels*, in insurrection against their Sovereign and Government. A week has passed away, and although we are well assured that there is a perfect unanimity of feeling in our community on this exciting subject, yet nothing has been done towards a manifestation of public opinion. Our little metropolis, *Fredericton*, in the meantime has stolen a march upon us in this matter; and has not only held a public meeting, but has boldly and unequivocally expressed its ideas on this topic. We publish below the Resolutions passed at that meeting, and being convinced that our citizens will cordially respond to the sentiments thereby enunciated, we earnestly hope that *immediate* steps will be taken to follow the patriotic example. It is no diversity of opinion nor luke-warmness of feeling among us that has so long delayed this measure; it is merely a want of *individual energy* in taking the *initiative*; and we hope, therefore, that some of our active and influential citizens will instantly commence the movement.

PUBLIC MEETING AT FREDERICTON.

At a large and respectable Public Meeting of the inhabitants of the City of Fredericton, and the County of York, held in the County Court House on Saturday the 12th of May, A. D., 1849, agreeably to public notice previously given, to take into consideration matters connected with the late lamentable outrages in the City of Montreal, and the causes which led to them; it was moved and carried unanimously that John C. Allen, Esq., be called to the Chair, and that E. A. Clowes, Esq., be requested to act as Secretary. The following Resolutions were then passed:

Whereas, the persons who compose this Meeting have lately heard of serious differences which at present exist in Canada, as also of the causes which appear to have led to them, and deeming it at this crisis most desirable that the Imperial Government, and their fellow subjects in the different colonies and elsewhere, be early apprised of the feelings and sentiments entertained in the Province of New-Brunswick on this subject, therefore

1. "*Resolved*, That this meeting sincerely regret the excited and dangerous state of the public mind in Canada, and deplores the irreparable loss of the public property which has recently happened in that colony."

2. "*Resolved*, That while this meeting condemns in unqualified terms the indignities lately offered to the Representative of the Sovereign, the serious infractions of the public peace, and the reckless destruction of public and private property, yet the members of this meeting would consider themselves unworthy the name of freemen and of Britons, could they overlook the unexampled and unbearable causes which have provoked those evils."

3. "*Resolved*, That the sacrifice, contemplated by an Indemnity Bill of the monies of the loyal people of Canada, to remunerate Rebels for property lost by them while in open war against the Government of the country, and as a reward for the destruction of the lives and property of their fellow subjects, together with the Governor General's unqualified assent to, and recommendation of an act so unusual and extraordinary, in disregard of the Royal Instructions, and of numerous Petitions, appear to this meeting the principal causes which have led to the recent outrages in Montreal."

4. "*Resolved*, That the rewarding of individuals for destroying the property, and for the bloodshed and murder of their fellow subjects, and requiring the loyal part of the inhabitants to contribute to such a purpose, are, in the opinion of this meeting, acts without a parallel in the history of civilized nations, and destructive of every feeling of loyalty towards the authority which would sanction them."

5. "*Resolved*, That the assenting to an act of the unusual and extraordinary nature referred to without a suspending clause, was, in the opinion of this meeting, a clear breach of the Colonial Constitution, and for which there is no apparent justification or excuse."

6. "*Resolved*, That this meeting declares its unabated loyalty to the Queen, and its strong desire for the preservation of British Laws and Institutions in these colonies."

7. "*Resolved*, That an humble address be prepared and forwarded to Her Majesty the Queen, together with a copy of these Resolutions, praying that she will, in the exercise of her Royal Prerogative, withhold her sanction to the aforesaid Canadian Indemnity Bill, and that a Committee of three persons be appointed to prepare the said address.

"*And further Resolved*, That John C. Allen, Esq., David S. Kerr, Esq., and Mr. Thomas Hill, be a Committee to prepare the address."

8. "*Resolved*, That the respective Publishers of Newspapers in this Province, and elsewhere, be requested to insert the foregoing Resolutions."

The Chairman having then left the Chair, and Charles A. Harding, Esq., having been called thereto, votes of thanks were passed to the Chairman and Secretary for their services. Great unanimity of feeling existed throughout, and the meeting broke up with three cheers for the Queen.

(Signed.) J. C. ALLEN, Chairman.
E. A. CLOWES, Secretary.

BY TELEGRAPH.

TERRIBLE RIOT IN NEW YORK.

Twenty Thousand Rioters—The Military called out—Twenty or Thirty Killed or Wounded.

NEW YORK, May 11, 12, M.—A terrible riot occurred last night at the Opera House, on the re-appearance of Mr. Macready.—The Police took possession of the house at an early hour, a disturbance being anticipated. The mob collected in great numbers outside; it is calculated that 20,000 spectators were assembled.—The mob attempted to break down the doors and windows of the Opera House. The Police at first ejected water upon them, but without arresting their riotous proceedings.—A company of horsemen were soon upon the spot; but were driven back, with stones, by the mob.—Companies of infantry arrived and were received with stones and other missiles.—A portion of the Regiment under Colonel Durgea, with a portion of the Light Artillery, were on the field.—The Recorder read the Riot Act.—The mob, however, continued to pelt the soldiers, and several were badly wounded and carried off.—Orders were given to fire.—Most of the guns were loaded with blank cartridges, but there were some balls.—One or two were killed and several wounded.—The rioters not dispersing, the second, third, and fourth rounds were fired, with balls, by which some *ten* or *fifteen* persons were either killed or fell mortally wounded; and besides these, *twenty* or *thirty* others were slightly wounded.—Several citizens who were spectators were unfortunately either killed or wounded; some of them at a considerable distance from the scene of action.

Among the killed were one or two women and others were wounded, one a colored woman.—The Theatre was on fire several times; but was put out.—Among the rioters arrested was *Ned Bantling*.—The military kept possession of the field all night. This morning they have been engaged in throwing up entrenchments around the theatre.—The city is greatly excited throughout.

NEW YORK, Saturday Evening.

FURTHER PARTICULARS OF RIOT.—Among those wounded in the New York, riot is George N. Kay, aged 28 years, a merchant of New Brunswick. *He was wounded in the right lung.*

Among the killed, also was Thomas Aylewood, aged 19, born in Halifax, a clerk. He was shot in the thigh, and died after amputation of the limb.

The Military were under arms all last night, in expectation that an attempt would be made to burn the Theatre. This morning everything was quiet.

The whole number killed in the riot was 25, and from 30 to 40 wounded.

[Mr. George N. Kay, (wounded in the above riot) was formerly of West Isles, in this Province, and who for some time past has been doing business at Charlottetown, Prince Edward Island.]

FURTHER FROM THE UNITED STATES

The steamer *Maid of Erin* arrived on Wednesday, bringing us New York papers of Saturday, and Boston on Monday last.

The excitement consequent upon the late riot continued. Sixty arrests have been made. The New York Express of Saturday, says:—

We understand that a strong body of troops are ordered out on duty to-night.

It is stated that a large body of Killers, from Philadelphia, came on in this afternoon's train, for what purpose it is difficult to divine.

The Inquest upon the dead bodies is now going on, and a good deal of excitement prevails in the Hall of the Court of Sessions. The crowd outside is very great.

A variety of startling rumors are in circulation—to none of which we attach the least credit.—One, that the rioters have secretly organized for a rising about 12 o'clock to-night.

Come what may, we repeat our full confidence in the ability of our city authorities to meet any exigency that may occur.

IMPORTANT FROM CANADA

A despatch from Montreal dated May 15, states that an exciting debate took place last evening in the House of Assembly, on the question of adopting an Address in relation to the Rebellion losses. Colonel Gugy stated that if the Queen gave her assent to the Bill, it would absolve every British inhabitant from his Oath of Allegiance. Solicitor General Blake, in replying, called on the Speaker of the House to mark the words of the members on the Tory side. He did not mention names, but there were some who might be obliged to answer to their names in the criminal calendar, for having transmitted intelligence by Telegraph, as to how many thousand men could be brought from different parts of Upper Canada. He characterized the conduct of the Tory royalists as unconstitutional, in policy, they were tyrannical in office, and traitorous rebels when out. Bitter recriminations followed.

CONOURG, (U. C.) 30th April.—The last news from Montreal has caused the greatest excitement and indignation, and our imbecile Governor General, together with Hincks and Lafontaine, are to be hanged and burnt in effigy, on Wednesday.—It has been suggested to place them on a donkey, and thence proceed, in procession, to the place of execution; but, in my opinion, to associate such individuals with so useful and so intelligent a quadruped, is too honorable a distinction, and a violation of the principle of equality.

The whole country is aroused, and my Lord Elgin will find that it is not his present advisers that can quiet the storm of indignation that has spread abroad.

E. H. Hammond, late Postmaster at Sheboygan, Wisconsin, has started for California in a boat wagon of his own construction. The box of the wagon is a boat on steel springs, the whole of which is covered with oilcloth, making a very comfortable house. The establishment is so arranged that on reaching a river the running gears of the waggon can be unshipped in a few minutes, and taken aboard the boat while crossing the stream.

FORGERY AT TROY.—A clerk in the Bank of Troy, named Bradley, has been arrested on the charge of forging the name of the Cashier to a draft for $6800. He is only sventeen years of age, and has overran his account very largely by the purchase of lottery tickets to the amount of $2200, and by other extravagances. His father, who is a retired merchant, became bail for his son, took him home, and locked him up.

THE GOLD DOLLAR.—Five thousand of these bright little coins, fresh from the Mint, were received at the Sub-Treasury to-day, and about $2,000 were put in circulation in the course of the forenoon.

LONG ISLAND RAILROAD.—The earnings of the Long Island Railroad for the month of April, 1849, were $12,615, against $11,271 for the same period last year, showing an increase of $1,344, equal to 12 per cent.

STONINGTON RAILROAD.—The earnings of the Stonington Railroad for the months of March and April, 1849, were $31,666 36 against $28,585 37 for the same months last year, showing an increase of $6,070 99, or 21 per cent advance.

The Seventeen Year Locusts, which are to appear this year in the Western part of Pennsylvania, have been turned up with the plough in Beaver co., by the hundred. The hogs eat them with avidity.

The Ohio papers speak very favourably of the fruit and wheat crops of the coming season.—The late frost has not affected either, and the product of the latter promises to be very large. The same report, with regard to grain and fruit, is given at Rochester, N. Y., where the late rains have materially improved the prospect of the wheat harvest.

LATER FROM THE FRONTIER.—The St. Louis Reveille of the 29th ult. has later dates from Council Bluffs, Fort Kearny, St. Josephs and Independence. Vast numbers of Mormons were preparing for an early start for Salt Lake. Provisions were abundant and cheap at the Bluffs, though scarce and dear at Fort Kearny; the grazing for animals, however, was excellent. At St. Josephs, there were 1200 or 1300 California emigrants. One case of small pox had appeared among them. Some were getting sick of the enterprize and were selling out, being about to return home. Mules and cattle were abundant—the market was glutted. At Independence there were some 4000 emigrants encamped—all well.—*Boston Evening Traveller.*

FROM THE ISTHMUS.—By the arrival of the brig Pedrazo, from Charges the 19th of April, the New Orleans Bulletin of the 2d inst. has later dates from the Isthmus. Capt. Terry reports the American whaler Nantic, the English brig Two Brothers, a Peravian brig, two Chili brigs and four Chili schooners at Panama, about to sail for San Francisco. A large brig and a topsail schooner were also in sight coming into Panama as Capt. T. left. The price of passage was from $180 to $200. It was thought the supply of vessels at Panama would soon be sufficient to take off all the California emigrants now waiting on the Isthmus, who have funds sufficient to pay their passage, and at low rates. Two large whale ships, the steamer California, and a British steamer, were also hourly expected at Panama.

Capt. Terry furnishes the following extract from his log-book, of his passage across the Isthmus from Panama to Chagres.

"At 2, P. M., April 13th, fell in with the American boat Panama Express, Ryan, master, with a crew of 35 New Hampshire men, two days out from Gorgona, bound to Panama. He wished to be reported with all his crew. It was a curious sight, that of a boat in the mountains, 7 miles from the nearest water, manned by a crew of thirty-five Americans, cutting down trees and pulling their boat (of nine tons burthen) over hill and dale. She calculated to arrive at Panama in six days."

WISTAR'S BALSAM OF WILD CHERRY.

What time establishes and consecrates, what experience adopts and confirms, what all men in all places unite in saying is good and valuable, is so, no doubt. A popularity of this sort fixes in society its roots so deep and so strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable men, and the articles has taken a stand among the first class of discoveries and blessings of the age; and when resorted to in season, eradicates the disease for which it is recommended.

[From the Boston Post.]

Dr. S. W. Fowle, 138 Washington Street has an article entitled as above, which we believe is the best preparation hitherto discovered for the cure of colds and other consumptive complaints.—Having tested this medicine, we can speak with confidence as to its salutary effects in removing colds and other complaints incident to this season of the year.
