THEY ARE GUILTY.

So Says the Jury of Griffin and Hawkesworth.

"Guilty" was the verdict brought in by the jury in the Queen v. Griffin and Hawkesworth, charged with false pretences and conspiring to defraud Shadrach and Druscilla Fawkes out of valuable securities and real estate amounting to $40,000.

Hawkesworth was defended by E. E. A. DuVernet and W. R. Smythe appeared for Griffin. Mr. Smythe was granted a reserved case, on account of a clause in the alleged agreement between Fawkes and defendants, which provides that Fawkes was to make his own enquiries about securities. A reserved case was also applied for on Deacon's evidence. Judge McDougall will hear the argument this morning and will sentence the prisoners.

East of the City Limits.

A horse attached to a delivery wagon belonging to F. Marshall, grocer, of East Toronto, was badly injured by stepping into a hole on the Kingston-road near the Rolling House on Wednesday evening. As the horse went down the rig fell on top, and one of the shafts breaking entered the animal's flank to the depth of nearly six inches. The matter will probably end in a suit against the county for damages.

The I.O.O.F. of East Toronto parade to Norway Church on Sunday next.

Among the successful candidates at the recent University examinations, was H. Carnahan, brother of the well-known East Toronto druggist, and the degree secured Ph. M.D.

Business Embarrassments.

Sydenham Thompson, boots and shoes, King-street east, has assigned to H. Barber & Co. Mr. Thompson's father assigned to W. A. Campbell some time ago, and the present trouble arises out of that assignment. He purchased his father's estate, but the creditors who held a mortgage on the property did not acquiesce in the sale and applied to the court for an injunction to prevent Mr. Thompson from buying the property. Rather than fight the case Mr. Thompson assigned. The estate is valued at about $10,000.

Fraser, Menzie & Co., clothing, Ottawa, are offering to compromise at 30c on the dollar.

Three People Burned to Death.

Whiting, Ind., June 11.—Three persons were burned to death here yesterday. The dead are: Mrs. Annie Homan, aged 28; Miss Mamie Homan, John C. Homan. The fire originated in the saloon of Joseph Pulasky and destroyed the saloon and two adjoining houses. Loss $12,000.

Another Change on the Grand Trunk.

Upon the completion of the works in connection with the new Union Station Mr. Edmund Wragge, who has held the office of local manager in Toronto since 1883, is to retire. The office of local manager will not be filled by the management.

Both Sides Confident.

The fight in East Toronto waxes pretty hot, and both sides seem confident. A member of Mr. Robertson's executive said yesterday that the anti-Remedial candidate would have 1000 majority at least, and a gentleman who has a seat on the Central Liberal-Conservative Executive is advising

DISASTER FORESHADOWED

A Well-Known Civil Engineer of New York Talks About the United States at Montreal.

Montreal, June 11.—(Special.)—The World correspondent had a very interesting conversation to-day with Mr. J. W. Balet, a well-known civil engineer of New York, who is here representing the capitalists desirous of building the proposed bridge between Montreal and the south shore near Longueuil. "There is abundance of capital just now," remarked Mr. Balet, who is a German by birth, "awaiting investment, and the present is a very favorable opportunity to launch legitimate enterprises."

"Is this American capital you refer to?" the correspondent asked.

"By no means," quickly replied the engineer. "Not a dollar of American, but, rather, foreign capital."

He then proceeded to say that the political situation in the United States was so uncertain that the capitalists of the world were looking elsewhere for a safe place of investment.

"But is not business reviving on your side of the line?" The World asked.

"The cause," Mr. Balet replied, "is in the fact that the Western view of a silver currency will prevail and money lenders fear the disaster that is sure to follow. You have noticed, no doubt, that Gov. McKinley has come out in favor of the silver standard, and you know what this means."

"Will not the Eastern Republicans oppose this and defeat his nomination?"

"No, I think he will get the nomination and will probably be elected."

"And then, what?" the New Yorker was asked.

"Well, the general belief is that one of the greatest financial disasters ever known to a people will fall upon the United States."

"Is there any possibility of such a state of affairs leading to the dissolution of the Republic?" A very grave look crossed the gentleman's face, and he replied:

"This is what we fear. The interests of the West are so different from those of the Eastern States, and already murmurings of discontent are heard. It is indeed very difficult to foretell the events of the next few years in the United States."

McIntyre & Wardwell send the following despatch to their branch office in Toronto: Adjournment of Congress is the bullish factor and supplemented the effect from St. Louis indicating that the financial plank of the platform will be satisfactory to sound money interests. Mr. J. P. Morgan, who has returned from Europe, was quoted as saying that European markets are waiting for the financial declaration at St. Louis and that a gold plank would bring a great deal of foreign money here. It was also reported that the Morgan interest supported the market. The outlook for gold shipments is that only a small amount will go on Saturday. The Northern Pacific for ten months to April 30 shows a gain of $2,000,000 in gross and $1,800,000 in net. It is now said that the coal roads will take no formal action about advancing prices, but that the initial steps will be taken by certain companies. President Cleveland has denied that he has a Cuban message in contemplation.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

The Government report out last night was a general surprise to most of the traders, giving the condition of winter wheat as 77.9, against 82.7 in May, and an acreage of 22,794,000 bushels, as against an acreage harvested last year of 22,040,322 acres. Spring wheat conditions 99.9, against 97.8 same time last year, and an acreage of 11,825,000, against 11,438,000 harvested last year, or a total increase of about 600,000 acres. State reports and private crop estimates led everyone to look for a much larger reduction in the conditions. The market opened weak and remained so all day. Northwest reported 449 cars, against 205 a year ago. Wet weather still continues throughout the wheat belt. The Cincinnati Price Current was out to-day and considered bullish. It says: Government estimate is regarded as high. Berlin wheat closes quiet, ½ mark higher. The local crowd are playing for an upturn. The cash demand is slack and there was little or nothing taking at seaboard for export. The largest buyers were commission houses. Philips sold large line early. Northwest sends reports that spring wheat crop is growing rank and has already begun to fall down in spots. The weeds have also grown luxuriantly, and at some points are more conspicuous than the wheat. Buying orders have been executed here to-day on these reports for the Northwest. Around present prices foreigners are good buyers, and we think from now on wheat will be a good purchase. The market had a very sharp advance on covering by shorts and quickly dropped back again, closing near last night's prices.

Corn and Oats—Nothing new in these cereals, and there was very little change in the prices. The market was dull, with no action in either direction. Exports are very light and there are good offerings from primary markets. Corn on spot is getting scarce and cash demand is improving.

Privisions opened weak on excessive receipts of hogs and lower wheat. On the break Cudahy came in a good buyer. The receipts of hogs continue large.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their branch office in Chicago:

Seldom if ever before in our experience have we known as unsettled and erratic a market as that of to-day. The early decline to 55⅝c was easily accounted for by the very bearish Government report issued yesterday and part of the rally which followed was also natural from the fact that liquidation showed itself to be almost over, but the sudden advance from 57c to 58⅝c was entirely unaccounted for, as was also the immediate break with scarcely any trading to 56¼c, as well as the subsequent rally to 57½c, at which the market closed. Fluctuations last week and also up to to-day of this week had been more than normal, but to-day caps the climax and we feel that opinions for the immediate future are simply wild guesswork and of no value.
